ACN 154 103 607

## APPENDIX 4E PRELIMINARY FINAL REPORT

For the year ended 30 June 2024

Results for announcement to the Market

Reported	30 June 2024 \$000's	30 June 2023 \$000's	Change \$000's	Change %
Revenue from ordinary activities	10,239	10,545	(306)	(2.9)
Loss from ordinary activities after tax attributable to members	(4,112)	(1,691)	(2,421)	(143.2)
Loss attributable to members	(4,112)	(1,691)	(2,421)	(143.2)
Dividends	Nil	Nil	Nil	n/a

### Dividends

No dividends have been declared or are payable for the year ended 30 June 2024.

### Net Tangible Asset Information

	30 June 2024 (cents)	30 June 2023 (cents)	Change %
<b>Net tangible assets per share*</b>	0.8	1.6	(51)

\*Derived by dividing the net assets less intangible assets attributable to equity holders of the Company by the total ordinary shares at 30 June 2024 (553,139,337) and 30 June 2023 (446,346,595) respectively.

Please note that throughout the financial year the company has increased its intangible assets by \$2.1m and increased its intangible liabilities (deferred revenue) by \$2.6m, both of which are subtracted in calculating the Net tangible assets.

## Commentary and results for the year

### Delivering on Strategy and Outperforming Expectations

XRG's achievements in FY24, particularly in validating and expanding the Operator XR software products, underscore a pivotal year of strategic execution and market penetration. The company not only met but also surpassed its strategic milestones, demonstrating effective growth management and the appeal of its innovative solutions in global markets. This success has set a strong precedent for continued growth and innovation throughout FY2025 and beyond.

### Enterprise Sector

Throughout FY2024, xReality Group Limited made substantial strides in expanding its customer base for the Operator XR platform. The year saw a marked increase in new customers, particularly in the U.S. and Australian markets.

The company is using 3 key indicators to track its success in the new sector; Total Contract Value (TCV), Annual Recurring Revenue (ARR) and total customers world-wide.

For FY2024 our TCV was \$4.1m, an increase of 193% on FY23 (FY23 \$1.4m). The ARR grew by 505% from \$365k to \$2.21m, and by the end of the financial year we had 29 customers around the world including Law Enforcement agencies, Military Units, Education and Training agencies and other government agencies.

### Key Markets Penetration

The two key markets of focus have been Australia and the United States. Sales efforts have been concentrated on these markets.

In the first half of the year, the company focused on expanding its U.S. operations. Initial market engagement involved trade shows and selective customer interactions, leading to the establishment of a permanent Sales team and Operations unit and securing its first law enforcement client in Colorado. This early foundation paved the way for an extremely successful second half of the year where the company added a further 24 customers in the US across law enforcement and training organisations.

The success in North America has also carried through to the Australian market, with a major contract awarded by a state government agency in late June with a TCV of \$810k (signed 3rd July). This State Government sale and a further Australian military sale valued at \$317k ended the financial year contributing significant ARR into FY25 and beyond.

### Other Global Opportunities

In parallel with the direct sales strategy in Australia and the US, Operator XR has now established a distributor network in S/E Asia and Europe through partnership agreements to market, deliver, and support Operator XR products and software into those regions. These arrangements are expected to commence to deliver sales in FY25.

### Product Development and Growth Investment

Throughout the financial year the company invested \$2.3m in developing the Operator XR products and IP, resulting in a world leading technology that has to date disrupted the legacy

systems currently on the market. This investment along with the lived experience of its military and law enforcement developers has culminated in a technology that meets the objectives of its end users, being a mobile, offline, virtual reality training and operational planning system.

The company invested an additional \$1.8m in setting up its operations and sales teams in Australia and the US.

To assist in funding the development and growth, the company conducted a rights issue in November to raise \$2.4m which was strongly supported. The company also increased its working capital debt facility by \$1m to help fund the growth strategy.

### Entertainment Sector

Positive Cashflow from XRG's existing Entertainment businesses played an important role in the expansion of the company. Both iFLY and FREAK Entertainment performed steadily in a soft retail market. The iFLY facilities in Western Sydney and Surfers Paradise provided \$1,636k cash receipts throughout the year with the FREAK Entertainment facilities located in NSW and QLD contributing a further \$254k in cash.

The iFLY facilities were both upgraded to a more efficient electrical system and iFLY Gold Coast was fitted with solar panels providing further savings on electricity for the future.

### 2024 Financial Performance

In FY2024 the company achieved a total income of \$10.24m, a marginal decrease of 2.9% vs FY2023. The majority of the revenue for the financial year has been realised through the Entertainment sector. The company achieved a further \$4.1m in total contract value through Operator XR, however the revenue from these sales will be recognised over a 36-month period as Annual Recurring Revenue. Given the timing of most of the Operator XR sales in FY24, only \$691k is included as recognised revenue this financial year. The remainder is reflected on the balance sheet as deferred revenue which has increased by 138% from \$1.89m to \$4.48m.

### FY2025 Outlook

The investment into Operator XR throughout FY24 has laid the foundations for an exciting year ahead. With a dynamic and motivated sales, operations and marketing team now established, over 29 current customers world-wide, and a product that is disrupting the global market in law enforcement and military simulation, the growth outlook is very promising.

The company has an ever-growing qualified pipeline of sales, currently at \$29m and has recently added some high profile end users in the US and Australia which reiterates the trust in our products and reinforces the market fit.

Although the company does not anticipate all of the current pipeline to manifest as new sales and revenue within the financial year, the financial outlook for FY25 is very encouraging.

### Closing Remarks

Our performance in FY24 is the result of our strategic focus on product innovation, customer service excellence, and geographic expansion. We are proud of our accomplishments this year and remain committed to building on this momentum.

We would like to extend our gratitude to our dedicated employees, our loyal customers, and our supportive shareholders. Your support underpins us in our drive to lead in the world of immersive experiences.

### Dividend reinvestment plan

xReality Group does not operate a dividends or distribution reinvestment plan.

### Control gained or lost over entities having a material effect

There were no transactions during the year ended 30 June 2024 having a material effect.

### Accounting standards

The financial information contained in this Appendix 4E has been prepared in accordance with Australian Accounting Standards

### Audit of the Financial Report

This report is based on the consolidated financial statements for the year ended 30 June 2024, which is currently being audited by Felsers, Chartered Accountants.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR YEAR ENDING 30 JUNE 2024

## NOTE 1: MATERIAL ACCOUNTING POLICY INFORMATION

### Basis of Preparation

The financial statements are general purpose financial statements that have been prepared in accordance with Australian Accounting Standards, Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board and the Corporations Act 2001. xReality Group Ltd is the Group's ultimate parent company. xReality Group Ltd is a public company listed on the Australian Stock Exchange and domiciled in Australia. The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

Australian Accounting Standards set out accounting policies that the Australian Accounting Standards Board has concluded would result in financial statements containing relevant and reliable information about transactions, events and conditions. Compliance with Australian Accounting Standards ensures that the financial statements and notes also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board. Material accounting policies adopted in the preparation of these financial statements are presented below and have been consistently applied unless stated otherwise.

Except for cash flow information, the financial statements have been prepared on an accruals basis and are based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

The Group has adopted the amendments to AASB 101 Presentation of Financial Statements which require only the disclosure of material accounting policy information rather than significant accounting policies and therefore policy information which does not satisfy one of the following requirements has been removed from these financial statements:

- Relates to a change in accounting policy
- Policy has been developed in the absence of an explicit accounting standard requirement
- Documents an accounting policy choice
- Relates to an area of significant judgement or estimation
- Relates to a complex transaction and is required to explain the treatment to the user.

### Basis of Accounting

The Group produced a loss for the year after tax of \$4,111,740 (2023: loss of \$1,690,511). The Group has a net deficiency in current assets of \$1,772,913 (2023: \$4,087,618). Included within this net deficiency are deferred revenues of \$2,525,045. In total, there are \$4,484,602 of deferred revenues (current and non-current) that will be realised as revenue once the service is recognised as being delivered to the customer.

A cash flow forecast for the next 12 months prepared by management has indicated that the consolidated entity will have sufficient cash assets to be able to meet its debts as and when they fall due. The directors are satisfied that the consolidated entity is able to meet its working capital liabilities through the normal cyclical nature of receipts and payments.

As a result, the financial report has been prepared on a going concern basis.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

## Critical Accounting Estimates and Judgements

### *i. Useful lives, Residual Values and Classification of Property, Plant and Equipment*

There is a degree of judgement required in estimating the residual values and useful lives of the Property, Plant and Equipment. There is also a degree of judgement required in terms of the classification of such Property, Plant and Equipment. The Group's main assets at present comprise the Vertical Wind Tunnel (VWT) Equipment and its related Building Infrastructure. The construction of these assets are typically foreseen in the lease agreements, however the Board has exercised their judgement in determining that the nature of these assets are that of buildings and equipment, rather than leasehold improvements. To this extent, the Board has confirmed the useful life of the Buildings to be 40 years and VWT equipment to be 20 years and the residual values of both these classes of assets to be nil.

### *ii. Useful lives, Residual Values and Classification of Intellectual Property*

There is also a degree of judgement required in the creation and estimating the useful lives of the software releases for the respective Operator projects. These intangible assets are being created based on the products to be sold to the market, and then depreciated based on the estimated life of the products. The costs incurred in development of the products is aggregated into that product. The Board has made the judgement that the products developed have a reasonable economic life estimate of 10 years.

### *iii. Gift Card Revenue*

Gift card revenue from the sale of gift cards is recognised when the card is redeemed for the purchase of flight time (Flight Revenue), or when the gift card is no longer expected to be redeemed (Gift Card Revenue). At 30 June 2024, \$453,371 of Gift Card Revenue is recognised (2023: \$199,998). The key assumption in measuring the liability for gift cards and vouchers is the expected redemption rates by customers with a portion recognised upfront, which are reviewed based on historical information. Any reassessment of expected redemption rates in a particular period impacts the revenue recognised from expiry of gift cards and vouchers (either increasing or decreasing). Any foreseeable change in the estimate is unlikely to have a material impact on the financial statements.

### *iii. Site Restoration*

Provisions for site restoration obligations are recognised when the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation and the amount has been reliably estimated.

In the current year, the Group has recognised a provision for site restoration for its two tunnels. To this extent, an estimate of the costs to remove the VWT's and its related Building Infrastructure has been determined based on current costs using existing technology at current prices. Management used the services of an expert and determined the cost to restore the sites. These costs were projected forward at a 3.6% inflationary escalation per annum, and then discounted back at 9.17% (2023: 7.94%), which is a change in estimate from the prior year, after consideration of the associated risks. The discount rate has been amended to reflect the time value of money and risks specific to the operation of the tunnels. The site restoration asset is depreciated over the remainder of each extended lease period being 40 years in the case of each of iFLY Downunder (Penrith) and iFLY Gold Coast. The unwinding of the effect of discounting on the site restoration provision is included within finance costs in the statement of comprehensive income.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

## NOTE 4: SEGMENT INFORMATION

### General Information

#### Identification of reportable segments

The Group's operations are primarily involved in two market segments, being the provision of simulated experiences through indoor skydiving facilities and virtual reality centres, and the provision of virtual reality solutions to enterprises. These are known as Entertainment and Enterprise respectively. While there are synergies between the two operating segments, the Company views them as two autonomous operational segments.

As well as these two operational segments, the Company also reports on the Corporate segment, being the overall management and centralised services supporting the operating segments.

#### Types of Products and Services by Segment

(i) Entertainment

This segment is comprised of the indoor skydiving operations run under the iFLY brand, and the virtual reality operations run under the FREAK brand. All of these operations are conducted within Australia.

(ii) Enterprise

The Enterprise segment is the developing business of virtual reality solutions to enterprises, consisting of the Red Cartel virtual reality production studio and the development and marketing of the Operator products.

(iii) Corporate

The Corporate segment provides personnel and business infrastructure to the operational segments, including management, marketing and capital.

#### Segment analysis by operation:

	Entertainment	Enterprise	Corporate	Total
<b>Segment Revenue</b>	8,463,942	717,299	1,057,346	10,238,587
