Due to the wind down of operations and the small number of directors there were no operational sub-committees during the year and all critical decisions were made by the board.

PRINCIPAL ACTIVITIES

The principal activity of the Group during the financial year was the exploration of transactions with third parties which could enable the potential value of the Company's assets, including its intellectual property, to be realised.

OPERATING AND FINANCIAL REVIEW OF THE GROUP

Financial performance

	2023	2022
	\$	\$
Revenue and other income	102,459	1,556,104
Net loss after tax attributable to members	(933,873)	(1,918,886)

Review of operations

Having completed the wind down of its pezadeftide development program in the 2023 financial year after the disappointing results of its phase II clinical trial program, the Company's activities during the year ended 30 June 2024 largely comprised finalising compliance matters and actively exploring opportunities for transactions with third parties which could enable the potential value of the Company's assets, including its intellectual property assets, to be realised.

DIRECTORS' REPORT

Review of operations (*continued*)

Hexima entered into an agreement with Deftbiotech Pty Ltd, an entity associated with the inventor of the pezadeftide technology and founders of Hexima, who has taken on the rights to pezadeftide and assumed all costs associated with maintaining the intellectual property and future development. Hexima will be entitled to a royalty on any revenue generated from the intellectual property. Hexima also maintains rights to potential future royalties associated with insecticidal genes discovered during its collaboration with DuPont Pioneer, now Corteva Agrisciences (Corteva). One of the families of genes identified during this collaboration was recently published by Corteva in the prestigious scientific journal- Proceedings of the National Academy of Science (PNAS) - and Corteva continues to pursue development of these insecticidal molecules for use in transgenic crops. No further investment is required by Hexima for this program and Corteva is responsible for all development and commercialisation costs.

During the current year the Company also restructured its board. Following the passing of former Chairman Professor Jonathan West, Mr Geoffrey Kempler was appointed as the new Chairman and Managing Director on 5th September 2023 and Phillip Hains was appointed as a non-executive director on 18th September 2023.

With the appointment of a new Chairman to lead the future direction of the Company its US based directors, Michael Aldridge, Scott Robertson, and Jake Nunn, who had remained as directors to assist the Company in its formulation of a new direction, considered it appropriate to offer their resignations.

Moreover, Dr Nicole van der Weerden, who had a long tenure with the Company as an executive and director and had also remained as a non-executive director in a continuing role supporting the finalisation of the wind-down process and exploring transaction opportunities, resigned as a non-executive director on 28 November 2023.

The Board expresses its sincere gratitude to each of Dr Nicole van der Weerden, Michael Aldridge, Scott Roberston and Jake Nunn for their dedication and commitment to the Company.

Review of financial condition

The Group had net cash outflows from operating activities of \$201,958 for the year ended 30 June 2024 compared with \$1,802,250 for the prior year, with the variance largely reflecting that the wind down of its research and development operations were substantially completed in the prior year.

The Group recorded a loss after tax of \$933,873 for the year ended 30 June 2024. A loss after tax of \$1,918,886 was recorded for the previous financial year.

Financial position

As at 30 June 2024, the Group had \$2,269,004 in cash and receivables (30 June 2023: \$2,956,698).

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

There were no other significant changes in the state of affairs of the Group that occurred during the financial year ended 30 June 2024.

DIVIDEND

The Company has not paid or declared any dividends during or since the end of the financial year ended 30 June 2024.

RISKS

The directors have identified the following risks which are relevant to the Group:

a) risk of finding a suitable business for a reverse acquisition transaction, obtaining regulatory approvals and successfully executing the transaction. As noted below, the Company has announced a proposed transaction and capital raise but there remains a risk that the transaction may not proceed.

b) risk of ATO / AusIndustry finding research and development activities or expenditure to be ineligible and clawing back past claims with penalties and interest. However, it is the directors' view that there is no probable likelihood that any potential action may take place (see note 2(a) "Use of estimates and judgements" to the Consolidated Financial Statements)

DIRECTORS' REPORT

EVENTS SUBSEQUENT TO REPORTING DATE

On 24 July 2024 the Company announced a proposal to acquire Real Thing Entertainment Pty Ltd (RealThing), an AI platform developer, through a conditional share sale agreement under which Hexima will acquire 100% of RealThing by issuing 78,974,300 HXL shares and 8,721,504 options (post a 1-for-10 consolidation). Convertible notes worth \$500,000 will be redeemed with 2.5 million HXL shares issued to two RealThing shareholders.

Hexima's acquisition of RealThing will represent a strategic shift towards AI-driven solutions. RealThing has developed an artificial intelligence platform called AiSAP (Autonomous Intelligent Software Agent Platform). AiSAP provides a new paradigm in user device interaction. Instead of asking questions, the user asks for an outcome communicating in natural language. AiSAP agents deliver that outcome in a changing and dynamic environment. The first set of products, which are currently sold in the UK and USA markets, are assistive applications for the visually impaired.

Hexima plans to raise \$4 million to \$7.5 million (before costs) via a public offer to fund research and development, sales, marketing, engineering, corporate, and administration expenses.

Hexima also proposes appointing Mr. Silvio Salom (a director of RealThing) and Dr. Michael Georgeff (a pioneer in intelligent agents) as directors and appointing other new senior management upon completion of the transaction and proposes that Mr Geoffrey Kempler will continue as Managing Director, and Mr Phillip Hains will continue as a non-executive director and that Hexima will change its name to RealThing AI Limited post-acquisition.

Upon completion of the transaction Hexima will become the holding company of RealThing and its corporate group, with RealThing's business becoming the Company's main undertaking.

The transaction requires shareholder approval and compliance with ASX Listing Rules and is subject to ASX's discretion regarding Hexima's re-admission and quotation.

ENVIRONMENTAL REGULATION

The Group's operations are not subject to any significant environmental regulations under either Commonwealth or State legislation. However, the board believes that the Group has adequate systems in place for the management of its environmental requirements and is not aware of any breach of those environmental requirements as they apply to the Group.

HEXIMA LIMITED NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2024

1. REPORTING ENTITY

Hexima Limited (the “Company”) is a company domiciled in Australia and is a for-profit entity. The address of the Company’s registered office is c/- Acclime, Level 3, 62 Lygon Street, Carlton, Victoria, 3053. The consolidated financial statements of the Company as at and for the year ended 30 June 2024 comprises the Company and its subsidiaries (together referred to as the “Group” and individually as “Group entities”).

The Group was previously engaged in the research and development of plant-derived proteins for applications as human therapeutics but wound down these activities during the year ended 30 June 2023 and has since focussed on the exploration of transactions with third parties which could enable the potential value of the Company’s assets, including its intellectual property, to be realised.

2. BASIS OF PREPARATION

(a) Basis of accounting

The financial report is a general purpose financial report which has been prepared in accordance with Australian Accounting Standards (AASBs) adopted by the Australian Accounting Standards Board (AASB) and the Corporations Act 2001. The consolidated financial report of the Group complies with International Financial Reporting Standards (IFRSs) and interpretations adopted by the International Accounting Standards Board (IASB).

The financial statements were approved by the board of directors on the date of signing the attached directors’ declaration.

(a) Share based payment transactions

The grant date fair value of share-based payment awards granted to employees is recognised as an employee expense, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognised as an expense is adjusted to reflect the number of awards for which the related service and non-market vesting conditions are expected to be met, such that the amount ultimately recognised as an expense is based on the number of awards that do not meet the related service and non-market performance conditions at the vesting date. For share-based payment awards with non-vesting conditions, the grant date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes

(b) Basis of measurement

The financial report has been prepared on the basis of historical cost, except for share options.

(c) Functional and presentation currency

The financial statements are presented in Australian dollars, which is the Group’s functional currency.

(d) Use of estimates and judgements

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Share-based payment transactions

The fair value of employee share options at grant date is measured using the Black-Scholes Model. Measurement inputs include share price on measurement date, exercise price of the instrument, expected volatility (based on weighted average historic volatility adjusted for changes expected due to publicly available information), weighted average expected life of the instruments (based on historical experience and general option holder behaviour), expected dividends, and the risk-free interest rate (based on government bonds). Service and non-market performance conditions attached to the transactions are not taken into account in determining fair value. The vesting charge for share based payments is recognised directly in equity in either the equity option reserve or the equity compensation reserve.

HEXIMA LIMITED NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2024

2. BASIS OF PREPARATION (continued)

(d) Use of estimates and judgements (continued)

Non-recognition of deferred tax assets

Deferred tax assets have not been recognised in respect of deductible temporary differences and tax losses because it is not probable that future taxable profit will be available against which the group could utilise the benefits subject to passing the continuity of ownership and/or same business test. As at 30 June 2024 there were tax losses of \$43,397,577 and temporary differences of \$978,472 for which deferred tax assets have not been recognised.

Lodgement of research and development claims

In prior years, the entity has registered its research and development activities with AusIndustry and has accessed the refundable research and development tax offset for each claim year, which it has claimed through its submissions to the Australian Tax Office (ATO). Under this self-assessment program, AusIndustry and the ATO have the right to audit these claims at any point up to 4 years from the date of lodgement of the Research and Development Tax Incentive Schedule (via the income tax return) for each relevant financial year. If the research and development activities or expenditure are found to be ineligible during this review, the ATO may potentially clawback these claims with penalties and interest. It is the directors' view that there is no probable likelihood that any potential action may take place based upon the following reasons:

- the industry environment in which the entity deals in is known for its research and development activities which have historically been supported through research and development claims; and
- the entity has a positive track record of not being selected for a compliance review by the ATO or AusIndustry.
- the entity keeps appropriate substantiating documentation on file to ensure that its Tax Incentive claims can be supported with contemporaneous evidence in the event of an AusIndustry or ATO review.

(e) Material accounting policies

Share based payment transactions

The grant date fair value of share-based payment awards granted to employees is recognised as an employee expense, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognised as an expense is adjusted to reflect the number of awards for which the related service and non-market vesting conditions are expected to be met, such that the amount ultimately recognised as an expense is based on the number of awards that do not meet the related service and non-market performance conditions at the vesting date. For share-based payment awards with non-vesting conditions, the grant date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes

3. SEGMENT REPORTING

After winding down its biotechnology research and development activities in the year ended 30 June 2023 the group's activities in the current year have been classified under a "Corporate" segment as they have not been directly attributable to specific operating segments. All activities have taken place in Australia.

HEXIMA LIMITED NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2024

5. SHARE-BASED PAYMENTS *(continued)*

Measurement of fair values

The fair value of services received in return for share options granted is based on the fair value of share options granted, measured using the Black Scholes Pricing Model. The model is generally used to calculate a theoretical price of an option on a stock that does not pay dividends using the five key variables of an option's price being the current spot price, future exercise price, volatility, time to expiration, and the risk-free interest rate.

The inputs used in the measurement of the fair values at grant date of the equity-settled share-based payment plans issued to key management personnel in the year ended 30 June 2024 were:

Number of options	Grant date	Spot price	Exercise price	Volatility	Time to expiration	Risk free rate

17. SUBSEQUENT EVENTS

On 24 July 2024 the Company announced a proposal to acquire Real Thing Entertainment Pty Ltd (RealThing), an AI platform developer, through a conditional share sale agreement under which Hexima will acquire 100% of RealThing by issuing 78,974,300 HXL shares and 8,721,504 options (post a 1-for-10 consolidation). Convertible notes worth \$500,000 will be redeemed with 2.5 million HXL shares issued to two RealThing shareholders.

Hexima's acquisition of RealThing will represent a strategic shift towards AI-driven solutions. RealThing has developed an artificial intelligence platform called AiSAP (Autonomous Intelligent Software Agent Platform). AiSAP provides a new paradigm in user device interaction. Instead of asking questions, the user asks for an outcome communicating in natural language. AiSAP agents deliver that outcome in a changing and dynamic environment. The first set of products, which are currently sold in the UK and USA markets, are assistive applications for the visually impaired.

Hexima plans to raise \$4 million to \$7.5 million (before costs) via a public offer to fund research and development, sales, marketing, engineering, corporate, and administration expenses.

Hexima also proposes appointing Mr. Silvio Salom (a director of RealThing) and Dr. Michael Georgeff (a pioneer in intelligent agents) as directors and appointing other new senior management upon completion of the transaction and proposes that Mr Geoffrey Kempler will continue as Managing Director, and Mr Phillip Hains will continue as a non-executive director and that Hexima will change its name to RealThing AI Limited post-acquisition.

Upon completion of the transaction Hexima will become the holding company of RealThing and its corporate group, with RealThing's business becoming the Company's main undertaking.

The transaction requires shareholder approval and compliance with ASX Listing Rules and is subject to ASX's discretion regarding Hexima's re-admission and quotation.

HEXIMA LIMITED

2024 CORPORATE GOVERNANCE STATEMENT

The Hexima Limited (Hexima or Company) Board of Directors (Board) is pleased to present Hexima's Corporate Governance Statement for 2024 (Statement). This Statement outlines our principal corporate governance practices in place during the financial year ended 30 June 2024 against the 4th edition of the ASX Corporate Governance Council's Corporate Governance Principles and Recommendations (Governance Principles). Our governance policies and practices are reflected in this Statement as well as our Appendix 4G.

This Statement was approved by the Company's board on 26 August 2024 and is current as at that date.

As announced to the ASX on 24 July 2024, the Company has proposed the acquisition of Real Thing Entertainment Pty Ltd. As a result of this, the usual governance processes of the Company are not in place, with established committees and the investor relations section of the website dormant at the date of this Statement.

Principle 1: Lay solid foundations for management and oversight

Recommendation 1.1 – Roles and Responsibilities of the Board – not adopted

A listed entity should disclose a board charter setting out:

- (a) the respective roles and responsibilities of its board and management; and*
- (b) those matters expressly reserved to the board and those delegated to management.*

The Board operates under a formal Charter that sets out the functions reserved to the Board and provides for the delegation of functions to Board Committees and to senior management. The Board is accountable to our stakeholders for the management of the Company's business and affairs and as such, as outlined in the Board Charter, is responsible for demonstrating leadership, defining the Company's purpose, establishing strategic objectives, approving the Company's values and the Code of Conduct and oversight of the management of the Company.

Usually, the Chief Executive Officer (CEO) oversees the day-to-day management of the business, with delegated authority to manage the Company in accordance with the strategy, plans and policies approved by the board. As the operations of the Company have ceased and an acquisition proposal is in progress, the Executive Chair and Managing Director, Mr Geoffrey Kempler, is carrying out the responsibilities which would ordinarily be assumed by the CEO.

Responsibilities specifically delegated to a CEO and those reserved for the Board are outlined in the Board Charter, which was previously reviewed on an annual basis to ensure that the division of functions between the Board and management continued to be appropriate for the needs of the Company.

The Board has delegated specific authority to two Board committees, which ordinarily assists the Board by examining various issues and making recommendations. A description of each committee and its responsibilities are set out under Principle 2 of this Statement.

Recommendation 1.2 – Appointment and Re-election of Directors - adopted

A listed entity should:

- (a) undertake appropriate checks before appointing a director or senior executive, or putting someone forward for election, as a director; and*
- (b) provide security holders with all material information in its possession relevant to a decision on whether or not to elect or re-elect a director.*

When appointing directors to the board, appropriate checks are undertaken before their appointment.

The Board considers and formally resolves to support the election or re-election of directors to shareholders at general meetings/annual general meeting.

Shareholders are provided, in the relevant notice of meeting, with information in our possession relevant to assist them to make an informed decision on all directors standing for election or re-election. This information includes biographical details, covering relevant qualifications, experience, and skills directors bring to the Board, details of any other material directorships currently held by the candidate, the term of office currently served by the directors, a statement on the independence of the candidate and the reasons why, and a statement by the Board as to whether it supports the election or re-election of the candidate and a summary of the reasons why.

Directors are elected or re-elected in accordance with the Company Constitution and the ASX Listing Rules. At our 2023 Annual General Meeting, Mr Geoffrey Kempler and Mr Phillip Hains were elected by shareholders.

Recommendation 1.3 – Agreements with directors and senior managers – adopted

A listed entity should have a written agreement with each director and senior executive setting out the terms of their appointment.

Non-executive directors are appointed pursuant to formal letters of appointment which, among other things, set out the key terms and conditions of the appointment, the Board's expectations in relation to the performance of the director, procedures for dealing with a director's potential conflict of interest and the disclosure obligations of the director, together with the details of the director's remuneration.

There are no senior executives currently employed by the Company, except for Mr Kempler, Executive Chair and Managing Director, who is formally engaged under an Appointment Letter.

Recommendation 1.4 – Accountability of the company secretary - adopted

The company secretary of a listed entity should be accountable directly to the board, through the chair, on all matters to do with the proper functioning of the board.

The Board Charter expressly provides that the company secretary is directly accountable to the Board through the Chair on all matters to do with the proper function of the Board. All directors have access to the company secretary, who is appointed by, and accountable to, the Board on all governance matters.

Recommendation 1.5 – Diversity Policy – not adopted

A listed entity should:

- (a) have and disclose a diversity policy;*
- (b) through its board or a committee of the board set measurable objectives for achieving gender diversity in the composition of its board, senior executives and workforce generally; and*
- (c) disclose in relation to each reporting period:*
 - i. the measurable objectives set for that period to achieve gender diversity;*
 - ii. the entity's progress towards achieving those objectives; and*
 - iii. either:*
 - (A) the respective proportions of men and women on the board, in senior executive positions and across the whole workforce (including how the entity has defined "senior executive" for these purposes); or*
 - (B) if the entity is a "relevant employer" under the Workplace Gender Equality Act, the entity's most recent "gender Equality Indicators", as defined in and published under that Act.*

If the entity is in the S&P/ASX 300 Index at the commencement of the reporting period, the measurable objective for achieving gender diversity in the composition of its board should be to have not less than 30% of its directors of each gender within a specified period.

The Company has adopted a Diversity Policy.

The Diversity Policy provides a framework for the Company to establish measurable objectives for achieving gender diversity, however, to date, the board has determined that it is not necessary to establish these objectives.

Our board will consider establishing measurable objectives for achieving gender diversity at the appropriate time. If these objectives are established, they will be disclosed as required under this Recommendation.

As at 30 June 2024, the respective proportion of women in the organisation are as follows:

	Female representation	
	2024	2023
Board Directors	0%	16.7%
Executives	100%	Not applicable

Recommendation 1.6 – Evaluation of the performance of the board, its committees and individual directors – not adopted

A listed entity should:

- (a) have and disclose a process for periodically evaluating the performance of the board, its committees and individual directors; and*
- (b) disclose for each reporting period whether a performance evaluation has been undertaken in accordance with that process during or in respect of that period.*

Our Remuneration and Nomination Committee is ordinarily responsible for the development and implementation of a process for evaluating the performance of the board, committees and directors. This process has not yet been defined and may be considered at an appropriate time.

- (a) have and disclose a process for evaluating the performance of its senior executives at least once every reporting period; and*
- (b) disclose, in relation to each reporting period, whether a performance evaluation has been undertaken in accordance with that process during or in respect of that period.*

The Company currently has no senior executives employed and therefore, recommendation 1.7 is not applicable.

Principle 2: Structure the board to add value

As at the date of this report there were three directors on our Board. Table 1 below sets out each director, the commencement of their tenure, and their status as an independent or non-independent director.

Table 1

Director*	Tenure commencement	Independent / Non-independent
Mr Geoffrey Kempler	05 September 2023	Non-independent, executive director
Mr Phillip Hains	18 September 2023	Independent, non-executive director
Mr Justin Yap	17 July 2018	Non-independent, non-executive director

Directors' qualifications and experience are contained in the Directors' Report in our Annual Report, including details of their other listed entity directorships. This information can also be found on the Company's website.

The ultimate responsibility for the oversight of the operations of the Company rests with the board. However, the board may discharge any of its responsibilities through committees of the board.

The board has established the following standing committees:

- Audit and Risk Management Committee; and
- Remuneration and Nomination Committee.

Each of these committees operate in accordance with specific charters approved by the board.

As the Company has ceased operations, the Committees have not been functioning as they ordinarily would and are currently dormant.

The number of scheduled board and committee meetings held during the year ending 30 June 2024 and the number of meetings attended by each of the directors is set out in our 2024 Annual Report.

Recommendation 2.1 – Nomination Committee – not adopted

The board of a listed entity should:

- (a) *have a nomination committee which:*
 - (1) *has at least three members, a majority of whom are independent directors; and*
 - (2) *is chaired by an independent director,**and disclose:*
 - (3) *the charter of the committee;*
 - (4) *the members of the committee; and*
 - (5) *as at the end of each reporting period, the number of times the committee met throughout the period and the individual attendances of the members at those meetings; or*

The board has established a Remuneration and Nomination Committee which operates under a charter approved by the board.

As noted earlier in this Statement, this committee is currently dormant.

Recommendation 2.2 – Board skills matrix – not adopted

A listed entity should have and disclose a board skills matrix setting out the mix of skills that the board currently has or is looking to achieve in its membership.

The board has determined that the establishment of a Board Skills Matrix at this time is not appropriate, given the current position of the Company.

Directors' qualifications and experience are contained in the Directors' Report in our Annual Report. In addition to the skills and experience of directors, the board considers that each director has the following attributes:

- Honesty and integrity;
- The ability to think strategically;
- The time available to devote to Hexima's business;

- (c) *the length of service of each director.*

A majority of the board of a listed entity should be independent directors.

As indicated in Table 1 above, Mr Phillip Hains has been determined as being independent as at the date of this Statement. Our Board has made this assessment on the basis that he has not been employed in an executive capacity by the Company within the last three years, has not had a material business relationship with the Company within the last three years, is not a substantial holder of Hexima shares and does not fall within any other criteria listed in Box 2.3 of the ASX Governance Principles.

Mr Geoffrey Kempler is considered non-independent due to his executive role within the business. Mr Justin Yap is also considered non-independent as he is a related party of a substantial shareholder in the Company.

Based on this assessment, the Board does not currently have a majority of independent directors.

The term of office held by each director in office at the date of this statement is outlined earlier in this Statement.

Recommendation 2.5 –not adopted

The Audit and Risk Management Committee operates in accordance with a charter adopted by the board. The charter sets out the roles and responsibilities as well as the structure and composition of the committee. The responsibilities of the Audit and Risk Management Committee are outlined in its charter.

As noted earlier in this Statement, this committee is currently dormant.

Any periodic corporate report, including the Appendix 4C and Quarterly Activity Reports receives the approval of the Board prior to release to the market. This approval is based on a review of all relevant information provided. The specific process for each periodic corporate report will vary depending on the release but generally involves management analysis, discussion and recommendation, backed up by supporting documentation.
