The Directors of TasFoods Limited (the Company) present the financial report on the Company and its controlled entities (the Group) for the half-year ended 30 June 2024.

Directors

Details of the Directors of the Company in office at any time during or since the end of the financial year and at the date of this report are:

Mr Ben Swain Non-Executive Director

Mr John Murphy Chair, Non-Executive Director

Mr John O'Hara Non-Executive Director

Company Secretary

Joshua Fletcher (from 1 January 2024 to 28 March 2024)

Leanne Pritchard (Appointed 29 March 2024)

Principal Activities

The principal activities of the Group are the processing, manufacture and sales of premium Tasmanian food products.

Operating and Financial Review

In the half-year ended 30 June 2024 the TasFoods Group reported a statutory net loss after tax of \$5.0 million which includes a \$2.9 million impairment of poultry assets. The Group net loss after tax (excluding impairment) of \$2.1 million was an improvement of 45% compared to a net loss after tax of \$3.8 million for H1 2023.

For H1 2024 total revenue from continuing operations of \$24.5 million, which was an improvement of 2.1% on H1 2023 of \$24.0 million.

Gross margins in the poultry division remain flat compared to pcp with challenging market conditions and tightening of household spending, together with significantly higher labour costs have offset productivity and efficiency initiatives implemented in other sections of the poultry division operations.

Operating EBITDA for total operations was a loss of \$1.0 million which is a 56% improvement on pcp EBITDA loss of \$2.3 million. Operating EBITDA for continued operations was a loss of \$1.1 million which is a 51% improvement on pcp EBITDA loss of \$2.3 million, driven by cost reduction in corporate share services.

Isle & Sky pet treats continues to reach further with consumers who are seeking a premium, all natural, chemical free, 100% Tasmanian-made, human grade pet treat for their dogs and cats. We are confident of growing the demand within this segment as we continue to increase distribution through our domestic retailers.

Sales revenue in the Pyengana Dairy cheese and café sales revenue for H1 2024 was \$1.3 million, a 1.1% increase from the pcp regardless of the challenging current economic environment. We continue to increase focus on growth opportunities in cheese markets together with our distribution partners.

Directors' Report

Revenue in shared services reflects the Transitional Services Agreement (TSA) with Bega Cheese Limited which was entered into following their acquisition of the Betta Milk and Meander Valley Dairy businesses concluded in June 2024. Operating EBITDA in share services segment includes Boxolove online sales operations, centralised expenditures such as audit fees, ASX listing costs and insurances, IT related expenditure, share based payments, expense human resources and payroll services.

Notes to and Forming Part of the Financial Statements For the Half Year Ended 30 June 2024

This consolidated interim financial report and notes represent those of TasFoods Limited and controlled entities (the Group). TasFoods Limited is a company limited by shares, incorporated in Australia, whose shares are publicly traded on the Australian Securities Exchange (ASX).

1. BASIS OF PREPARATION

This consolidated interim financial report for the half-year reporting period ended 30 June 2024 has been prepared in accordance with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*.

The interim report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 31 December 2023 and any public announcements made by the Group during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period.

a) New and amended standards adopted by the Group

There have been no new accounting standards adopted by the Group in the half year ended 30 June 2024.

b) Critical accounting estimates, judgements and errors

The preparation of the interim financial statements of the Group requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing this interim financial report, the significant judgements made by management in applying the Groups accounting policies and key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended 31 December 2023.

c) Going Concern, Debt Funding and Working Capital

These financial statements have been prepared on the basis the Group is a going concern.

For the half-year ended 30 June 2024, the consolidated entity incurred a statutory net loss before tax of \$5.0 million (H1 2023: \$3.8 million) which included a \$2.9 million impairment of the poultry assets and incurred net cash outflows of \$1.7 million (H1 2023: \$2.3 million). At 30 June 2024, the Group had net cash and cash equivalents on hand of \$0.5 million (December 2023: \$3.4 million cash and cash equivalents), and is in a net current liability position of \$0.2 million (December 2023: \$0.3 million) with total external borrowings of \$3.2 million and unused facilities of \$1.5 million.

The ability of the Group to continue as a going concern is dependent on the continuing implementation of its strategic initiatives, outlined below, a disciplined and focused approach to managing input costs and other profitability enhancement initiatives. In addition, management is aiming to improve the current financial position and cash flows of the Group through

Notes to and Forming Part of the Financial Statements For the Half Year Ended 30 June 2024

divestment of assets not utilised in the dairy segment and negotiating and obtaining additional funding from alternative sources if required. The strategic objectives include:

- Ongoing implementation of enhanced Poultry operational ways of working, controlling the Poultry supply chain from hatchery through to processing to gain efficiencies, and implementation of further cost saving improvements across both divisions (including wastage reduction and yield improvement initiatives).
- On-going assessment of customer and product profitability with low or negative margin products exited.
- Continuing to increase gross margins through negotiated sales price increases with customers and execution of identified cost savings over raw material inputs, distribution and logistics.
- Continued growth and distribution of Pet Treats in domestic markets.
- Export certification of the Pyengana Dairy cheese product to increase sales for export opportunities outside Australia.
- Continued acceleration of mainland growth initiatives and customer acquisition.
- Sale of land and buildings from discontinued operations.
- Continuing to explore opportunities as part of the capital management framework to monetise certain assets held by the Group and review options in relation to the capital structure.

The Group's ability to repay current borrowings and meet its working capital requirements is based on a forecast EBITDA and cash flow requirements, which is based on meeting operational forecasts together with cost reduction strategies across the remaining business units.

The consolidated entity's forecasted EBITDA is based on a combination of historic trends, engagement with key customers and internal demand analysis and includes judgement in relation to future pricing and demand for existing and new products. Future forecasts incorporate modest price increases with additional growth to be achieved through increased distribution across the existing product range in addition to expanding distribution of the newly launched Isle & Sky pet treats range. Cost will be managed through a combination of previously implemented restructuring activities and cost reduction strategies to be employed across the business, SKU rationalisation where appropriate and divestment of assets not utilised.

Given the risk associated with the timing and quantum of profitability improvement initiatives, the ability to divest assets not utilised and the agricultural risk associated with key drivers of input costs and gross profit margins, there is material uncertainty which may cast significant doubt on the Group's ability to continue as a going concern, and therefore, that it may be unable to realise its assets and discharge its liabilities in the normal course of business.

However, the directors believe that the Group will be successful in the above matters and, accordingly, have prepared the financial report on a going concern basis.

3. SEGMENT INFORMATION

The operating segments are based upon the units identified in the operating reports reviewed by the Board and executive management, and that are used to make strategic decision, in conjunction with the quantitative thresholds established by *AASB 8 Operating Segments*. As such, there are three identifiable and reportable segments each of which are outlined below:

- The Dairy segment incorporates Pyengana Dairy business operations, the assets of which were acquired in October 2017. The Dairy segment primarily derives revenue from dairy processing and manufacturing activity of premium cheese products. These products are sold under the Pyengana Dairy brand;
- The Poultry segment incorporates the net assets and business operations of Nichols
 Poultry Pty Ltd, which was acquired in June 2016 and Nichols Hatchery Pty Ltd, acquired
 in December 2023. Revenue is primarily derived from the sale of poultry meat products
 sold under the Nichols Poultry and Nichols Kitchen brands.
- The Shared Services segment comprises corporate costs that are not directly attributable
 to operational business units, including Shared Service teams, which provide
 administrative support to the operational production units in the areas of financial
 management, human resources, payroll services, IT, sales, marketing, brand management,
 route to market, quality assurance and food safety, and work health and safety.

Management measures the performance of the segments identified at the 'net profit before tax' level.

Impairment

At each reporting period the Group assesses whether there is an indication of impairment for each cash generating unit (CGU), in accordance with AASB 136 Impairment. Where an indicator of impairment is identified, impairment testing is performed.

At 30 June 2024, the Group has two CGUs for which indicators of impairment were considered, which are as follows:

Poultry CGU

Within the Poultry CGU, there are no indefinite lived intangible assets held at 30 June 2024. Based on the EBITDA result during the period, an indicator of impairment was identified. The recoverable amount of the Poultry CGU was assessed using a value in use calculation based on cash flow projections. These projections cover a five-year period and incorporate external market data and financial forecasts approved by management excluding any fair value adjustments relating to biological assets.

Key assumptions used in the value-in-use calculation include:

	30 34.16
Assumption	2024
Weighted average cost of capital (WACC)	11.5%
Revenue growth rate (5 year avg)	4.5%
Terminal year growth rate	2.5%
Gross margin	25.0%

The revenue growth rate at 30 June 2024 is an average of 4.5% across the 5 year period which reflects current market trends and historical growth rates in the Poultry CGU. The gross margin used in the value in use calculation is assumed at 25% reflecting current year margin growth relating to the implementation of cost and production efficiency initiatives.

Based on the above assumptions the recoverable amount of the Poultry CGU at 30 June 2024 is estimated to be \$10.9 million which is a deficit of \$2.9 million when compared to the CGU's carrying value of assets of \$13.8 million.

Sensitivity Analysis

Changes to the assumptions underlying the value in use calculation have the potential to impact the impairment assessment. The following scenarios have been considered as part of the assessment of impairment in the current period:

Assumption change	Change in impairment
0.5% increase in WACC	(\$0.6m)
0.5% decrease in revenue growth rate years 1-4	(\$1.9m)
0.5% decrease in gross margin years 1-4	(\$1.3m)

30 June

Notes to and Forming Part of the Financial Statements For the Half Year Ended 30 June 2024

Review outcome

Based on the above assessment an impairment of assets of \$2.9 million has been recognised at 30 June 2024.

Dairy CGU

Within the Dairy CGU, there are no indefinite lived intangible assets held at 30 June 2024. For the Dairy CGU, there were no indicators of impairment as at 30 June 2024.

Secured liabilities and assets pledged as security

The Group has finance facilities with NAB and Roadnight Capital at 30 June 2024. Facilities held with NAB include a \$2.0 million overdraft and \$1.4 million loan facility effective from March 2024. The loan facility paid out an existing equipment finance loan held with AMAL Financial Services Pty Ltd.

Available bank loan facilities are secured by mortgage over the property and water rights owned by Nichols Poultry Pty Ltd and property owned by Van Diemen's Land Dairy Pty Ltd. The facilities are also secured by a general security agreement over the property of Nichols Poultry Pty Ltd and Van Diemen's Land Dairy Pty Ltd not otherwise secured.

The Company holds a facility arrangement with Roadnight Capital of \$1.3 million, which has a maturity date of December 2025. The Company has classified the external borrowings as Current due to the intention to repay back the loan following divestment of assets from discontinued operations. This debt is subject to two financial covenants being (i) a loan value ratio covenant of less than or equal to

Conclusion

We have reviewed the half-year financial report of TasFoods Limited (the Company) and the entities it controlled during the half-year (together the Group), which comprises the consolidated statement of financial position as at 30 June 2024, the consolidated statement of changes in equity, consolidated statement of cash flows and consolidated statement of profit or loss and other comprehensive income for the half-year ended on that date, material accounting policy information and selected explanatory notes and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of TasFoods Limited does not comply with the *Corporations Act 2001* including:

- 1. giving a true and fair view of the Group's financial position as at 30 June 2024 and of its performance for the half-year ended on that date
- complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity (ASRE 2410). Our responsibilities are further described in the Auditor's responsibilities for the review of the half-year financial report section of our report.

We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional & Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to the audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Material uncertainty relating to going concern

We draw attention to Note 1 in the half-year financial report, which indicates that the Group incurred a net loss of \$5.0 million and a net cash outflow from operations of \$1.7 million during the half-year ended 30 June 2024 and, as of that date, had net current liabilities of \$0.2 million and as a result the Group is dependent on the successful implementation of its strategic initiatives. These conditions, along with other matters set forth in Note 1, indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

Responsibilities of the directors for the half-year financial report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement whether due to fraud or error.

Auditor's responsibilities for the review of the half-year financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 30 June 2024 and of its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
