Dynamic Group Holdings Limited Directors' report 30 June 2024

The Directors present their report, together with the financial statements, on the consolidated entity (referred to hereafter as the 'consolidated entity') consisting of Dynamic Group Holdings Limited (referred to hereafter as the 'company' or 'parent entity') and the entities it controlled at the end of, or during, the year ended 30 June 2024.

Directors

The following persons were directors of Dynamic Group Holdings Limited during the whole of the financial year and up to the date of this report, unless otherwise stated:

Mark Davis Matthew Freedman George Garnett Garret Dixon Joel Skipworth (resigned 1 December 2023) Mark Hine (appointed 1 December 2023)

Principal activities

During the financial year the principal continuing activities of the consolidated entity consisted of:

- Mine production Drill & Blast
- Construction Drill & Blast
- Vibration sensitive Drill & Blast
- Exploration Drilling
- Grade control Drilling
- Production supply and injection wells
- Deep artesian & geothermal wells
- Mine service holes
- Pump test services

Dividends

There were no dividends paid, recommended or declared during the current or previous financial year.

Review of operations

The loss for the consolidated entity after providing for income tax amounted to \$8,576,889 (30 June 2023: profit of \$1,986,493).

Operational performance for the consolidated entity resulted in FY24 revenue from ordinary activities of \$76.1m and EBITDA of \$13.8m.

As a result of an on-market takeover bid, detailed in subsequent events, the offer has provided an implied value for the Company. Accordingly to align to this value, the Company has recognised an impairment of investments of \$9,233,881.

	2024 \$	2023 \$
Normalised NPAT (Non-IFRS)		
Statutory NPAT	(8,576,887)	1,986,493
One-off transaction costs	-	315,000
Non-cash amortisation of customer contracts	3,185,283	5,387,051
Non-cash impairment of assets	9,233,881	-
Normalised operating NPAT	3,842,277	7,688,544

Dynamic Group Holdings Limited ("the Company") is a supplier of various specialised drilling services as well as blasting services to clients in the mining and construction sectors in Western Australia. The Company operates under 3 divisions, Dynamic Drill & Blast, Orlando Drilling and Welldrill (Airwell Flow Testing operates under the Welldrill division).

FY24 margins were impacted by one-off transaction costs, challenging market conditions within the exploration business as well as group wide labour challenges, COVID absenteeism and significant weather events. The implementation of cost saving and efficiency initiatives, shared services model and improved operational performance resulted in an improved second half. The implementation of shared services model provides a platform for growth and margin expansion.

Significant changes in the state of affairs

There were no significant changes in the state of affairs of the consolidated entity during the financial year.

Matters subsequent to the end of the financial year

On 26 July 2024, the Australian Meat Industry Superannuation Pty Ltd as trustee for the Australian Meat Industry Superannuation Trust (ABN 28 342 064 803) announced an on-market takeover bid offer for all of the shares in Dynamic Group Holdings Limited. The offer is for \$0.28 cash per share and closes on 9 September 2024.

On 9 August 2024, the Australian Meat Industry Superannuation Pty Ltd as trustee for the Australian Meat Industry Superannuation Trust (ABN 28 342 064 803) and its associates held an aggregated relevant interest in 61.627% of the ordinary fully paid shares in Dynamic Group Holdings Limited. This relevant interest is sufficient for the Australian Meat Industry Superannuation Pty Ltd as trustee for the Australian Meat Industry Superannuation Trust (ABN 28 342 064 803) to control the composition of the Dynamic Group Holdings Limited Board.

No other matter or circumstance has arisen since 30 June 2024 that has significantly affected, or may significantly affect the consolidated entity's operations, the results of those operations, or the consolidated entity's state of affairs in future financial years.

Likely developments and expected results of operations

The Company will continue to provide services in line with its principal activities and will maintain focus on securing additional work in line with principal activities.

Further information about likely developments in the operations of the Company and the expected results of those operations in future financial years has not been included in this report because disclosure of the information would be likely to result in unreasonable prejudice to the Company.

Environmental regulation

The consolidated entity is subject to and is compliant with all aspects of environmental regulation relevant to their operations. The directors are not aware of any environmental law that is not being complied with.

Matthew Freedman	2	2	-	-	
Joel Skipworth	1	1	-	-	

Held: represents the number of meetings held during the time the director held office.

Remuneration report (audited)

The remuneration report details the key management personnel remuneration arrangements for the consolidated entity, in accordance with the requirements of the Corporations Act 2001 and its Regulations.

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including all directors.

The remuneration report is set out under the following main headings:

- Principles used to determine the nature and amount of remuneration
- Details of remuneration
- Service agreements
- Share-based compensation
- Additional disclosures relating to equity instruments
- Additional disclosures relating to key management personnel

Principles used to determine the nature and amount of remuneration

The Board is responsible for determining and reviewing the compensation of the directors and the executive directors are responsible for determining and reviewing the remuneration of senior executives. This process requires consideration of the levels and form of remuneration appropriate to securing, motivating and retaining executives with the skills to manage the Company's operations. The Board of Directors assesses market rates and seeks the advice of external advisers, where necessary, in connection with the structure of remuneration packages. The Board also recommends levels and form of remuneration for Non-Executive Directors with reference to performance, relevant comparative remuneration and independent expert advice. The total sum of remuneration payable to Non-Executive Directors shall not exceed the sum fixed by members of the Company in general meeting. The Company has not used a remuneration consultant.

The Board have considered that it should seek to enhance shareholders' interests by:

- focusing on sustained growth in shareholder wealth, consisting of dividends and growth in share price, and delivering constant or increasing return on assets as well as focusing the executive on key non-financial drivers of value
- attracting and retaining high calibre executives

In accordance with best practice corporate governance, the structure of non-executive director and executive director remuneration is separate.

Non-executive directors remuneration

Fees and payments to non-executive directors reflect the demands and responsibilities of their role. Non-executive directors' fees and payments are reviewed annually by the Board. The Board may, from time to time, receive advice from independent remuneration consultants to ensure non-executive directors' fees and payments are appropriate and in line with the market.

Executive remuneration

The consolidated entity aims to reward executives based on their position and responsibility, with a level and mix of remuneration which has both fixed and variable components.

The executive remuneration and reward framework has three components:

- base pay and non-monetary benefits
- share-based payments
- other remuneration such as superannuation and long service leave

The combination of these comprises the executive's total remuneration.

Fixed remuneration, consisting of base salary, superannuation and non-monetary benefits, are reviewed annually by the Nomination and Remuneration Committee based on individual and business unit performance, the overall performance of the consolidated entity and comparable market remunerations.

Executives may receive their fixed remuneration in the form of cash or other fringe benefits (for example motor vehicle benefits) where it does not create any additional costs to the consolidated entity and provides additional value to the executive.

Details of remuneration

Amounts of remuneration

Details of the remuneration of key management personnel of the consolidated entity are set out in the following tables.

The key management personnel of the consolidated entity consisted of the following directors of Dynamic Group Holdings Limited:

- Mark Davis (commenced with Dynamic Drill & Blast Pty Ltd on 24 October 2011, executive service agreement replaced this on 26 July 2020)
- Matthew Freedman (commenced with Dynamic Drill & Blast Pty Ltd on 11 September 2018, executive service agreement replaced this on 26 July 2020, subsequent executive service agreement replaced this on 8 April 2024)
- Garret Dixon (appointed 30 June 2020)
- George Garnett (commenced with Dynamic Drill & Blast Pty Ltd on 12 March 2019, letter of appointment replaced this on 30 June 2020)
- Joel Skipworth (appointed 14 July 2021 and resigned on 1 December 2023)
- Mark Hine (appointed 1 December 2023)
- Geoffrey Newman (resigned on 5 April 2024)

Indemnity and insurance of officers

The company has indemnified the directors and executives of the company for costs incurred, in their capacity as a director or executive, for which they may be held personally liable, except where there is a lack of good faith.

During the financial year, the company paid a premium in respect of a contract to insure the directors and executives of the company against a liability to the extent permitted by the Corporations Act 2001. The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

Indemnity and insurance of auditor

The company has not, during or since the end of the financial year, indemnified or agreed to indemnify the auditor of the company or any related entity against a liability incurred by the auditor.

During the financial year, the company has not paid a premium in respect of a contract to insure the auditor of the company or any related entity.

Proceedings on behalf of the company

No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the company, or to intervene in any proceedings to which the company is a party for the purpose of taking responsibility on behalf of the company for all or part of those proceedings.

Non-audit services

There were no non-audit services provided during the financial year by the auditor.

Officers of the company who are former partners of BDO Audit Pty Ltd

There are no officers of the company who are former partners of BDO Audit Pty Ltd.

Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out immediately after this directors' report.

Auditor

BDO Audit Pty Ltd continues in office in accordance with section 327 of the Corporations Act 2001.

Rounding of amounts

The company is of a kind referred to in Corporations Instrument 2016/191, issued by the Australian Securities and Investments Commission, relating to 'rounding-off'. Amounts in this report have been rounded off in accordance with that Corporations Instrument to the nearest thousand dollars, or in certain cases, the nearest dollar.

This report is made in accordance with a resolution of directors, pursuant to section 298(2)(a) of the Corporations Act 2001.

On behalf of the directors

Matthew Freedman Director

Note 1. Material accounting policy information

The accounting policies that are material to the consolidated entity are set out below. The accounting policies adopted are consistent with those of the previous financial year, unless otherwise stated.

New or amended Accounting Standards and Interpretations adopted

The consolidated entity has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') and the Corporations Act 2001, as appropriate for for-profit oriented entities. These financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board ('IASB'). The group is a for profit entity for the purpose of this financial report.

In accordance with the Corporations Act 2001, these financial statements present the results of the consolidated entity only. Supplementary information about the parent entity is disclosed in note 30.

Going Concern

The consolidated entity incurred loss before tax of \$12,779,369 (2023: Profit \$33,895) during the reporting period ended 30 June 2024, and had a net cash outflow of \$10,299,808 (2023: inflow \$2,641,731).

The financial statements have been prepared on the basis that the entity is a going concern, which contemplates the continuity of normal business activity, realisation of assets and settlement of liabilities in the normal course of business. There is material uncertainty that may cast doubt about the entity's ability to continue as a going concern as a result of the the impact of review of funding arrangements with the Commonwealth Bank of Australia (CBA).

As part of Dynamic's funding arrangements with Commonwealth Bank of Australia (CBA), Dynamic constantly engages with CBA to ensure compliance with various covenants and undertakings.

On 9 August 2024 a review event of the funding agreement with CBA occurred when Australian Meat Industry Superannuation Pty Ltd (ACN 002 981 919) as trustee for Australian Meat Industry Superannuation Trust (ABN 28 342 064 803) trading as Australian Food Super (AFS) acquired more than 50% of the entities shares on issue. CBA has until 9 September 2024 to complete its review. At conclusion of its review, and as allowed for under the finance documents, there is a risk that CBA may exercise certain rights under the finance documents, including acceleration of repayment of outstanding monies under the agreement. The exercise of these rights could have a material adverse effect of the entities activities and financial condition.

In addition to the above, there is potential for one of the CBA financial covenants to be breached when measured at 30 June 2024. The entity intends to engage constructively with CBA to seek a waiver in relation to this covenant (if required). If a waiver is required and is not provided, then this would potentially be a default under the funding agreement with CBA. CBA may exercise certain rights under the finance documents, including acceleration of repayment of outstanding monies under the agreement. The exercise of these rights could have a material adverse effect on the entities activities and financial condition.

In any circumstance where repayment becomes due, the entity may be unable to realise its assets and discharge its liabilities in the normal course of business. The entity would need to obtain alternative sources of funding which may be in the form of a new debt or equity, and the terms of any new funding may not be as attractive as the current arrangements, or in the case of new equity it may be dilutive to existing shareholders. To the extent CBA exercise any rights under the finance document to accelerate repayment of outstanding monies under the agreement, the entity is confident it will be able to obtain alternative funding sources.

Note 1. Material accounting policy information (continued)

Revenue recognition

The consolidated entity recognises revenue as follows:

Rendering of services

Revenue from a contract to provide services is recognised in the accounting period when services are provided. For contracts that includes schedule of rate fees, revenue is recognised in the amount to which the group has a right to invoice. Customers are invoiced on a monthly basis and consideration is payable when invoiced.

The consolidated entity provides drilling and blasting services to its customers which typically involves one performance obligation which are satisfied over time.

Mobilisation

Mobilisation fees are paid at the commencement of contracts, the revenue for which is deferred and recorded over the term of each contract.

Income tax

Dynamic Group Holdings Limited (the 'head entity') and its wholly-owned Australian subsidiaries have formed an income tax consolidated group under the tax consolidation regime. The tax consolidated group has applied the 'separate taxpayer within group' approach in determining the appropriate amount of taxes to allocate to members of the tax consolidated group.

Assets or liabilities arising under tax funding agreements with the tax consolidated entities are recognised as amounts receivable from or payable to other entities in the tax consolidated group. The tax funding arrangement ensures that the intercompany charge equals the current tax liability or benefit of each tax consolidated group member, resulting in neither a contribution by the head entity to the subsidiaries nor a distribution by the subsidiaries to the head entity.

Trade and other receivables

Trade receivables are generally due for settlement within 30 days.

The consolidated entity has applied the simplified approach to measuring expected credit losses, which uses a lifetime expected loss allowance. To measure the expected credit losses, trade receivables have been grouped based on days overdue.

Inventories

Stock on hand is stated at the higher of cost and net realisable value. Cost comprises of purchase and delivery costs, net of rebates and discounts received or receivable.

Property, plant and equipment

Plant and equipment is stated at historical cost less accumulated depreciation and impairment.

Depreciation is calculated on a straight-line basis to write off the net cost of each item of property, plant and equipment (excluding land) over their expected useful lives as follows:

Leasehold improvements	3-10 years
Plant and equipment	3-7 years

Right-of-use assets

Right-of-use assets are depreciated on a straight-line basis over the unexpired period of the lease or the estimated useful life of the asset, whichever is the shorter. Where the consolidated entity expects to obtain ownership of the leased asset at the end of the lease term, the depreciation is over its estimated useful life.

Right-of-use assets that meet the definition of investment property are measured at fair value where the consolidated entity has adopted a fair value measurement basis for investment property assets.

The consolidated entity has elected not to recognise a right-of-use asset and corresponding lease liability for short-term leases with terms of 12 months or less and leases of low-value assets.

Note 1. Material accounting policy information (continued)

Intangible assets

Intangible assets acquired as part of a business combination, other than goodwill, are initially measured at their fair value at the date of the acquisition. Intangible assets acquired separately are initially recognised at cost.

Customer contracts

Customer contracts acquired in a business combination are amortised on a straight-line basis over the period of their expected benefit.

Trade and other payables

The amounts are unsecured and are usually paid within 30 days of recognition.

Employee benefits

Share-based payments

Equity-settled and cash-settled share-based compensation benefits are provided to employees.

Equity-settled transactions are awards of shares, or options over shares, that are provided to employees in exchange for the rendering of services.

The cost of equity-settled transactions are measured at fair value on grant date. Fair value is independently determined using either the Binomial or Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option, together with non-vesting conditions that do not determine whether the consolidated entity receives the services that entitle the employees to receive payment. No account is taken of any other vesting conditions.

The cost of equity-settled transactions are recognised as an expense with a corresponding increase in equity over the vesting period. The cumulative charge to profit or loss is calculated based on the grant date fair value of the award, the best estimate of the number of awards that are likely to vest and the expired portion of the vesting period. The amount recognised in profit or loss for the period is the cumulative amount calculated at each reporting date less amounts already recognised in previous periods.

The cost of cash-settled transactions is initially, and at each reporting date until vested, determined by applying either the Binomial or Black-Scholes option pricing model, taking into consideration the terms and conditions on which the award was granted. The cumulative charge to profit or loss until settlement of the liability is calculated as follows:

- during the vesting period, the liability at each reporting date is the fair value of the award at that date multiplied by the expired portion of the vesting period.
- from the end of the vesting period until settlement of the award, the liability is the full fair value of the liability at the reporting date.

All changes in the liability are recognised in profit or loss. The ultimate cost of cash-settled transactions is the cash paid to settle the liability.

Market conditions are taken into consideration in determining fair value. Therefore any awards subject to market conditions are considered to vest irrespective of whether or not that market condition has been met, provided all other conditions are satisfied.

If equity-settled awards are modified, as a minimum an expense is recognised as if the modification has not been made. An additional expense is recognised, over the remaining vesting period, for any modification that increases the total fair value of the share-based compensation benefit as at the date of modification.

If the non-vesting condition is within the control of the consolidated entity or employee, the failure to satisfy the condition is treated as a cancellation. If the condition is not within the control of the consolidated entity or employee and is not satisfied during the vesting period, any remaining expense for the award is recognised over the remaining vesting period, unless the award is forfeited.

Note 1. Material accounting policy information (continued)

If equity-settled awards are cancelled, it is treated as if it has vested on the date of cancellation, and any remaining expense is recognised immediately. If a new replacement award is substituted for the cancelled award, the cancelled and new award is treated as if they were a modification.

Government Grants

Government grants are recognised when there is reasonable certainty that the grant will be received and all grant conditions are met.

Grants relating to expense items are recognised as income over the periods necessary to match the grant to the costs they are compensating.

Grants relating to depreciable assets are credited to deferred income and are recognised in profit or loss over the period and in the proportions in which depreciation expense on those assets is recognised.

New Accounting Standards and Interpretations not yet mandatory or early adopted

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the consolidated entity for the annual reporting period ended 30 June 2024. The consolidated entity has not yet assessed the impact of these new or amended Accounting Standards and Interpretations.

Note 2. Critical accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below.

Share-based payment transactions

The consolidated entity measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by using either the Binomial or Black-Scholes model taking into account the terms and conditions upon which the instruments were granted. The accounting estimates and assumptions relating to equity-settled share-based payments would have no impact on the carrying amounts of assets and liabilities within the next annual reporting period but may impact profit or loss and equity.

Allowance for expected credit losses

The allowance for expected credit losses assessment requires a degree of estimation and judgement. It is based on the lifetime expected credit loss, grouped based on days overdue, and makes assumptions to allocate an overall expected credit loss rate for each group. These assumptions include recent sales experience and historical collection rates and forward looking estimates. Judgement has been exercised in determining nil allowance for expected credit losses.

Provision for impairment of inventories

The provision for impairment of inventories assessment requires a degree of estimation and judgement. The level of the provision is assessed by taking into account the recent sales experience, the ageing of inventories and other factors that affect inventory obsolescence.

Estimation of useful lives of assets

The consolidated entity determines the estimated useful lives and related depreciation charges for its property, plant and equipment assets. The useful lives could change significantly as a result of technical innovations or some other event. The depreciation charge will increase where the useful lives are less than previously estimated lives, or technically obsolete or non-strategic assets that have been abandoned or sold will be written off or written down.

Goodwill

The consolidated entity tests annually, or more frequently if events or changes in circumstances indicate impairment, whether goodwill assets have suffered any impairment. The recoverable amounts of cash-generating units have been determined based on fair value less cost to sell basis.

Note 2. Critical accounting judgements, estimates and assumptions (continued)

Impairment of non-financial assets

The consolidated entity assesses impairment of non-financial assets at each reporting date by evaluating conditions specific to the consolidated entity and to the particular asset that may lead to impairment. If an impairment trigger exists, the recoverable amount of the asset is determined. This involves fair value less costs of disposal or value-in-use calculations, which incorporate a number of key estimates and assumptions.

Income tax

The consolidated entity is subject to income taxes in the jurisdictions in which it operates. Significant judgement is required in determining the provision for income tax. There are many transactions and calculations undertaken during the ordinary course of business for which the ultimate tax determination is uncertain. The consolidated entity recognises liabilities for anticipated tax audit issues based on the consolidated entity's current understanding of the tax law. Where the final tax outcome of these matters is different from the carrying amounts, such differences will impact the current and deferred tax provisions in the period in which such determination is made.

Recovery of deferred tax assets

Deferred tax assets are recognised for deductible temporary differences only if the consolidated entity considers it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred consideration

The deferred consideration liability is the difference between the total purchase consideration in relation to the acquisition of Orlando, usually on an acquisition of a business combination, and the amounts paid or settled up to the reporting date, discounted to net present value. The consolidated entity applies provisional accounting for any business combination. Any reassessment of the liability during the earlier of the finalisation of the provisional accounting or 12 months from acquisition-date is adjusted for retrospectively as part of the provisional accounting rules in accordance with AASB 3 'Business Combinations'. Thereafter, at each reporting date, the deferred consideration liability is reassessed against revised estimates and any increase or decrease in the net present value of the liability will result in a corresponding gain or loss to profit or loss. The increase in the liability resulting from the passage of time is recognised as a finance cost.

Note 3. Operating segments

Identification of reportable operating segments

The consolidated entity is organised into one operating segment: Rendering of services. This operating segment is based on the internal reports that are reviewed and used by the Board of Directors.

Note 4. Revenue

	2024 \$	2023 \$
Services	76,073,641	102,856,417
Disaggregation of revenue The disaggregation of revenue from contracts with customers is as follows:		
	2024 \$	2023 \$
Product type Services	76,073,641	102,856,417

	3,164,196	14,277,537

Reconciliations of the written down values at the beginning and end of the current financial year are set out below:

	Goodwill \$	Customer Contracts \$	Total \$
Balance at 1 July 2023 Impairment of assets Amortisation expense	7,928,058 (7,928,058) 	6,349,479 - (3,185,283)	14,277,537 (7,928,058) (3,185,283)
Balance at 30 June 2024	<u> </u>	3,164,196	3,164,196

Goodwill acquired through business combinations have been allocated to the following cash-generating units:

	2024 \$	2023 \$
Entire business		7,928,058

Note 13. Intangibles (continued)

The recoverable amount of the consolidated entity's goodwill has been determined by reference to the implied value of the on-market takeover bid lodged on 26 July 2024 by the Australian Meat Industry Superannuation Pty Ltd as trustee for the Australian Meat Industry Superannuation Trust (ABN 28 342 064 803)

The offer is for \$0.28 cash per share and closes on 9 September 2024. This price represents a level 1 input under the fair value hierarchy.

On 9 August 2024, the Australian Meat Industry Superannuation Pty Ltd as trustee for the Australian Meat Industry Superannuation Trust (ABN 28 342 064 803) and its associates held an aggregated relevant interest in 61.627% of the ordinary fully paid shares in Dynamic Group Holdings Limited. This relevant interest is sufficient for the Australian Meat Industry Superannuation Pty Ltd as trustee for the Australian Meat Industry Superannuation Trust (ABN 28 342 064 803) to control the composition of the Dynamic Group Holdings Limited Board.

The offer price of \$0.28 taking into account costs of other offer, indicated a fair value of \$39,276,671.

This has resulted in an impairment to net assets of \$9,233,881 recognised during the financial year which is allocated firstly to reduce Goodwill of \$7,928,059 and the to Property, Plant and Equipment of \$1,305,822.

Note 14. Deferred tax assets

Assets pledged as security

The loans are secured by first mortgages over the consolidated entity's plant and equipment.

Borrowing Covenants

The consolidated entity is required to satisfy the below bank covenants in relation to its facilities with Commonwealth Bank of Australia:

- Debt Service Ratio of greater than 1.40:1
- Gross Leverage Ratio of less than 1.75x
- Working Capital Drawn Debt to Debtors Ratio of less than 50%

Refer to Note 1 Going Concern disclosure.

Note 21. Issued capital (continued)

Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the company in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value and the company does not have a limited amount of authorised capital.

On a show of hands every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

Capital risk management

The consolidated entity's objectives when managing capital is to safeguard its ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders and to maintain an optimum capital structure to reduce the cost of capital.

Capital is regarded as total equity, as recognised in the consolidated statement of financial position, plus net debt. Net debt is calculated as total borrowings less cash and cash equivalents.

In order to maintain or adjust the capital structure, the consolidated entity may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The consolidated entity would look to raise capital when an opportunity to invest in a business or company was seen as value adding relative to the current company's share price at the time of the investment. The consolidated entity is not actively pursuing additional investments in the short term as it continues to integrate and grow its existing businesses in order to maximise synergies.

The consolidated entity is subject to certain financing arrangements covenants and meeting these is given priority in all capital risk management decisions. There have been no events of default on the financing arrangements during the financial year.

Note 22. Reserves

	2024 \$	2023 \$
Share-based payments reserve	735,841	673,353

Movements in reserves

Movements in each class of reserve during the current financial year are set out below:

	Share based payment reserve \$	Total \$
Balance at 1 July 2023 Issue of unlisted performance rights to Key Management Personnel Conversion of Performance Rights to Ordinary Shares	673,353 436,055 (373,567)	673,353 436,055 (373,567)
Balance at 30 June 2024	735,841	735,841
Note 23. Retained profits/(accumulated losses)		
	2024 \$	2023 \$
Retained profits at the beginning of the financial year Profit/(loss) after income tax benefit for the year	6,152,547 (8,576,889)	4,166,054 1,986,493
Retained profits/(accumulated losses) at the end of the financial year	(2,424,342)	6,152,547
Note 24. Dividends

There were no dividends paid, recommended or declared during the current or previous financial year.

Note 25. Financial risk management

Financial risk management objectives

The consolidated entity's activities expose it to a variety of financial risks: market risk (including foreign currency risk, price risk and interest rate risk), credit risk and liquidity risk.

Risk management is carried out by senior finance executives ('finance') under policies approved by the Board of Directors ('the Board'). These policies include identification and analysis of the risk exposure of the consolidated entity and appropriate procedures, controls and risk limits. Finance identifies, evaluates and hedges financial risks within the consolidated entity's operating units. Finance reports to the Board on a monthly basis.

Price risk

The consolidated entity is not exposed to any significant price risk.

Interest rate risk

The consolidated entity's main interest rate risk arises from long-term borrowings. Borrowings obtained at variable rates expose the consolidated entity to interest rate risk. Borrowings obtained at fixed rates expose the consolidated entity to fair value interest rate risk.

As at the reporting date, the consolidated entity had the following borrowings outstanding:

	2024 Weighted		2023 Weighted		
	average interest rate %	Balance \$	Weighted average interest rate %	Balance \$	
Bank loans	6.01%	24,398,880	5.79%	31,061,186	
Net exposure to fair value interest rate risk	=	24,398,880		31,061,186	

An analysis by remaining contractual maturities is shown in 'liquidity and interest rate risk management' below.

For the consolidated entity the bank loans outstanding, totaling \$24,398,880 (2023: \$31,061,186), are principal and interest payment loans. Monthly cash outlays of approximately \$710,000 (2023: \$710,000) per month are required to service the principal interest payments.

Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the consolidated entity. The consolidated entity has a strict code of credit, including obtaining agency credit information, confirming references and setting appropriate credit limits. The consolidated entity obtains guarantees where appropriate to mitigate credit risk. The maximum exposure to credit risk at the reporting date to recognised financial assets is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the consolidated statement of financial position and notes to the financial statements. The consolidated entity does not hold any collateral.

Generally, trade receivables are written off when there is no reasonable expectation of recovery. Indicators of this include the failure of a debtor to engage in a repayment plan, no active enforcement activity and a failure to make contractual payments for a period greater than 1 year.

Liquidity risk

Vigilant liquidity risk management requires the consolidated entity to maintain sufficient liquid assets (mainly cash and cash equivalents) and available borrowing facilities to be able to pay debts as and when they become due and payable.

The consolidated entity manages liquidity risk by maintaining adequate cash reserves and available borrowing facilities by continuously monitoring actual and forecast cash flows and matching the maturity profiles of financial assets and liabilities.

Note 25. Financial risk management (continued)

Fair value of financial instruments

Unless otherwise stated, the carrying amounts of financial instruments reflect their fair value.

Note 26. Key management personnel disclosures

Directors

The following persons were directors of Dynamic Group Holdings Limited during the financial year:

Mark Davis Matthew Freeman George Garnett Garret Dixon Joel Skipworth Mark Hine

Compensation

The aggregate compensation made to directors and other members of key management personnel of the consolidated entity is set out below:

	2024 \$	2023 \$
Short-term employee benefits	1,633,977	1,700,888
Post-employment benefits	122,635	153,408
Share-based payments	100,823	202,033
	1,857,435	2,056,329

Note 27. Remuneration of auditors

During the financial year the following fees were paid or payable for services provided by BDO Audit Pty Ltd, the auditor of the company:

	2024 \$	2023 \$
□ Audit services - BDO Audit Pty Ltd		
Audit or review of the financial statements	122,500	140,048

The BDO entity performing the audit of the group transitioned from BDO Audit (WA) to BDO Audit Pty Ltd on 19 April 2024. The disclosures include amounts received or due and receivable by BDO Audit (WA) Pty Ltd, BDO Audit Pty Ltd and their respective related entities.

Note 28. Contingent liabilities

The consolidated entity has no contingent liabilities.

Note 29. Related party transactions

Parent entity

Dynamic Group Holdings Limited is the parent entity.

Subsidiaries

Interests in subsidiaries are set out in note 31.

Note 29. Related party transactions (continued)

Key management personnel

Disclosures relating to key management personnel are set out in note 26 and the remuneration report included in the directors' report.

There were no loans to or from related parties at the current and previous reporting date.

Other than as disclosed above, there were no other transactions with related parties.

Note 30. Parent entity information

Set out below is the supplementary information about the parent entity.

Consolidated statement of profit or loss and other comprehensive income

	Parent		
	2024 \$	2023 \$

Total equity	35,051,690	38,530,495

Material accounting policy information

The accounting policies of the parent entity are consistent with those of the consolidated entity, as disclosed in note 1, except for the following:

- Investments in subsidiaries are accounted for at cost, less any impairment, in the parent entity.
- Dividends received from subsidiaries are recognised as other income by the parent entity and its receipt may be an indicator of an impairment of the investment.

Note 31. Interests in subsidiaries

The consolidated financial statements incorporate the assets, liabilities and results of the following subsidiaries in accordance with the accounting policy described in note 1:

		Ownership interest		
Name	Principal place of business / 20 Country of incorporation		2023 %	
Dynamic Drill & Blast Pty Ltd Orlando Drilling Pty Ltd SBD Drilling Pty Ltd Orlando Exploration Pty Ltd Delmoss Nominees Pty Ltd PDC Drilling Pty Ltd	Australia Australia Australia Australia Australia Australia	100.00% 100.00% 100.00% 100.00% 100.00% 100.00%	100.00% 100.00% 100.00% 100.00% 100.00% 100.00%	

Note 32. Events after the reporting period

On 26 July 2024, the Australian Meat Industry Superannuation Pty Ltd as trustee for the Australian Meat Industry Superannuation Trust (ABN 28 342 064 803) announced an on-market takeover bid offer for all of the shares in Dynamic Group Holdings Limited. The offer is for \$0.28 cash per share and closes on 9 September 2024.

On 9 August 2024, the Australian Meat Industry Superannuation Pty Ltd as trustee for the Australian Meat Industry Superannuation Trust (ABN 28 342 064 803) and its associates held an aggregated relevant interest in 61.627% of the ordinary fully paid shares in Dynamic Group Holdings Limited. This relevant interest is sufficient for the Australian Meat Industry Superannuation Pty Ltd as trustee for the Australian Meat Industry Superannuation Trust (ABN 28 342 064 803) to control the composition of the Dynamic Group Holdings Limited Board.

No other matter or circumstance has arisen since 30 June 2024 that has significantly affected, or may significantly affect the consolidated entity's operations, the results of those operations, or the consolidated entity's state of affairs in future financial years.

Dynamic Group Holdings Limited Directors' declaration 30 June 2024

In the directors' opinion:

- the attached financial statements and notes comply with the Corporations Act 2001, the Accounting Standards, the Corporations Regulations 2001 and other mandatory professional reporting requirements;
- the attached financial statements and notes comply with International Financial Reporting Standards as issued by the International Accounting Standards Board as described in note 1 to the financial statements;
- the attached financial statements and notes give a true and fair view of the consolidated entity's financial position as at 30 June 2024 and of its performance for the financial year ended on that date;
- there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable; and
- the information disclosed in the attached consolidated entity disclosure statement is true and correct.

The directors have been given the declarations required by section 295A of the Corporations Act 2001.

Signed in accordance with a resolution of directors made pursuant to section 295(5)(a) of the Corporations Act 2001.

On behalf of the directors

INDEPENDENT AUDITOR'S REPORT

To the members of Dynamic Group Holdings Limited

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Dynamic Group Holdings Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2024, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial report, including material accounting policy information, the consolidated entity disclosure statement and the directors' declaration.

In our opinion the accompanying financial report of the Group, is in accordance with the *Corporations Act 2001*, including:

- (i) Giving a true and fair view of the Group's financial position as at 30 June 2024 and of its financial performance for the year ended on that date; and
- (ii) Complying with Australian Accounting Standards and the Corporations Regulations 2001.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the Financial Report* section of our report. We are independent of the Group in accordance with the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material uncertainty related to going concern

We draw attention to Note 1 in the financial report which describes the events and/or conditions which give rise to the existence of a material uncertainty that may cast significant doubt about the group's ability to continue as a going concern and therefore the group may be unable to realise its assets and

BDO Audit Pty Ltd ABN 33 134 022 870 is a member of a national association of independent entities which are all members of BDO Australia Ltd ABN 77 050 110 275, an Australian company limited by guarantee. BDO Audit Pty Ltd and BDO Australia Ltd are members of BDO International Ltd, a UK company limited by guarantee, and form part of the international BDO network of independent member firms. Liability limited by a scheme approved under Professional Standards Legislation.

discharge its liabilities in the normal course of business. Our opinion is not modified in respect of this matter.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the *Material uncertainty related to going concern section*, we have determined the matters described below to be the key audit matters to be communicated in our report.

Impairment assessment of non-current assets

As disclosed in Note 2 to the financial report, the Group are required to test cash generating units for impairment on at least an annual basis.

As outlined in Note 2 to the financial report, the assessment of impairment for intangible assets and other assets within the relevant CGU, involves the use of significant estimate and judgement.

Management has assessed the recoverable amount of the CGU using a fair value less costs of disposal basis, based on a recent market transaction price. As disclosed in Note 12 and 13 to the financial report, an impairment charge was subsequently recognised.

This was determined to be a key audit matter due to the significance of the assets and impairment and estimate and judgement involved in determining the recoverable amount of the CGU. How the matter was addressed in our audit

Our procedures included but were not limited to:

- Assessing the appropriateness of the Group's CGU identification and management's allocation of assets to the carrying value of the CGU based on our understanding of the Group's business and internal reporting;
- Evaluating management's impairment assessment, including the following:
 - In conjunction with our internal valuation specialists, evaluating the appropriateness of the basis used by management to calculate the fair value less costs of disposal of the CGU;
 - Agreeing the fair value calculation to supporting market documentation;
 - Assessing the reasonableness of the costs of disposal calculation;
- Testing the mathematical accuracy of the impairment calculated;
- Assessing the reasonableness of management's allocation of the impairment to the respective asset classes; and
- Assessing the appropriateness of the related disclosures in Note 2, Note 12 and Note 13 to the financial report.

Other information

The directors are responsible for the other information. The other information comprises the information in the Group's annual report for the year ended 30 June 2024, but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of:

- a) the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001*; and
- b) the consolidated entity disclosure statement that is true and correct in accordance with the *Corporations Act 2001*; and

for such internal control as the directors determine is necessary to enable the preparation of:

- i) the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and
- ii) the consolidated entity disclosure statement that is true and correct and is free of misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website (<u>http://www.auasb.gov.au/Home.aspx</u>) at:

https://www.auasb.gov.au/admin/file/content102/c3/ar1_2020.pdf

This description forms part of our auditor's report.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 6 to 11 of the directors' report for the year ended 30 June 2024.

In our opinion, the Remuneration Report of Dynamic Group Holdings Limited, for the year ended 30 June 2024, complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
