Wellnex Life Limited (ASX) ("Wellnex Life" or the "Company") is pleased to release its Appendix 4E for Financial Year 2024 (**FY24**) and to provide the following operational update.

The FY24 period was one of two halves, where the first half of FY24 performance was severely impacted by the delay in finalising the transformational acquisition of Pain Away, with the second half of FY24 performance validating the company's pursuit in acquiring Pain Away.

FY24 has provided Wellnex Life with the platform to grow its revenue, maintain strong margins of between 36% and 40% and become a profitable business.

Revenue for FY24 was \$16.9 million which was a decrease of 39.3% from FY23 (FY23: \$27.8 million), with the reduction in revenue being a deliberate strategy by the company with the exiting of all low margin brokerage arrangements at the end of FY23 of circa \$13 million.

Revenue in the second half of FY24 increased by over 100% compared to the first half of FY24 to \$11.3 million (1H FY24: \$5.6 million).

Wellnex Life decision to exit all brokerage arrangements has been validated by the increase in margins in both dollar and percentage terms. Margins as a percentage increased by 76% in FY24 compared to FY23 to 30% (FY23: 17%), with the second half of FY24 margins at 40%.

Wellnex Life also saw a rise in margins in dollar terms despite a 39.3% decline in revenue, with margin contribution in FY24 up 6.5% to \$5 million (FY23: \$4.7 million), with the 2H of FY24 contributing 90% of this margin contribution.

Loss for FY24 was \$14.7 million, which was impacted by non-cash and one-off expenses (in relation to Pain Away) of \$10.2 million, with the normalised EBITA loss for FY24 down 26.5% to \$5 million (FY23: 6.8 million). The transformation of the Company in 2H FY24 is further evidenced by the normalised EBITDA loss for FY24 of \$5 million of which 90% was incurred in the 1H FY24. The loss in 2H FY24 was \$0.5 million.

WELLNEX

On a pro-forma basis, if Wellnex Life had a full 12 months trading with the Pain Away portfolio in FY24, the normalised EBITDA would result in the Company breaking even.

The total assets of the entity at 30 June 2024 were \$31.4 million (30 June 2023: \$15.0 million), an increase of 110%, with net assets of the entity were \$7.1 million (30 June 2022: \$0.6 million).

Wellnex Life at the completion of the period raised circa \$2.4 million, with participation from UK brokers and high net worth clients as it prepares the company for a dual listing on the London Stock Exchange, with funds raised to extinguish all liabilities of the company.

Wellnex Life next step is to increase shareholder value and to continue to strengthen the balance sheet which in turn will accelerate the company's growth in both revenue, margins and profits.

Wellnex Life has many growth drivers in FY25, that will increase revenue and maintain strong margins of between 36% and 40% .
