This interim financial report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 31 December 2023 and any public announcements made by Turaco Gold Limited during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

DIRECTORS' REPORT

Your directors submit the financial report of Turaco Gold Limited ("Turaco" or the "Company") for the half-year ended 30 June 2024. The directors report as follows:

Directors

The names of directors who held office during or since the end of the half-year and until the date of this report are noted below. Directors were in office for this entire period unless otherwise stated.

John Fitzgerald	Non-Executive Chairman
Justin Tremain	Managing Director
Alan Campbell	Non-Executive Director
Bruce Mowat	Non-Executive Director

Results

The loss from continuing operations for the half-year after tax was \$7,188,421 (six months ended 30 June 2023: \$1,944,009). The increase in the loss was due to the completion of the acquisition of the Afema Gold Project during the half year and increased exploration expenditure to advance the Afema Gold Project towards its maiden JORC resource estimate.

Review of operations

With the completion of the acquisition of a controlling interest in the Afema Gold Project in March 2024, Turaco Gold Limited (**ASX | TCG**) ('**Turaco**' or the '**Company**') ramped up field work and completed a significant amount of drilling activity within the granted mining permit making up the central 227km² of the total 1,267km² project area (refer Figure One) over the last six months.

Over 14,000m of diamond and RC drilling was completed across over 80 holes as part of a program and metallurgical test work was advanced across all deposits to deliver a maiden JORC Mineral Resource Estimate for the Afema Project.

Three drill rigs were operating with drilling undertaken along the +25km Afema Shear, primarily at the Jonction, Anuiri, Asupuri and Adiopan deposits, along with the JORC resource definition and step out drilling at the Woulo Woulo deposit.

In addition, the granting of three exploration permits was achieved at the Afema Project to allow exploration drilling to commence immediately within these permits.

Afema Gold Project

Maiden JORC Resource Estimate

Subsequent to the end of the half-year, on 27 August 2024 the Company announced a maiden JORC Mineral Resource Estimate ('MRE') for the Afema Project of 2.52Moz gold. The MRE is based on the Woulo Woulo, Jonction and Anuiri deposits and is considered as an 'interim' resource with drilling ongoing. It excludes other mineralisation drilled along the Afema shear including the Asupiri, Brahima, Adiopan and Toileso deposits which will be subject to further drilling and metallurgical testwork.

The interim MRE has been achieved within 5 months of Turaco acquiring its controlling interest in the Afema Project at a total cost of less than US\$7 per attributable ounce.

The Company sees this MRE as an 'interim' resource and an important first step towards its objective of defining a robust multi-million-ounce gold project in southeastern Côte d'Ivoire. It is seen as just the beginning as the Company embarks on an aggressive exploration drilling program testing compelling, high priority targets with limited or no previous drilling. All targets sit within 10km of the initial MRE deposits. Drilling is ongoing at Woulo Woulo, and set to commence at Jonction, with metallurgical testwork continuing on the other deposits.

Turaco expects this ongoing drilling will drive substantial near term Afema MRE growth.

Afema Project JORC 2012 Mineral Resource Estimate			
Deposit	Tonnes	Gold Grade	Ounces
Woulo Woulo (0.5g/t cut-off)	42.6Mt	0.9g/t	1,250,000
Jonction (0.7g/t cut-off)	10.1Mt	2.0g/t	660,000
Anuiri (0.7g/t cut-off)	11.6Mt	1.6g/t	600,000
Total			2,520,000

Table One | Afema Project JORC Mineral Resource Estimate (figures may not add up due to appropriate rounding)

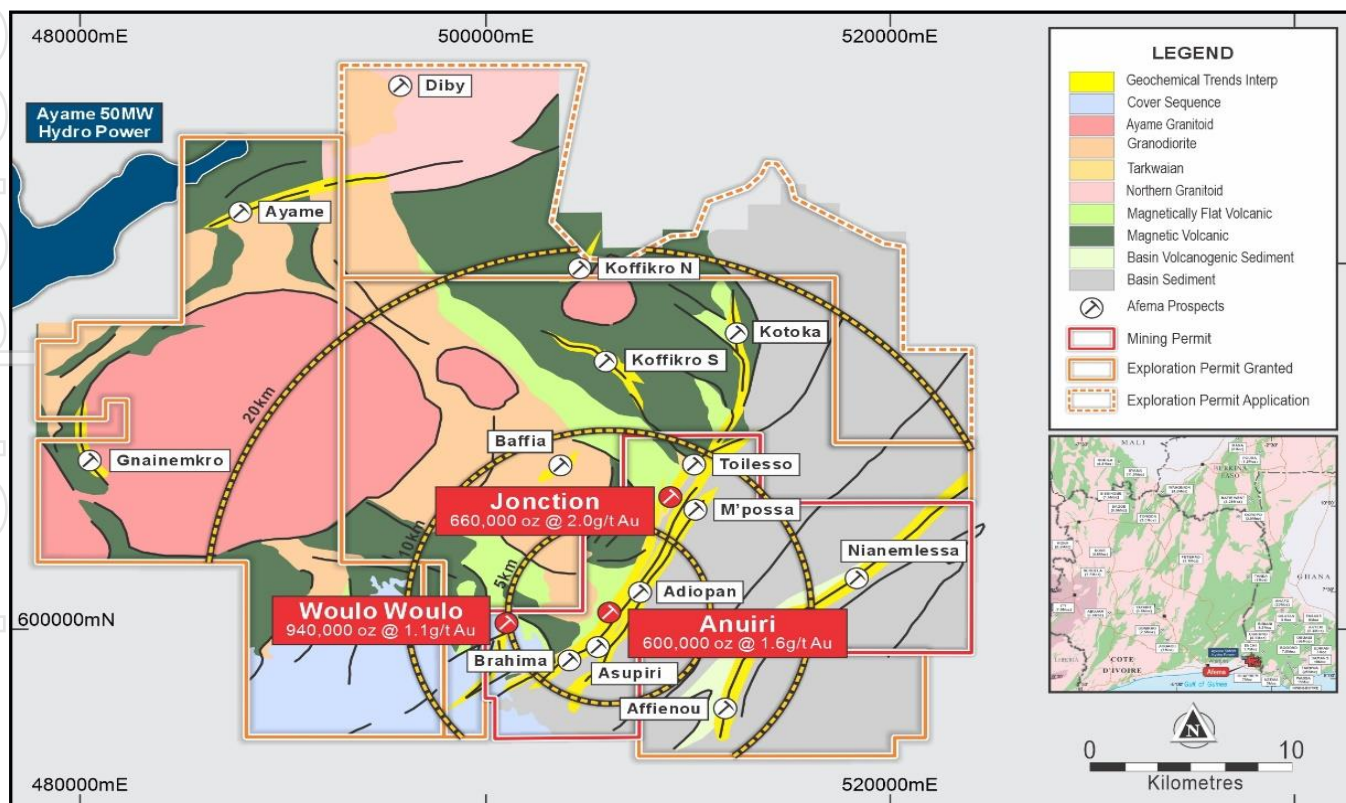

Figure Two | Afema Project Permit Area Geology and Deposit & Prospect Locations

Woulo Woulo

Woulo Woulo is located on a north-northeast trending splay off the main 'Afema Shear' (refer Figure One). The maiden MRE for the Woulo Woulo deposit is 26.2Mt at 1.1g/t gold for 940,000 ounces (at lower cut-off of 0.7g/t) or 42.6Mt at 0.9g/t gold for 1,250,000 ounces (at lower cut-off of 0.5g/t) with 65% 'Indicated':

Woulo Woulo JORC 2012 Mineral Resource Estimate				
Cut-Off	Classification	Tonnes	Gold Grade	Ounces
0.5g/t	Indicated	27.4Mt	0.9g/t	800,000
	Inferred	15.2Mt	0.9g/t	450,000
	Total	42.6Mt	0.9g/t	1,250,000
0.7g/t	Indicated	17.1Mt	1.1g/t	610,000
	Inferred	9.1Mt	1.1g/t	330,000
	Total	26.2Mt	1.1g/t	940,000

Table Two | Woulo Woulo JORC Mineral Resource Estimate (figures may not add up due to appropriate rounding)

Mineralisation at Woulo Woulo has broad widths with 70% of contained ounces in the top 200m amenable to low strip ratio open pit mining.

Metallurgical testwork achieved 89.4% and 93.9% gold extraction from fresh and oxide mineralisation respectively, with rapid leach kinetics, from conventional cyanide leaching.

Jonction

The Jonction MRE is 10.1Mt at 2.0g/t gold for 660,000 ounces (at lower cut-off of 0.7g/t) with 55% 'Indicated':

Jonction JORC 2012 Mineral Resource Estimate				
Cut-Off	Classification	Tonnes	Gold Grade	Ounces
0.5g/t	Indicated	5.9Mt	2.0g/t	390,000
	Inferred	5.8Mt	1.6g/t	310,000
	Total	11.7Mt	1.8g/t	700,000
0.7g/t	Indicated	5.2Mt	2.2g/t	370,000
	Inferred	4.9Mt	1.8g/t	290,000
	Total	10.1Mt	2.0g/t	660,000

Table Three | Jonction JORC Mineral Resource Estimate (figures may not add up due to appropriate rounding)

The Jonction MRE includes a coherent high-grade core of 490,000 ounces at 3.0g/t (at lower cut-off of 1.5g/t).

Metallurgical testwork at Jonction achieved 76.8% and 84.9% total gold extraction from fresh mineralisation through grind, sulphide flotation, ultra fine grinding of a low mass (2.6% and 4.7%) concentrate, oxidative & cyanide leaching. Further work is being undertaken optimising extraction rates.

Anuiri

The Anuiri MRE is 11.6Mt at 1.6g/t gold for 600,000 ounces (at lower cut-off of 0.7g/t) with 55% 'Indicated'

Anuiri JORC 2012 Mineral Resource Estimate				
Cut-Off	Classification	Tonnes	Gold Grade	Ounces
0.5g/t	Indicated	7.2Mt	1.6g/t	360,000
	Inferred	7.1Mt	1.3g/t	290,000
	Total	14.3Mt	1.4g/t	650,000
0.7g/t	Indicated	5.9Mt	1.8g/t	340,000
	Inferred	5.7Mt	1.4g/t	260,000
	Total	11.6Mt	1.6g/t	600,000

Table Four | Anuiri JORC Mineral Resource Estimate (figures may not add up due to appropriate rounding)

Metallurgical testwork at Anuiri is at an earlier stage to that at Jonction. To date, flotation performance has been similar to that of Jonction with high gold recovery and low mass recovery to concentrate.

Regional Exploration

- Turaco soil geochemical sampling program was completed at the Niamienlessa Southwest prospect located within the granted Afema mining permit returning up to 1.64g/t gold in soils coincident with areas of extensive artisanal mining activity.
- Granting of three highly prospective exploration permit applications covering a combined area of 812km² taking total Afema Gold Project granted position to 1,040km².
- The newly granted exploration permits include numerous, well defined, walk-up drill targets including the southern extension of the Niamienlessa mineralised trend, the northern extension of the prolifically mineralised Afema shear and anomalies such as Baffia, Koffikro and Kotoka. No drilling has taken place historically at these areas. All targets are in close proximity to the drilled deposits within the Afema mining permit forming the basis of the maiden JORC resource estimate.
- Field work has been limited at the Eburnea Project given the Company's focus on the Afema Gold Project. Both the Satama and Bouake North exploration permits are due for renewal and the Company is working with the Department of Mines & Geology to advance these permit renewals. The Company has exceeded expenditure and work program commitments under both permits.

Corporate

Equity Raising

Turaco successfully completed a A\$18 million equity raising at 16 cents which was strongly supported by existing institutional and sophisticated investors and provides Turaco the opportunity to accelerate drilling activities at the Afema Gold Project.

Variation to Sodim Agreement

The Afema Gold Project is held by a local Cote d'Ivoire company Afema Gold SA which is held 100% by a BVI incorporated entity Taurus Gold Afema Holdings Ltd in which Turaco holds a controlling 51% interest with a right to increase to 70%. Following settlement of Turaco's acquisition of this majority interest, Turaco became aware of legacy tax liabilities and creditors within Afema Gold SA which totalled approximately US\$600,000.

Turaco reached an agreement with the minority shareholder of TGAH, Sodim Ltd, for Turaco to settle these legacy liabilities and in return the milestone and deferred payment obligations to Sodim whereby Turaco may increase its interest to 70% are to be reduced by a total of US\$725,000 as below:

Sodim Payment	Previous	Revised	Change
12-month deferred payment (March 2025)	US\$380,000	Nil	(US\$380,000)
Milestone payment upon PFS to increase interest to 65%	US\$2,500,000	US\$2,155,000	(US\$345,000)
Payment to increase interest to 70%, by the earlier of 12 months from PFS, or the making of a Development Decision	US\$3,750,000	US\$3,750,000	-
	US\$6,630,000	US\$5,905,000	(US\$725,000)

Divestments

Consistent with Turaco's stated intention to rationalise its large exploration position in Cote d'Ivoire to focus on the Afema Gold Project in the southeast and the Eburnea Gold Project in central Cote d'Ivoire it undertook a number of divestments. Funds realised from these divestments provide non-dilutive funding for Afema Gold Project.

Completion of the divestment of Odienne and Ferke to Many Peaks

Turaco entered into a share sale agreement ('Agreement') with ASX-listed Many Peaks Minerals Ltd ('Many Peaks') for the divestment of its 89% interest in the joint venture with Predictive Discovery Ltd ('Predictive') which holds rights, via a joint venture with a local entity, to up to an 85% interest in the Ferke and Odienne Projects in northern Cote d'Ivoire.

Turaco received 5,000,000 fully paid ordinary shares in ASX-listed Many Peaks Minerals Ltd which are subject to a 12-month escrow period.

Divestment of Boundiali to Aurum

Turaco entered into a binding term sheet with Aurum Resources Ltd ('Aurum') for the divestment of the Boundiali exploration permit (PR414) ('Boundiali Permit') in northern Cote d'Ivoire. Consideration payable is, at Turaco's election, \$0.8 million cash or up to A\$1.2 million in Aurum shares. The Boundiali Permit was part of the joint venture between Turaco and Predictive Discovery Ltd ('Predictive'). In accordance with the joint venture agreement, Predictive has provided its consent to the divestment with proceeds to be split proportionate to each party's joint venture interest (Turaco 89% and Predictive 11%).

In addition to the customary conditions, the sale is conditional upon Aurum obtaining a renewal of the Boundiali Permit (or the granting of a replacement permit) and being satisfied that the terms of the renewal (or replacement permit) do not restrict exploration or potential future mining rights, along with required Government approvals. At the end of the half-year Aurum is still progressing the renewal of the permit and satisfaction of these conditions.

Option Agreement with Fortuna Silver Mines over Tongan North

Turaco entered into an option agreement with Fortuna Silver Mines Inc ('Fortuna') over five exploration permits comprising the Tongon North Project in northern Cote d'Ivoire. Fortuna is a leading West African gold producer listed on the TSX and NYSE with a market capitalisation of ~C\$1.2 billion. Fortuna owns the Seguela Gold Mine in Cote d'Ivoire, Yaramoko Gold Mine in Burkina Faso and recently acquired the Diamba Sud Gold Project in Senegal.

Under the Option Agreement, Fortuna is to make an upfront cash payment to Turaco of US\$100,000 (~A\$150,000) for the option ('Option') over an 80% interest in the Tongon North Project (100% in respect to the Nambira permit where Turaco currently holds only 80% interest). In order to exercise the Option, Fortuna must spend a minimum of US\$3.5 million on the Tongon North Project area within 3 years (with minimum annual expenditure of US\$0.5 million). Upon Fortuna exercising the Option, Turaco has the option to either form a joint venture with Fortuna and contribute to maintain a 20% interest or elect to sell its remaining 20% interest to Fortuna for US\$1.5 million cash. Fortuna must spend a minimum of US\$1.25 million on the Tongon North Project area before allowing the Option to lapse.

AGM

Turaco held its Annual General Meeting of shareholders on Monday, 27 May 2024. All resolutions were passed with a 99.94% vote in favour of the adoption of the remuneration report.

Auditor's Independence Declaration

NOTE 1: STATEMENT OF MATERIAL ACCOUNTING POLICIES

Statement of compliance

The interim financial report is a general-purpose financial report prepared in accordance with the requirements of the Corporations Act 2001, applicable accounting standards including AASB 134: Interim Financial Reporting, Accounting Interpretations and other authoritative pronouncements of the Australian Accounting Standards Board ('AASB'). Compliance with AASB 134 ensures compliance with IAS 34 'Interim Financial Reporting'.

This consolidated interim report does not include full disclosures of the type normally included in an annual financial report. Therefore, it cannot be expected to provide as full an understanding of the financial performance, financial position and cash flows of the Group as in the full financial report.

It is recommended that this financial report be read in conjunction with the annual financial report for the year ended 31 December 2023 and any public announcements made by Turaco Gold Limited during the half-year and up to the date of this report in accordance with continuous disclosure requirements arising under the Corporations Act 2001 and the ASX Listing Rules.

Basis of preparation

The interim report has been prepared on a historical cost basis. Cost is based on the fair value of the consideration given in exchange for assets. The Company is domiciled in Australia and all amounts are presented in Australian dollars, unless otherwise noted.

For the purpose of preparing the interim report, the half-year has been treated as a discrete reporting period.

Going Concern

The interim financial statements have been prepared on the going concern basis, which contemplates continuity of normal business activities and the realisation of assets and settlements of liabilities in the ordinary course of business.

Significant accounting judgments and key estimates

The preparation of interim financial report requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expense. Actual results may differ from these estimates.

In preparing this interim report, the significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the Company's financial report for the year ended 31 December 2023.

New or amended Accounting Standards and Interpretations adopted

The accounting policies adopted in the preparation of the interim financial report are consistent with those disclosed in the previous financial year and corresponding interim reporting period, unless otherwise stated.

The Group has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period. The adoption of these Accounting Standards and Interpretations did not have any significant impact on the financial performance or position of the Group during the half year ended 30 June 2024 and not expected to have any significant impact for the full financial year ending 31 December 2023. Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

NOTE 14: FINANCIAL INSTRUMENTS

The Group has a number of financial assets and liabilities which are not measured at fair value on a recurring basis. The carrying value of these financial instruments approximates their fair value.

NOTE 15: EVENTS SUBSEQUENT TO REPORTING DATE

On 27 August 2024, the Company announced its maiden independent JORC mineral resource estimate of 2.52moz gold. More details can be found in the Review of operations on page 4. Following on from its maiden resource estimate ("MRE"), a total of 7,190,000 Directors and management performance rights vested.

On 25 July 2024, the Company announced that it had issued 1,813,750 fully paid ordinary shares, of which 1,000,000 shares valued at \$200,000 were issued in relation to an advisor for assistance with the Afema gold exploration permit applications and accrued at balance date, as well as 813,750 shares valued at \$173,207 in settlement of legacy outstanding liabilities recorded at balance date.

Apart from the above, no other matter or circumstance has arisen which significantly affected, or may significantly effect, the operations of the Group, the results of those operations or the state of affairs of the Group in subsequent financial periods.

DIRECTORS' DECLARATION

In accordance with a resolution of the directors of Turaco Gold Limited we state that:

In the opinion of the directors:

- (a) the financial statements and notes of the Group are in accordance with the Corporations Act 2001, including:
 - (i) giving a true and fair view of the Group's financial position as at 30 June 2024 and of its performance for the half year ended on that date; and
 - (ii) complying with Accounting Standard AASB 134: Interim Financial Reporting and the Corporations Regulations 2001; and other mandatory professional reporting requirements.
- (b) there are reasonable grounds to believe that Turaco Gold Limited will be able to pay its debts as and when they become due and payable.

This declaration is signed in accordance with a resolution of the Board of Directors made pursuant to s.303(5) of the Corporations Act 2001, and on behalf of the Board by:

INDEPENDENT AUDITOR'S REVIEW REPORT

To the Members of Turaco Gold Limited

Report on the Condensed Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of Turaco Gold Limited ("the Company") and its controlled entities ("the Group"), which comprises the condensed consolidated statement of financial position as at 30 June 2024, the condensed consolidated statement of profit or loss and other comprehensive income, the condensed consolidated statement of changes in equity and the condensed consolidated statement of cash flows for the half-year ended on that date, selected explanatory notes, and the directors' declaration, for the Group comprising the Company and the entities it controlled at the half-year end or from time to time during the half-year.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of Turaco Gold Limited does not comply with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the Group's financial position as at 30 June 2024 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibility is further described in the *Auditor's Responsibility for the Review of the Financial Report* section of our report. We are independent of the company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the "Code") that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Responsibility of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 30 June 2024 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.
