SCHEDULE 1: Key terms of the Share Subscription Agreement

Parties	1414 Degrees Limited (Company) Lind Global Fund II LP (Investor)
Advance Payment	The Investor will pay the Advance Payment Amount (A\$1,300,000) to the Company, as a prepayment for Subscription Shares to be issued to the Investor (or its nominee) to a deemed value of A\$1,560,000 (being the Subscription Amount) prior to the End Date (as defined below).
Term	24 months from the date of payment of the Advance Payment Amount (End Date). At any time prior to the End Date, and subject to the Company's prior written consent, the Investor may extend the End Date by up to 6 months. If, at the End Date any portion of the Subscription Amount remains outstanding, and no event of default has occurred, the Investor must give the Company a Subscription Notice in relation to the whole of the outstanding Subscription Amount.
Subscriptions	The Investor will have the right at any time prior to the End Date to subscribe for Subscription Shares up to the aggregate value of the Subscription Amount at the Subscription Price ¹ by issuing a notice to the Company (Subscription Notice). For clarity, the Investor may issue multiple Subscription Notices prior to the End Date whilst any portion of the Subscription Amount remains outstanding. The Investor's right to receive Subscription Shares from time to time pursuant to a Subscription Notice is subject to the Company's right to elect to make a cash payment to Investor in lieu of issuing the Subscription Shares required to be issued pursuant to that Subscription Notice, where that cash payment would be equal to the number of Subscription Shares that would have been issued pursuant to the Subscription Notice multiplied by the Market Price ² and the resulting amount further multiplied by 105%.
Repayment of outstanding Subscription Amount in full	The Company may elect, at any time after the date that is 6 months of the date of the payment of the Advance Payment Amount, to repay in full the then remaining balance of the Subscription Amount outstanding multiplied by 105%, although if the Company gives notice that it intends to do so the Investor will have the ability to subscribe for Shares to the value of one-third of the then remaining balance of the Subscription Amount.
Subscription Price and limits on Subscription Share issuances	The applicable Subscription Price may be: (a) A\$0.12 (Fixed Price); or (b) 90% of the average of the three lowest daily VWAPs ³ during the 20 actual trading days prior to the date on which the Subscription Price is to be determined, rounded down to the lowest A\$0.01 (Variable Price).

¹ Refer to the 'Subscription Price and limits on Subscription Share issuances' row below.

² Refer to the 'Market Price' row below.

³ '**VWAP**' means, in relation to a trading day, the volume weighted average price of the Shares on the ASX and Cboe on that trading day (in Australian dollars), as reported by Bloomberg.

	<p>If a Subscription Notice is issued within the first 4 months of the execution of the Share Subscription Agreement and an event of default has not occurred, the applicable Subscription Price must be the Fixed Price.</p> <p>If a Subscription Notice is issued within 5 to 12 months (inclusive) of the execution of the Share Subscription Agreement, the applicable Subscription Price may be determined by the Investor to be the Fixed Price or the Variable Price. During this period, the aggregate Subscription Amount for Subscription Shares subscribed for at the Variable Price in any one month must not exceed A\$80,000 (or if the Company does not receive any Tranche Amount pursuant to the Monthly Purchase Agreement in relation to that month, A\$150,000). The Investor may also, in its sole discretion, increase that amount to A\$240,000 in relation to any two months falling within that period.</p> <p>If a Subscription Notice is issued after 12 months of the execution of the Share Subscription Agreement, the applicable Subscription Price is the lesser of the Fixed Price and the Variable Price and there will be no limits on the Subscription Amount in respect of such Subscription Notices.</p> <p>As previously set out in this announcement, the Company's obligation to issue Shares under the agreements (including the Initial Shares, the Subscription Shares and the Tranche Shares, but excluding any Shares issued with prior shareholder approval and excluding any previously issued Shares the issue of which is subsequently ratified by the Company's shareholders) is being made pursuant to the Company's placement capacity under Listing Rule 7.1 and is limited to 35,725,278 Shares.</p>
Market Price	In relation to a Subscription Notice, the VWAP per Share for the actual trading day immediately prior to the issue of that Subscription Notice (Market Price).

Dilution protection	Where an issue of shares to the Investor would result in the voting power in the Company of the Investor or any other person exceeding 19.99%, the Company must not issue the relevant shares to the Investor but must instead repay to the Investor any outstanding Subscription Amount.
Initial Shares	<p>The Company will issue 20,000,000 Shares (Initial Shares) to the Investor after entry into the Share Subscription Agreement.</p> <p>The Initial Shares may subsequently be applied towards satisfying the Company's obligations to issue Subscription Shares or Tranche Shares from time to time under the Investment (subject to the Investor's consent or election to do so).</p>

	<p>The Investor may from time to time reduce the number of Initial Shares that may be applied towards satisfying the Company's obligations to issue Subscription Shares or Tranche Shares from time to time under the Investment as per above by paying the Company a cash amount calculated by multiplying that number of Initial Shares to be reduced with the Subscription Price applicable at the time of payment.</p> <p>If at the End Date, or upon termination of the Share Subscription Agreement, there are still a number of Initial Shares that have not been applied towards the Company's obligation to issue Subscription Shares or Tranche Shares, then provided the Shares are trading at that time, the Investor must pay the Company a cash amount calculated by the number of remaining Initial Shares with the Subscription Price applicable at that time.</p>
Commitment Fee	The Company will pay the Investor a commitment fee of A\$45,500 (representing 3.5% of the Advance Payment Amount). The commitment fee will be offset from Advance Payment Amount payable to the Company.
