Dear Shareholders,

I am pleased to present the 2024 Annual Report which is my first as Managing Director of the Company. I welcome the opportunity, together with the Management Team, to drive the future success of the business.

Strategy

The Company was fortunate enough to be presented the transformational opportunity to acquire the Ulytau Uranium Project located in Kazakhstan, the world's leading Uranium producer.

Following the announcement, we immediately laid out our strategic growth plans and began to execute it by applying for a significant contiguous and highly prospective tenement position.

As of today we have two new contiguous tenements granted and our Category 4 geological works approved for the Ulytau tenement.

We have worked tirelessly to develop a constructive relationship with our key stakeholders, particularly those within the village of Aksuyek, being our closest community and base of operations for our planned work programs. As a sign of the commitment and alignment of both parties, we were pleased to sign a social agreement with the district Government, which provided the framework for C29 to assist the village of Aksuyek with projects aligned to the social development of the community.

We look forward to commencing our exploration drilling shortly, where we are in the enviable position to have walk up targets.

Executive team changes

In March 2024, I was appointed Managing Director following the resignation of the Company's Executive Corporate Director, Jeremy King. Soon after we conducted a strategic review, which lead to an internal restructure of the Management team, resulting in significant streamlining and cost reductions. Central to this, we welcomed the appointment of Ms Ailsa Osborne as Chief Financial Officer and Company Secretary in June 2024.

Outlook

We will continue to focus our efforts on advancing exploration at our newly acquired Ulytau Uranium Project with the commencement of the initial drill program imminent.

Our success would not be possible without our people or the support of our shareholders. On behalf of the Board, I extend my gratitude to our people for their commitment and contributions, and we thank our shareholders, partners and communities for their ongoing support

Shannon Green | Managing Director

The directors present their report, together with the financial statements, on the consolidated entity (referred to hereafter as the 'consolidated entity') consisting of C29 Metals Limited (referred to hereafter as the 'company' or 'parent entity') and the entities it controlled at the end of, or during, the year ended 30 June 2024.

DIRECTORS

The following persons were directors of C29 Metals Limited during the whole of the financial year and up to the date of this report, unless otherwise stated:

Director	Position	Appointed	Resigned
David Lees	Non-Executive Chairman	1 July 2021	
Jamie Myers	Non-Executive Director	30 November 2022	
Shannon Green	Managing Director	15 March 2024	
Jeremy King	Executive Corporate Director	8 December 2022	15 March 2024
Tianjiao Yang	Non-Executive Director	30 November 2022	6 July 2023

PRINCIPAL ACTIVITIES

The principal activity of the consolidated entity during the year was the exploration of mining projects.

DIVIDENDS

There were no dividends paid, recommended, or declared during the current or previous financial year.

REVIEW OF OPERATIONS

During the year the Company continued systematic exploration over its portfolio of assets, with a focus on the Company's Mayfield Project located in Queensland.

During the last quarter of 2024 the Company completed the acquisition of the Ulytau Uranium Project in Kazakhstan.

Details of the Company Projects and activities is provided below.

Ulytau Uranium Project, Kazakhstan

Background

On 20 March 2024 the Company announced the acquisition of the Ulytau Uranium Project. The Company completed the transaction on 14 May 2024 with the issue of 42,857,142 consideration shares at \$0.07 for a total consideration value of \$3,000,000.

The Ulytau Project is located in the Almaty Region of Southern Kazakhstan approximately 15 km southwest of the Bota-Burum mine, one of the largest uranium deposits mined in the former Soviet Union. Exploration for uranium has been carried out in the area since 1953. Production of Uranium at the Bota Burum mine next to the village of Aksuyek commenced in 1956 and continued until 1991¹. Refer Figure 1 below for the Ulytau project location in relation to other Kazakhstan Uranium Mines.

Total mined reserves of Bota Burum are quoted at 20,000 tonnes of Uranium (44 million pounds)^{1,2}.

1- https://zakon.uchet.kz/rus/history/P010001006_/14.04.2010 - Translated from Russian, accessed 19 07 24.

2- https://uk.wikipedia.org/wiki/Рудник_Бота-Бурум - Translated from Russian, accessed 19 07 24.

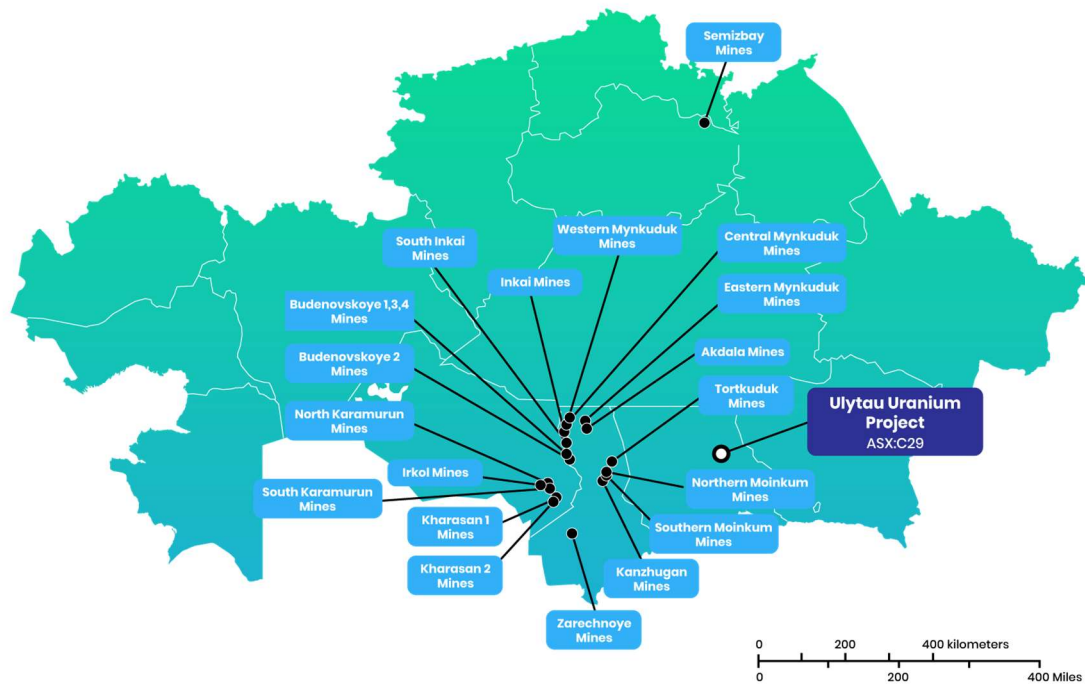

Figure 1 – Ulytau project location in relation to other Kazakhstan Uranium mines.

Post balance date the Company announced the application and subsequent granting of 2 licences expanding the area surrounding the Ulytau project by a further 252km² along the interpreted mineralised trend. Refer Figure 2 below.

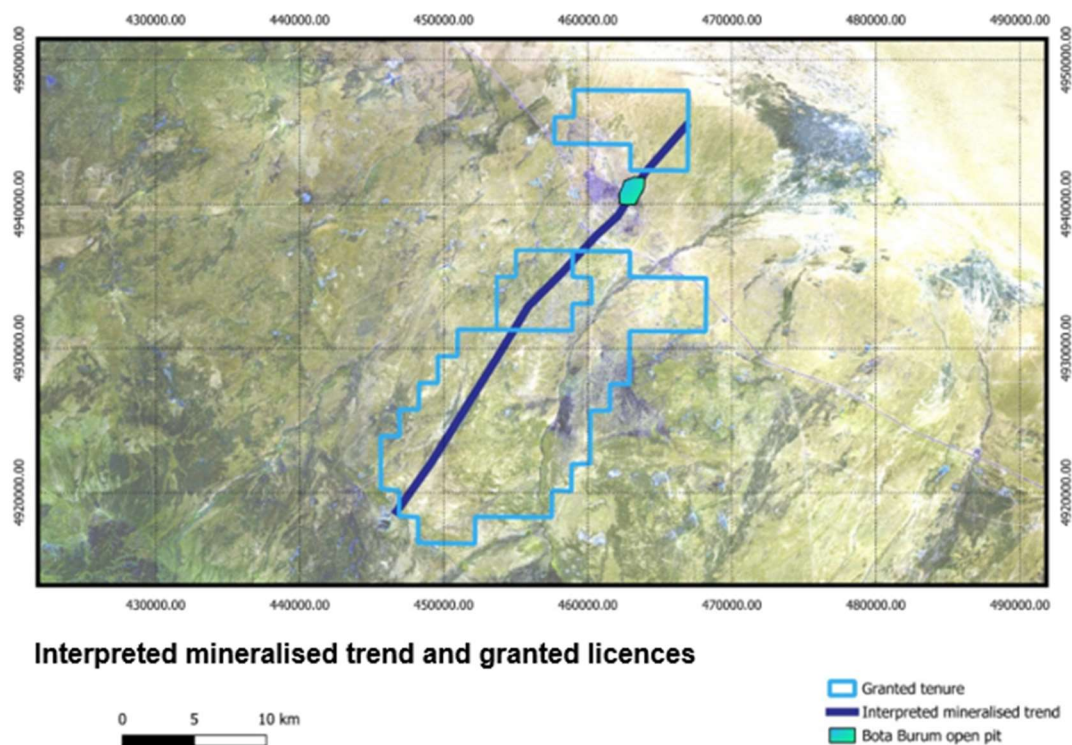

Figure 2 – The interpreted mineralised Uranium trend with the newly granted licences

The mineralised trend outside of the ~25sqkm Ulytau licence area has been identified through analysis of Sentinel 2 satellite imagery combined with historical drilling data. C29 is confident that the new application areas cover ~18km of highly prospective Uranium mineralisation trend.

Local Community Support

The Company held a community consultation day at the local community of Aksuyek, population ~700 people, located ~20km from Ulytau project area. The local community of Aksuyek have shown their strong support for the Company's planned exploration programs. Aksuyek will provide a base of operations for the work programs and can provide many of the required support services to the Company.

Post balance date a second community consultation was held subsequent to which a social support agreement was signed with the district government providing the framework for the Company to assist the village of Aksuyek with projects aligned to the social development of the community. The signing of this very important agreement demonstrates the commitment by both parties to work together to ensure mutually beneficial outcomes are sustainably delivered into the future.

Exploration Activities

The Company commenced initial exploration activities post balance date in August 2024 after receiving Category four (4) exploration approval. The initial geological program consisted of tenement wide mapping and soil sampling focusing on verification of historical shallow high-grade results and identification of the extent of the surface outcropping and shallow high-grade uranium across the tenement.

The geology team utilised a handheld XRF unit to provide real time geological information to the team and valuable geological data that will assist with the Initial drill hole targeting and methodology. Results of this initial program are pending.

The Company is progressing the Category two (2) drilling approval which is at an advanced stage.

Mayfield Project, Queensland

Background

The Mayfield Project is located approximately 150 km South-East of Mount Isa within the Mary Kathleen Zone of the Eastern Succession.

The project area consists of a single large tenement and a smaller single block, with a combined area of 91 km², EPM19483 Mayfield.

Exploration Activities

During the year the Company undertook a maiden drilling programme at its 100% owned Mayfield base metals exploration project in the worldclass eastern fold-belt of the Proterozoic Mount Isa Inlier in Queensland.

The Company's IP survey conducted in May 2023, the result of which were released on 6 July 2023, identified significant multiple chargeable and resistive anomalies over several of the previously delineated gravity and magnetic targets and was extended to cover strong chargeable anomalies heading north towards the Trekelano Mine pit. The extension lines for the Trekelano South prospect returned even stronger chargeability anomalism open to the north.

The Company's maiden Reverse Circulation (RC) drill programme was designed to test the best targets identified. Drilling commenced in December of 2023, 7 Reverse Circulation (RC) drill holes were completed with a total of 2,488 metres drilled. Refer below for the 3 best results.

Highlights

- 12m @ 1.55% Cu, 0.17ppm Au from 48m, including 3m @ 4.88% Cu and 0.40ppm Au from 56m (MFRC008).
- 10m @ 0.50% Cu from 212m, and 3m @ 0.71% Cu from 229m (MFRC002); (within wider low-grade intercept of 75m @ 0.21% Cu from 159m)
- 2m @ 0.56% Cu from 85m (MFRC007); (within wider low-grade intercept of 34m @ 0.15% Cu from 65m)

All results from this initial drill program are open up and down-dip, and along strike, with anomalous gold (to 0.61 ppm Au max) associated with all copper intersections. Copper-gold mineralisation at Mayfield is typically associated with a large 'redrock' alteration halo, which is a common feature of Iron Ore-Copper-Gold (IOCG) systems, where retrograde sulfide mineralisation typically uses the same 'plumbing' for the copper-gold mineralisation. The discovery of wide copper-gold intervals in three separate settings at Mayfield is considered an excellent outcome in respect of initial drill testing of potentially large mineralising systems with likely extensive extent.

Sampsons Tank Project, New South Wales

Background

The Company is targeting high-grade deformed and remobilized Besshi-type volcanic associated massive sulphide (VAMS) Cu-Au deposits. The project sits in an emerging high-grade copper district and shares key geological, geophysical, and geochemical analogous to the nearby Tritton Cu Mine, Collerina Cu, Tottenham Cu and Iron Duke Cu projects.

Torrens Project, South Australia

Background

The tenement resides within the Olympic Dam iron oxide copper gold (uranium) ("IOCG") province of the Stuart Shelf in central South Australia. The IOCG province is a Palaeoproterozoic and Mesoproterozoic tectonic and lithostratigraphic domain that extends for some 700km along the eastern margin of the Gawler Craton.

The Company is reviewing the feasibility of commencing exploration on this tenement, as such the Company has recognised an impairment expense at 30 June 2024.

FINANCIAL POSITION

The company made a loss for the year of \$ 3,421,399 (2023: loss \$2,642,035). Cash reserves were \$2,227,636 (30 June 2023: \$1,305,671) representing an increase of \$921,965.

CORPORATE ACTIVITIES

On 6 July 2023, Mr Tianjiao Yang resigned as a non-executive director.

On 13 September 2023, the Company announced it had received commitments for a placement of 7,000,000 fully paid ordinary shares at a price of 7.5 cents per share to sophisticated, professional and other exempt investors to raise A\$525,000 (before costs).

ARQ Capital Pty Ltd has been engaged to act as Lead Manager to the Placement. Fees payable are 6% across all funds raised and a \$10,000 management fee.

Net proceeds of the Placement will primarily be directed towards a maiden drill program of its Mayfield project in Mt Isa, Queensland Australia, continued work on its NSW Sampsons Tank copper project and its other projects and for funding working capital. Up to the reporting date, all the funds has been received.

On 17 November 2023, the Company held its Annual General Meeting, all resolutions were conducted by a poll and carried with the exception of resolution 9.

On 20 March 2024, the Company announced it had entered into a announce it has entered into a binding share sale and purchase agreement (Acquisition Agreement) with CA Metals Pty Ltd (CA Metals) and Ulytau Resources Ltd (Ulytau Resources) to acquire a 100% legal and beneficial interest in a granted exploration licence located in Kazakhstan (Ulytau Uranium Project).

The consideration under the Acquisition Agreement is comprised of:

- a) subject to shareholder approval, \$1,500,000 worth of shares to the shareholders of CA Metals (or their nominees) at settlement of the Acquisition Agreement;
- b) subject to shareholder approval, \$1,500,000 worth of shares to the shareholders of Ulytau Resources (or their nominees) at settlement of the Acquisition Agreement; and
- c) subject to shareholder approval, \$1,000,000 worth of shares to the shareholders of Ulytau Resources (or their nominees) upon the Company announcing a JORC 2012 Inferred Mineral Resource Estimate of 3,000,000 Tonnes @ 0.2% U308 on the Ulytau Project.

(together, the Consideration Securities).

The number of Consideration Securities to be issued will be determined based on a deemed issue price equal to the greater of the 20-day VWAP of the Company's shares as traded on ASX and \$0.07 each.

On 20 March 2024, the Company announced it received firm commitments from sophisticated and professional investors to raise \$3,000,000 (before costs) through a two- tranche placement of a total of 42,857,143 fully paid ordinary shares in the capital of the Company (Placement Shares) and an issue price of \$0.07 each (Placement). The Placement will be completed as follows:

- a) 8,095,036 Placement Shares will be issued pursuant to the Company's placement capacity under Listing Rule 7.1 and 5,304,964 Placement Shares will be issued pursuant to the Company placement capacity under Listing Rule 7.1A; and
- b) 29,457,143 Placement Shares will be issued subject to shareholder approval and the Company next general meeting (General Meeting). The issue price of \$0.07 represents a 0% discount to the last trading price of \$0.07 on 13 March 2024 and a premium of 6% to the 15-day volume weighted average price of \$0.066.

The Company has engaged ARQ Capital Pty Ltd (Lead Manager) to manage the Placement. The Lead Manager (or its nominees) will receive a capital raising fee of 6% on the amount raised under the Placement and a management fee of \$15,000.

Funds will be directed towards exploration activities in the Ulytau Uranium Project, costs of the acquisition and working capital.

On 20 March 2024, the Company announced the appointment of Mr Shannon Green as Managing Directors and the resignation of Mr Jeremy King.

On 6 May 2024, the Company held an Extraordinary Meeting of Shareholders, all resolutions were conducted by a poll and carried.

On 4 June 2024, the Company announced the appointment of Ms Ailsa Osborne as Company Secretary and the resignation of Mr Mauro Piccini as Company Secretary.

On 5 June 2024, the Company announced the appointment of Ms Ailsa Osborn as Chief Financial Officer.

On 5 June 2024, the Company announced the change of company office.

On 11 June 2024, the Company announced the appointment of Mr Alan Marlow as the Company's Geological Competent Person (CP).

EVENTS SUBSEQUENT TO REPORTING DATE

On 24 July 2024, the Company announced the lodgement of two (2) new licence applications with the Kazakhstan ministry of Natural Resources. The Southern application (application number 1905-EA, lodged 17/07/2024) is contiguous with the Ulytau licence area, and sits immediately to the South and East of the Ulytau Uranium project tenement boundaries. The Southern application area is ~213 km².

The Northern application (application number application number 1913-EA, lodged 17/07/24) sits to the north of the Ulytau Uranium project tenement and immediately North of the historic Bota Burum Uranium mine. The Northern licence application area is ~39 km².

On 1 August 2024, the Company announced the granting of the Southern application (application number 1905-EA, lodged 17/07/2024).

On 4 September, the Company announced the granting of the Northern application (application number 1913-EA, lodged 17/07/2024).

There have been no other transactions or events of a material and unusual nature likely, in the opinion of the Directors of the Company, to significantly affect the operations of the Company, the results of those operations, or the state of affairs of the Company in future financial years.

LIKELY DEVELOPMENTS AND EXPECTED RESULTS OF OPERATIONS

Information on likely developments in the operations of the consolidated entity and the expected results of operations have not been included in this report because the directors believe it would be likely to result in unreasonable prejudice to the consolidated entity.

MATERIAL BUSINESS RISKS

The Company's exploration and evaluation operations will be subject to the normal risks of mineral exploration. The material business risks that may affect the Company are summarised below.

Future capital raisings

The Company's ongoing activities may require substantial further financing in the future. The Company will require additional funding to continue its exploration and evaluation operations on its projects with the aim to identify economically mineable reserves and resources. Any additional equity financing may be dilutive to shareholders, may be undertaken at lower prices than the current market price and debt financing, if available, may involve restrictive covenants which limit the Company's operations and business strategy. Although the Directors believe that additional capital can be obtained, no assurances can be made that appropriate capital or funding, if and when needed, will be available on terms favourable to the Company or at all. If the Company is unable to obtain additional financing as needed,

it may be required to reduce, delay or suspend its operations and this could have a material adverse effect on the Company's activities and could affect the Company's ability to continue as a going concern.

Exploration risk

The success of the Company depends on the delineation of economically mineable reserves and resources, access to required development capital, movement in the price of commodities, securing and maintaining title to the Company's exploration and mining tenements and obtaining all consents and approvals necessary for the conduct of its exploration activities. Exploration on the Company's existing tenements may be unsuccessful, resulting in a reduction in the value of those tenements, diminution in the cash reserves of the Company and possible relinquishment of the tenements. The exploration costs of the Company are based on certain assumptions with respect to the method and timing of exploration. By their nature, these estimates and assumptions are subject to significant uncertainties and, accordingly, the actual costs may materially differ from these estimates and assumptions.

Accordingly, no assurance can be given that the cost estimates and the underlying assumptions will be realised in practice, which may materially and adversely affect the Company's viability. If the level of operating expenditure required is higher than expected, the financial position of the Company may be adversely affected.

Feasibility and development risks

It may not always be possible for the Company to exploit successful discoveries which may be made in areas in which the Company has an interest. Such exploitation would involve obtaining the necessary licences or clearances from relevant authorities that may require conditions to be satisfied and/or the exercise of discretions by such authorities. It may or may not be possible for such conditions to be satisfied. Further, the decision to proceed to further exploitation may require participation of other companies whose interests and objectives may not be the same as the Company's. There is a complex, multidisciplinary process underway to complete a feasibility study to support any development proposal. There is a risk that the feasibility study and associated technical works will not achieve the results expected. There is also a risk that, even if a positive feasibility study is produced, the project may not be successfully developed for commercial or financial reasons.

Regulatory risk

The Company's operations are subject to various Commonwealth, State and Territory and local laws and plans, including those relating to mining, prospecting, development permit and licence requirements, industrial relations, environment, land use, royalties, water, native title and cultural heritage, mine safety and occupational health. Approvals, licences and permits required to comply with such rules are subject to the discretion of the applicable government officials.

No assurance can be given that the Company will be successful in maintaining such authorisations in full force and effect without modification or revocation. To the extent such approvals are required and not retained or obtained in a timely manner or at all, the Company may be limited or prohibited from continuing or proceeding with exploration. The Company's business and results of operations could be adversely affected if applications lodged for exploration licences are not granted. Mining and exploration tenements are subject to periodic renewal. The renewal of the term of a granted tenement is also subject to the discretion of the relevant Minister. Renewal conditions may include increased expenditure and work commitments or compulsory relinquishment of areas of the tenements comprising the Company's projects. The imposition of new conditions or the inability to meet those conditions may adversely affect the operations, financial position and/or performance of the Company.

*Mineral resource estimate risk*

Mineral resource estimates are expressions of judgement based on knowledge, experience and industry practice. These estimates were appropriate when made but may change significantly when new information becomes available. There are risks associated with such estimates. Mineral resource estimates are necessarily imprecise and depend to some extent on interpretations, which may ultimately prove to be inaccurate and require adjustment. Adjustments to resource estimates could affect the Company's future plans and ultimately its financial performance and value. Gold, copper, and Uranium metal price fluctuations, as well as increased production costs or reduced throughput and/or recovery rates, may render resources containing relatively lower grades uneconomic and may materially affect resource estimations.

Environmental risk

The operations and activities of the Company are subject to the environmental laws and regulations of Australia and Kazakhstan. As with most exploration projects and mining operations, the Company's operations and activities are expected to have an impact on the environment, particularly if advanced exploration or mine development proceeds. The Company attempts to conduct its operations and activities to the highest standard of environmental obligation, including compliance with all environmental laws and regulations. The Company is unable to predict the effect of additional environmental laws and regulations which may be adopted in the future, including whether any such laws or regulations would materially increase the Company's cost of doing business or affect its operations in any area. However, there can be no assurances that new environmental laws, regulations or stricter enforcement policies, once implemented, will not oblige the Company to incur significant expenses and undertake significant investments which could have a material adverse effect on the Company's business, financial condition and performance.

Availability of equipment and contractors

Prior to the COVID-19 pandemic, appropriate equipment, including drill rigs, was in short supply. There was also high demand for contractors providing other services to the mining industry. The COVID-19 pandemic only served to exacerbate these issues. Consequently, there is a risk that the Company may not be able to source all the equipment and contractors required to fulfil its proposed activities. There is also a risk that hired contractors may underperform or that equipment may malfunction, either of which may affect the progress of the Company's activities.

ENVIRONMENTAL REGULATION

The economic entity holds participating interests in a number of mining and exploration tenements. The various authorities granting such tenements require the tenement holder to comply with the terms of the grant of the tenement and all directions given to it under those terms of the tenement. There were no breaches of these regulations during the 2024 financial year.

AUDITOR'S INDEPENDENCE DECLARATION

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 forms part of the Directors' Report and is included on page 23.

DIRECTOR AND COMPANY SECRETARY INFORMATION

Mr David Lees | Non-Executive Chairman

Appointed 1 July 2021

Qualifications: Bachelor of Economics, Post graduate Diploma in Applied Finance and Investment (FINSIA)

Other current directorships: Sultan Resources Limited (ASX: SLZ)

Former directorships (last 3 years): Nil

Interests in Shares and Options over Shares in the Company: 141,667 fully paid ordinary shares and 1,950,000 options held indirectly

Mr Lees has over 20 years' experience in the Australian financial services industry starting his career as a stockbroker before moving into investment and funds management. These roles have given David extensive experience in capital markets with a diverse skillset covering investment management, business development and corporate governance. Mr Lees holds a Bachelor of Economics from Murdoch University and a post graduate diploma in Applied Finance and Investment (FINSIA).

Mr Jamie Myers | Non-Executive Director

Appointed 30 November 2022

Qualifications: Nil

Other current directorships: NorTech Strategic Minerals Limited, Alice Queen Limited (ASX:AQX)

Former directorships (last 3 years): Pathfinder Resources Ltd (ASX: PFI)

Interests in Shares and Options over Shares in the Company: 4,400,000 shares and 750,000 options held indirectly

Mr Myers has over 15 years in equities dealing and corporate advisory experience. Previously the co-founder and Executive Director of iiZen Equities before a corporate exit to Paterson's Securities, Mr Myers has held equity advisory roles at iiZen Equities, Paterson's Securities and Ord Minnett Limited and is Founder and Executive Director of Molo Capital. Mr Myers has extensive small cap experience and will be valuable to the Company as it proceeds to develop its asset.

Mr Shannon Green | Managing Director

Appointed 15 March 2024

Qualifications: Qld SSE Mine Managers Certificate, Graduate Diploma Mining Engineering, Diploma of Mining (Surface & underground) and a Diploma of (Finance)

Other current directorships: NorTech Strategic Minerals Limited, XLR8 Metals Limited

Former directorships (last 3 years): Pathfinder Resources Ltd (ASX: PFI)

Interests in Shares and Options over Shares in the Company: nil shares and 1,500,000 options held indirectly

Mr Green has considerable corporate experience includes, project transactions, capital raisings, marketing, technical and commercial due diligence experience. Mr Green has over 20 years mining and project development, corporate, resource development and mining operations experience, with extensive experience working in Africa and Australia having managed several significant projects from Feasibility through construction and into operation and held senior leadership roles with several Australian iron ore and gold mining operations.

**Mr Jeremy King | Executive Corporate Director**

Appointed 8 December 2022, Resigned 15 March 2024

Mr King is a corporate advisor and lawyer with over 16 years' experience in domestic and international legal, financial and corporate matters. Mr King spent several years in London where he worked with Allen & Overy LLP and Debevoise & Plimpton LLP and has extensive corporate experience, particularly in relation to cross-border private equity, leveraged buy-out acquisitions and acting for financial institutions and corporate issuers in respect of various equity capital raising.

Mr Tianjiao Yang | Non-Executive Director

Appointed 30 November 2022, Resigned 6 July 2023

Mr Yang has extensive experience in equity markets, with particular focus on mergers and acquisitions in the emerging market space, restructuring and capital sourcing from the Asian region. He has a strong network base with ultra-high net worth investors in China and Singapore. Mr Yang has been a founding investor in several early-stage resource projects in China which ultimately achieved production status. In addition, he has provided several Australian junior mining companies significant funding as part of cornerstone investment support.

Ms Ailsa Osborne | Company Secretary

Appointed 4 June 2024

Ms Osborne has more than 20 years' experience as a financial professional, including more than 15 years in the resource industry in Australia and internationally. Ms Osborne has held CFO and Company Secretary roles with a number of ASX listed companies.

Ms Osborne's qualifications include, CPA, BComm Accounting and Business Law, and a Graduate Diploma of Applied Corporate Governance and Risk Management.

Mr Mauro Piccini | Company Secretary

Resigned 4 June 2024

Mr Piccini spent 9 years at the ASX and possesses core competencies in publicly listed and unlisted company secretarial, administration and governance disciplines. Mr Piccini is a Chartered Accountant (CA) and a member of the Governance Institute of Australia (GIA).

MEETINGS OF DIRECTORS

The number of meetings of the company's Board of Directors ('the Board') held during the year ended 30 June 2024, and the number of meetings attended by each director were:

Director	Directors' meetings	
	Held while in office	Attended
Shannon Green	-	-
Jamie Myers	1	1
David Lees	1	1
Jeremy King	1	1
Tianjiao Yang	-	-

During the year the Directors held a number of informal meetings, with 11 formal resolutions made by way of circular resolution from 1 March 2024 to 30 June 2024, with a total of 15 formal resolutions made by way of circular resolution for the year.

REMUNERATION REPORT (Audited)

The report details the nature and amount of remuneration for the Key management personnel of C29 Metals Limited in accordance with the requirements of the Corporations Act 2001 and its Regulations. It also provides the remuneration disclosures required by Aus 25.4 to Aus 25.7.2 of AASB 124 Related Party Disclosures, which have been transferred to the Remuneration report in accordance with Corporations regulation 2M.6.04. For the purposes of this report, the term "executive" encompasses all directors of the Company.

Remuneration consists of a fixed remuneration and a long-term incentive portion as considered appropriate. The Board believes that options are an effective remuneration tool which preserves the cash reserves of the company whilst providing valuable remuneration.

The remuneration report is set out under the following main headings:

- Principles used to determine the nature and amount of remuneration
- Details of remuneration
- Executive service agreements
- Non-executive director service contracts
- Share-based compensation
- Additional information
- Additional disclosures relating to key management personnel

Principles used to determine the nature and amount of remuneration

The Board has structured a remuneration framework that is market competitive and complementary to the reward strategy of the consolidated entity and company.

The reward framework is designed to align rewards to shareholders' interests. The Board have considered that it should seek to enhance shareholders' interests by:

- focus on sustained growth in shareholder wealth through growth in share price, and delivering constant or increasing return on assets as well as focusing the directors on key non-financial drivers of value; and
- attracting and retains high calibre executives.

In accordance with best practice corporate governance, the structure of non-executive director and executive director remuneration is separate.

Non-executive directors' remuneration

Non-executive directors' fees are paid within an aggregate limit which is approved by the shareholders from time to time. Retirement payments, if any, are agreed to be determined in accordance with the rules set out in the Corporations Act at the time of the Directors retirement or termination. Non-Executive Directors remuneration may include an incentive portion of bonuses and/or options as considered appropriate by the Board, which may be subject to shareholder approval in accordance with the ASX listing rules.

The amount of aggregate remuneration sought to be approved by shareholders and the manner in which it is apportioned amongst directors is reviewed annually. The Board considers the amount of director fees being paid by comparable companies with similar responsibilities and the experience of the non-executive directors when undertaking the annual review process.

The Company determines the maximum amount for remuneration, including thresholds for share-based remuneration, for directors by resolution. Currently, the maximum amount of remuneration allocated to all non-executive directors approved by shareholders is \$300,000. Further details regarding components of director and executive remuneration are provided in the notes to the financial statements.

Executive remuneration

In determining the level and make up of executive remuneration, the Board negotiates a remuneration to reflect the market salary for a position and individual of comparable responsibility and experience. Due to the limited size of the Company and of its operations and financial affairs, the use of a separate remuneration committee is not considered appropriate. Remuneration is regularly compared with the external market by participation in industry surveys and during recruitment activities generally. If required, the Board may engage an external consultant to provide independent advice in the form of a written report detailing market levels of remuneration for comparable executive roles.

Company performance, shareholder wealth and director and executive remuneration

The remuneration policy has been tailored to increase goal congruence between shareholders, directors and executives. The achievement of this aim has been through the issue of options to directors to encourage the alignment of personal and shareholder interests. The recipients of the options are responsible for growing the Company and increasing shareholder value. If they achieve this goal, the value of the options granted to them will also increase. Therefore, the options provide an incentive to the recipients to remain with the Company and to continue to work to enhance the Company's value.

Use of remuneration consultants

The company has not made use of remuneration consultants during the current or prior financial years.

Voting and comments made at the company's 17th November 2023 Annual General Meeting ('AGM')

On 17 November 2023 the Remuneration Report was approved unanimously on poll. The poll results were 99.92% in support of the adoption of the remuneration report for the year ended 30 June 2023. The company did not receive any specific feedback at the AGM regarding its remuneration practices.

Executive service agreements (ESA)

Remuneration and other terms of employment for key management personnel are formalised in the Executive Service Agreements (ESA). Details of these agreements are as follows:

Name:	Shannon Green
Title:	Managing Director
Agreement commenced:	15 March 2024
Details:	\$275,000 per year plus statutory superannuation

Termination by the Company

The Company may terminate the Executives employment without reason, by giving six (6) months' written notice and making a payment equal to six (6) months' salary, or immediately if the Executive is convicted of any major criminal offence which brings the Company or its related body corporate into disrepute. The Company may otherwise terminate the Executive by giving one (1) month's written notice if the Executive:

- (i) is or becomes incapacitated by illness or injury for a period of two consecutive months (or any periods aggregating to two months in 12 months);
- (ii) is or becomes unsound of mind;
- (iii) commits any serious or persistent breach of any of the provisions contained in the Executive Service Agreement (ESA) that are not remedied within 14 days;
- (iv) is absent in, or demonstrates incompetence with regard to the performance of the Executive's duties under the ESA, or is neglectful of any duties under the ESA or otherwise does not perform all duties under this Agreement in a satisfactory manner, (provided the Executive is provided with a reasonable opportunity to remedy the specific matters complained of by the Board);
- (v) commits or becomes guilty of any Gross Misconduct; or
- (vi) refuses or neglects to comply with any lawful reasonable direction or order by the Company.

Termination by the Executive

The Executive may at their discretion, terminate the ESA if:

- (i) The Company commits any serious or persistent breach of the provisions contained in the ESA and the breach is not remedied within 28 days; or
- (ii) by giving three (3) months' written notice to the Company.

Expenses

The Company will reimburse the Executive for all reasonable expenses incurred by them in the performance of all duties in connection with the business of the Company.

The EAS otherwise contains provisions considered standard for an agreement of its nature (including representations and warranties and confidentiality provisions).

Non-executive director service contracts

On appointment to the Board all non-executive directors enter into a service agreement with the Company in the form of a letter of appointment. The term of appointment of all non-executive directors is subject to re-nomination and re-election and Annual General Meetings and all non-executive directors are expected to serve a minimum term of three years. There is no notice period required by non-executive directors and non-executive directors are not entitled to annual or long service leave benefits.

Details of these agreements are as follows:

Name:	David Lees
Title:	Non-Executive Chairman
Agreement commenced:	1 July 2021
Details:	\$72,000 per year plus statutory superannuation

Name:	Jamie Myers
Title:	Non-Executive Director
Agreement commenced:	30 November 2022
Details:	\$40,000 per year plus statutory superannuation

The term of each Director is open to the extent that they hold office subject to retirement by rotation, as per the Company's Constitution, at each AGM and are eligible for re-election as a Director at the meeting. Appointment shall cease automatically in the event that the Director gives written notice to the Board, or the Director is not re-elected as a Director by the shareholders of the Company. There are no entitlements to termination or notice periods.

Share-based compensation

Issue of shares

There were no shares issued to directors and other key management personnel as part of compensation during the year ended 30 June 2024.

Options

A total of 3,500,000 options were issued to Directors as compensation during the financial year ended 30 June 2024. A total of 2,000,000 options were issued as approved at the Annual General Meeting held 17 November 2023 and 1,500,000 options were issued as approved at the extraordinary General Meeting held 6 May 2024.

The valuation of the share-based payment transactions is measured by reference to fair value of the equity instruments at the date at which they are granted. The fair value has been determined using the Black-Scholes model, taking into account the terms and conditions upon which the options were granted.

The following inputs were used to value the options on issue:

	Shannon Green	David Lees	Jamie Myers	Jeremy King
Fair value per option	0.02394	0.03621	0.03621	0.03621
Number of options	1,500,000	500,000	750,000	750,000
Grant date	6 May 2024	17 Nov 2023	17 Nov 2023	17 Nov 2023
Expiry date	29 Jan 2026	12 Dec 2025	12 Dec 2025	12 Dec 2025
Exercise price	0.110	0.115	0.115	0.115
% vested	100%	100%	100%	100%
Expected volatility	89.83%	105.25%	105.25%	105.25%
Implied option life	1.73 yrs	2 yrs	2 yrs	2 yrs
Expected dividend yield	nil	nil	nil	nil
Risk free rate	4.082%	4.162%	4.162%	4.162%
Underlying share price at grant date	0.070	0.077	0.077	0.077

Additional information

The earnings of the consolidated entity for the four years* to 30 June 2024 are summarised below:

	2024	2023	2022	2021
	\$	\$	\$	\$
(Loss) before income tax	(3,421,399)	(2,642,035)	(1,002,239)	(58,808)
(Loss) after income tax	(3,421,399)	(2,642,035)	(1,002,239)	(58,808)
Share price at financial year end (\$) *	0.072	0.085	0.11	—*
Basic earnings per share (cents per share)	(5.23)	(6.01)	(3.42)	(0.71)

* No further historical information is shown above as the company was only incorporated in October 2020 and listed in November 2021.

Additional disclosures relating to key management personnel

C29 METALS

1. CORPORATE INFORMATION

C29 Metals Limited ("C29 Metals" or the "Company") is a company domiciled in Australia. The address of the Company's registered office is Suite 4, 4 Douro Place West Perth, Western Australia.

The Company is a for-profit entity and is primarily involved in identifying and investing in mineral exploration assets and conducting exploration activities on those assets.

2. STATEMENT OF MATERIAL ACCOUNTING POLICIES

The material accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1. *Adoption of new and amended accounting standards*

The consolidated entity has adopted all of the new, revised or amending Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period, and determined that there was no material impact on its financial statements in the current reporting year.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

The adoption of these Accounting Standards and Interpretations did not have any significant impact on the financial performance or position of the consolidated entity.

The following Accounting Standards and Interpretations are most relevant to the consolidated entity:

2.2. *Basis of preparation*

The financial statements are general purpose financial statements which have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ("AASB") and the Corporations Act 2001. The financial statements comply with International Financial Reporting Standards ("IFRS") adopted by the International Accounting Standards Board ("IASB"). C29 Metals Limited is a for-profit entity for the purpose of preparing the financial statements.

The financial statements are authorised for issue on 27 September 2024 by the directors of the Company.

2.3. *Historical cost convention*

The financial statements have been prepared under the historical cost convention, except for, where applicable, the revaluation of financial assets and liabilities at fair value through profit or loss, financial assets at fair value through other comprehensive income, investment properties, certain classes of property, plant and equipment and derivative financial instruments.

2.4. *Critical accounting estimates*

The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the consolidated entity's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 2.

C29 METALS

2.5. Parent entity information

In accordance with the Corporations Act 2001, these financial statements present the results of the consolidated entity only. Supplementary information about the parent entity is disclosed in note 25.

2.6. Principles of consolidation

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of C29 Metals Limited ('company' or 'parent entity') as at 30 June 2024 and the results of all subsidiaries for the year then ended. C29 Metals Limited and its subsidiaries together are referred to in these financial statements as the 'consolidated entity'.

Subsidiaries are all those entities over which the consolidated entity has control. The consolidated entity controls an entity when the consolidated entity is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the consolidated entity. They are de-consolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between entities in the consolidated entity are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the consolidated entity.

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. A change in ownership interest, without the loss of control, is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the non-controlling interest acquired is recognised directly in equity attributable to the parent.

Non-controlling interest in the results and equity of subsidiaries are shown separately in the statement of profit or loss and other comprehensive income, statement of financial position and statement of changes in equity of the consolidated entity. Losses incurred by the consolidated entity are attributed to the non-controlling interest in full, even if that results in a deficit balance.

Where the consolidated entity loses control over a subsidiary, it derecognises the assets including goodwill, liabilities and non-controlling interest in the subsidiary together with any cumulative translation differences recognised in equity. The consolidated entity recognises the fair value of the consideration received and the fair value of any investment retained together with any gain or loss in profit or loss.

2.7. Operating segments

Operating segments are presented using the 'management approach', where the information presented is on the same basis as the internal reports provided to the Chief Operating Decision Makers ('CODM'). The CODM is responsible for the allocation of resources to operating segments and assessing their performance.

2.8. Revenue recognition

The consolidated entity recognises revenue as follows:

Other revenue

Other revenue is recognised when it is received or when the right to receive payment is established.

C29 METALS

Interest income

Interest income is recognised as interest accrues using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant year using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

2.9. *Income tax*

The income tax expense or benefit for the period is the tax payable on that period's taxable income based on the applicable income tax rate for each jurisdiction, adjusted by the changes in deferred tax assets and liabilities attributable to temporary differences, unused tax losses and the adjustment recognised for prior periods, where applicable.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to be applied when the assets are recovered or liabilities are settled, based on those tax rates that are enacted or substantively enacted, except for:

- When the deferred income tax asset or liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting nor taxable profits; or
- When the taxable temporary difference is associated with interests in subsidiaries, associates or joint ventures, and the timing of the reversal can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

The carrying amount of recognised and unrecognised deferred tax assets are reviewed at each reporting date. Deferred tax assets recognised are reduced to the extent that it is no longer probable that future taxable profits will be available for the carrying amount to be recovered. Previously unrecognised deferred tax assets are recognised to the extent that it is probable that there are future taxable profits available to recover the asset.

Deferred tax assets and liabilities are offset only where there is a legally enforceable right to offset current tax assets against current tax liabilities and deferred tax assets against deferred tax liabilities; and they relate to the same taxable authority on either the same taxable entity or different taxable entities which intend to settle simultaneously.

2.10. *Current and non-current classification*

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in the consolidated entity's normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current.

C29 METALS

A liability is classified as current when: it is either expected to be settled in the consolidated entity's normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. All other liabilities are classified as non-current.

2.11. Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

2.12. Plant and equipment

Plant and equipment is stated at historical cost less accumulated depreciation and impairment. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Depreciation is calculated on a straight-line basis to write off the net cost of each item of plant and equipment (excluding land) over their expected useful lives as follows:

Plant and equipment	5 years
Computer equipment	3-5 years
Vehicles	5 years

The residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each reporting date.

An item of property, plant and equipment is derecognised upon disposal or when there is no future economic benefit to the consolidated entity. Gains and losses between the carrying amount and the disposal proceeds are taken to profit or loss.

2.13. Exploration and evaluation

Expenditure on acquisition, exploration and evaluation relating to an area of interest is carried forward where rights to tenure of the area of interest are current and;

- It is expected that expenditure will be recouped through successful development and exploitation of the area of interest or alternatively by its sale; and/or
- Exploration and evaluation activities are continuing in an area of interest but at balance date have not yet reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves.

Where the technical feasibility and commercial viability of extracting a mineral resource have been demonstrated then any capitalised exploration and evaluation expenditure is reclassified as capitalised "mine properties in development". Prior to reclassification, capitalised exploration and evaluation expenditure is assessed for impairment.

Exploration and evaluation assets are reviewed at each reporting date for indicators of impairment and are tested for impairment where such indicators exist. If testing performed indicates that the carrying value might not be recoverable the asset is written down to its recoverable amount. Any such impairment is recognised in profit or loss for the year.

Accumulated costs in relation to an abandoned area are written off to profit or loss in the period in which the decision to abandon the area is made.

C29 METALS

An impairment loss is reversed to the extent that the asset's carrying amount does not exceed the recoverable amount, but only to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in previous years.

2.14. Asset acquisitions

Where an acquisition does not meet the definition of a business combination the transaction is accounted for as an asset acquisition. The consideration transferred for the acquisition of an asset comprises the fair values of the assets transferred, the liabilities incurred and the equity interests issued by the consolidated entity. The consideration transferred also includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Acquisition-related costs with regards to the acquisition are capitalised. Identifiable assets acquired and liabilities assumed in the acquisition are measured at their fair value at the acquisition date.

2.15. Trade and other payables

These amounts represent liabilities for goods and services provided to the consolidated entity prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

2.16. Employee benefits

Accumulation Superannuation Funds

Obligations for contributions to accumulation superannuation funds are recognised as an expense in profit or loss when they are due.

Short-Term Benefits

Liabilities for wages and salaries, including non-monetary benefits, and annual leave expected to be wholly settled within 12 months of the reporting date are recognised in current liabilities in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled.

Long-Term Benefits

Liabilities for long service leave not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting date

2.17. Share based payments

The consolidated entity provides benefits to individuals acting as and providing services similar to employees (including Directors) of the consolidated entity in the form of share-based payment transactions, whereby individuals render services in exchange for shares or rights over shares ("Equity Settled Transactions").

There is currently an Employee Share Option Plan (ESOP) in place, which provides benefits to Directors and individuals providing services similar to those provided by an employee.

C29 METALS

The cost of these equity settled transactions with employees is measured by reference to the fair value at the date at which they are granted. The fair value is determined by using the Black Scholes formula, taking into account the terms and conditions upon which the instruments were granted. In valuing equity settled transactions, no account is taken of any performance conditions, other than conditions linked to the price of the shares of C29 Metals Limited ("Market Conditions").

The cost of the equity settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance conditions are fulfilled, ending on the date on which the relevant employees become fully entitled to the award ("Vesting date"). The cumulative expense recognised for equity settled transactions at each reporting date until Vesting Date reflects (i) the extent to which the vesting period has expired and (ii) the number of awards that, in the opinion of the Directors of the consolidated entity, will ultimately vest. This opinion is formed based on the best available information at balance date. No adjustment is made for the likelihood of the market performance conditions being met as the effect of these conditions is included in the determination of fair value at grant date. The statement of profit or loss and other comprehensive income charge or credit for a period represents the movement in cumulative expense recognised at the beginning and end of the period. No expense is recognised for awards that do not vest, except for awards where vesting is conditional upon a market condition.

Where the terms of an equity settled award are modified, as a minimum an expense is recognised as if the terms had not been modified. In addition, an expense is recognised for any increase in the value of the transaction as a result of the modification, as measured at the date of the modification.

Where an equity settled award is cancelled, it is treated as if it had vested on the date of the cancellation, and any expense not yet recognised for the award is recognised immediately. However, if a new award is substituted for the cancelled award, and designated as a replacement award on the date that it is granted, the cancelled and new award are treated as if they were a modification of the original award, as described in the previous paragraph.

The cost of equity-settled transactions with non-employees is measured by reference to the fair value of goods and services received unless this cannot be measured reliably, in which case the cost is measured by reference to the fair value of the equity instruments granted.

2.18. Issued capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

2.19. Earnings per share

Basic earnings per share

Basic earnings per share is calculated by dividing the profit or loss attributable to the owners of C29 Metals Limited, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the financial year.

C29 METALS

Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after-income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

2.20. Goods and services tax ('GST') and other similar taxes

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the tax authority. In this case it is recognised as part of the cost of the acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the tax authority is included in other receivables or other payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the tax authority, are presented as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the tax authority.

2.21. New accounting standards and interpretations not yet mandatory or early adopted

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the consolidated entity for the annual reporting period ended 30 June 2024. The consolidated entity has not yet assessed the impact of these new or amended Accounting Standards and Interpretations.

2.22. Critical accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. Judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below.

Note 9 – Exploration and evaluation

The consolidated entity's policy for exploration and evaluation is discussed in Note 2.13. The application of this policy requires management to make certain assumptions as to future events and circumstances. Any such estimates and assumptions may change as new information becomes available. If, after having capitalised exploration and evaluation expenditure, management concludes that the capitalised expenditure is unlikely to be recovered by future

C29 METALS

Note 14 – Share based payments

The consolidated entity measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by an external valuer using a Black Scholes model, using the assumptions detailed in the note 14.

For asset acquisitions settled via share based payment arrangements, the consolidated entity measures the cost of the asset at the fair value of the asset acquired, or if this cannot be determined, at the fair value of the equity instruments.

Note 6 – Recovery of deferred tax assets

Deferred tax assets are recognised for deductible temporary differences only if the consolidated entity considers it is probable that future taxable amounts will be available to utilise those temporary differences and losses. As at 30 June 2024 deferred tax assets have not been recognised because their realisation is not deemed probable.

3. OPERATING SEGMENTS

Identification of reportable operating segments

The consolidated entity is organised into two operating segments, being the exploration of minerals in Australia and exploration of minerals in Kazakhstan. This operating segment is based on the internal reports that are reviewed and used by the Board of Directors (who are identified as the Chief Operating Decision Makers ('CODM')) in assessing performance and in determining the allocation of resources.

	Kazakhstan	Australia	Total
30 June 2024	\$	\$	\$

Superannuation	29,393	34,096
	340,688	272,316

6. INCOME TAX EXPENSE

	30 Jun 2024	30 Jun 2023
	\$	\$
<i>Numerical reconciliation of income tax benefit and tax at the statutory rate</i>		
(Loss) before income tax expense	(3,421,399)	(2,642,035)

C29 METALS

	30 Jun 2024	30 Jun 2023
	\$	\$
Tax at the statutory tax rate of 25% (2023: 25%)	(855,350)	(660,509)
<i>Tax effect amounts which are not deductible/(taxable) in calculating taxable income:</i>		
Non-deductible expenditure	37,234	103,865
Change in temporary differences not recognised	818,116	556,644
	-	-
<i>Deferred tax assets not brought to account</i>		
Accruals and other timing differences	9,727	(17,506)
Tax losses	2,775,058	1,004,582
Capital raising costs	133,658	95,879
Exploration assets and property, plant and equipment	(1,313,529)	(442,014)
Prepayments	(9,614)	-
Other	1,397	-
Total deferred tax assets not brought to account	1,596,697	640,941

Potential deferred tax assets attributable to tax losses and other temporary differences have not been brought to account at 30 June 2024 and 2023 because the directors do not believe it is appropriate to regard realisation of the deferred tax assets as probable. These benefits will only be obtained if the consolidated entity derives future assessable income of a nature and of an amount sufficient to enable the benefit from the deductions for the expenditure to be realised; and no changes in tax legislation adversely affect the consolidated entity in realising the benefit from the deductions for the expenditure.

The taxation benefits of tax losses and temporary differences not brought to account will only be obtained if:

- the consolidated entity derives future assessable income of a nature and of an amount sufficient to enable the benefit from the deductions for the losses to be realised;
- the consolidated entity continues to comply with the conditions for deductibility imposed by law; and
- no change in tax legislation adversely affects the consolidated entity in realising the benefits from deducting the losses.

1. On 14 May 2024, the Company issued 42,857,142 consideration shares for a value of \$3,000,000 as consideration in respect of the acquisition tenements – Ulytau uranium project. (note 10)

Unlisted options that were issued are as follows:

On 31 August 2022, C29 Metals issued 1,558,963 shares at \$0.125 per share to completion of the acquisition of the Mayfield Copper Project.

On 25 October 2022, C29 Metals issued 1,000,000 shares (being a value of \$150,000 at a deemed issue price of \$0.15 per share) to Molo Capital or nominees, for facilitation fees on the Argentina lithium project.

C29 METALS

On 8 November 2022, C29 Metals issued a total of 2,600,000 Options to Directors (Director Incentive Options) based upon the approval from shareholders on Annual General Meeting. The shares issued comprised 1,200,000 options to Mark Major, 700,000 options each to Martin Helean and David Lees (Directors) in accordance with section 208 of the Corporations Act and Listing Rule 10.1.

At the same date, the company issued 150,000 employee incentive options to the company secretary, Mauro Piccini. All the options issued are unquoted with a strike price of \$0.18, and an expiry date before or on 8 November 2025.

As approved by shareholders at the Annual General meeting held 17 November 2023, the Directors were issued a total of 2,000,000 Options to provide a performance linked incentive component in the remuneration package. The issued comprised 750,000 Options to Jeremy King, 750,000 Options to Jamie Myers and 500,000 Options to David Lees

As approved by shareholders at the Extraordinary General meeting held 6 May 2024, Director, Mr Shannon Green, was issued 1,500,000 Options to provide a performance linked incentive component to his remuneration package, under his executive services agreement.

As approved by shareholders at the Annual General meeting held 17 November 2023, the Company issued 2,500,000 Options to ARQ Capital Pty Ltd as consideration for the provision of corporate advisory and capital raising services provided under the Advisor Mandate.

As approved by shareholders at the Annual General meeting held 17 November 2023, the Mr Craig Hall was issued 500,000 Options for the provision of technical and geological consulting services to the Company.

The unlisted options issued in the current year have been valued using the Black Scholes model. The model and assumptions are shown in the table below:

	Directors ^{a)}	Broker ^{b)}	Consultant ^{c)}	Director ^{a)}

C29 METALS

a) Share based payments

As approved by shareholders at the Annual General meeting held 17 November 2023, the Directors were issued a total of 2,000,000 Options to provide a performance linked incentive component in the remuneration package. The issued comprised 750,000 Options to Jeremy King, 750,000 Options to Jamie Myers and 500,000 Options to David Lees.

As approved by shareholders at the Extraordinary General meeting held 6 May 2024, Director, Mr Shannon Green, was issued 1,500,000 Options to provide a performance linked incentive component to his remuneration package, under his executive services agreement.

b) Broker - Advisor Mandate

As approved by shareholders at the Annual General meeting held 17 November 2023, the Company issued 2,500,000 Options to ARQ Capital Pty Ltd as consideration for the provision of corporate advisory and capital raising services provided under the Advisor Mandate.

c) Consultant

As approved by shareholders at the Annual General meeting held 17 November 2023, the Mr Craig Hall was issued 500,000 Options for the provision of technical and geological consulting services to the Company.

The weighted average exercise price of the options is \$0.18 (2023: \$0.18). The weighted average remaining contractual life of options outstanding at the end of the financial year was 1.40 years. (2023:2.91 years)

Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the company in proportion to the number of, and amounts paid on the shares held. The fully paid ordinary shares have no par value and the company does not have a limited amount of authorised capital.

On a show of hands every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

C29 METALS

Capital risk management

The consolidated entity's objectives when managing capital are to safeguard its ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders and to maintain an optimum capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the consolidated entity may issue new shares in order to meet its financing requirements.

The consolidated entity is subject to certain financing arrangements and meeting these are given priority in all capital risk management decisions. There have been no events of default on the financing arrangements during the financial year.

The capital risk management policy remains unchanged from the 30 June 2023 Annual Report.

Capital is regarded as total equity, as recognised in the statement of financial position, plus net debt. Net debt is calculated as total borrowings less cash and cash equivalents.

C29 METALS

17. DIVIDENDS

There were no dividends paid, recommended or declared during the current or previous financial year.

18. FINANCIAL RISK MANAGEMENT

Financial risk management objectives

The consolidated entity's activities can expose it to a variety of financial risks: market risk (including foreign currency risk, price risk and interest rate risk), credit risk and liquidity risk. The consolidated entity's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the consolidated entity. The consolidated entity uses different methods to measure different types of risk to which it is exposed. These methods include sensitivity analysis in the case of interest rate, foreign exchange and other price risks, ageing analysis for credit risk and beta analysis in respect of investment portfolios to determine market risk.

Risk management is carried out by the Board of Directors ('the Board'), which identifies, evaluates and hedges financial risks within the consolidated entity's operating units where considered appropriate.

Market risk

Foreign currency risk

The consolidated entity is not subject to significant levels of foreign exchange risk in relation to its financial instruments.

Price risk

The consolidated entity is not subject to significant levels of price risk in relation to its financial instruments.

Interest rate risk

The consolidated entity is not subject to significant levels of interest rate in relation to its financial instruments.

Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the consolidated entity. The consolidated entity has a strict code of credit, including obtaining agency credit information, confirming references and setting appropriate credit limits. The consolidated entity obtains guarantees where appropriate to mitigate credit risk. The maximum exposure to credit risk at the reporting date to recognised financial assets is \$2,261,952, (2023: \$1,373,461). Of this, 2,227,636 (2023: \$1,305,671) is held in bank deposits and are held at financial institutions with a minimum AA credit rating. The consolidated entity does not hold any collateral.

Liquidity risk

Vigilant liquidity risk management requires the consolidated entity to maintain sufficient liquid assets (mainly cash and cash equivalents) and available borrowing facilities to be able to pay debts as and when they become due and payable.

The consolidated entity manages liquidity risk by maintaining adequate cash reserves and available borrowing facilities by continuously monitoring actual and forecast cash flows and matching the maturity profiles of financial assets and liabilities.

C29 METALS

Remaining contractual maturities

The following tables detail the consolidated entity's remaining contractual maturity for its financial instrument liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the financial liabilities are required to be paid. The tables include both interest and principal cash flows disclosed as remaining contractual maturities and therefore these totals may differ from their carrying amount in the statement of financial position.

The carrying values of the consolidated entities financial instruments are as follows:

	30 Jun 2024	30 Jun 2023
	\$	\$
<i>Financial assets</i>		
Cash and cash equivalents	2,227,636	1,305,671
Other receivables	34,316	67,790
	2,261,952	1,373,461
<i>Financial liabilities</i>		
Trade and other payables	211,805	404,511
	211,805	404,511

Fair value of financial instruments

Unless otherwise stated, the carrying amounts of financial instruments reflect their fair value.

19. KEY MANAGEMENT PERSONNEL DISCLOSURES

Directors

The following persons were directors of C29 Metals Limited during the financial year:

Director	Position	Appointed	Resigned
David Lees	Non-Executive Chairman	1 July 2021	
Jamie Myers	Non-Executive Director	30 November 2022	
Shannon Green	Managing Director	15 March 2024	
Jeremy King	Executive Corporate Director	8 December 2022	15 March 2024
Tianjiao Yang	Non-Executive Director	30 November 2022	6 July 2023

C29 METALS

Compensation

The aggregate compensation made to directors and other members of key management personnel of the consolidated entity is set out below:

	30 Jun 2024	30 Jun 2023
	\$	\$
Short-term employee benefits	274,119	268,984
Post employment employee benefits	29,393	24,737
Termination benefits	50,000	-
Share based payments	108,319	361,140
	461,831	654,861

20. REMUNERATION OF AUDITORS

During the financial year the following fees were paid or payable for services provided by the auditor to the company:

	30 Jun 2024	30 Jun 2023
	\$	\$
<i>Audit services - RSM Australia Partners</i>		
Audit or review of the financial statements	39,235	34,500
	39,235	34,500

21. ASSET ACQUISITION – ULYTAU URANIUM PROJECT

On 14 May 2024, the Company issued 42,857,142 consideration shares for a value of \$3,000,000 as consideration in respect of the acquisition agreement announced on 20 March 2024.

The fair value of the consideration settled in equity was measured based on the share price of the company at acquisition date. The presumption that the fair value of the asset acquired can be reliably measured has been rebutted given the speculative nature of the asset being in early exploration phase.

The fair value of the purchase consideration has been allocated to the acquired asset as at the acquisition date as per the table below:

	Note	14 May 2024
		\$
<i>Consideration:</i>		
Consideration shares	14	3,000,000
		3,000,000

22. CONTINGENT ASSETS AND CONTINGENT LIABILITIES

There are no contingent assets at the reporting date.

Other contingent liabilities as at 30 June 2024 include:

Sampson Tank Project

A 2% net smelter return royalty in respect of any production within the area of the Tenement comprising the Sampson Tank Project (Sampson Tank Royalty). The Company will enter into a separate royalty deed with Gilmore Metals to document the terms of the Sampson Tank Royalty and which shall include a term which gives the Company the right (but not obligation) to purchase 50% of the Sampson Tank Royalty from Gilmore Metals for either (at the Company's election):

- 1) \$1,000,000 in cash; or
- 2) that number of Shares equal in value to \$1,000,000 based on a deemed issue price per Share equal to the 30-day VWAP of Shares as at the date of the Company's election.

Reedy Creek Project

A 2 % net smelter return royalty in respect of any production within the area of the Tenement comprising the Reedy Creek Project (Reedy Creek Royalty).The Company will enter into a separate royalty deed with shareholders of Oberon Gold to document the terms of the Reedy Creek Royalty and which shall include a term which gives the Company the right (but not obligation) to purchase 50% of the Reedy Creek Royalty from the shareholders of Oberon Gold for either (at the Company's election):

- 1) \$1,000,000 in cash; or
- 2) that number of Shares equal in value to \$1,000,000 based on a deemed issue price per Share equal to the 30-day VWAP of Shares as at the date of the Company's election.

Mayfield Project

A 2 % net smelter return royalty in respect of any production within the area of the Tenement comprising the Mayfield Project payable to Alcrest Royalties Australia Pty Ltd.

C29 METALS

Ulytau Uranium Project

Subject to C29 Metals Limited announcing a JORC Compliant Inferred Resource of 3,000,000 Tonnes @ 0.2% U3O8 (Milestone), the Company to issue a total AUD\$1,000,000 in shares in the Company (Deferred Consideration Shares), calculated at a deemed issue price equal to the higher of the 20-day VWAP prior to the announcement of the Milestone and a floor price of AUD\$0.07.

23. COMMITMENTS

	30 Jun 2024	30 Jun 2023
	\$	\$
<i>Exploration expenditure</i>		
Within 1 year	100,262	752,305
One year or later but no later than 5 years	312,211	1,957,686
	412,473	2,709,991

In order to maintain current rights of tenure to the exploration lease the Company was required to meet minimum expenditure requirements of the State Mines Departments. These obligations are not recorded in the financial statements.

24. RELATED PARTY TRANSACTIONS

Parent entity

C29 Metals Limited is the parent entity.

In accordance with a resolution of the Directors of C29 Metals Limited, I state that:

- (1) In the opinion of the Directors:
- the attached financial statements and notes comply with the Corporations Act 2001, the Accounting Standards, the Corporations Regulations 2001 and other mandatory professional reporting requirements;
 - the attached financial statements and notes comply with International Financial Reporting Standards as issued by the International Accounting Standards Board as described in note 1 to the financial statements;
 - the attached financial statements and notes give a true and fair view of the consolidated entity's financial position as at 30 June 2024 and of its performance for the financial year ended on that date;
 - there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable; and
 - the information disclosed in the attached consolidated entity disclosure statement is true and correct.
- (2) The Directors have been given the declarations required by section 295A of the Corporations Act 2001.

This declaration is made in accordance with a resolution of the Board of Directors.

David Lees | Non-Executive Chairman

27 September 2024

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF C29 METALS LIMITED

Opinion

We have audited the financial report of C29 Metals Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2024, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policy information, the consolidated entity disclosure statement, and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the Corporations Act 2001, including:

- (i) giving a true and fair view of the Group's financial position as at 30 June 2024 and of its financial performance for the year then ended; and
- (ii) complying with Australian Accounting Standards and the Corporations Regulations 2001.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the Corporations Act 2001, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

THE POWER OF BEING UNDERSTOOD
ASSURANCE | TAX | CONSULTING

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter	How our audit addressed this matter
Exploration and Evaluation Assets Refer to Note 9 in the financial statements	
<p>The Group has capitalised exploration and evaluation assets with a carrying value of \$5,249,689 as at 30 June 2024.</p> <p>We considered this to be a key audit matter due to the significant management judgment involved in assessing the carrying value of the asset including:</p> <ul style="list-style-type: none"> • Determination of whether additions to exploration and evaluation during the year are in compliance with Australian Accounting Standards; • Determination of whether the expenditure can be associated with finding specific mineral resources, and the basis on which that expenditure is allocated to an area of interest; • Determination of whether exploration activities have progressed to the stage at which the existence of an economically recoverable mineral reserve may be assessed; and • Assessing whether any indicators of impairment are present, and if so, judgments applied to determine and quantify any impairment loss. 	<p>Our audit procedures included:</p> <ul style="list-style-type: none"> • Assessing the Group's accounting policy for compliance with Australian Accounting Standards; • Assessing whether the Group's right to tenure of each area of interest is current; • Gained an understanding and evaluated supporting documentation relating to the transaction for the asset acquisition of the Ulytau Uranium Project and assessed that the amount capitalised to exploration and evaluation assets was in accordance with Australian Accounting Standards; • Testing, on a sample basis, additions of capitalised exploration and evaluation assets to supporting documentation and ensuring the amounts capitalised during the year are in compliance with the Group accounting policy and relate to the area of interest; • Assessing and evaluating management's assessment of whether indicators of impairment existed at the reporting date; • Assessing the amount of capitalised exploration and evaluation assets written off during the year; • Assessing management's determination that exploration and evaluation activities have not yet reached a stage where the existence or otherwise of economically recoverable reserves may be reasonably determined; • Enquiring with management and reviewing budgets and other supporting documentation as evidence that active and significant operations in, or relation to, the area of interest will be continued in the future; and • Assessing the disclosures in financial report.

Other Information

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2024 but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of:

- a. the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001*; and
- b. the consolidated entity disclosure statement that is true and correct in accordance with the *Corporations Act 2001*, and

for such internal control as the directors determine is necessary to enable the preparation of:

- i. the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and
- ii. the consolidated entity disclosure statement that is true and correct and is free of misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: https://www.auasb.gov.au/admin/file/content102/c3/ar2_2020.pdf. This description forms part of our auditor's report.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in within of the directors' report for the year ended 30 June 2024.

In our opinion, the Remuneration Report of C29 Metals Limited, for the year ended 30 June 2024, complies with section 300A of the Corporations Act 2001.

Responsibilities

Additional information required by ASX Listing Rules and not shown elsewhere in the report is set out below. The information is current as of 25 September 2024.

1. CORPORATE GOVERNANCE

Pursuant to the ASX Listing Rules, the Company's Corporate Governance Statement will be released in conjunction with this report. The Company's Corporate Governance Statement is available on the Company's website at: <https://c29metals.com.au/investors/>

2. SUBSTANTIAL SHAREHOLDERS

The Company has nil substantial shareholders and their associates. No substantial shareholder notices have been provided to the Company.

3. VOTING RIGHTS

The voting rights attached to each class of equity security are as follows:

Ordinary Shares

Each Ordinary Share is entitled to one vote at all general meetings of the Company. Each shareholder entitled to vote may vote in person or by proxy, attorney or representative or, if a determination has been made by the Board in accordance with clause 13.35 of the Company's constitution, by Direct Vote.

On a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder (or where a Direct Vote has been lodged) shall, in respect of each fully paid Ordinary Share held, or in respect of which they are appointed a proxy, attorney or representative, have one vote for the Share.

Options

There are no voting rights attached to any class of options on issue.

4. NON-MARKETABLE PARCELS

As at 25 September 2024, based on the Company's closing share price of \$0.073, an unmarketable parcel comprised 6,849 fully paid ordinary shares. There were 107 holders holding less than a marketable parcel of shares, for a total of 368,232 fully paid ordinary shares.
