Leading health imaging company Pro Medicus Limited [ASX: PME] today announced its wholly owned U.S. subsidiary, Visage Imaging, Inc., has signed an 8-year contract renewal with St Louis based Mercy Health. The contract has a minimum value of A\$98M.

The deal which covers both Visage 7 Viewer and Visage 7 Open Archive is transaction-based and has been negotiated at a higher per transaction cost. The term of the renewal has also been increased to 8 years from 7 years as per the original contract.

“The industry norm for renewals is for short extensions to the original contract at the same or lower price,” said Dr Sam Hupert, Pro Medicus CEO. “The fact that Mercy has renewed for a longer contract term and at an increased price shows confidence in our offering and reinforces our belief that the Visage solution delivers unparalleled value in terms of both financial and clinical ROI.”
