

## Business Update & Appendix 4C – Q1 FY25

### Key highlights

- Maiden quarter of positive operating cashflows in Q1 FY25 of \$345k
- \$215k new Contractor ARR added in Q1 FY25, bringing Contractor ARR to \$6.0m, increasing 23% on pcp
- Five contract expansions signed in Q1 FY25, driven by uplift in users and additional module uptake from Contractors
- Two new customers signed in Q1 FY25, including Bellevue Gold, demonstrating the ongoing traction in the mining & resources sector
- Record Contractor MRR in Q1 FY25 of \$497k, increasing 49% on pcp, driven by new contract wins and growing expansion deals
- \$8.0m Group ARR recorded in Q1 FY25, increasing 15% on pcp

BRISBANE Australia, 21 October 2024: Felix Group Holdings Ltd (ASX:FLX) (“**Felix**” or the “**Company**”) is pleased to release its quarterly business update and Appendix 4C for the period ended 30 September 2024 (“**Q1 FY25**”)

### Positive operating cashflows in Q1 FY25

Felix achieved a significant milestone in Q1 FY25, reaching positive operating cash flow for the first time. This is a result of careful cost management over the last 12 months, carefully calibrated to maximise growth while ensuring Felix progresses towards a sustainable cash flow profile. Operating cash flows improved by \$920k year-over-year, shifting from a \$575k outflow in Q1 FY24 to a \$345k inflow in Q1 FY25 (refer to Figure 1). Felix remains focused on continuing to drive Contractor ARR growth while maintaining a positive operating cash flow position.

### Felix's Co-Founder and CEO, Mike Davis commented:

*"In Q1 FY24, we set a target of achieving positive operating cash flow by Q1 FY25, a milestone we have now reached this quarter. This achievement is significant for Felix and our shareholders, as it demonstrates our ability to transition to a sustainable cash flow profile while maintaining strong top-line growth. Notably, Contractor ARR has continued to grow strongly at a compound annual growth rate of 38% over the past three years.*

*Looking ahead, our focus remains on delivering strong ARR growth while sustaining positive operating cash flows. We are seeing an expanding opportunity for Felix, driven by a record pipeline, contract expansions as customers broaden their use cases toward enterprise-wide adoption, and the rapid evolution in how organisations manage and engage their supply chains."*

### Contractor ARR growth

New contract wins and expansions in Q1 FY25 bring Contractor ARR to \$6.0m, increasing 23% on Q1 FY24 (refer to Figure 2). The result was driven by two new contract wins and five contract expansions, as customers increased the number of user licenses and uptake of additional modules. Felix continues to observe consistent contract expansions across accounts as customers increase their use cases towards full enterprise adoption.

**Figure 2. Contracted Contractor ARR (\$m)**

A key contract win this quarter was with Bellevue Gold (ASX:BGL), one of Australia's largest ASX-listed gold miners with a market capitalisation of \$1.8bn. This contract, associated with the Bellevue Gold Project, has initially seen Bellevue Gold license Felix's *Vendor management, Sourcing, and Contracts* modules. The contract is further evidence of Felix's traction in the mining & resources sector over the last 12 months.

In addition to Bellevue Gold, new contracts and expansion were signed with;

- **International Lubricant Distributors** (new), a leading supplier of high-quality lubricants and specialty fluids, providing innovative solutions for industrial and automotive needs
- The Australian division of **PCL** (expansion), a global general contracting construction company with operations in the US, Canada and the Caribbean
- **West Region Delivery Team**(expansion), a Sydney Water alliance consortium of leading contractors, including Abergeldie Complex Infrastructure, Fulton Hogan, Programmed, Stantec and Atlas
- **Pilbara Minerals** (ASX:PLS), (expansion), a leading Australian lithium mining company

- **Capricornia Energy Hub** (expansion), an energy project, integrating renewable energy sources like solar, wind, and battery storage to supply reliable, low-emission power for industries and the regional grid
- **Service Stream** (ASX:SSM) (expansion), a business providing integrated end-to-end asset life-cycle services to utility, telecommunications and transport asset owners, operators and regulators across Australia

Contractor MRR continues to grow, increasing 49% on pcp to \$497k in Q1 FY25, driven by the successful onboarding of new Contractor customers signed in the prior quarter and the implementation of expansion deals (refer to Figure 3). Strong Contractor MRR growth highlights Felix's continued execution of converting Contractors in the pipeline, while also expanding existing customer accounts.

**Figure 3. Contractor MRR at close of quarter (\$'000)**

Felix reported Net Revenue Retention (NRR) of 99% for Q1 FY25, reflecting a decline on prior quarters. The decrease is primarily attributed to the cycling of several large expansion deals, notably with Downer and NRW, which contributed \$550k in Q1 FY24. It is worth noting that there was no contractor churn during the quarter, underscoring the ongoing stability of Felix's base.

### Group financial update

Total Group ARR reached \$8.0m in Q1 FY25, representing a 15% increase compared to \$6.9m in Q1 FY24. This growth was primarily driven by growth in the Contractor platform while Vendor ARR remained stable relative to prior quarters. This is in line with expectations and Felix's strategic focus on scaling the Contractor platform, ahead of further monetising the large Vendor Marketplace over the medium term.

### Vendor Marketplace continues to scale

Felix increased the number of Vendors in the Vendor Marketplace to 109,031 in Q1 FY25, representing an increase of approximately 29% compared to the 84,460 vendors in Q1 FY24 (refer to Figure 4). The sustained growth in the Vendor Marketplace underscores Felix's the building value of the marketplace and opportunity to monetise once key modules and features are developed.

### Platform enhancement updates

During the quarter, significant progress was made across several key initiatives. A notable development was the introduction of multi-stage approval capabilities within RFQ and RFA approval forms, designed to streamline the approval process for joint venture projects requiring multiple approvals. The suite of native document management system integrations was also expanded to include Asite, which is undergoing rollout with an initial customer. Furthermore, the multilingual project is on track to be production-ready by the end of Q2 FY25.

### Key engagement metrics

New Contractor wins and continued uptake of Vendor Marketplace in Contractor workflows, including in international markets, has contributed to strong growth in key engagement metrics. These include for the period ending 30 September 2024:

- Number of Active Projects: +50% pcp
- Requests for Quotations (RFQ) sent by Contractors: +61% pcp
- Total active Vendor Compliance Documents: +31% pcp
- Total Contractor User Accounts: +20% pcp

### Corporate update

Felix reported receipts from customers of \$3.6m and net operating cash inflows of \$345k for the quarter ending 30 September 2024. In Q1 FY25, R&D intensity increased primarily due to increased feature development. Administration and corporate costs also increased due to seasonality, with Q1 involving major audit and compliance activities.

Payments totalling \$200k were made to related parties and associates for Directors' fees. These payments were included in cash flows from operating activities and cash flows from financial activities (item 6.1 in the below Appendix 4C). At the end of the quarter, Felix held \$2.3m in cash and cash equivalents, an increase on the prior quarter.
