

QUARTERLY REPORT – ACTIVITIES For Quarter Ended 30 September 2024

Odessa Minerals Limited (ASX: ODE) (“Odessa” or the “Company”) is pleased to report on its activities for the quarter ending 30 September 2024 (the “Quarter”).

HIGHLIGHTS:

Odessa’s Executive Director, David Lenigas, commented:

“During the quarter the Board has continued to rationalise the Company’s tenement portfolio, minimising expenditure and assessing the priorities for its exploration programs going forward in addition to assessing new opportunities. Our cash position is very healthy at \$3.2 million; post the two-tranche placing closing. At our Lyndon Uranium Project, we have completed the Heritage survey during the quarter. All Program of Works (POWs) for the drilling are in place but no drilling for uranium can occur at Lyndon until a base-line uranium survey has been completed which is expected to be finalised this quarter.”

Lyndon Uranium Project:

During the quarter an Aboriginal Heritage Survey was completed over the Company’s uranium drill targets. The final heritage report was received post quarter end and is being reviewed by the Company.

In addition, the Company finalised its Radiation Management Plan and submitted this to DEMIRS for approval.

Post quarter end, a base-line gamma survey was commenced, the completion of which is a DEMIRS requirement prior to considering any drilling on site.

Gascoyne East Project

During the quarter the company undertook a review of the Gascoyne East Project including the results of the recent airborne magnetic survey and interpretation, with a view to reducing tenure while retaining areas of high prospectivity.

The Company anticipates significantly reducing tenement holding costs as a result of the review, while maintaining tenure over priority prospects and drill targets on the project.

CORPORATE

Capital Raise

On 30 September 2024, the Company announced it had received firm commitments from professional and sophisticated investors for a Placement to raise \$1,112,500 (before costs) ("Placement") by way of a two-tranche placement of fully paid ordinary shares ("New Shares").

Tranche 1, comprising of 225 million New Shares, was to be issued immediately utilising the Company's existing placement capacity under ASX Listing Rule 7.1/7.1A. Tranche 2 is to comprise another 331.25 million New Shares which are to be subject to shareholder approval at the Company's AGM in November, including a subscription by Non-Executive Chairman Mr Zane Lewis for \$100,000 of New Shares.

The issue price of A\$0.002 per New Share represented a discount of nil to the last closing price of \$0.002 on 25 September and was at a 23.9% discount to the 15-day volume weighted average price of \$0.0263.
