Record Quarterly Cash Receipts

The Company received record quarterly cash receipts of approximately \$2.65 million.

CHART 1: QUARTERLY CASH RECEIPTS

Financial Discipline and Operational Efficiency

The improved operating cash outflow reported in the September 2024 quarter is a result of increased cash receipts and continued financial discipline.

The Company is focused on achieving positive operating cashflow through a combination of revenue growth and cost reductions. Whilst continuing to strategically invest in high-growth business segments, the Company is committed to continue reducing its overheads before 30 June 2025 and identify other cost reduction in the 2025 year.

CHART 2: PATHWAY TO POSITIVE OPERATING CASHFLOW

Expansion into eCommerce Vertical

Following on from the Company's success in the sports betting vertical, the eCommerce sector is now a target growth segment. The eCommerce sector is significantly larger than Sports Betting in both the number of customers and the total advertising spend.

The Company has commenced multiple trials for organisations based in the United States and is in discussions with major agencies across multiple jurisdictions to be the preferred vendor of anti-fraud services. These agencies have thousands of potential clients who could use the TrafficGuard service, providing substantial opportunity to drive revenue growth.

Commentary from Co-founder and CEO, Mat Ratty

"Whilst the sports betting and online gaming verticals continue to deliver significant quarter-on-quarter and year-on-year revenue growth for the Company, we are focused on expanding into the eCommerce vertical which we believe will accelerate our journey towards profitability. Delivering shareholder value remains our priority and we look forward to updating the market on our continued progress".

SCHEDULE 1: CONVERTIBLE LOAN NOTE

The Company has on issue 3,000,000 convertible notes each with a face value of \$1. The loan notes originally had a maturity date of 12 April 2024 which was subsequently extended to 12 April 2025. On maturity, the principal amount of \$3,000,000 together with interest capitalised to 12 April 2024 will be automatically converted into fully paid ordinary shares in the Company, whilst the interest capitalised over the period 13 April 2024 to 12 April 2025 will be paid in cash.

The Company may elect to redeem all or some of the convertible notes at any time prior to the maturity date.

The convertible notes are unsecured.

Interest

From 28 April 2022, interest accrues on the convertible notes at the rate of 8% per annum, capitalised at the end of each calendar quarter, and is to be satisfied in arrears upon the earlier of the redemption or maturity of the convertible notes. As at 30 September 2024, interest of \$748,038 has accrued and been capitalised.

On maturity, the interest capitalised to 12 April 2024 will be fully satisfied through the issue of conversion shares at the conversion price. Interest capitalised over the period 13 April 2024 to 12 April 2025 will be settled by way of a cash payment.

In the event the convertible notes are redeemed prior to maturity, the Company will pay to the noteholders an additional interest payment so that the total interest received by the noteholders in respect of those convertible notes is equivalent to the amount they would have received had the relevant convertible notes been held till maturity.

Conversion

The convertible notes, together with interest capitalised to 12 April 2024, will automatically convert into fully paid ordinary shares in the Company on the maturity date (**Conversion Shares**). Interest capitalised from 12 April 2024 to the maturity date will be paid on cash.

The Conversion Shares will be issued at a share price equal to 80% of the 90-day VWAP, unless such amount is:

- greater than \$0.17 in which case the conversion price will be \$0.17; or
- such amount is less than \$0.08 in which case the conversion price will be \$0.08.
