James Bay Minerals Limited (ASX:JBY) (Company) – Response to ASX Price Query

Dear Scarlett,

We refer to your letter dated 23 October 2024 with respect to the ASX price and respond as follows:

1. *Is JBY aware of any information concerning it that has not been announced to the market which, if known by some in the market, could explain the recent trading in its securities?*

The Company was relying on Listing Rule 3.1A in relation to undisclosed assay results at the time it received the ASX Price Query. However, it does not believe that these results were responsible for the increase in the price of the Company's shares, nor does it believe that confidentiality was lost in respect of these results.

On 14th October 2024, the Company announced the proposed acquisition of the Independence Gold Project in Nevada, United States. The Company believes the increase in share price is a result of this announcement, combined with the significant increase in gold and silver prices during the same period.

At the time of receiving the ASX Price Query the Company had received assay results for 73 of a total of 193 rock chip and channel samples from its La Grande Project in James Bay, Canada. The set of results were incomplete, and the Company was awaiting the balance of the assays for analysis and interpretation. The pending results were subsequently received on 24 October 2024 and are announced in conjunction with this ASX Price Query response.

2. *If the answer to question 1 is "yes".*

(a) *Is JBY relying on Listing Rule 3.1A not to announce that information under Listing Rule 3.1? Please note that the recent trading in JBY's securities would suggest to the ASX that such information may have ceased to be confidential and therefore JBY may no longer be able to rely on listing Rule 3.1A. Accordingly, if the answer to this question is "yes", you need to contact us immediately to discuss the situation.*

N/A

(b) *Can an announcement be made immediately? Please note, if the answer to this question is "no", you need to contact us immediately to discuss requesting a trading halt.*

N/A

- (c) ***If an announcement cannot be made immediately, why not and when is it expected that an announcement will be made?***

N/A

3. ***If the answer to question 1 is “no”, is there any other explanation that JBY may have for the recent trading in its securities?***

Refer to the response to query #1 above. The Company believes that the announcement of its proposed acquisition of the Independence Gold Project as well as the increase in the gold price to be the reason for the increase in share price.

4. ***Please confirm that JBY is complying with the Listing Rules and, in particular, Listing Rule 3.1.***

The Company confirms that it is in compliance with the Listing Rules and, in particular, Listing Rule 3.1.

5. ***Please confirm that JBY’s responses to the questions above have been authorised and approved under its published continuous disclosure policy or otherwise by its board or an officer of JBY with delegated authority from the board to respond to ASX on disclosure matters.***

Confirmed.

6. ***Please advise whether any samples from the exploration programme that the Company has recently or is currently undertaking have been sent to the laboratory? If yes, please provide the exact date on which the samples were sent to the laboratories.***

Batch 1 - Rock chip samples were sent to the laboratory on 3rd July 2024.

Batch 2 – Rock chip and channel samples were sent to the laboratory on 26th August 2024.

7. ***Please advise whether the Company is expecting any results from the laboratories in relation to its exploration programme and if yes, please advise when the results are expected to be provided to the Company. Please provide detailed information in relation to the timing of these results.***

All results have been received and there are no pending assays at the laboratory. The Company had received 73 results of the total 193 samples submitted for assay. The balance of the results was received 24th October 2024.

8. ***Please advise when the exploration was completed and when the samples were sent to the laboratories.***

Refer to the response to query #6 above.

9. ***Please advise what arrangements (if any) JBY has in place to maintain confidentiality of its assay results? Please provide detailed information***

James Bay Minerals has a strict chain of command. Assays are received via email to the Executive Director and Exploration Lead only. These are the only people who have access to the results as and when they are received from the laboratory. The results are then reviewed, interpreted and drafted into the appropriate ASX Release. The draft ASX announcement remains confidential and is provided to the Board for review prior to final approval and release.

Yours sincerely
