8.8	<p>If item 8.7 is less than 2 quarters, please provide answers to the following questions:</p> <p>8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?</p> <p>Answer: The entity's net operating cashflows will be a function of further efforts to raise funding – as recently disclosed, the entity has a range of proposed exploration activities that are ready to commence, particularly the proposed drilling at Mkuju, Tanzania. In the event that funding remains difficult to secure or is delayed, these activities will be postponed until the entity is in a position to proceed with them.</p>	

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: Yes. The entity has just completed a rights issue entitlement offer to existing shareholders. Although that offer closed recently with a significant under-subscription, new potential sources of funding were identified by the entity and are currently the subject of final negotiations and agreement.

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes. Based on the current level of financing discussions that are currently underway, the entity does expect to be able to continue its operations and meet business objectives. To the extent the new funding is delayed or not available the entity will postpone proposed exploration activities. Furthermore, the proposed funding is designed to be sufficient to retire the entity's short term loan of \$750,000 in favour of its Chairman, Mr Tighe on or before 30 November 2024. In the event the entity requires further time to repay this loan, discussions will take place in order to secure agreement on an extension of time for repayment.

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.
