AGUIA RESOURCES LIMITED

CHAIRMAN'S ADDRESS - 2024

Dear Aguia Shareholder

I am pleased to report to you that your Company has made considerable progress on its road to recovery. From the position a year ago, when the Company had barely two cents to rub together, we now see that the Company is well funded and on the cusp of gold production from the Santa Barbara Gold Project in Colombia. It is disappointing that we cannot publish more information or give you guidance on costs and production because of Chapter 5 of the ASX Listing Rules, because we do not have a JORC Resource, but we are still very enthusiastic about the future. Let me tell you why.

The takeover bid for Andean Mining Limited, launched in January 2024, was a game changer for Aguia. The high-grade and potentially very profitable Santa Barbara Gold Project has given excellent gold exposure to the Company in a time of a strongly rising gold price. It has enabled the raising of equity funds to ensure that the re-opening of the Project can occur without the need to take on debt. The recent trial mining of 500 tonnes of mineralised veins for the recovered grade of 20 gpt, by the previous owner of the project, gives us confidence that this will be a very rewarding project for Aguia.

There are two aspects of Santa Barbara that need to be mentioned. Firstly, the opportunity to establish a high-grade low-cost operation is instrumental in building a platform on which to grow the Company. The lack of a JORC resource right now should only be a temporary impediment. We expect to commence drilling in the March Quarter of 2025, with a view to calculating a JORC resource as early as possible. Given the extensive exposure of the near-vertical and linear veins in the adits that have already been developed, there is a high level of confidence in where the mineralisation is, its geometry, the mining conditions and the expected grades.

The second point is the presence of veins that have been mapped for a cumulative strike length of approximately 7 km. We will be drilling these in 2025, with a view to better understanding just how extensive the mineralisation really is. We believe the exploration upside is very significant.

Once we have established an operational presence in Colombia, Aguia will be well positioned to advance a number of other projects in our development pipeline. The

most obvious one is El Dovio, that has been tested with 34 drill holes and an exploration adit. This is already showing dimensions and grades that offer the promise of a substantial copper/gold development project that would employ larger scale mechanized mining equipment. That is something to look forward to later in 2025, as our immediate priority is Santa Barbara.

That is Colombia, but let's turn to our phosphate projects in Brazil. We received excellent news towards the end of October when the Federal Trial Court handed down a decision in the favour of Aguia. It ruled that there was no case to answer and it denied the plaintiff's request to annul the previously granted environmental licence. The process of the application for an injunction had gone on for more than three years. It threatened the very existence of Aguia, but that is now behind us. We can get on with the business.

Three years is a long time. It has seen the introduction of new management into Aguia and new perspectives. A new business model had been devised that will see the Company undertaking initiatives with one of more processing plants in the Caçapava region rather than initiating a brand-new facility at Tres Estrades. This will result in leasing or toll treating arrangements that significantly reduce up front capital costs. Aguia will be able to commence production as early as mid-2025, and ramp up production over time. Looking 2-3 years out, Aguia could be producing from a number of orebodies apart from Tres Estrades, processing through more than one facility. There are many commercial aspects to consider as we optimise the projects, but you can be assured that we will be seeking to maximise returns for shareholders.

Aguia is poised at the starting gate for what promises to be an exciting year ahead. Money has been raised, Santa Barbara is commissioning at a time of record gold prices and we will soon start drilling to assess the magnitude of the gold bearing veins. We have a green light on the phosphate projects. The improving share price is reflective of the enthusiasm that we all feel. We have a common objective - to make Aguia a profitable company for the benefit of all shareholders. We aim to make it a company that you can be proud of, run to the highest standards of accountability to you, the shareholders and indeed, the owners of the Company.

PRINCIPAL ACTIVITIES

The principal activities of the consolidated entity during the year were the continued exploration and development of resource projects, predominately phosphate assets. On 6 June 2024 the Company announced the successful takeover of Andean Mining Limited ('Andean'), with its portfolio of high-grade gold, copper and silver projects in the neighbouring country, Colombia.

DIVIDENDS

There were no dividends paid, recommended or declared during the current or previous financial year.

OPERATING & FINANCIAL REVIEW

OVERVIEW OF THE COMPANY

Agua Resources Limited ('Agua') is an exploration and development company focused on Brazilian phosphate and copper projects. With the successful takeover of Andean Mining Limited ('Andean'), with operations in neighbouring country, Colombia, Agua adds to its portfolio, high-grade gold, copper and silver projects.

Agua is listed on the Australian Securities Exchange ('ASX') under the symbol AGR and has offices in Sydney, Australia, Brazil and Colombia. The Company currently controls over 1,800 km² of land in the Brazilian states of Rio Grande do Sul, Paraiba and Minas Gerais containing phosphate and copper mineralisation through exploration permits it has acquired from the Brazilian National Mining Agency ('ANM').

³ Ms Christina McGrath was appointed as Managing Director on the 6 September 2023. Ms Christina McGrath resigned as Executive Chair on 19 September 2023. Ms McGrath resigned as Managing Director on 14 June 2024.

Ms McGrath was appointed Non-Executive Director on the 14 June 2024.

On the 14 February 2024, the Company announced the appointment of Tim Hosking as In House Country Manager. Tim brings +15 years of c-suite and project management experience in Brazil, including 12 years as General Manager, South America for ASX-listed oil & gas company Karoon Energy. Mr Hosking is fluent in Portuguese and has overseen direct engagement with investors and policymakers in the Brazilian market.

TRES ESTRADAS: PHOSPHATE ASSETS

Delays in the advancement of Tres Estradas Project, caused by parties injunctioning the development, have been a major source of frustration for shareholders. Whilst the Company is confident that it will succeed in having the injunction lifted, timing is dependent upon a judicial review underway to resolve this dispute.

Negotiations for a lease or purchase agreement on an existing plant are at an advanced stage. Successful closure will negate the need for the development of processing operations at the Tres Estradas location. Aguiá estimates it can produce the same annual tonnage outlined in the original BFS for Tres Estradas for less than 25% of the original CAPEX. In addition, negotiations are underway with the Brazilian Development Bank to renew \$4.48m loan to debt fund up to 70% of project development costs, thus minimising dilution for shareholders. Aguiá is anticipating a very simple operation involving free digging, drying and physical reduction in size to a 2mm saleable product without the need for chemicals. Aguiá's Portfolio

includes a Measured & Indicated Phosphate resource of 83.21Mt at 4.11% P2O5 + Inferred of 21.8 MT at 3.67% P2O5.

RARE EARTH ELEMENTS ('REE') TARGETS

Historic diamond drill hole results from a 2011 drill campaign of the Tres Estradas show a total of 19 diamond drill holes had REE assays. The best individual result is from an oxidised carbonatite sample grading 2.16% or TREO 21,618 ppm. The results are based on assays from drill holes in only one of six known carbonatites on Aguiá's tenements. Priority will be given to exploration and assessment of the other five carbonatites.

COPPER ASSETS

Following the internal review of the Primavera Copper Project in Caçapava do Sul, Brazil, the Board of Aguiá Resources Limited decided not to exercise the C\$350,000 option that was due on 28 March 2024. An Option Contract Termination Agreement was signed with Referencial Geologia e Minação, thereby terminating the Company's interest in the Project.

The review of Primavera took into account the small size and low grade of the resource, the metallurgy and the social and environmental parameters of the Project and concluded that it was not in the best interests of shareholders to pursue a development that did not

For personal use only

offer sufficiently attractive economics. Withdrawal from the Project relieves the Company from having to make subsequent option payments amounting to approximately A\$4m over the next two years.

Agua still maintains a portfolio of 100%-owned licences that are prospective for copper mineralisation in the Caçapava do Sul area that will be systematically explored with the rate of exploration being dependent upon the availability of funding. That funding may come from internal cash resources, or it may come from joint venture arrangements.

ANDEAN MINING LIMITED

During the year, The Board was presented with the opportunity to acquire an unlisted public company, Andean Mining Limited ('Andean'), with its portfolio of high-grade gold, copper and silver projects in Colombia. On the 6 June 2024 Agua advised that its takeover offer to acquire all the shares of Andean closed at 5pm on 31 May 2024, with Agua acquiring a relevant interest in 93.71% of the shares of Andean as a result of acceptances of the takeover offer. The takeover offer was declared unconditional, and as a result all contracts resulting from acceptances were declared unconditional, on 24 May 2024. In accordance with the timeframe required under section 620(2) of the Corporations Act, Agua issued 422,411,334 fully paid ordinary Agua shares as consideration under the takeover offer in respect of acceptance on 14 June 2024. As

disclosed as a term of the takeover offer, the Agua shares issued as consideration under the takeover offer will be subject to voluntary escrow for 6 months from issue.

The acquisition came with an experienced management team headed by William Howe, who assumed the position of Managing Director and Chief Executive Officer of Agua upon completion of the takeover. William has extensive underground mining experience and has spent many years operating in Colombia, Chile and Peru. William relocated to Colombia to provide in-country management expertise in the establishment of mining operations at the key project, the Santa Barbara Gold Mine.

Upon the completion of the takeover, Agua has been transformed into a company with a pipeline of projects that will underpin an extended growth curve. Building on earnings from the gold mine initially, subsequent developments could see Agua transformed into a producer of phosphate and copper to become a diversified mid-sized mining company. Geopolitical risk should be reduced by the Company now holding assets in two jurisdictions in South America which are in close physical proximity to each other.

For personal use only

CORPORATE

On 27 September 2023 Aguia announced the successful completion of a Private Placement at 1.45¢ to raise approximately \$500k.

On 18 December 2023 Aguia announced the closure of the 1 for 4 non-renounceable entitlement issue at 1.4¢ to raise approximately \$1.6m. It was symptomatic of the difficult equities market for junior mining companies that the take-up amounted to \$520,000.

On 31 January 2024, Aguia successfully placed the shortfall of approximately \$1m. Investor enthusiasm from both new and existing investors for the takeover of Andean was an important motivator. The funds were raised via the issue of approximately 73,200,951 fully paid Ordinary Shares to sophisticated and institutional investors at a price of A\$0.014 per share.

On 24 April 2024 Aguia announced the successful completion of a Private Placement of 78,497,919 fully paid Ordinary Shares to sophisticated and institutional investors at a price of A\$0.016 per share.

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

On the 6 June 2024 Aguia was pleased to advise that its takeover offer to acquire all the shares of Andean Mining Limited ('Andean') closed at 5pm on 31 May 2024, with Aguia acquiring a relevant interest in 93.71% of the shares of Andean as a result of acceptances of the takeover offer. The takeover offer was declared unconditional, and as a result all contracts resulting from acceptances were declared unconditional,

on 24 May 2024. In accordance with the timeframe required under section 620(2) of the Corporations Act, Aguia issued 422,411,334 fully paid ordinary Aguia shares as consideration under the takeover offer in respect of acceptance on 14 June 2024. As disclosed as a term of the takeover offer, the Aguia shares issued as consideration under the takeover offer will be subject to voluntary escrow for 6 months from issue.

There were no other significant changes in the state of affairs of the consolidated entity during the financial year.

MATTERS SUBSEQUENT TO 30 JUNE 2024

On 26 July 2024, Aguia announced the completion of a Private Placement raising approximately \$2.6 million. The funds were raised via the issue of approximately 104,000,000 fully paid Ordinary Shares to sophisticated and institutional investors at a price of A\$0.025 per share.

On 2 August 2024, Aguia announced that it completed its takeover of Andean Mining Limited ('Andean') Following the completion of the compulsory acquisition process Aguia has now acquired 100% of the Andean shares. On 6th August, 28,329,042 ordinary shares were issued to the remaining Andean shareholders.

On 30 August 2024, Aguia announced the completion of a Private Placement raising approximately \$2.5 million. The funds were raised via the issue of approximately 100,000,000 fully paid Ordinary Shares to sophisticated and

institutional investors at a price of A\$0.025 per share.

Following the EGM, which was held on 9 August 2024, shareholder approved the following resolutions, these have been actioned as follows;

- 5,000,000 unlisted options with an exercise price of \$0.04 expiring on 31 July 2027 were issued to Executive Chair, Warwick Grigor on 6 September 2024.
- 3,000,000 unlisted options with an exercise price of \$0.04 expiring on 31 July 2027 were issued to Non-Executive Director, Christina McGrath on 6 September 2024.
- 5,000,000 unlisted options with an exercise price of \$0.04 expiring on 31 July 2027 were issued to Managing Director, William Howe on 6 September 2024.
- 3,000,000 unlisted options with an exercise price of \$0.04 expiring on 31 July 2027 were issued to Non-Executive Director, Ben Jarvis on 6 September 2024.

On 23 September Aguia announced that it secured a Frankfurt Listing. The Company's German advisor, Axino Finance AG, confirmed that its shares are now listed on the Frankfurt and Stuttgart Stock Exchanges in Europe. The Frankfurt trading house (specialist), who is running the Company's order book in Germany, is Baader Bank in Frankfurt: <https://www.baaderbank.de/Home-365>. The Company's ticker symbol in Germany, is FSE:5N91.

On 25 October 2024, Aguia provided shareholders with an update on the public civil action ("PCA") filed by the Federal Public Prosecutors' Office ("FPPO") – later joined by five civil associations – against Aguia and FEPAM (the Rio Grande do Sul State EPA).

The Federal Court Trial Court of the City of Bagé, the State of Rio Grande do Sul has denied FPPO's request to annul the previous license granted by FEPAM to Aguia for

the Fosfato Três Estradas project finding that:

- a. The family ranchers do not fall under the concept of traditional community and, as such, no previous, free and informed consultation is mandatory, and
- b. The public hearing that took place met the legal requirements and was attended by populations from Dom Pedrito and Torquato Severo, reason why there would be no need to nullify the environmental license proceeding to have additional public hearings.

The effect of this decision is to reject the application for an injunction that has been under consideration for approximately three years, from July 2021. Aguia is now free to continue advancing the Tres Estrades Project under the already granted Installation and Environmental Licences. Under Brazilian Law, the next step is the preparation of the site for first production. Once the site has been prepared pursuant to the existing environmental approvals, the State Environmental Protection Foundation FEPAM will issue the Operational Licence and commercial mining operations can commence. Aguia anticipates this process will take 3-6 months to complete.

No other matter or circumstance has arisen since 30 June 2024 that has significantly affected, or may significantly affect the consolidated entity's operations, the results of those operations, or the consolidated entity's state of affairs in future financial years.

LIKELY DEVELOPMENTS & EXPECTED RESULTS OF OPERATIONS

A summary of the likely developments in the operations of the consolidated entity and the expected results of operations, to the extent they would not likely result in unreasonable prejudice to the consolidated entity, has been included in the review of operations report.

ENVIRONMENTAL REGULATION

The consolidated entity's operations are subject to various environmental laws and regulations under the relevant government's legislation. Full compliance with these laws and regulations is regarded as a minimum standard for all operations to achieve. Instances of environmental non-compliance by an operation are identified either by external compliance audits or inspections by relevant government authorities. There have been no significant known breaches by the consolidated entity during the financial year.

REMUNERATION REPORT

INFORMATION ON DIRECTORS

WARWICK GRIGOR

Executive Chair⁴

Appointed 14 June 2024

EXPERIENCE AND EXPERTISE

Mr Grigor brings +40-years of experience in Australian equity capital markets and the resources sector globally. In 1991, he and Andrew Forrest established Far East Capital Ltd, an ASIC licenced specialist investment bank. In 2008, Warwick sponsored a new stockbroking company named BGF Equities and took on the role of Executive Chairman. After three years, Canaccord Genuity acquired 50% of BGF. Four years later Warwick retired from broking to resume operatorship of Far East Capital.

More recently he has aligned himself with high-net-worth investors. A particular focus of recent years has been the interaction between technology, materials and mining. Mr Grigor is a graduate of the Australian National University, having completed degrees in law and economics.

REMUNERATION REPORT (AUDITED)

THIS OPENS THE REMUNERATION REPORT, WHICH HAS BEEN AUDITED

The remuneration report details the key management personnel remuneration arrangements for the consolidated entity, in accordance with the requirements of the Corporations Act 2001 and its Regulations.

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including all directors.

The remuneration report is set out under the following main headings:

- Principles used to determine the nature and amount of remuneration;
- Details of remuneration;
- Service agreements;
- Share-based compensation;
- Additional information;
- Additional disclosures relating to key management personnel;

PRINCIPLES USED TO DETERMINE THE NATURE AND AMOUNT OF REMUNERATION

The consolidated entity's remuneration policy for its key management personnel ('KMP') has been developed by the Board taking into account the size of the consolidated entity, the size of the management team for the consolidated entity, the nature and stage of development of the consolidated entity's current operations, and market conditions and comparable salary levels for companies of a similar size and operating in similar sectors.

In addition to considering the above general factors, the Board has also placed emphasis on the following specific issues in determining the remuneration policy for KMP:

- the consolidated entity is currently focused on undertaking exploration, appraisal and development activities.
- the risks associated with small cap resource companies whilst exploring and developing projects; and
- other than profit which may be generated from asset sales, the consolidated entity does not expect to be undertaking profitable operations until sometime after the commencement of commercial production on any of its projects.

In accordance with best practice corporate governance, the structure of non-executive director and executive director remuneration is separate.

NON-EXECUTIVE DIRECTOR REMUNERATION

The Board policy is to remunerate non-executive directors at market rates for comparable companies for time, commitment and responsibilities. Given the current size, nature and risks of the consolidated entity, incentive options have been used to attract and retain non-executive directors. The Board determines payments to the non-executive directors and reviews their remuneration annually, based on market practice, duties and accountability. Independent external advice is sought when required. The Board did not use remuneration consultants during the year.

The maximum aggregate amount of fees that can be paid to non-executive

directors is subject to approval by shareholders at a General Meeting. Total directors' fees paid to all non-executive directors is not to exceed \$400,000 per annum. Director's fees paid to non-executive directors accrue on a daily basis. To align directors' interests with shareholder interests, the directors are encouraged to hold shares in the consolidated entity and non-executive directors may in limited circumstances receive incentive options in order to secure their services.

EXECUTIVE REMUNERATION

The consolidated entity's remuneration policy is to provide a fixed remuneration component and a performance-based component. The Board believes that this remuneration policy is appropriate given the considerations discussed in the section above and is appropriate in aligning executives' objectives with shareholder and business objectives.

The executive remuneration and reward framework has four components:

- base pay;
- short-term performance incentives;
- share-based payments; and
- other remuneration.

The combination of these comprises the executive's total remuneration.

Fixed remuneration consists of base salaries, as well as employer contributions to superannuation funds and other non-cash benefits. Fixed remuneration is reviewed annually by the Board. The process consists of a review of company and individual performance, relevant comparative remuneration externally and internally and, where appropriate, external advice on policies and practices.

Short-term incentives ('STI') payments are granted to executives based on specific targets being achieved and include bonus

payments. Executives may be entitled to an annual cash bonus upon achieving various key performance indicators ("KPI's"), as set by the Board. KPIs may include:

- Permitting Approvals;
- Budget control;
- Marketing initiatives.

The Board has focused the consolidated entity's efforts on finding and completing new business opportunities. The Board considers that the prospects of the consolidated entity and resulting impact on shareholder wealth are largely linked to the success of this approach, rather than by referring to current or prior year earnings. Accordingly, the Board may pay a bonus to executive KMP's based on the success in generating suitable new business opportunities. A further bonus may also be paid upon the successful completion of a new business acquisition.

The long-term incentives ('LTI') include share-based payments. The Board has chosen to issue incentive options to some executives as a key component of the incentive portion of their remuneration, in order to attract and retain the services of the executives and to provide an incentive linked to the performance of the consolidated entity. The Board considers that each executive's experience in the resources industry will greatly assist the consolidated entity in progressing its projects to the next stage of development and the identification of new projects. As such, the Board believes that the number of incentive options granted to executives is commensurate to their value to the consolidated entity.

Other than service-based vesting conditions, options may be subject to vesting based on development milestones. The consolidated entity does not currently have a policy regarding executives entering into arrangements to limit their exposure to incentive options granted as part of their remuneration package.

VOTING AND COMMENTS MADE AT THE COMPANY'S 2023 ANNUAL GENERAL MEETING ('AGM')

The Company received in excess of 75% of 'for' votes in relation to its remuneration report for the year ended 30 June 2023. There were approximately 12 members present at the AGM on 27 November 2023. The company did not receive any specific feedback at the AGM regarding its remuneration practises.

CONSOLIDATED ENTITY PERFORMANCE AND LINK TO REMUNERATION

Remuneration for certain individuals is directly linked to performance of the consolidated entity. The consolidated entity is currently undertaking exploration and development activities and does not expect to be undertaking profitable operations (other than by way of material asset sales) until sometime after the successful commercialisation, production and sales of commodities from one or more of its projects. Accordingly, the Board does not consider earnings during the current and previous four financial years when determining, and in relation to, the nature and amount of remuneration of KMP. The performance measure which drives incentive awards is the Company's share price and the

discovery, delineation and development of new mineral resources. Refer to 'Additional information' of the remuneration report for details of the last five years earnings and share price.

DETAILS OF REMUNERATION

Details of the remuneration of key management personnel of the consolidated entity are set out in the following tables.

During the 30 June 2024 Financial year, the key management personnel of the consolidated entity consisted of the following directors of Aguia Resources Limited:

Service Agreements

Remuneration and other terms of employment for key management personnel are formalised in service agreements.

MANAGING DIRECTOR

Name: William Howe

Appointed: 14 June 2024

Agreement commenced: 14 June 2024.

Term of agreement: 3 months' notice by either party.

Details: Annual remuneration of A\$200,000. 5,000,000 options at 4 cents (subject to approval by shareholders at the next general meeting of shareholders).

MANAGING DIRECTOR (OUTGOING)

Name: Fernando Tallarico

Resigned: 6 September 2023

Agreement commenced: 16 October 2019.

Term of agreement: 3 months' notice to company and 6 months' notice by the Company.

Details: Annual remuneration of A\$ 396,000. Bonus as recommended and approved by the Board based on achievement of annual milestones subject to cash availability. Mr. Tallarico was also entitled to share based payment options, subject to Board approval.

NON-EXECUTIVE DIRECTORS

Non-executive directors may receive a board fee. The total fee pool for non-executive director is currently limited to \$400,000 per annum. All non-executive directors enter into a service agreement with the Company in the form of a letter of appointment. The letter summarises the board policies and terms, including remuneration, relevant to the office of director.

Share-based Compensation

ISSUE OF SHARES

No shares were issued to Key Management personnel as compensation during the year ended 30 June 2024.

OPTIONS ISSUED TO KEY MANAGEMENT PERSONNEL

The terms and conditions of each grant of options over ordinary shares affecting remuneration of directors and other key management personnel in this financial year or future reporting years are detailed in the table which follows.

TERMS AND CONDITIONS OF OPTIONS

DIRECTOR	NUMBER OF OPTIONS GRANTED	GRANT DATE	VESTING DATE AND EXERCISABLE DATE	EXPIRY DATE	EXERCISE PRICE	FAIR VALUE PER OPTION AT GRANT DATE
Fernando Tallarico	4,000,000	20/12/20	[a][b]	20/11/25	\$0.10	\$0.0189
Christina McGrath	1,500,000	20/12/20	[a]	20/11/25	\$0.10	\$0.0189
Martin McConnell	1,500,000	20/12/20	[a][b]	20/11/25	\$0.10	\$0.0189
Fernando Tallarico	5,000,000	30/11/21	[a][b]	30/11/26	\$0.10	\$0.0329
Christina McGrath	1,500,000	30/11/21	[a]	30/11/26	\$0.10	\$0.0329
Martin McConnell	1,500,000	30/11/21	[a][b]	30/11/26	\$0.10	\$0.0329

[a] The unlisted options will vest on the completion of the construction and subsequent opening of the TEPP mine. The options granted carry no dividend or voting rights.

[b] The unlisted options lapsed on respective resignation of Key Management Personnel.

The number of options over ordinary shares granted to and vested (but not yet exercised) by directors and other key management personnel as part of compensation during the year ended 30 June 2024 are set out below:

			34,500,000

* Unlisted options, no person entitled to exercise the options had or has any right by virtue of the option to participate in any share issue of the Company or of any other body corporate. The unlisted options do not carry any voting and dividend rights.

SHARES ISSUED ON THE EXERCISE OF OPTIONS

There were no ordinary shares of Aguia Resources Limited issued on the exercise of options during the year ended 30 June 2024 and up to the date of this report.

INDEMNITY AND INSURANCE OF OFFICERS

The Company has indemnified the directors and executives of the Company for costs incurred, in their capacity as a director or executive, for which they may be held personally liable, except where there is a lack of good faith.

During the financial year, the Company paid a premium in respect of a contract to insure the directors and executives of the Company against a liability to the extent permitted by the Corporations Act 2001. The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

INDEMNITY AND INSURANCE OF AUDITOR

The company has not, during or since the end of the financial year, indemnified or agreed to indemnify the auditor of the company or any related entity against a liability incurred by the auditor.

During the financial year, the company has not paid a premium in respect of a contract to insure the auditor of the company or any related entity.

PROCEEDINGS ON BEHALF OF THE COMPANY

No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

For personal use only

NON-AUDIT SERVICES

There were no non-audit services provided during the financial year by the auditor.

OFFICERS OF THE COMPANY WHO ARE FORMER PARTNERS OF HALL CHADWICK NSW

There are no officers of the Company who are former partners of Hall Chadwick NSW.

AUDITOR'S INDEPENDENCE DECLARATION

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out immediately after this directors' report.

AUDITOR

Hall Chadwick NSW continues in office in accordance with section 327 of the Corporations Act 2001.

This report is made in accordance with a resolution of directors, pursuant to section 298(2)(a) of the Corporations Act 2001.

On behalf of the directors

Notes to the Consolidated Financial Statements

Note 1. Significant accounting policies

The consolidated financial statements of the Company have been prepared in accordance with Australian Accounting Standards and Interpretations as issued by the Australian Accounting Standards Board (AASB) and Corporations Act 2001, as appropriate for a for-profit entity. The principal accounting policies adopted in the preparation of the general-purpose financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

NEW OR IMPENDING CHANGES TO ACCOUNTING STANDARDS AND INTERPRETATIONS

The consolidated entity has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

The adoption of these Accounting Standards and Interpretations did not have any significant impact on the financial performance or position of the consolidated entity.

GOING CONCERN

The financial report has been prepared on the going concern basis, which assumes continuity of normal business activities and the realisation of assets and the settlement of liabilities in the ordinary course of business.

The Group has incurred net losses after tax of \$5,795,437 (2023: \$2,236,834) and net cash outflows from operating and investing activities of \$2,555,524 (2023: \$4,688,346) for the year ended 30 June 2024. Cash on hand at 30 June 2024 is \$1,012,753 (2023: \$437,806). The Group has not generated significant revenues from operations.

As at the date of this report, the directors are satisfied that there are reasonable grounds to believe that the Group will be able to operate as a going concern based on the following matters:

- The Group's history of being able to raise funds when required, through capital raising, including;
 - \$2.6m raised subsequent to year end on 26 July 2024, via the issue of approximately 104,000,000 fully paid Ordinary Shares to sophisticated and institutional investors at a price of A\$0.025 per share and
 - \$2.5m raised on 30 August 2024 via the issue of approximately 100,000,000 fully paid Ordinary Shares to sophisticated and institutional investors at a price of A\$0.025 per share.
- The Group has capacity to manage its activities in the short term to minimise its funding requirements.
- The Directors regularly monitor the Group's cash position and, on an on-going basis, consider capital raisings or other methods to ensure that adequate funding continues to be available.
- The Group's Management teams have prepared cashflow projections that support the Group's ability to continue as a going concern. The Directors of the Company consider that the cashflow projections and assumptions are achievable, and in the longer term, significant revenues

will be generated from the further commercialisation of the projects, and accordingly, the Group will be able to continue as a going concern.

- The Public Civil Action (PCA) in respect of environmental permitting matter at the Phosphate Project remains on-going. The outcome, and associated next steps, is not currently determinable, however, Aguia remains committed to the project and will continue to fight the matter until resolved. Importantly, the matter does not impact the validity of the underlying mining concessions held by the Group.

In forming this view, the directors of the Company have considered the ability of the Company to generate sufficient revenues and raise funds as required by way of future capital raisings.

There are inherent uncertainties associated with growing revenue and the successful completion of capital raisings. Should the directors not be able to manage these inherent uncertainties and successfully secure funding as required, there would be significant uncertainty as to whether the Group would be able to meet its debts as and when they fall due and therefore continue as a going concern.

In the event that the Group is unable to achieve the above, such circumstances would indicate that a material uncertainty exists that may cast significant doubt as to whether the Group will continue as a going concern and therefore may not be able to realise its assets and extinguish its liabilities in the ordinary course of operations and at the amounts stated in the interim financial report.

Notwithstanding the above, the directors are satisfied that at the date of signing of the financial report, there are reasonable grounds to believe that the Group will be able to continue to pay its debts as and when they fall due and that it is appropriate for the

financial statements to be prepared on a going concern basis.

PARENT ENTITY INFORMATION

In accordance with the Corporations Act 2001, these financial statements present the results of the consolidated entity only. Supplementary information about the parent entity is disclosed in note 16.

PRINCIPLES OF CONSOLIDATION

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Aguia Resources Limited ('company' or 'parent entity') as at 30 June 2024 and the results of all subsidiaries for the year then ended. Aguia Resources Limited and its subsidiaries together are referred to in these financial statements as the 'consolidated entity'.

Subsidiaries are all those entities over which the consolidated entity has control. The consolidated entity controls an entity when the consolidated entity is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the consolidated entity. They are de-consolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between entities in the consolidated entity are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of

subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the consolidated entity.

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. A change in ownership interest, without the loss of control, is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the non-controlling interest acquired is recognised directly in equity attributable to the parent.

Where the consolidated entity loses control over a subsidiary, it derecognises the assets including goodwill, liabilities and non-controlling interest in the subsidiary together with any cumulative translation differences recognised in equity. The consolidated entity recognises the fair value of the consideration received and the fair value of any investment retained together with any gain or loss in profit or loss.

OPERATING SEGMENTS

Operating segments are presented using the 'management approach', where the information presented is on the same basis as the internal reports provided to the Board. The Board is responsible for the allocation of resources to operating segments and assessing their performance.

FOREIGN CURRENCY TRANSLATION

The financial statements are presented in Australian dollars, which is the parent company, Aguia Resources Limited's functional and presentation currency.

Foreign currency transactions

Foreign currency transactions are translated into Australian dollars using the

exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at financial year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

Foreign operations

The assets and liabilities of foreign operations are translated into Australian dollars using the exchange rates at the reporting date. The revenues and expenses of foreign operations are translated into Australian dollars using the average exchange rates, which approximate the rates at the dates of the transactions, for the period. All resulting foreign exchange differences are recognised in other comprehensive income through the foreign currency reserve in equity.

The foreign currency reserve is recognised in profit or loss when the foreign operation or net investment is disposed of.

REVENUE RECOGNITION

The consolidated entity recognises revenue as follows:

Interest

Interest revenue is recognised as interest accrues using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to

the net carrying amount of the financial asset.

Other revenue

Other revenue is recognised when it is received or when the right to receive payment is established. Government grants are recognised where there is reasonable assurance that the grant will be received, and all attached conditions will be complied with.

INCOME TAX

The income tax expense or benefit for the period is the tax payable (or benefit, in the form of, future tax losses to be offset against future taxable profits) on that period's taxable income based on the applicable income tax rate for each jurisdiction, adjusted by the changes in deferred tax assets and liabilities attributable to temporary differences, unused tax losses and the adjustment recognised for prior periods, where applicable.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to be applied when the assets are recovered or liabilities are settled, based on those tax rates that are enacted or substantively enacted, except for:

- When the deferred income tax asset or liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting nor taxable profits; or
- When the taxable temporary difference is associated with interests in subsidiaries, associates or joint ventures, and the timing of the reversal can be controlled, and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets are recognised for deductible temporary differences and

unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Members of the tax consolidated group and the tax sharing arrangement Aguia Resources Limited and its 100% owned Australian resident subsidiaries formed a tax consolidated group with effect from 1 July 2013. Aguia Resources Limited is the head entity of the tax consolidated group.

The carrying amount of recognised and unrecognised deferred tax assets are reviewed at each reporting date. Deferred tax assets recognised are reduced to the extent that it is no longer probable that future taxable profits will be available for the carrying amount to be recovered. Previously unrecognised deferred tax assets are recognised to the extent that it is probable that there are future taxable profits available to recover the asset.

Deferred tax assets and liabilities are offset only where there is a legally enforceable right to offset current tax assets against current tax liabilities and deferred tax assets against deferred tax liabilities; and they relate to the same taxable authority on either the same taxable entity or different taxable entities which intend to settle simultaneously.

CURRENT AND NON-CURRENT CLASSIFICATION

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in the consolidated entity's normal operating cycle; it is held primarily for

the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current.

A liability is classified as current when: it is either expected to be settled in the consolidated entity's normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. All other liabilities are classified as non-current.

Deferred tax assets and liabilities are always classified as non-current.

CASH AND CASH EQUIVALENTS

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

OTHER RECEIVABLES

Other receivables are recognised at amortised cost, less any allowance for expected credit losses.

PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment is stated at historical cost less accumulated depreciation and impairment. Freehold Land is stated at cost. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Depreciation is calculated on a straight-line basis to write off the net cost of each

item of plant and equipment over their expected useful lives as follows:

- Plant and equipment: 3-5 years.
- Freehold land: not depreciated.

The residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each reporting date.

An item of property, plant or equipment is derecognised upon disposal or when there is no future economic benefit to the consolidated entity. Gains and losses between the carrying amount and the disposal proceeds are taken to profit or loss. Any revaluation surplus reserve relating to the item disposed of is transferred directly to retained profits.

EXPLORATION AND EVALUATION ASSETS

Exploration and evaluation expenditure in relation to separate areas of interest for which rights of tenure are current is carried forward as an asset in the statement of financial position where it is expected that the expenditure will be recovered through the successful development and exploitation of an area of interest, or by its sale; or exploration activities are continuing in an area and activities have not reached a stage which permits a reasonable estimate of the existence or otherwise of economically recoverable reserves. Where a project or an area of interest has been abandoned, the expenditure incurred thereon is written off in the year in which the decision is made. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount.

When technical feasibility and commercial viability of extracting a mineral resource are demonstrable for

an area of interest, the Company stops capitalising exploration and evaluation costs for that area, tests recognized exploration and evaluation assets for impairment and reclassifies any unimpaired exploration and evaluation assets either as tangible or intangible development assets according to the nature of the assets.

The demonstration of the technical feasibility and commercial viability is the point at which management determines that it will develop the project and is subject to a significant degree of judgement and assessment of all relevant factors. This typically includes, but is not limited to, the completion of an economic feasibility study, the establishment of mineral reserves and the ability to obtain the relevant construction and operating permits for the project.

TRADE AND OTHER PAYABLES

These amounts represent liabilities for goods and services provided to the consolidated entity prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at amortised cost and are not discounted.

EMPLOYEE BENEFITS

Short-term employee benefits

Liabilities for wages and salaries, including non-monetary benefits, annual leave, long service leave and accumulating sick leave expected to be settled wholly within 12 months of the reporting date are measured at the amounts expected to be paid when the liabilities are settled. Non-accumulating sick leave is expensed to profit or loss when incurred.

Defined contribution superannuation expense

Contributions to defined contribution superannuation plans are expensed in the period in which they are incurred.

Share-based payments

Equity-settled share-based compensation benefits are provided to employees.

Equity-settled transactions are awards of shares, or options/warrants over shares, which are provided to employees in exchange for the rendering of services.

The cost of equity-settled transactions are measured at fair value on grant date. Fair value is independently determined using Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option, together with non-vesting conditions that do not determine whether the consolidated entity receives the services that entitle the employees to receive payment. No account is taken of any other vesting conditions.

The cost of equity-settled transactions are recognised as an expense with a corresponding increase in equity over the vesting period. The cumulative charge to profit or loss is calculated based on the grant date fair value of the award, the best estimate of the number of awards that are likely to vest and the expired portion of the vesting period. The amount recognised in profit or loss for the period is the cumulative amount calculated at each reporting date less amounts already recognised in previous periods.

If equity-settled awards are modified, as a minimum an expense is recognised as if the modification has not been made. An additional expense is

recognised, over the remaining vesting period, for any modification that increases the total fair value of the share-based compensation benefit as at the date of modification.

If the non-vesting condition is within the control of the consolidated entity or employee, the failure to satisfy the condition is treated as a cancellation. If the condition is not within the control of the consolidated entity or employee and is not satisfied during the vesting period, any remaining expense for the award is recognised over the remaining vesting period, unless the award is forfeited.

If equity-settled awards are cancelled, it is treated as if it has vested on the date of cancellation, and any remaining expense is recognised immediately. If a new replacement award is substituted for the cancelled award, the cancelled and new award is treated as if they were a modification.

FAIR VALUE MEASUREMENT

When an asset or liability, financial or non-financial, is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; and assumes that the transaction will take place either: in the principal market; or in the absence of a principal market, in the most advantageous market.

Fair value is measured using the assumptions that market participants would use when pricing the asset or liability, assuming they act in their economic best interests. For non-financial assets, the fair value measurement is based on its highest and best use. Valuation techniques that are appropriate in the circumstances and for which sufficient data are available to

measure fair value, are used, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Assets and liabilities measured at fair value are classified into three levels, using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. Classifications are reviewed at each reporting date and transfers between levels are determined based on a reassessment of the lowest level of input that is significant to the fair value measurement.

For recurring and non-recurring fair value measurements, external valuers may be used when internal expertise is either not available or when the valuation is deemed to be significant. External valuers are selected based on market knowledge and reputation. Where there is a significant change in fair value of an asset or liability from one period to another, an analysis is undertaken, which includes a verification of the major inputs applied in the latest valuation and a comparison, where applicable, with external sources of data.

CONTRIBUTED CAPITAL

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

EARNINGS PER SHARE

Basic earnings per share

Basic earnings per share is calculated by dividing the profit/(loss) attributable to the owners of Aguia Resources Limited, excluding any costs

of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the financial year.

Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after-income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

GOODS AND SERVICES TAX ('GST') AND OTHER SIMILAR TAXES

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the tax authority. In this case it is recognised as part of the cost of the acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the tax authority is included in other receivables or other payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the tax authority, are presented as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the tax authority.

Note 2. Critical accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below.

SHARE-BASED PAYMENT TRANSACTIONS

The consolidated entity measures the cost of equity-settled transactions with employees or suppliers by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by using either the Black-Scholes model taking into account the terms and conditions upon which the instruments were granted. Alternatively, shares issued for nil consideration in lieu of time served to the company are calculated based on the value of services provided to the Company. On

the date of share issuance, the share price from the trading day before, multiplied by the number of shares will equate to the value of services provided to the Company. The accounting estimates and assumptions used in the valuation models relating to equity-settled share-based payments would have no impact on the carrying amounts of assets and liabilities within the next annual reporting period but may impact profit or loss and equity.

CARRYING VALUE OF EXPLORATION AND EVALUATION ASSETS

The consolidated entity assesses carrying value of exploration and evaluation assets at each reporting date. If an impairment trigger exists, the recoverable amount of the asset is determined. Key judgements are applied in considering costs to be capitalised which includes determining expenditures directly related to these activities and allocating overheads between those that are expensed and capitalised. In addition, costs are only capitalised that are expected to be recovered either through successful development or sale of the relevant interest. The application of this exploration and evaluation expenditure policy requires management to make certain estimates and judgements as to future events and circumstances, particularly in relation to the assessment of whether sufficient data exist to indicate that the carrying amount of the exploration and evaluation asset is likely to be recovered in full from successful development or by sale. This includes consideration of the status of ongoing legal matters and how they may

impact the ability of the Group to develop the asset and therefore recover the carrying value of the asset.

Any such estimates and assumptions may change as new information becomes available. If, after having capitalised exploration and evaluation expenditure, management concludes that the capitalised expenditure is unlikely to be recovered by future exploitation or sale, then the relevant capitalised amount will be written off to the statement of profit or loss and other comprehensive income.

Note 3. Operating segments

IDENTIFICATION OF REPORTABLE OPERATING SEGMENTS

Subsequent to the acquisition of Andean Mining Limited, the operating segments of the consolidated entity is organized by geographical location, being Brazil, Colombia and Australia. These operating segments are based on the internal reports that are reviewed and used by the Board of Directors (who are identified as the Chief Operating Decision Maker ('CODM')) in assessing performance and in determining the allocation of resources. The accounting policies adopted for internal reporting to the CODM are consistent with those adopted in the financial statements. The information is reported to the CODM every month.

Note 4. Consolidated Income Tax Expense

	2024	2023
Numerical reconciliation of income tax expense and tax at the statutory rate		
Loss before income tax expense	(5,795,437)	(2,236,832)
Tax at the statutory tax rate of 25% (2023: 25%)	(1,448,859)	(559,208)
Tax effect amounts which are not deductible/(taxable) in calculating taxable income		
Expenditure not allowable for income tax purposes	21,624	129,570
Differences arising from losses in Brazil at a tax rate of 15%	53,138	272,206
Current year tax (loss) not recognised	(1,374,097)	(157,433)
Income tax expense	-	-

The potential tax benefit for tax losses presented below has not been recognised in the statement of financial position as it is unlikely they will be utilised in the foreseeable future. These tax losses can only be utilised in the future if the continuity of ownership test is passed, or failing that, the same business test is passed.

	2024	2023
Tax losses not recognised		
Unused tax losses for which no deferred tax asset has been recognised	24,821,172	23,447,075
Potential tax benefit @ 25% (2023: 25%)	6,205,293	5,861,769

TAX CONSOLIDATION

Members of the tax consolidated group and the tax sharing arrangement Aguia Resources Limited and its 100% owned Australian resident subsidiaries formed a tax consolidated group with effect from 1 July 2013. Aguia Resources Limited is the head entity of the tax consolidated group.

Note 5. Property, Plant and Equipment

Closing Balance 30 June 2024	30-Jun-24	1,083,027,028		135,372,571

CAPITAL RISK MANAGEMENT

The consolidated entity's objectives when managing capital are to safeguard its ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders and to maintain an optimum capital structure to reduce the cost of capital.

Capital is regarded as total equity, as recognised in the statement of financial position, plus net debt. Net debt is calculated as total borrowings less cash and cash equivalents. In order to maintain or adjust the capital structure, the consolidated entity may issue new shares or sell assets.

The consolidated entity would look to raise capital when an opportunity to invest in a business or company was seen as value adding relative to the current parent entity's share price at the time of the investment. The consolidated entity is continuously examining new business opportunities where the acquisition / working capital requirements may involve additional funding in some format, including issue of shares or debt where appropriate.

As at 30 June 2024, the consolidated entity is not subject to financing arrangements covenants.

For personal use only

Note 9. Consolidated Equity – Reserves

	2024	2023
Foreign currency reserve	(15,562,092)	(11,432,946)
Share-based payments reserve	6,127,164	5,996,811
Capital contribution reserve	82,185	82,185
	(9,352,743)	(5,353,950)

MOVEMENTS IN RESERVES

Movements in each class of reserve during the current and previous financial year are set out below:

	CAPITAL CONTRIBUTION	SHARE-BASED PAYMENTS	FOREIGN CURRENCY	TOTAL
Balance at 1 July 2022	82,185	5,636,937	(14,286,795)	(8,567,673)
Foreign currency translation	-	-	2,853,849	2,853,849
Share-based payments	-	359,874	-	359,874
Balance at 30 June 2023	82,185	5,996,811	(11,432,946)	(5,353,950)
Balance at 1 July 2023	82,185	5,996,811	(11,432,946)	(5,353,950)
Foreign currency translation	-	-	(4,129,146)	(4,129,146)
Share-based payments	-	130,353	-	130,353
Balance at 30 June 2024	82,185	6,127,164	(15,562,092)	(9,352,743)

CAPITAL CONTRIBUTION RESERVE

This reserve records the capital contribution arising from unrecognised interest due to non-arm's length interest rate at 1% on the \$1 million loan with Forbes Empreendimentos Ltd, a company associated with three of its current/former directors. The consolidated entity ceased to borrow from this counterparty in 2017.

SHARE-BASED PAYMENTS RESERVE

The reserve is used to recognise the value of equity benefits provided to employees and directors as part of their remuneration, and other parties as part of their compensation for services.

FOREIGN CURRENCY RESERVE

The reserve is used to recognise exchange differences arising from the translation of the financial statements of foreign operations to Australian dollars. It was also used to recognise gains and losses on hedges of the net investments in foreign operation

Note 10. Equity – Dividends

There were no dividends paid, recommended or declared during the current or previous financial year

Note 11. Financial Instruments

FINANCIAL RISK MANAGEMENT OBJECTIVES

The consolidated entity's activities expose it to a variety of financial risks: market risk (including foreign currency risk and interest rate risk), credit risk and liquidity risk. The consolidated entity's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the consolidated entity. Given the nature and size of the business and uncertainty as to the timing and amount of cash inflows and outflows, the consolidated entity does not enter into derivative transactions to mitigate the financial risks. In addition, the consolidated entity's policy is that no trading in financial instruments shall be undertaken for the purposes of making speculative gains. As the consolidated entity's operations change, the directors will review this policy periodically going forward.

The consolidated entity uses different methods to measure different types of risk to which it is exposed. These methods include sensitivity analysis in the case of interest rate, foreign exchange and other price risks, ageing analysis for credit risk in respect of investment portfolios to determine market risk.

MARKET RISK

Foreign currency risk

The consolidated entity undertakes certain transactions denominated in foreign currency and is exposed to foreign currency risk through foreign exchange rate fluctuations.

Foreign exchange risk arises from commercial transactions and recognised financial assets and financial liabilities denominated in a currency that is not the

entity's functional currency. The risk is measured using sensitivity analysis and cash flow forecasting.

The consolidated entity does not carry in its books any foreign currency other than its functional currency and therefore the risk associated with foreign currency risk is deemed to be minimal.

Interest rate risk

The consolidated entity's main interest rate risk arises from short-term deposits with a floating interest rate.

Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the consolidated entity. The maximum exposure to credit risk at the reporting date to recognised financial assets is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the statement of financial position and notes to the financial statements. The consolidated entity does not hold any collateral.

The consolidated entity has adopted a lifetime expected loss allowance in estimating expected credit losses to trade receivables through the use of a provisions matrix using fixed rates of credit loss provisioning. These provisions are considered representative across all customers of the consolidated entity based on recent sales experience, historical collection rates and forward-looking information that is available.

There are no significant concentrations of credit risk within the consolidated entity.

**Liquidity risk**

Liquidity risk is the risk that the consolidated entity will not be able to meet its financial obligations as they fall due. The Board's approach to managing liquidity is to ensure, as far as possible, that the consolidated entity will always have sufficient liquidity to meet its liabilities when due. Vigilant liquidity risk management requires the consolidated entity to maintain sufficient liquid assets (mainly cash and cash equivalents) to be able to pay debts as and when they become due and payable.

The consolidated entity manages liquidity risk by maintaining adequate cash reserves by continuously monitoring actual

and forecast cash flows and matching the maturity profiles of financial assets and liabilities.

Remaining contractual maturities

The following tables detail the consolidated entity's remaining contractual maturity for its financial instrument liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the financial liabilities are required to be paid.

CONSOLIDATED 2024	WEIGHTED AVERAGE INTEREST RATE %	1 YEAR OR LESS A\$	BETWEEN 1 AND 2 YEARS A\$	BETWEEN 2 AND 5 YEARS A\$	OVER 5 YEARS A\$	TOTAL A\$
NON-DERIVATIVES						
Non-interest bearing						
Trade payables & other payables	-	677,125	-	-	-	677,125
Accruals	-	66,427	-	-	-	66,427
Related Party Loan	-	95,000	-	-	-	95,000
Total non-derivatives	-	838,552	-	-	-	838,552

CONSOLIDATED 2023	WEIGHTED AVERAGE INTEREST RATE %	1 YEAR OR LESS A\$	BETWEEN 1 AND 2 YEARS A\$	BETWEEN 2 AND 5 YEARS A\$	OVER 5 YEARS A\$	TOTAL A\$
NON-DERIVATIVES						
Non-interest bearing						
Trade payables & other payable	-	119,077	-	-	-	119,077
Accruals	-	17,761	-	-	-	17,761
Total non-derivatives	-	136,838	-	-	-	136,838

The cash flows in the maturity analysis above are not expected to occur significantly earlier than contractually disclosed above.

Unless otherwise stated, the carrying amounts of financial instruments reflect their fair value.

The carrying amounts of trade and other receivables and trade and other payables are assumed to approximate their fair values due to their short-term nature.

Note 12. Key Management Personnel Disclosures

COMPENSATION

The aggregate compensation made to directors and other members of key management personnel of the consolidated entity is set out below.

	2024	2023
Short-term employee benefits	257,620	529,000
Superannuation	11,154	19,426
Share-based payments	51,310	346,967
	320,084	895,393

Note 13. Remuneration of Auditors

During the financial year the following fees were paid or payable for services provided by the auditor Hall Chadwick NSW, or any of their network firms:

	2024	2023
Audit Services Hall Chadwick NSW	50,000	-

GUARANTEES ENTERED INTO BY THE PARENT ENTITY IN RELATION TO THE DEBTS OF ITS SUBSIDIARIES

The parent entity had no guarantees in relation to the debts of its subsidiaries as at 30 June 2024 and 30 June 2023.

CONTINGENT LIABILITIES

The parent entity had no contingent liabilities as at 30 June 2024 and 30 June 2023.

CAPITAL COMMITMENTS - PROPERTY, PLANT AND EQUIPMENT

The parent entity had no capital commitments for property, plant and equipment as at 30 June 2024 and 30 June 2023.

SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the parent entity are consistent with those of the consolidated entity, as disclosed in note 1, except for the following:

- Investments in subsidiaries are accounted for at cost, less any impairment, in the parent entity.
- Dividends received from subsidiaries are recognised as other income by the parent entity and its receipt may be an indicator of an impairment of the investment.

Note 17. Interests In Subsidiaries

The consolidated financial statements incorporate the assets, liabilities and results of the following subsidiaries in accordance with the accounting policy described in note 1:

NAME	PRINCIPAL PLACE OF BUSINESS / COUNTRY OF INCORPORATION	OWNERSHIP INTEREST	
		2024	2023
Aguia Mining Pty Ltd	Australia	100.00%	100.00%

Consultores Andean S.A.S ¹⁷	Colombia	100.00%	N/a
Aguia Metais Ltda	Brazil	100.00%	100.00%
Potassio do Atlantico Ltda	Brazil	100.00%	100.00%
Aguia Rio Grande Mineracao Ltda	Brazil	100.00%	100.00%
Aguia Fertilizantes S.A. ¹⁸	Brazil	49.00%	49.00%

Note 18. Events After the Reporting Period

On 26 July 2024, Aguia announced the completion of a Private Placement raising approximately \$2.6 million. The funds were raised via the issue of approximately 104,000,000 fully paid Ordinary Shares to sophisticated and institutional investors at a price of A\$0.025 per share.

On 2 August 2024, Aguia announced that it completed its takeover of Andean Mining Limited ('Andean') Following the completion of the compulsory acquisition process Aguia has now acquired 100% of the Andean shares. On 6th August, 28,329,042 ordinary shares were issued to the remaining Andean shareholders.

Following the EGM, which was held on 9 August 2024, shareholder approved the following resolutions, these have been actioned as follows;

- 5,000,000 unlisted options with an exercise price of \$0.04 expiring on 31 July 2027 were issued to Executive Chair, Warwick Grigor on 6 September 2024.
- 3,000,000 unlisted options with an exercise price of \$0.04 expiring on 31 July 2027 were issued to Non-Executive Director, Christina McGrath on 6 September 2024.
- 5,000,000 unlisted options with an exercise price of \$0.04 expiring on 31 July 2027 were issued to Managing Director, William Howe on 6 September 2024.
- 3,000,000 unlisted options with an exercise price of \$0.04 expiring on 31 July 2027 were issued to Non-Executive Director, Ben Jarvis on 6 September 2024.

¹⁷ Andean Mining Limited and its Subsidiaries were acquired on 30 June 2024.

¹⁸ The Group considers that it controls Aguia Fertilizantes S.A. even though it owns less than 50% of the voting rights. This is because the parent entity holds a call option over the remaining 51% shares, exercisable at any time at the Group's full discretion at nominal consideration. The Group has current entitlement to 100% of returns and accordingly there is no NCI.

On 30 August 2024, Aguia announced the completion of a Private Placement raising approximately \$2.5 million. The funds were raised via the issue of approximately 100,000,000 fully paid Ordinary Shares to sophisticated and institutional investors at a price of A\$0.025 per share.

On 23 September Aguia announced that it secured a Frankfurt Listing. The Company's German advisor, Axino Finance AG, confirmed that its shares are now listed on the Frankfurt and Stuttgart Stock Exchanges in Europe. The Frankfurt trading house (specialist), who is running the Company's order book in Germany, is Baader Bank in Frankfurt: <https://www.baaderbank.de/Home-365>. The Company's ticker symbol in Germany, is FSE:5N91.

On 25 October 2024, Aguia provided shareholders with an update on the public civil action ("PCA") filed by the Federal Public Prosecutors' Office ("FPPO") – later joined by five civil associations – against Aguia and FEPAM (the Rio Grande do Sul State EPA).

The Federal Court Trial Court of the City of Bagé, the State of Rio Grande do Sul has denied FPPO's request to annul the previous license granted by FEPAM to Aguia for the Fosfato Três Estradas project finding that:

- The family ranchers do not fall under the concept of traditional community and, as such, no previous, free and informed consultation is mandatory, and
- The public hearing that took place met the legal requirements and was attended by populations from Dom Pedrito and Torquato Severo, reason why there would be no need to nullify the environmental license proceeding to have additional public hearings.

The effect of this decision is to reject the application for an injunction that has been under consideration for approximately three years, from July 2021. Aguia is now free to continue advancing the Tres Estradas Project under the already granted Installation and Environmental Licences. Under Brazilian Law, the next step is the preparation of the site for first production. Once the site has been prepared pursuant to the existing environmental approvals, the State Environmental Protection Foundation FEPAM will issue the Operational Licence and commercial mining operations can commence. Aguia anticipates this process will take 3-6 months to complete.

No other matter or circumstance has arisen since 30 June 2024 that has significantly affected, or may significantly affect the consolidated entity's operations, the results of those operations, or the consolidated entity's state of affairs in future financial years.

Note 19. Reconciliation Of Consolidated Loss After Income Tax to Net Cash Used In Operating Activities

	2024	2023
Loss after income tax expense for the year	(5,795,437)	(2,236,832)
Adjustments for:		
Depreciation and amortisation	9,004	8,886
Impairment of Copper Project	4,237,717	-
Share-based payments	86,496	518,279
Change in operating assets and liabilities:		
Increase/(decrease) in trade and other receivables	70,597	41,045
(Increase)/decrease in trade and other payables	(664,577)	184,492
Net cash used in operating activities	(2,056,200)	(1,853,114)

Note 20. Consolidated Earnings per Share

	2024	2023
Loss after income tax attributable to the owners of Agüia Resources Limited	(5,795,437)	(2,236,832)
Number of shares		
Weighted average number of ordinary shares used in calculating basic earnings per share	544,792,675	411,195,691
Weighted average number of ordinary shares used in calculating diluted earnings per share	544,792,675	411,195,691
Basic Earnings (Cents)		
Basic	(1.06)	(0.54)
Diluted	(1.06)	(0.54)

Note 21. Share Based Payments

A share option plan has been established by the consolidated entity, whereby the consolidated entity may, at the discretion of the Board and if permitted by the Board, grant options over ordinary shares in the parent entity to certain employees, key management personnel and advisers of the consolidated entity. Whereby they were not granted under the share option plan, they have been approved by shareholders at the respective Annual General Meeting. The options are issued for nil consideration and are granted in accordance with performance guidelines established by the Board. The options are not quoted on the ASX and the Board may amend the option plan rules subject to the requirements of the Listing Rules.

On 20 November 2020, the Company issued 7,000,000 unlisted share options, with an exercise price of 10 cents and expiration date of 20 November 2025 to the directors of the Company.

On 2 July 2021, the Company issued 1,500,000 unlisted share options, with an exercise price of 10 cents and expiration date of 20 November 2025 to Non-Executive Director, David Carland.

On 30 November 2021, the Company issued 9,500,000 unlisted share options, with an exercise price of 10 cents and expiration date of 30 November 2026 to the directors of the Company.

On 24 April 2023, the Company issued 9,000,000 unlisted share options, with a deemed grant date of 15 April 2023, with an exercise price of 10 cents and expiration date of 30 November 2026 to the Management team of the Company.

The options will vest, depending on the satisfaction of KPI's related to the construction and subsequent opening of the TEPP Mine.

Set out below are summaries of options granted under the plan.

**2024 OPTIONS GRANTED**

No options were granted during the year ended 30 June 2024.

SUMMARY TABLE OF UNLISTED OPTIONS GRANTED

GRANT DATE	EXPIRY DATE	EXERCISE PRICE	BALANCE AT THE START OF THE YEAR	GRANTED	EXERCISED	EXPIRED/ FORFEITED & OTHER	BALANCE AT THE END OF THE YEAR
20/11/2020	20/11/2025	\$0.100	7,000,000	-	-	-	7,000,000
02/07/2021	20/11/2025	\$0.100	1,500,000	-	-	-	1,500,000
30/11/2021	30/11/2026	\$0.100	9,500,000	-	-	-	9,500,000
15/04/2023	30/11/2026	\$0.100	9,000,000	-	-	-	9,000,000
			27,000,000	-	-	-	27,000,000

With respect to the options, a total of \$130,353 (2023: \$359,872) has been recognised in the profit or loss as share-based payments for the 12-month period ended 30 June 2024.

The weighted average remaining contractual life of options outstanding at the end of the financial year was 2.38 years (2023: 2.01 years).

The weighted average exercise price of options outstanding at the end of the financial year was \$0.10 (2023: \$0.10).

The inputs used to determine the fair value at the grant date, using the Black- Scholes valuation model have been summarised in the table below.

GRANT DATE	EXPIRY DATE	NUMBER OF OPTIONS	SHARE PRICE AT GRANT DATE	EXERCISE PRICE	EXPECTED VOLATILITY	DIVIDEND YIELD	RISK-FREE INTEREST RATE	FAIR VALUE AT GRANT DATE
20/12/20 ¹⁹	20/11/25	2,000,000	\$0.0800	\$0.10	103.55%	-	0.1401%	\$0.0500
02/07/21	20/11/25	1,500,000	\$0.0600	\$0.10	103.55%	-	0.7000%	\$0.0400
30/11/21	30/11/26	9,500,000	\$0.0500	\$0.10	103.55%	-	1.3000%	\$0.0329
15/04/22	30/11/26	9,000,000	\$0.0600	\$0.10	103.55%	-	2.8000%	\$0.0400

¹⁹ Treated as a modification for accounting purposes as disclosed in the 30 June 2021 Annual Financial Report.

The table below summarised the Share Based Payment Expense recorded in the profit and loss statement during the timeframe 1 July 2023 to 30 June 2024

DETAILS	DATE	SHARES	ISSUE PRICE	AUD
Shares issued – to supplier in lieu of cash payment	27-Jun-24	2,6341,579	\$0.019	50,000
Shares issued – to supplier in lieu of cash payment	8- Feb-24	804,357	\$0.014	11,261
Share Based Payment Expense Relating to Employee Share Options - KMP				51,310
Share Based Payment Expense Relating to Employee Share Options - All Other Employees				73,925
Reversal of FY2023 Accrued Expense relating to the issuance of shares to Fernando Tallarico ²⁰				(100,000)
Total Share Based Payment Expense				86,496

Note 22. Commitments

The consolidated entity does not have any significant commitments as at 30 June 2024 other than those already been disclosed in the financial statements.

²⁰ This balance represents shares to be issued to Fernando Tallarico as approved at the 2022, that were accrued in the FY2023 Financial Report. This balance represents a reversal of this amount, as the shares were never issued.

Consolidated Entity Disclosure Statement As at 30 June 2024

* Aguia Resources Limited (the 'head entity') and its wholly-owned Australian subsidiaries have formed an income tax consolidated group under the tax consolidation regime.

²¹ Andean Mining Limited and its Subsidiaries were acquired on 30 June 2024.

²² The Group considers that it controls Aguia Fertilizantes S.A. even though it owns less than 50% of the voting rights. This is because the parent entity holds a call option over the remaining 51% shares, exercisable at any time at the Group's full discretion at nominal consideration. The Group has current entitlement to 100% of returns and accordingly there is no NCI.

Directors' declaration

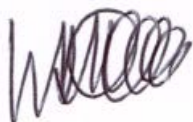

In the directors' opinion:

- the attached financial statements and notes comply with the Corporations Act 2001, the Accounting Standards, the Corporations Regulations 2001 and other mandatory professional reporting requirements;
- the attached financial statements and notes comply with International Financial Reporting Standards as issued by the International Accounting Standards Board as described in note 1 to the financial statements;
- the information disclosed in the attached consolidated entity disclosure statement is true and correct.
- the attached financial statements and notes give a true and fair view of the consolidated entity's financial position as at 30 June 2024 and of its performance for the financial year ended on that date; and
- there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

The directors have been given the declarations required by section 295A of the Corporations Act 2001

Signed in accordance with a resolution of directors made pursuant to section 295(5)(a) of the Corporations Act 2001.

Report on the Financial Report

Opinion

We have audited the financial report of Aguia Resources Limited (the Company) and its controlled entities (the Group), which comprises the consolidated statement of financial position as at 30 June 2024, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information, the consolidated entity disclosure statement and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- a. giving a true and fair view of the Group's financial position as at 30 June 2024 and of its financial performance for the year then ended; and
- b. complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Boards APES 110: *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report for the year ended 30 June 2024. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Carrying value of exploration and evaluation assets

At 30 June 2024, the Group's exploration and evaluation assets carrying amount is \$33.8 million (30 June 2023: \$31.6 million). As disclosed in Note 6, \$23.5 million relate to the Group's Brazil Phosphate Project, \$0.6 million relate to the Group's Brazil Copper Project, and \$9.7 million relate to the Group's Columbian Projects.

Exploration assets are initially recognized at cost and any additional expenditure is capitalized to the exploration assets in accordance with the Group's accounting policies as outlined in Note 1.

At each reporting date, the Directors assess the Group's exploration assets for indicators of impairment in accordance with AASB 6 *Exploration for the Evaluation of Mineral Resource*. This assessment involves judgement, including whether the rights to tenure for the areas of interest are current, the Group's ability and intention to continue to evaluate and develop the area of interest and whether the results of the Group's exploration and evaluation work to date are sufficiently progressed for a decision to be made as to the commercial viability or otherwise of the area of interest.

As at 30 June 2024, the Group's impairment indicator assessment considered the Group's on-going public civil action in respect of the environmental permitting process for its Phosphate Project.

We have therefore included this as a Key Audit Matter due to value of exploration assets relative to total assets and the judgement involved in the assessment of impairment.

Our procedures included:

- We have confirmed that Aguia has maintained active rights to all exploration tenements that have expenditure capitalized at 30 June 2024 that the renewal process is underway and remains in active status.
- We performed substantive testing over the costs capitalized during the period and are satisfied that these costs have met the capitalization requirements of AASB 6 and the Group's accounting policies.
- We have assessed in accordance with AASB 136 to identify indicators for impairment of exploration and evaluation assets, and the appropriateness and accuracy of impairment tests performed by Aguia.
- We evaluated the Group's plans to take on significant exploration and evaluation activities in the relevant areas of interest, which involved assessing the Group's cash flow forecast models and engaging in discussions with management regarding the Group's intentions and strategy.
- We have considered the facts and circumstances currently surrounding the legal proceedings brought forward by the Federal Prosecutor in relation to the Environmental Impact Assessment for the Phosphate Project. We have communicated with the Group's external legal counsel to understand the status and potential implications of the matter.
- We assessed the adequacy of the related disclosures in the notes to the financial report.

Material Uncertainty Related to Going Concern

We draw attention to Note 1 in the financial report, which indicates that the Group incurred a net loss after tax of \$5,795,437 in the year ended 30 June 2024. As stated in Note 1, these events or conditions, along with other matters as set forth in Note 1, indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Information Other than the Financial Report and Auditor's Report Thereon

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2024 but does not include the financial report and our auditor's report thereon. Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon. In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial report. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Remuneration Report

We have audited the Remuneration Report included in pages 10 to 23 of the directors' report for the year ended 30 June 2024.

In our opinion, the Remuneration Report of Aguia Resources Limited for the year ended 30 June 2024 complies with section 300A of the *Corporations Act 2001*.

For personal use only

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the remuneration report, based on our audit conducted in accordance with Australian Auditing Standards.

Mineral Resource Statement

On 9 March 2021 Aguia announced an updated Resource Estimate for its Andrade Copper Project.

There has been no change to the below information regarding the Lucena Phosphate Project or the Três Estradas Phosphate Project since the previous reporting period.

Information in this report that relates to Phosphate and Copper Resources is based on and accurately reflects reports prepared by the Competent Person named beside the respective information. All Competent Persons who have prepared reports are independent of Aguia Resources Limited.

Named Competent Persons consent to the inclusion of material in the form and context in which it appears.

All Competent Persons named are Members of the Australasian Institute of Mining and Metallurgy and/or The Australian Institute of Geoscientists and have the relevant experience in relation to the mineralisation being reported on by them to qualify as Competent Persons as defined in the Australian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (The JORC Code, 2012 Edition).
