*Note: if the entity has reported positive net operating cash flows in item 1.9, answer item 8.5 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.5.*

8.6 If item 8.5 is less than 2 quarters, please provide answers to the following questions:

8.6.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer:

Yes

8.6.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer:

Yes.

Sales from the CONNEQT Pulse device are expected in Q2 of FY2025, and the waitlist for the device has surpassed 20,000 preregistered customers. Preliminary discussions have taken place with various debt funders and equity providers both in Australia and the US, which may be required to progress further should sales of the CONNEQT Pulse be lower than anticipated, or if there are delays to clinical trial cash flows that are expected to arise from the current sales pipeline.

Post quarter end, the Company was selected as one of five grand prize winners in the final phase of the National Institutes of Health's Rapid Acceleration of Diagnostics (RADx®) Tech for Maternal Health Challenge, resulting in a further US\$525k in cash grant funding, which is expected to be received in Q2 of FY2025.

During the quarter, Cardiex received approval from AusIndustry for the inclusion of overseas software development costs in its R&D Tax Incentive claims for FY2024-FY2026 and is anticipating a refund of \$1.4 million in Q2 of FY2025, a significant increase from prior year claims. This is secured against Cardiex's R&D funding facility with Mitchell Asset Management, and the Group may consider extending this facility against the following years R&D claim.

Based on all the above, the Directors are of the opinion that it will continue to obtain sufficient ongoing working capital requirements.

8.6.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer:

Yes. The Directors believe that if required, the Company has the ability to raise additional capital on a timely basis and has a proven capability of doing so.

*Note: where item 8.5 is less than 2 quarters, all of questions 8.6.1, 8.6.2 and 8.6.3 above must be answered.*
