Corporate activities

Throughout the September Quarter the Company continued to focus on business development opportunities to grow its seaweed and bird's nest businesses. In particular, the Company has been sourcing and conducting due diligence on business development opportunities regarding:

- New sites for the cultivation of seaweed;
- Potential third-party seaweed growers for the supply of seaweed; and
- Potential third-party bird's nest suppliers for the supply of raw and processed bird's nest produce.

Seaweed

Also in the 24 October Announcement, the Company announced that it had entered into an agreement with joint venture partners for the acquisition of assets and the joint development of an Indonesian-based seaweed business which, in collaboration with the joint venture partners, will enable the Company to both cultivate and harvest seaweed and to acquire seaweed from third party sellers:

- for the production of bio stimulant seaweed products for sale in the Indian market;
- for the extraction of nutraceuticals for infusion in food, health and cosmetic products;

A principal focus of the Company's business development strategy is to enter into additional supply agreements with one or more major suppliers of bird's nest products. The Company will provide the market with additional updates regarding its bird's nest business development activities.
