Investment Commentary

Pre-tax NTA increased by 7.54 cents in October to \$1.5832, resulting in a positive monthly return of +5.00%, our 12th consecutive positive monthly return. Ryders 1 year pre-tax NTA return now stands at +52.32%, materially outperforming both our Hurdle of +8.62% and the ASX Small Ords Accumulation Index of +26.65% over the same period.

Performance for the month was led by core Portfolio positions Macmahon Holdings, BCI Minerals, Fleetwood and Count, with no notable detractors to report.

Fleetwood announced it had entered into a 2-year binding agreement with Clough (the contractor for the Perdaman urea plant development) for accommodation at the Searipple Village in Karratha, leading to consensus upgrades for FY25 and FY26. BCI Minerals continues to make good progress, achieving all Conditions Precedent (CP's) to reach financial close on the Mardie Project debt finance facility during the month.

During October we were more active in trimming several core holdings as we actively managed Portfolio risk and weightings due to strong performance. We exited our trading position in Healius realising solid profits. Proceeds from sales were partly used to fund smaller initiations and add to cash.

The buyback remained active with 355,010 shares purchased at an average price of \$1.2674.

Portfolio cash increased from \$7.1m (5.74%) to \$13.2m (10.16%).
