Great Boulder Resources ("**Great Boulder**" or the "**Company**") (ASX: **GBR**) is pleased to provide an update regarding its Whiteheads Gold Project located 40km north of Kalgoorlie, Western Australia.

### **Great Boulder's Managing Director, Andrew Paterson commented:**

*"This is a great outcome for Great Boulder shareholders. The prospectivity and potential of Whiteheads has been overlooked given the significant exploration success at Side Well, resulting in the prioritisation of funds and management time, and we're pleased to be working with Great Western Gold to unlock value here."*

*In addition to maximising the value for Great Boulder shareholders from Whiteheads, this transaction will further sharpen our focus on Side Well, where we are progressing a fully funded +50,000m drill program to deliver material resource growth and new discoveries."*

*As we exit the project I'd like to thank our Joint Venture partner Scott Wilson for his support. Whiteheads was an important stepping stone for Great Boulder back in 2019 and Scott has been a great supporter of the Company ever since."*

### Whiteheads Gold Project Divestment

On 20 November 2024, the Company and Great Western Gold Pty Ltd (**GWG**) entered into a tenement purchase agreement (**TPA**) pursuant to which GWG agreed to acquire 100% of the Company's legal and/or beneficial interest in 13 granted exploration permits, being E27/538, E27/582, E27/584, E27/544, E27/588, E27/622, E27/644, P27/2439, E27/658, E27/659, E27/660, E27/661 and E27/662, (together, the **Whiteheads Gold Project**).
