## About ATGC

ATGC was incorporated on January 29, 2024 for the purpose of reorganizing the operations of Anteris Technologies Ltd (**Anteris**), an Australian public company originally registered in Western Australia, Australia and listed on the ASX, into a structure whereby the ultimate parent company will be a Delaware corporation.

## About Anteris Technologies Ltd (ASX: AVR)

Anteris Technologies Ltd (ASX: AVR) is a structural heart company committed to designing, developing, and commercializing innovative medical devices. Founded in Australia, with a significant presence in Minneapolis, USA (a MedTech hub), Anteris is science-driven, with an experienced team of multidisciplinary professionals delivering potentially transformative solutions to structural heart disease patients.

Anteris' lead product, DurAVR®, is a transcatheter heart valve for treating aortic stenosis. It is the first transcatheter aortic valve replacement to use a single piece of bioengineered tissue. This biomimetic valve is uniquely shaped to mimic the performance of a healthy human aortic valve.

DurAVR® THV is made using ADAPT® tissue, Anteris' patented anti-calcification tissue technology. ADAPT® tissue has been used clinically for over 10 years and distributed for use in over 55,000 patients worldwide.

The ComASUR® Delivery System was designed to provide controlled deployment and accurate placement of the DurAVR® THV with balloon-expandable delivery, designed to achieve precise alignment with the heart's native commissures to achieve ideal valve positioning.
