Quarterly Activities Report – December 2024

NeuRizer Ltd ("NeuRizer" or the "Company") submits the following Activities Report and Quarterly Cash Flow Statement (refer to attached Appendix 5B) for the quarter ending 31 December 2024.

Annual General Meeting and Annual Report

NeuRizer held its 2024 Annual General Meeting (AGM) on 28 November 2024. All proposed resolutions put to shareholders at the AGM were passed.

The Chairman's address to shareholders during the AGM was highlighted as follows:

1. Delays in receiving the draft guidelines for the Environmental Impact Statement (EIS) for Stage 1 of the NeuRizer Urea Project (NRUP) have created issues for NeuRizer not being able to progress Stage 1 of the NRUP. This has now been resolved, with the Department of Climate Change, Energy, the Environment and Water providing us with the final guidelines.
2. The Company has significantly reduced its annual operating cost.
3. The Company has engaged with organisations in several overseas jurisdictions with the aim of partnering with them to establish In Situ Gasification (ISG) projects in their countries.
4. Continuing NeuRizer's relationship with DL E&C Co Ltd, NeuRizer's Engineering, Procurement and Construction partner (full details can be found in the Company's Annual Report).

Reinstatement of Trading

After a period of suspension, the Company's shares commenced trading on 20 November 2024 and have been continuously trading since then.

NeuRizer Urea Project (NRUP) Stage 1 Update

Stage 1 of the NRUP builds on the successful Pre-Commercial Demonstration (PCD) that NeuRizer operated in 2018 and 2019. The overarching purpose of Stage 1 is to further demonstrate the commercial, technical, environmental and financial credentials of the NRUP.

NeuRizer provided comments to the Department of Climate Change, Energy, the Environment and Water (the Department) on the draft guidelines for the Stage 1 NRUP EIS.

The Department released the final EIS guidelines in December 2024 following a period of public consultation.

The publication of the EIS guidelines brings the NRUP one step closer to project start-up and represents progress towards final project approval and first urea production (i.e. Stage 2). With the guidelines now finalised, NeuRizer has commenced work on the Stage 1 EIS.

NeuRizer looks forward to completing the EIS and updating the market on Stage 1 of the NRUP.

Stage 1 of the NRUP remains a declared Major Project for South Australia, positioning NeuRizer as a future leader in domestic and international urea production. Upon production, the project aims to deliver significant economic benefits but also contribute to sustainable agricultural solutions on a global scale by strengthening supply chain certainty to Australian farmers for a key agricultural input, urea fertiliser.

NRUP Stage 2 Update

Stage 2 of the NRUP is planned to produce an initial 1 million tonnes of urea each year and comprises:

1. The construction of multiple ISG gasifiers;
2. A gas clean-up plant;
3. Construction of an Ammonia production facility;
4. Construction of a Urea production facility; and
5. Associated logistics to support the operations of the gas clean up, Ammonia and Urea production facilities.

The Company has continued collaborating with DL E&C Co Ltd to divide the NRUP EPCC contract into two parts: an engineering and procurement contract (managed by DL E&C Co Ltd) and a construction and commissioning

contract (to be awarded to a construction company through a competitive bidding process managed by NeuRizer).

India

NeuRizer has made good progress in discussions with a number of organisations based in India in establishing commercial arrangements for several ISG projects in India. This includes visits by them to both our offices and the site at Leigh Creek.

Finance and Corporate

The accompanying Appendix 5B (Quarterly Cashflow Report) includes a summary of cash inflows and outflows for the quarter, including amounts in item 6.1, which include executive and non-executive director fees paid as salaries and wages.

During the quarter, the Company incurred \$229k on exploration and evaluation activities, with the majority relating to capitalised labour costs, site maintenance, and other minor operating costs.

8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Yes, but the Company continues to look for opportunities to reduce net operating cash flows.	
8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
Yes, the Company continues to expect to conduct further capital raises to fund its operations in the short term and has confidence that they will be successful. The Company refers to the Private Placement announcement dated 22 January 2025 raising \$150,000 and notes that this would change the estimated quarters of funding available to 0.59.	
8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?	
Yes, as per 8.8.2 above.	
<i>Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.</i>
