

MIGHTY KINGDOM QUARTERLY ACTIVITIES UPDATE AND APPENDIX 4C

Quarter Ended 31 December 2024

Mighty Kingdom Limited (ASX: MKL) ("MK" or the "Company"), is pleased to provide its Quarterly Activities Update and Appendix 4C for the December 2024 Quarter ("Q2 FY25").

QUARTERLY NOTES

- Net cash used in operating activities improved 60% versus Q1 FY25
- Quarterly game revenue \$1.3m (10% increase vs Q1FY25)
- Successful completion of debt facility for up to \$1.2m

OPERATIONAL SUMMARY

The Company reported a 10% QoQ increase in revenue generated from games during the quarter. Driven by the newly launched Power Rangers Mighty Force, and continued work with Google, East Side Games Group ("ESGG"), and Spin Master.

The Company reported receipts of \$1.6m generated from games during the quarter with total operating outflows of \$1.0m. Whilst operating outflows has improved by 60% quarter on quarter, a potentially stronger overall cashflow performance was hindered by the continued delayed receipts of government incentives.

State and Federal Government grants and tax incentives owed to Mighty Kingdom at 31 December 2024 for FY24, totals to \$2.0m.

CAPITAL MANAGEMENT SUMMARY

In December 2024, Mighty Kingdom successfully received commitments for a secured debt facility up to the value of \$1.2m. This facility provides the company with the funds for ongoing working capital and supports the business until the currently owed \$2.0m government incentives are received.

PROJECT HIGHLIGHTS

Both games we've created in partnership with ESGG are now in the live operations part of their lifecycle. Star Trek Lower Decks - The Badgey Directive continued to maintain its quality, player base and revenue with constant content deliveries. Power Rangers Mighty Force added content to its experience and iterated on its early game and player-versus-player gameplay (among other iterations) to improve its performance in market. The team collaborated closely with ESGG to learn from their experience with similar games and proposed improvements to the games'

features. Some of those bigger improvements started development and have a release target of Q3 FY25.

MK continued the development of two games for Google's Fitbit Ace LTE. The team successfully delivered on providing support for previously delivered games while making headway on new development to Google's overt satisfaction.

MK wrapped up the latest work on *Gabby's Dollhouse* for Spin Master with its biggest release just in time for the holiday season. With two new rooms, a new character and an updated look for the dollhouse, the release received positive ratings from users. Spin Master and MK are in the process of defining scope of work for future contracts with the goal of finalising these arrangements during Q3 FY25.

The Company continued conversations with potential work-for-hire clients, including several meetings during Melbourne International Games Week with a range of potential partners.

RELATED PARTY TRANSACTIONS

As noted in Item 6 of the Company's Appendix 4C for Q2 FY25 payments to related parties and their associates represented cash benefits of \$113k for executive and non-executive directors. These payments include payments to a previous executive director who resigned on 22 November 2024 and non-executive director that was not reappointed on 22 January 2025.

OUTLOOK

MKL's current contracts continue to be serviced effectively with ongoing initiatives underway to drive profitability and minimising cash burn.

In addition, the Company is actively progressing corporate opportunities that it believes have the potential to add significantly to shareholder value.

This announcement has been authorised for release by the Board of Mighty Kingdom Limited. **For further information, please contact.**

8.6 8.6.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

No, the company continues to reassess its cost base and expectations around future financial performance based on the outlook for itself and the industry as a whole. There is an expectation that net operating cash burn will continue to reduce as efficiency gains are made within the business and new products monetise in market.

8.6.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

The company has recently successfully executed debt financing via a convertible note. Further equity raising is possible on an as needs basis, the company has a proven record of being able to raise equity as it is required. In addition, subsequent to the end of the quarter, the company received cash inflows from outstanding state and federal government grants of \$2m.

8.6.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

The company has a strong expectation that future operations will continue unimpeded with continuing Business Development and corporate initiatives aiming to grow overall revenue and profitability.

Note: where item 8.5 is less than 2 quarters, all of questions 8.6.1, 8.6.2 and 8.6.3 above must be answered.
