1. Significant Accounting Policies

Statement of compliance

The half-year financial report is a general-purpose financial report prepared in accordance with the *Corporations Act 2001* and AASB 134 'Interim Financial Reporting'. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'. The half-year financial report does not include notes of the type normally included in an annual financial report and shall be read in conjunction with the most recent annual financial report.

Basis of preparation

The condensed consolidated financial statements have been prepared on the basis of historical cost, except for the revaluation of certain financial instruments. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian dollars, unless otherwise noted.

The company is a company of the kind referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191, dated 24 March 2016, and in accordance with that Corporations Instrument amounts in the financial report are rounded off to the nearest thousand dollars, unless otherwise indicated.

The accounting policies and methods of computation adopted in the preparation of the half-year financial report are consistent with those adopted and disclosed in the company's 2024 annual financial report for the financial year ended 30 June 2024.

The Group has adopted all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (the AASB) that are relevant to their operations and effective for the current reporting period.

2. Segment Information

Identification of reportable segments

The Group has identified its operating segments based on the internal reports that are reviewed and used by the Managing Director (the chief operating decision maker) in assessing performance and in determining the allocation of resources.

The operating segments are identified by management based on the nature of the services provided. Discrete financial information about each of these operating businesses is reported to the Managing Director on at least a monthly basis.

The reportable segments are based on aggregated operating segments determined by the similarity of the services provided, as these are the sources of the Group's major risks and have the most effect on the rates of return.

The reportable segments identified are unchanged from those identified previously.

EMBELTON LIMITED and its Controlled Entities

Directors' Report

Your Directors present their report on the consolidated entity of Embelton Limited and controlled entities for the half-year ended 31 December 2024.

In order to comply with the provisions of the Corporations Act 2001, the Directors report as follows:

The Directors in office during and since the end of the half-year are:

Mr G R Embelton (Chairman)
Mr J R Baldwin (Non-executive Director)
Mr J J Embelton (Managing Director)

Review of Operations

A significant reduction in earnings reflected the slow-down in residential and commercial construction around Australia over the recent period. Additionally, a general decrease in the size of available projects led to a larger number of competitors making margins challenging to maintain. Despite this, reduction in costs reflecting the current environment, coupled with a reduction in interest costs and more effective management of our existing work led to a increase in earnings for the period.

Our outlook remains subdued for the remainder of this financial year given the modest pipeline of work to be delivered in the coming months. However, a continued focus on costs, along with more efficient use of our working capital, is hoped will result in a continuation of the current earnings trend in the second half. Meanwhile, tender opportunities for new work is on the rise and so our team remain busy building a pipeline of work for future periods.
