BENZ EXERCISES OPTION OVER STRATEGIC GROUND ALONG STRIKE FROM THE GLENBURGH GOLD PROJECT

HIGHLIGHTS

- Benz has exercised the option to acquire highly prospective tenements adjacent to the Glenburgh Gold Project, increasing the total project tenure to ~898km². Exercising the option has secured over ~20km of potential strike extension to the known mineralisation at the Glenburgh Gold Project.
- Regional geological interpretation suggests similar lithologies that host the Glenburgh Gold Project continue into the new ground.
- Opportunity to follow-up on quartz-magnetite breccia occurrences in the western part of tenure, previously identified by Hannans Ltd in 2021 as possible IOCG targets.¹

Benz Mining Corp. (TSXV: BZ, ASX: BNZ) (**Benz** or the **Company**) is pleased to announce that it has exercised the option agreement to acquire highly prospective tenements adjacent to the Glenburgh Gold Project in Western Australia, and a strategic tenement at the Mt Egerton Gold Project (**Option Agreement**).²

Mark Lynch-Staunton, CEO commented:

"We are thrilled to exercise this option over such a highly prospective land package along strike from the Glenburgh Gold Project. Our maiden drill program is already in full swing, with initial results anticipated in the coming weeks. With this strategic expansion, we're not only extending our search for Glenburgh-style gold mineralisation by another 20km, but we're also reinforcing our commitment to aggressively exploring and unlocking value in an underexplored gold district in Australia. This is an incredibly exciting time for Benz, and we can't wait to see what our ongoing drilling and expanded exploration efforts uncover."

Terms of the Option Agreement

Pursuant to the Option Agreement, Benz has exercised the exclusive right to acquire four tenements from Mining Equities Pty Ltd (Vendor). Benz had the ability to exercise this option until 30 days following successful completion of the previously announced acquisition of the Glenburgh and Mt Egerton Gold Projects from Spartan Resources Limited (ASX: SPR) (**Spartan**).

The following consideration is payable to the Vendor upon completion, which is expected to occur within 5 business days:

- issuance of 500,000 fully paid ordinary shares in Benz; and
- the grant of a 0.75% net smelter royalty.

Refer to Appendix 1 for the complete tenement schedule of the option agreement.

This announcement has been approved for release by the Board of Benz Mining Corp.

About Benz Mining Corp.

Benz Mining Corp. (TSXV:BZ, ASX: BNZ) is a pure-play gold exploration company dual-listed on the TSX Venture Exchange and Australian Securities Exchange.

On 6 November 2024, Benz announced a binding agreement to acquire the Glenburgh and Mt Egerton Gold Projects in Western Australia from Spartan Resources Limited (ASX: SPR), which was completed on 14 January 2025 and marks a transformational step, establishing Benz as a multijurisdictional gold exploration company with a focus on unlocking value in underexplored assets. The Glenburgh Project features a Mineral Resource Estimate of 16.3Mt at 1.0 g/t Au (510,100 ounces of contained gold)³.

Benz's key point of difference lies in its team's deep geological expertise and the use of advanced geological techniques, particularly in high-metamorphic terrane exploration. The Company aims to rapidly grow its global resource base and solidify its position as a leading gold explorer across two of the world's most prolific gold regions.

The Company also owns the Eastmain Gold Project in Quebec, with a NI 43-101 and JORC (2012) compliant mineral resource of 1,005,000 ounces at 6.1g/t Au⁴, showcasing Benz's focus on high-grade, high-margin assets in premier mining jurisdictions.
