Forbidden Foods Ltd (ASX: FFF) (“Forbidden Foods” or “the Company”) is pleased to advise that it has secured firm commitments from sophisticated, professional and institutional investors to raise \$1m through the issue of 142,857,143 new fully paid ordinary shares (‘Shares’) at an issue price of \$0.007 per Share (‘Placement’). As part of the capital raise, Forbidden Foods Non-Executive Director, Mr Daniel Rootes, has committed to subscribe for approximately \$21,000 of new shares under the Placement, subject to shareholder approval.

Funds from the Placement will be primarily used to increase inventory across the Company’s Blue Dinosaur and Oat Milk Goodness (‘OMG’) ranges. The strategic inventory build will position the Company to benefit from economies of scale in production and meet growing demand, following considerable sales growth in recent months across its core product channels. Capital will also be deployed towards sales and marketing, as well as some operational costs.

The commitments follow strong operational progress from the combined entity following the strategic acquisition of OMG, which included net sales of \$1.17m in Q2 FY25 - a 104% increase from the prior quarter and a 77% rise year-on-year - as well as cash receipts from customers totalling \$1.16m in the last quarter, up 55% quarter-on-quarter and 80% from the prior year.

Management commentary:

Forbidden Foods’ Chief Executive Officer, Alex Aleksic said: “We’re very pleased to have secured firm commitments for this capital raise which further validates our post-acquisition growth strategy, as well as the Company’s outlook for the remainder of CY25 and beyond. Through this Placement, there have been a number of new shareholders come onto the register. I would like to take this opportunity to welcome them, as well as thank existing shareholders for their ongoing support.

“The funds raised from this Placement will directly assist in FFF growing its inventory, to meet recent product demand. As previously advised, the Company is engaged with several counterparties for additional product-stocking agreements and these are well-advanced. We expect the execution of these agreements will leave Forbidden Foods well positioned to further consolidate its momentum with additional sales increases over the coming quarters.”
