Review of Operations

Platina Resources Limited (Platina) is a mineral resources exploration and development company listed on the Australian Securities Exchange (ASX:PGM). Platina's vision is to become a leading exploration company by exploring our high-potential projects and leveraging cutting-edge technology, innovative strategies, and the knowledge of our highly skilled technical team.

Shareholder value is created by advancing these projects through exploration, feasibility, and permitting, and monetising through either sale, joint venture or development.

Commitment to sustainable and responsible practises, ensures the long-term prosperity of local communities, and the preservation of the environment and cultural heritage in the areas we operate.

Platina controls a 100% interest in a portfolio of gold projects in the Yilgarn Craton and Ashburton Basin in Western Australia following the sale of the Platina Scandium Project.

Xanadu Gold Project

The Xanadu Project is located in the Ashburton Basin in close proximity to the multi-million ounce Mt Olympus gold deposit explored by ASX-listed Kalamazoo Resources Limited (ASX: KZR). Xanadu comprises seven prospecting licences and six exploration licences covering 554km². Access to the project is from the regional mining centre of Paraburdoo 38km to the north.

Xanadu West has been the subject of a number of mainly shallow drilling programs and a historical gold heap leach operation. The project has immense appeal given the number and width of economic grade gold drill intercepts which have never been followed up with a systematic exploration campaign. Whilst we believe there is significant potential to expand upon the known oxide mineralisation, the longer term goal is targeting primary mineralisation within the alteration core of the system which has never been tested by historical drill programs.

During the period, Platina was awarded an Exploration Incentive Scheme (EIS) grant, totalling \$54,750 to assist with direct drilling costs for diamond drilling of the Xanadu Deeps target, which commenced in February 2025.

The aim of the planned drill campaign is to unlock the deeper sulphide potential of a system represented by dispersed oxide mineralisation closer to surface. The company is seeking to find the source of gold within a 10km mineralised corridor defined by previous shallow drilling in the project's western tenements.

Brimstone Gold Project

The Brimstone Gold Project covers 70km² and is located 40km north-east of Kalgoorlie within a proven gold district in close proximity to the Penny's Find gold deposit and 25km from the Kanowna Belle gold mine.

Further drilling is required at Brimstone to expand the size of the Garibaldi deposit and test the strike and depth potential the southern tenements which still require cultural heritage clearances.

No site work was carried out in the reporting period.

During the quarter tenements P 27/2249, P27/2250 and P 2/2251 were relinquished as their term expired.

Mt Narryer Project

Mt Narryer is located 580km north of Perth, in Western Australia and Exploration licence (E09/2704) was granted in December 2022.

In November 2024, Chalice Mining Limited (ASX:CHN) terminated the Mt Narryer Joint Venture with Platina. Since entering into a farm-in agreement in March 2023, Chalice spent upwards of \$400,000 towards field visits, surface sampling programs and acquiring new airborne geophysical data.

Platina will carry out a detailed assessment of the work done by Chalice and some potential re-assaying of existing samples to determine the next steps for the project.

Beete Gold Project

The Beete Gold Project is located in a historical high-grade mining district near Norseman, and 10km south of Scotia gold deposit. Recent gold discoveries in the district highlight the projects significant exploration potential. The tenement was granted on 24 October 2022.

During the period, Platina confirmed the presence of multiple new anomalous gold targets at Beete after completing a maiden 6,331m aircore drilling program over 202 holes.

Drilling showed the presence of a greenstone belt across the tenure (potentially the extension of Norseman greenstone belt), which was previously interpreted to be the Albany Frazer Orogeny. Further investigation will be carried out along this belt which could host high grade gold deposits like the Norseman mineralisation trend to the north.

Challa Gold Project

The Challa project includes two exploration licences covering 293km² located approximately 500km north-east of Perth in Western Australia. The Sandstone province has produced over 1.3 million ounces of gold from numerous underground and open pit mining operations, while Mt Magnet produced over 6 million ounces since discovery in 1891. Nearby, the Youanmi Gold Mine produced 670,000 ounces of gold throughout its life and is currently the focus of new resource drilling targeting high-grade gold zones.

Platina completed a second phase 1,856m aircore drilling program comprising 41 holes in October 2024 which confirmed two new mineralised gold targets at Challa. Aircore hole CHAC0155 intersected a mineralised zone of 12m @ 0.66g/t Au from 100m (incl. 4m @ 1.7g/t from 100m) and 4m @ 0.37g/t Au from 72m in CHAC0140.

Further geophysics and air core drilling is being planned to advance the prospect and better understand the extent of the mineralisation.

Binti Binti Gold Project

Binti Binti comprises two Exploration Licences located approximately 50km north-east of Kalgoorlie and 30km west of Northern Star's Carosue Dam Gold mine. Never explored, the area once thought to be granites has been re-interpreted as a potential greenstone prospect. No exploration activities were carried out during the period.

Jubilee Gold Project

The Jubilee Project Exploration Licence Application (ELA 51/2132) is located within the prolific gold producing Yilgarn Craton, 15 kilometres east of Meekatharra. The exploration licence applications cover 51 Blocks (156 km²). Jubilee is located in close proximity to a number of multi-million ounce gold deposits (Yaloginda and Paddy's Flat) and gold processing plant infrastructure (Blue Bird).

The Jubilee Project adjoins and is immediately east of the Great Boulder Resources' (ASX:GBR) Side Well project which hosts the high-grade Mulga Bill prospect. Recent drilling at the Mulga Bill has intersected very high-grade and large widths of gold mineralisation.

The tenement application remains the subject of native title negotiations in respect of a suitable heritage agreement as required for the grant to proceed. Once granted, the company anticipates the immediate lodging of a programme of work paving the way for exploration activities to commence.

Platina Scandium Project, New South Wales

Following the sale of the Platina Scandium Project, Platina is entitled to receive a US\$1 million warranty retention payment which is re-payable by Rio Tinto after 30 months (March 2026) if there are no warranty breaches. Platina may also receive future cash payments totalling US\$2 million subject to Rio Tinto achieving project milestones including granting of a Mining Lease.

Investments

At the end of the period, Platina had \$12.3 million in cash and tradeable equity investments valued at \$0.1 million, including:

- Nelson Resources (ASX: NES, 12.1 million shares)
- Alien Metals (AIM:UFO, 44.5 million shares)

In addition, Platina owns 49 million shares in unlisted, Intrusive Metals Corp (formerly Major Precious Metals Corp).

During the period, Platina sold its shareholding in Blue Moon Metals shares netting \$51,556.

Results

The net profit / (loss) of the Group for the period amounted to (\$718,561) (2023: profit \$9,930,517).

Significant Changes in State of Affairs

There were no significant changes in the nature of the Group's principal activities during the financial period.

Auditor's Independence Declaration

The lead auditor's independence declaration is included in this interim financial report and forms part of the Director's Report for the half-year ended 31 December 2024.

Signed in accordance with a resolution of the Board of Directors.

Notes to the Financial Statements for the half-year ended 31 December 2024

NOTE 1 BASIS OF PREPARATION

The interim financial report is a general purpose financial report prepared in accordance with the requirements of the Corporations Act 2001, Australian Accounting Standard AASB 134 Interim Financial Reporting and other authoritative pronouncements of the Australian Accounting Standards Board including Australian Accounting Interpretations.

It is recommended that this interim financial report be read in conjunction with the annual financial report for the year ended 30 June 2024 and any public announcements made by Platina Resources Limited during the period in accordance with continuous disclosure requirements arising under the Corporations Act 2001.

The accounting policies have been consistently applied by the Group, apart from any changes in accounting policy noted below, and are consistent with those applied in the 30 June 2024 annual report.

The interim financial report does not include full disclosures of the type normally included in an annual financial report.

Reporting Basis and Conventions

The interim report has been prepared on an accruals basis and is based on historical costs.

Going Concern

The interim financial report for the half year ended 31 December 2024 is prepared on a going concern basis, which contemplates the continuity of normal business activity and the commercial realisation of the Group's assets and the settlement of liabilities in the normal course of business.

New, Revised or Amending Accounting Standards and Interpretations Adopted

In the half-year ended 31 December 2024, the Directors have reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to the Group and effective for the half-year reporting periods beginning on or after 1 July 2024. These did not have any impact on the financial report.

NOTE 2 OTHER INCOME

- (ii) *Classification of financial assets at fair value through profit or loss*

The Group classifies its equity based financial assets at fair value through profit or loss in accordance with AASB 9. They are presented as current assets if they are expected to be sold within 12 months after the end of the reporting period; otherwise they are presented as non-current assets. Changes in the fair value of financial assets are recognised in the profit or loss as applicable.

- (iii) *Amounts recognised in profit or loss*

Changes in the fair values of financial assets at fair value have been recorded through profit or loss, representing a net loss of \$10,224 for the period (2023: \$146,024).

- (iv) *Fair value measurement of financial instruments*

Financial assets and financial liabilities measured at fair value in the statement of financial position are grouped into three (3) levels of a fair value hierarchy. The three (3) levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3: unobservable inputs for the asset or liability

The following table shows the levels within the hierarchy of financial assets and liabilities measured at fair value on a recurring basis:

NOTE 8 SEGMENT REPORTING

The Group operates predominately in mineral exploration with a focus on platinum group metals.

Segment Information**Identification of reportable segments**

The Group has identified its operating segments based on the internal reports that are reviewed and used by the Board of Directors (chief operating decision makers) in assessing performance and determining the allocation of resources.

The Group is managed primarily on the basis of geographical locations as these locations have notably different risk profiles and performance assessment criteria. Operating segments are therefore determined on the same basis.

Reportable segments disclosed are based on aggregating operating segments where the segments are considered to have similar economic characteristics and are similar with respect to any external regulatory requirements.

Basis of accounting for purposes of reporting by operating segments**(a) Accounting policies adopted**

Unless stated otherwise, all amounts reported to the Board of Directors, being the chief decision makers with respect to operating segments, are determined in accordance with accounting policies that are consistent with those adopted in the annual financial statement of the Group.

NOTE 10 EVENTS SUBSEQUENT TO REPORTING DATE

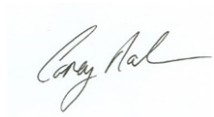

No matter or circumstances have arisen since 31 December 2024, which has significantly affected, or may significantly affect, the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial years.

Declaration by Directors

The directors of the Group declare that:

1. the financial statements and notes, as set out on pages 7 to 17 are in accordance with the Corporations Act 2001 and:
 - (a) comply with Australian Accounting Standard AASB 134 and the Corporations Regulations 2001; and
 - (b) give a true and fair view of the financial position as at 31 December 2024 and of the performance for the period ended on that date of the Group.
2. In the directors' opinion there are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Board of Directors.

INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF PLATINA RESOURCES LIMITED

FYdcfhcb'h Y'<UZMYUf': JbUbWU'FYdcfh

Conclusion

We have reviewed the half-year financial report of Platina Resources Limited and its controlled entities (the "Group"), which comprises the consolidated statement of financial position as at 31 December 2024, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half-year ended on that date, a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Group does not comply with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the Group's financial position as at 31 December 2024 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Financial Report section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

5 i XJhcf gDF YgdcbgjVJ]Jm

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2024 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF PLATINA RESOURCES LIMITED (CONTINUED)

5 i X]rcfF Ygdcbg]V]]mf7 cb]bi YXL

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
