## DIRECTORS' REPORT FOR THE HALF-YEAR ENDED 31 DECEMBER 2024

The Directors of Pacgold Limited ("PGO", "Pacgold" or the "Company") are pleased to provide the Company's Half-Year Activities Report for the six-month period ending 31 December 2024.

### Directors

The following persons were Directors of Pacgold Limited during the half-year and up to the date of this report, unless otherwise stated:

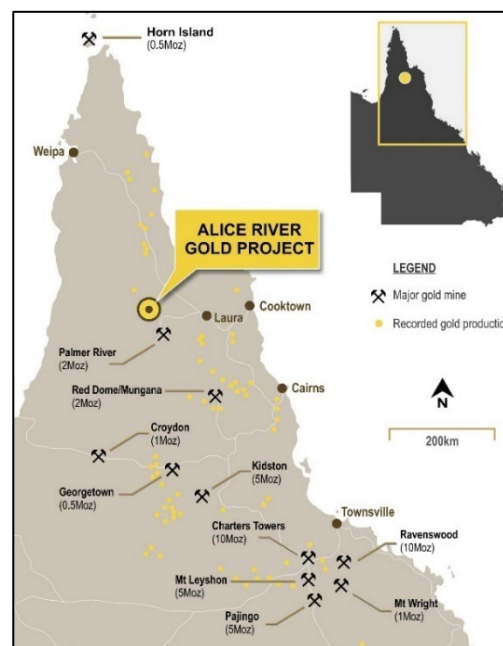

Matthew Boyes (appointed 1 September 2024)  
Caoilin Chestnutt (appointed 18 November 2024)  
Shane Goodwin (resigned 18 November 2024)  
Richard Hacker (appointed 29 October 2024)  
Bruce Kendall (appointed 5 March 2025)  
Catherine Moises (resigned 18 November 2024)  
Michael Pitt  
Anthony Schreck (resigned 31 August 2024)

### Principal Activities

The principal activity of the company during the half-year was the exploration of its key asset being the Alice River Project, comprising a portfolio of eight mining leases and five exploration permits for minerals tenements in the Alice River region of North Queensland.

### Review of Operations

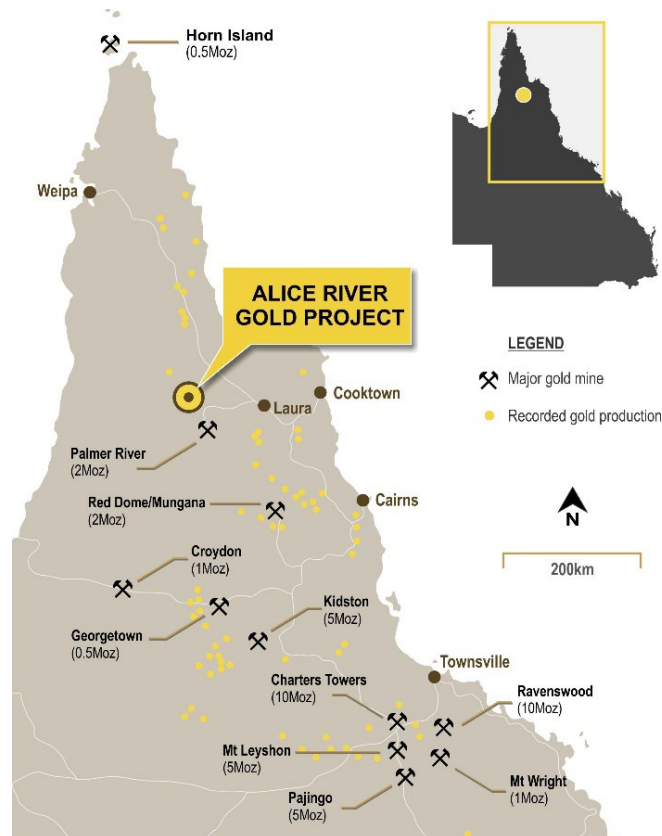

The loss of the Company for the financial half-year after providing for income tax amounts to \$600,026 (2023: \$447,418).

# Review of Operations

## Alice River Gold Project

Pacgold Limited (ASX: PGO) owns 100% of the Alice River Gold Project ("Alice River" or "the Project"), which encompasses 30km of highly prospective gold targets across 377km<sup>2</sup> of granted exploration permits and eight mining leases. The Project is situated within a large intrusion-related gold system, approximately 300km northwest of Cairns, North Queensland. This geological setting is comparable to significant gold deposits such as the Ravenswood gold deposit in Queensland, De Grey Mining Ltd's (ASX: DEG) Hemi Gold Deposit and the Fort Knox Gold Mine in Alaska.

**Figure 1:** Alice River Gold Project Location Map

## Regional Aircore Bedrock Geochemical Programme

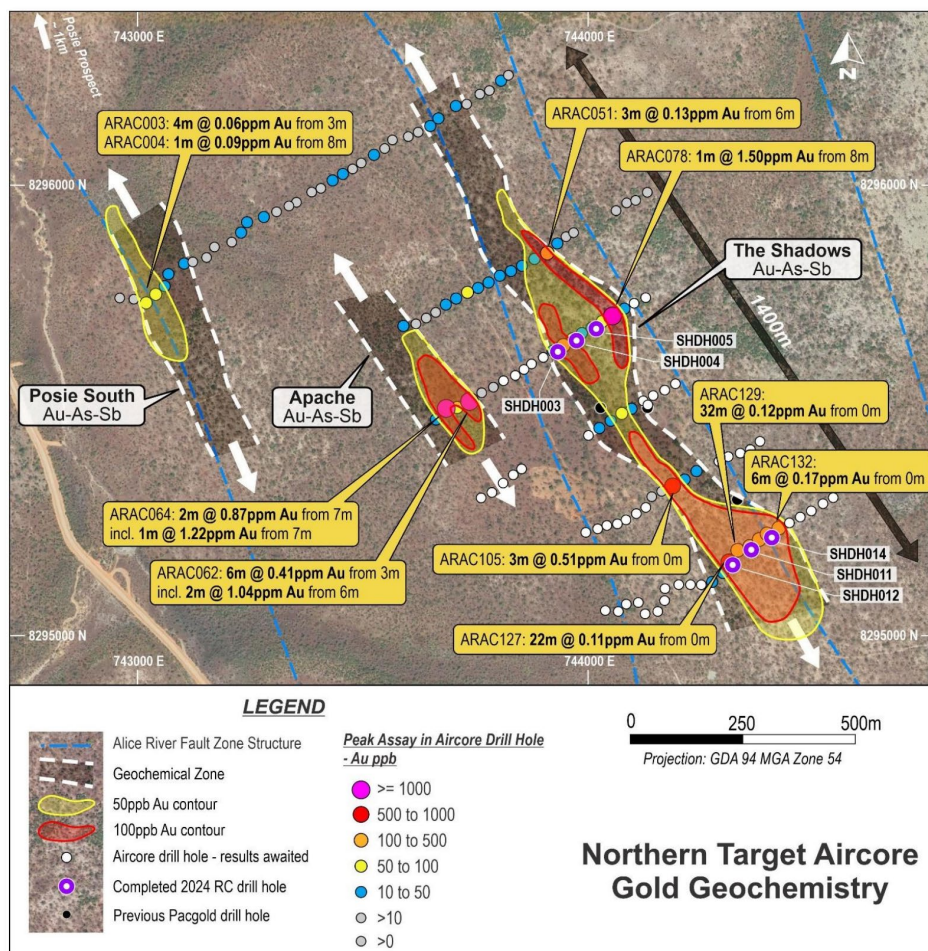

In October 2024, Pacgold commenced a regional aircore drilling programme following a comprehensive cultural heritage assessment and ground disturbance monitoring initiative. The programme was completed in early December, with 749 holes drilled for a total of 7,185m.

Drilling targeted approximately 14km of the interpreted Alice River Fault Zone (ARFZ) IP Resistivity Low corridor (Figure 4). Drill spacing ranged from 200m to 600m, with nominal hole spacing of 25m along traverses perpendicular to the strike of the ARFZ. The geochemical program focused on detecting alteration halos and structural zones associated with gold mineralisation.

### Key results:

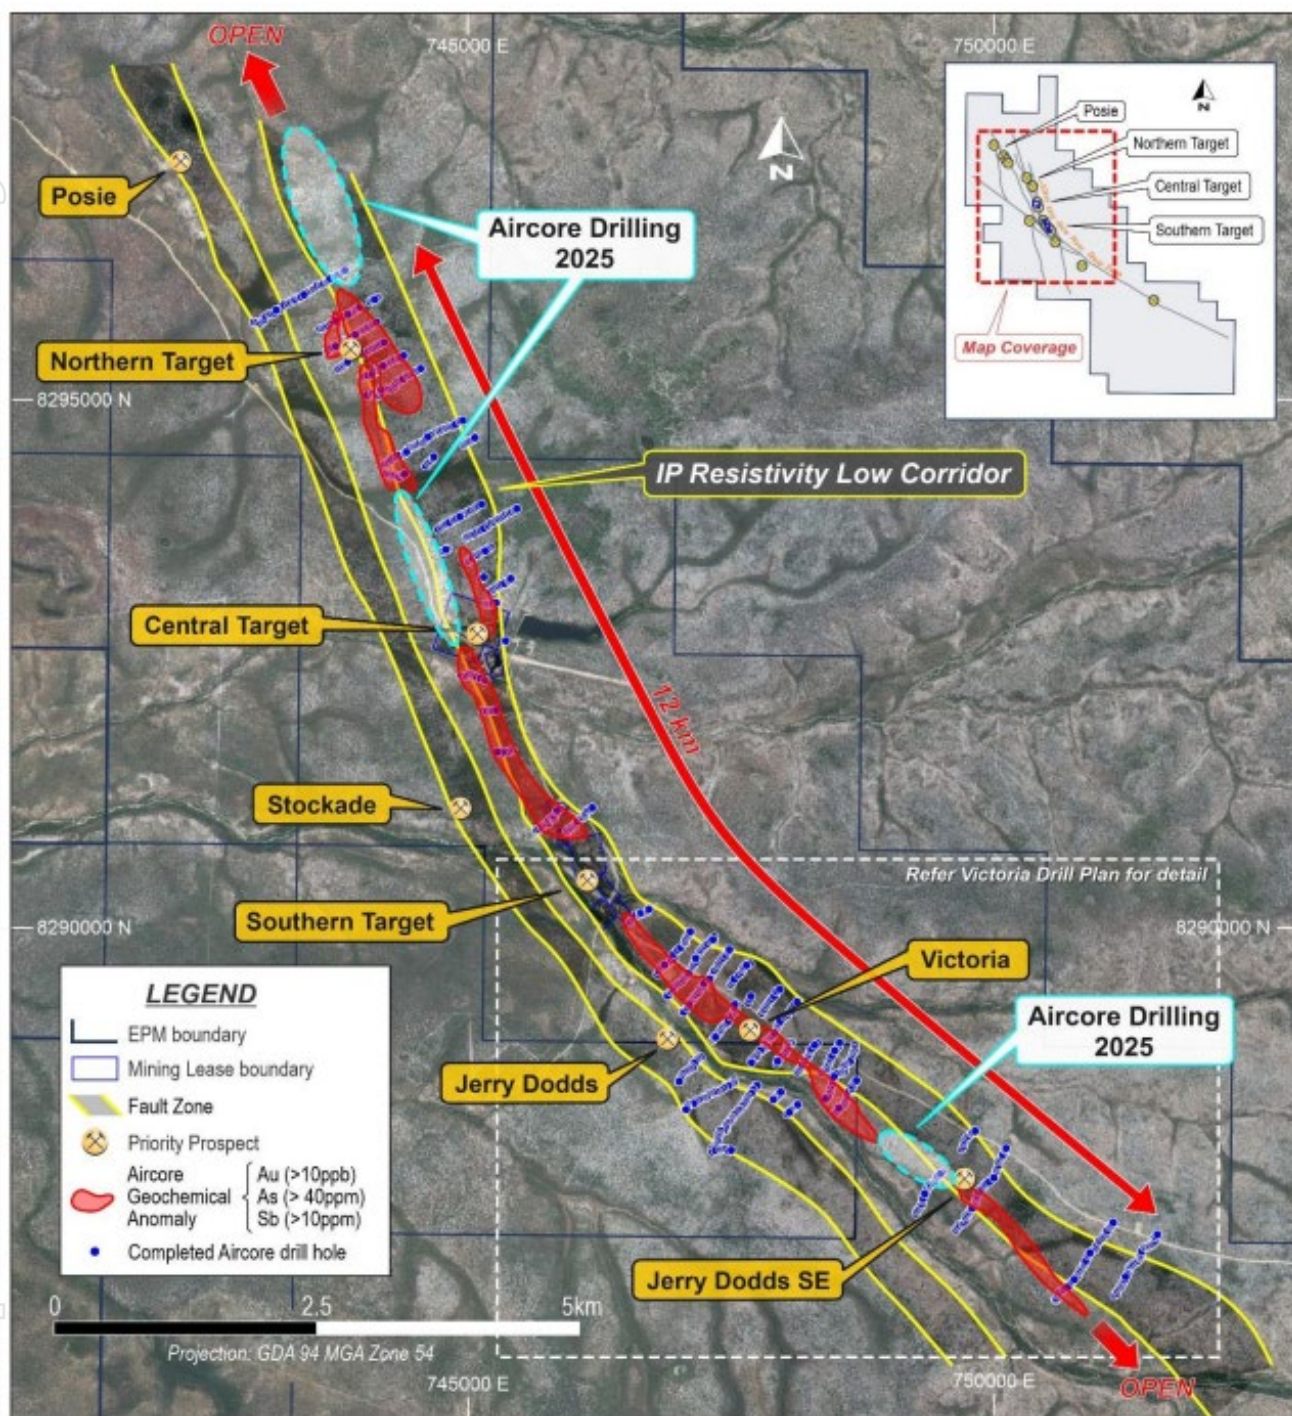

- **12km of geochemical anomalism (Figure 3):** A continuous extensive Au-As-Sb geochemical anomaly has been defined stretching from The Shadows Prospect in the northwest to the Victoria Prospect in the south, with in excess of 12km of geochemical anomalism now ready to be tested with follow up RC drilling.
- **Northern Target:** Assay results confirmed two significant geochemical anomalies:
  - **'The Shadows' Prospect (Figure 2):** A linear Au-As-Sb anomalous zone extending over 1.4km in strike and up to 250m wide, open to the north and south. The anomaly is associated with quartz veining and hydrothermal alteration within a granodiorite host.
  - **'Atlantis' Prospect (previously 'Apache') (Figure 2):** A newly identified gold anomaly defined by five aircore holes, including two with intersections exceeding 1g/t Au. Atlantis is interpreted to be parallel to The Shadows, located near an inflection in the ARFZ.
- **Victoria Prospect (Figure 3):** Defined a large continuous geochemical Au-As-Sb anomaly over nearly 6km of strike, interpreted as a south-easterly extension of historical quartz-vein-hosted gold mineralisation at the Southern Target.

A follow-up Induced Polarisation (IP) survey will commence in Q2 2025 to delineate potential parallel structures and extensions to known mineralisation. Additional aircore and RC drilling is planned throughout 2025 to further test these targets.

**Figure 2:** Au assays in aircore programme at "The Shadows" delineates consistent mineralisation corridor over 1.4km in strike with new parallel zone previously unidentified.

**Figure 3: Regional Aircore drilling programme and extent of Au-As-Sb geochemical anomaly**

## Reverse Circulation (RC) Drilling

Pacgold completed a 24-hole RC drilling program totalling 3,191m across four prospect areas. The RC rig remains on-site to facilitate immediate resumption of drilling in early 2025.

### Key Results:

- Central Target (F1A Zone) (Figure 4):

- ARDH091: 88m @ 0.6g/t Au from 49m, including 10m @ 1.7g/t Au and a second new zone of 11m @ 1.5g/t Au from 126m.
- Extends known vein stockwork mineralisation by 300m north of the main Central F1A zone.
- Mineralisation is hosted in sheeted quartz vein arrays within a hydrothermally altered granodiorite.
- A recalculated interpretation of gold mineralisation within historical drill holes at the Central Target has highlighted the potential for a large bulk-tonnage gold system at Alice River, comparable to other major intrusion-related gold systems such as Hemi and Fort Knox.
- **Southern Target (Figure 6):**
  - STDH014: 50m @ 0.80g/t Au from 53m, including 16m @ 1.0g/t Au and 14m @ 1.0g/t Au.
  - Confirms a large, mineralised vein stockwork envelope similar to the Central Target.
- **The Shadows Prospect (Figure 5):**
  - RC drilling validated exploration models, intersecting significant gold-bearing quartz vein systems.
  - SDHD005: 23m @ 0.3g/t Au from 80m.
  - Pyrite-marcasite sulphides identified within quartz veins, indicating strong hydrothermal activity.
- **Jerry Dodds Prospect:**
  - Three RC holes tested the Jerry Dodds structure, which is an intermittently mapped gold-mineralised zone over 2.5km strike which has surface rock chip samples returning high-grade results, including 47.4g/t Au, 24.7g/t Au, 13.2g/t Au, and 6.1g/t Au. Jerry Dodds is still open in all directions and requires multiple follow up drillholes to test all known outcrops and anomalies
  - RC drilling intersected demonstrate mineralisation similar in alteration and texture to the Central Target area.

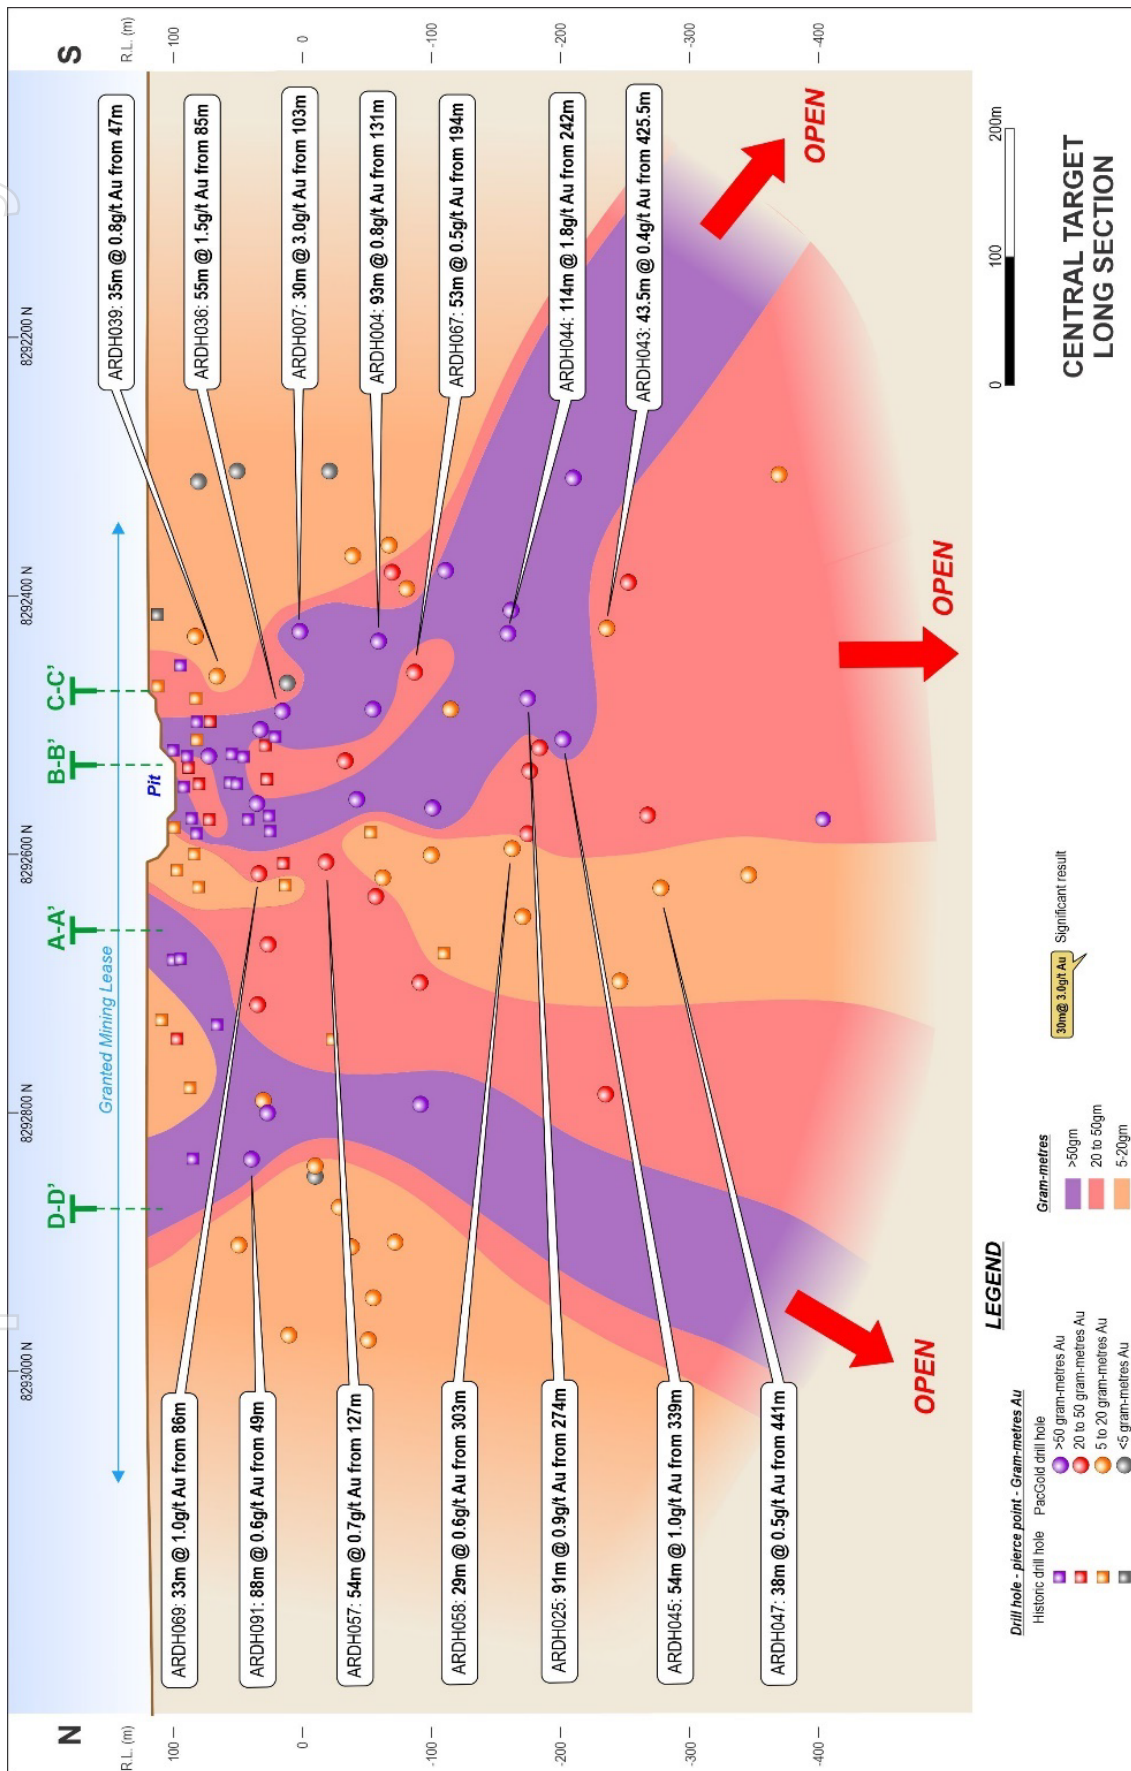

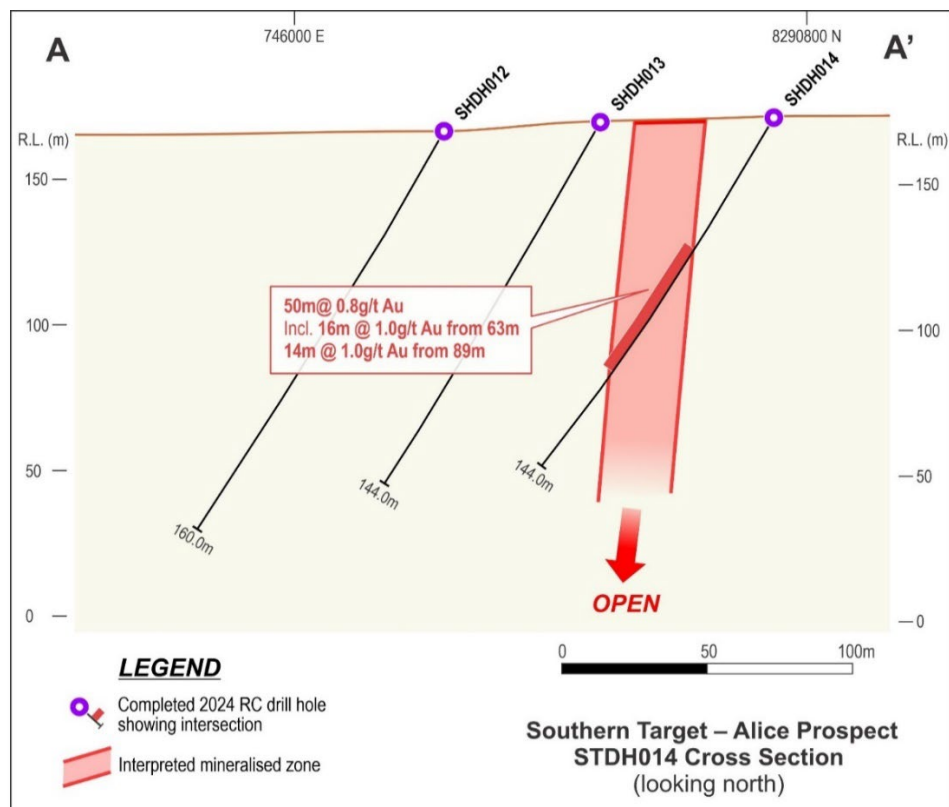

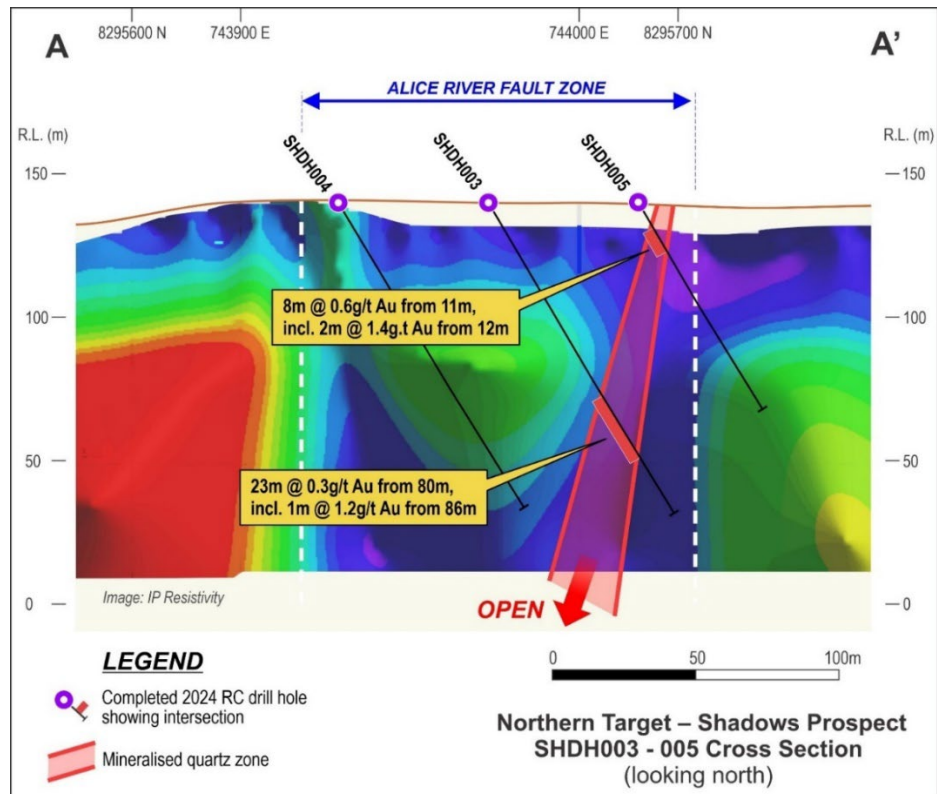

Figure 4: Gold grade-metre contoured long section of Central Target zone showing Pacgold (2021 – 2023) and 2024 November programme results, along with historic drilling, intervals highlight bulk tonnage potential

## Corporate Developments

### **Capital Raising**

Pacgold successfully completed a \$4.2 million placement in September 2024 to accelerate exploration activities. The placement resulted in the issuance of 45,555,556 new fully paid ordinary shares at A\$0.09 per share. Funds will support ongoing geochemical and geophysical surveys, regional RC and diamond drilling, metallurgical studies, and camp expansion.

In addition, a Share Purchase Plan (SPP) in November 2024 raised \$157,800, allowing eligible shareholders to acquire shares at the same price as the placement.

Lead Manager, Euroz Hartley, was issued 11,400,000 broker options exercisable at \$0.15 and expiring 3 years from the date of issue.

### **Board Changes**

During and after the half year, key board changes included:

- **Matthew Boyes** was appointed Managing Director/CEO on 1 September 2024. Mr Boyes is an experienced Geologist and Managing Director, with over twenty-five years' international experience encompassing company management, mine geology, mine development, capital markets and business development.
- **Richard Hacker** joined as a Non-Executive Director on 29 October 2024, bringing extensive experience in corporate finance, capital markets, and resource investment.
- **Shane Goodwin** transitioned from a Non-Executive Director role to Sustainability Manager.
- **Caoilin Chestnutt** was appointed Chair following the retirement of Cathy Moises post-AGM. Ms. Chestnutt's appointment brings almost 30 years in the resources industry with strong experience in discovery, strategy, mergers and acquisition and deal structuring across multiple commodities.
- **Bruce Kendall** joined as a Non-Executive Director subsequent to the end of the period. Mr Kendall is seasoned geologist with over 30 years of experience in mineral exploration and feasibility studies having played key roles in world-class discoveries, including the Tropicana gold deposit, Julimar PGE-Ni-Cu deposit, and Coyote Gold Deposit.

### **Significant Changes in the State of Affairs**

Other than disclosed above, there were no significant changes in the state of affairs of the Company during the financial period.

## Competent Person's Statements

The information in this Half-Year Report that relates to previously reported exploration results for the Alice River Gold Project is extracted from the following ASX announcements:

- « Definition of significant gold system at Alice River continues to advance on 28 January 2025
- « 12km Geochemical Anomaly now delineated in Regional Drilling at Alice River on 20 February 2025
- « Aircore Drilling Across Northern Target area on 11 December 2024
- « Aircore Drilling Completed at Alice River Gold Project on 9 December 2024
- « Reverse Circulation drilling commenced at Alice River Gold Project on 12 November 2024

The above announcements are available to view on the Company's website at [www.pacgold.com.au](http://www.pacgold.com.au). The Company confirms that it is not aware of any new information or data that materially affects the exploration results included in the relevant original market announcements. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the relevant original market announcements.

## DECLARATION OF INDEPENDENCE BY JACKSON WHEELER TO THE DIRECTORS OF PACGOLD LIMITED

As lead auditor for the review of Pacgold Limited for the half-year ended 31 December 2024,  
I declare that, to the best of my knowledge and belief, there have been:

1. No contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the review; and
2. No contraventions of any applicable code of professional conduct in relation to the review.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE HALF-YEAR ENDED 31 DECEMBER 2024

### Note 1 Summary of material accounting policies

These interim financial statements for the half-year reporting period ended 31 December 2024 have been prepared in accordance with Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*, as appropriate for for-profit oriented entities.

These interim financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these interim financial statements are to be read in conjunction with any public announcements made by the company during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, except for the adoption of new and amended standards as set out below.

#### Historical cost convention

The financial statements have been prepared under the historical cost convention.

#### New standards, interpretations and amendments adopted by the group

There are no new standards, interpretations or amendments that have affected the current reporting period and neither has there been a retrospective adjustment or current period adjustment as a result of new standards, interpretations or amendments.

#### Going Concern

The financial report has been prepared on the going concern basis, which contemplates continuity of normal business activities and the realisation of assets and settlement of liabilities in the normal course of business.

As disclosed in the financial report, the Company achieved a net loss of \$600,026 and net operating cash outflows of \$692,871 for the half year ended 31 December 2024. As at 31 December 2024, the Company had cash of \$3,330,713 and a net current asset position of \$3,165,980.

The ability of the Company to continue as a going concern is principally dependent upon the following conditions:

- the ability of the Company to successfully raise capital, as and when necessary; and
- the ability to complete successful development and commercialisation of its projects.

These conditions give rise to material uncertainty which may cast significant doubt over the Company's ability to continue as a going concern. The Directors believe that the going concern basis of preparation is appropriate due to the following reasons:

- the proven track record of capital raising, including the recent placement that raised \$4.1M in October/November 2024; and
- the Directors believe there is sufficient cash available for the company to continue operating until it can raise sufficient further capital to fund its ongoing activities.

Should the Company be unable to continue as a going concern, it may be required to realise its assets and extinguish its liabilities other than in the ordinary course of business, and at amounts that differ from those stated in the financial report. This financial report does not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts or classification of liabilities and appropriate disclosures that may be necessary should the Company be unable to continue as a going concern.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE HALF-YEAR ENDED 31 DECEMBER 2024

### Note 2 Segment information

The Company operates solely within one segment, being the mineral exploration industry in Australia.

### Note 3 Non-current assets – exploration and evaluation assets

	31 December 2024 \$	30 June 2024 \$
Exploration and evaluation assets – at cost	18,197,448	16,453,400
The capitalised exploration and evaluation assets carried forward above have been determined as follows:		
Balance at the beginning of the half-year	16,453,400	13,603,701
Expenditure incurred during the half-year	1,744,048	2,825,444
Rehabilitation asset	-	24,255
Balance at the end of the half-year	18,197,448	16,453,400

Capitalised exploration and evaluation assets include initial acquisition costs, capitalised costs and a rehabilitation asset (refer note 5).

The Directors have assessed that for the exploration and evaluation assets recognised at 31 December 2024, the facts and circumstances do not suggest that the carrying amount of an asset may exceed its recoverable amount. In considering this, the Directors have had regard to the facts and circumstances that indicate no need for an impairment as noted in Accounting Standard AASB 6 *Exploration for and Evaluation of Mineral Resources*.

### Note 4 Current liabilities – Trade and other payables

	31 December 2024 \$	30 June 2024 \$
Unsecured liabilities:		
Trade payables	227,809	320,775
Sundry payables and accrued expenses	49,913	33,535

Unwinding of discount	16,568	30,294
Balance at the end of the half-year	797,696	781,128

#### Rehabilitation provision

The rehabilitation provision relates to the Alice River ML's (located in North Queensland). Pacgold Limited is liable to pay 100% of rehabilitation costs for the lease.

The liability associated with the provision has been present valued in accordance with the Company's accounting policy.

\* Volatility has been determined by looking at the historical volatility over the same period as the expected life of the option, long term average level of volatility, the length of time an entity's shares have been publicly traded, and the appropriate interval for price observations. The company does not have a reasonable history of share transactions by which to gauge the company's volatility. Due to this fact an average volatility of comparable companies share transactions over the same period of time have been used to calculate an appropriate volatility.

## INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of Pacgold Limited

### Report on the Half-Year Financial Report

#### Conclusion

We have reviewed the half-year financial report of Pacgold Limited (the Company), which comprises the statement of financial position as at 31 December 2024, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, material accounting policy information and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Company does not comply with the *Corporations Act 2001* including:

- i. Giving a true and fair view of the company's financial position as at 31 December 2024 and of its financial performance for the half-year ended on that date; and
- ii. Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

#### Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Financial Report section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (including Independence Standards) (the Code) that are relevant to the audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be the same terms if given to the directors as at the time of this auditor's review report.

#### Material uncertainty relating to going concern

We draw attention to Note 1 in the financial report which describes the events and/or conditions which give rise to the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern and therefore the Company may be unable to realise its assets and discharge its liabilities in the normal course of business. Our conclusion is not modified in respect of this matter.

#### Responsibility of the directors for the financial report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

#### Auditor's responsibility for the review of the financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Company's financial position as at 31 December 2024 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
