CHAIR ADDRESS TO SHAREHOLDERS

Dear Shareholders,

On behalf of the board, am pleased to present BOA Resources Limited's interim financial report for the half-year ended 31 December 2024. During this period, the Company maintained a strong financial position with a closing cash balance of \$1.31 million and no debt. This prudent financial management enables us to advance our exploration activities while maintaining a disciplined approach to expenditure.

Our exploration efforts remain focused on high-potential lithium and nickel targets in Western Australia. We are progressing drill planning across key tenements, including Cat Camp, Bald Hill East, and Fraser South. The Bald Hill East tenement, located near the Bald Hill lithium mine, presents a compelling opportunity for resource extension, though heritage survey delays have pushed drilling to late Q2 2025. At Cat Camp, our planned drilling will target known pegmatites and nickel mineralisation, building on encouraging surface geochemistry results.

In the Fraser Range, we are advancing exploration at the Snowys Prospect, which has been identified as a highly conductive anomaly with potential for significant nickel-copper-cobalt mineralisation. While we await final approvals for drilling, we are optimistic about the potential of this prospect.

BOA remains committed to maximising value from its tenement portfolio. In December, IGO Limited returned operatorship of the Transline North and Transline South tenements and we are currently evaluating their previous exploration work before determining our next steps. We continue to assess partnership opportunities for the Koongulla Project in the Paterson Region and for the Two Tanks tenement in the Mt Ida region of Western Australia.

At our Annual General Meeting in November, shareholders approved the appointment of Mark Tomlinson as an Independent Non-Executive Director. Mark brings extensive industry experience that will be invaluable as we advance our exploration strategy. We also welcomed the Company's name change from Boadicea Resources Limited to BOA Resources Limited, to reflect our evolving focus and growth ambitions.

BOA continues to prioritise in-ground exploration expenditure, with 76% of our budget allocated to direct exploration activities. We maintain strict cost control over administration and personnel expenses, ensuring efficient capital deployment in a challenging environment for junior explorers. Our team is dedicated to optimising drill program locations to maximise exploration success while maintaining financial discipline.

While delays in heritage surveys have impacted our drilling schedule, we remain focused on executing our exploration programs as efficiently as possible. Over this period, the Board has been assessing new opportunities for the Company to diversify away from lithium and nickel and grass roots exploration assets. The upcoming quarters will be important in unlocking the potential of our lithium and nickel assets and executing our strategy. We appreciate your continued support and look forward to updating you on our progress.

Thank you for your confidence in BOA Resources.

Yours sincerely,

Catherine Norman

Chair

DIRECTORS' REPORT

The Directors present their report, together with the financial statements, on the Company for the half-year ended 31 December 2024.

Directors

The following persons were Directors of the Company during the whole of the financial half-year and up to the date of this report, unless otherwise stated:

Ms Catherine Norman (appointed 26 October 2023)
Mr Graeme Purcell
Mr James Barrie (resigned 29 November 2024)
Mr Mark Tomlinson (appointed 29 October 2024)

Principal activities

During the half-year, the principal continuing activities of the Company consisted of pursuing minerals exploration activities on its tenements.

Dividends

There were no dividends declared or paid during the half-year.

Review of operations

The loss for the Company for the half-year ended 31 December 2024 after providing for income tax amounted to \$899,182 (December 2023: loss of \$362,883).

At 31 December 2024, the Company had net assets of \$6,506,647 (June 2024: \$7,405,828) and net working capital of \$1,240,371 (June 2024: \$1,893,372).

A detailed review of operations directly follows this Directors' report.

Significant changes in the state of affairs

There were no other significant changes in the state of affairs of the Company during the half-year.

Matters subsequent to the end of the half-year

No matter or circumstance has arisen since 31 December 2024 that has significantly affected, or may significantly affect the Company's operations, the results of those operations, or the Company's state of affairs in future financial years.

Likely developments and expected results of operations

The Company will continue to concentrate on mineral exploration including lithium, gold, copper and nickel exploration.

Environmental regulation

The Company holds interests in a number of exploration tenements. The various authorities granting such tenements require the tenement holder to comply with the terms, and all directions given to it, under those grants. There have been no known breaches of the tenement conditions, and no such breaches have been notified by any government agency during the half-year.

Auditor

Connect National Audit Pty Ltd continues in office in accordance with section 327 of the Corporations Act 2001.

OPERATIONS OVERVIEW

During the period, BOA Resources focused on advancing its key exploration projects, with significant progress in drill planning across its lithium and nickel assets in Western Australia. The Bald Hill East tenement remains a high-priority target, situated near a known lithium resource, while Cat Camp's potential for lithium and nickel mineralisation continues to be refined through geochemical studies. At Fraser South, the Snowys Prospect has emerged as an exciting exploration opportunity, with its highly conductive anomaly suggesting potential for significant mineralisation.

Progress was also made in reviewing BOA's broader tenement portfolio, with a focus on strategic exploration prioritisation and asset optimisation. The return of Transline North and South tenements from IGO Limited provides BOA with new opportunities to reassess these nickel targets, while efforts to secure a partner for the Koongulla Project are ongoing. The Company remains committed to unlocking value from its assets through a combination of drilling, exploration refinement, and strategic partnerships.

Looking ahead, BOA continues to navigate regulatory and heritage approval processes to commence drilling activities as soon as possible. While delays in heritage surveys have impacted timelines, the Company remains prepared to execute its exploration strategy in 2025. With a strong financial position and a disciplined approach to capital deployment, BOA is focused on delivering results from its high-priority targets and advancing its portfolio for long-term shareholder value.

While delays in heritage surveys have impacted our drilling schedule, we remain focused on executing our exploration programs as efficiently as possible. The upcoming quarters will be crucial in progressing our lithium and nickel assets and unlocking their potential.

Drill planning progressing

Subject to final approvals, BOA plans to drill the Cat Camp, Bald Hill East and Fraser South tenements, BOA's core lithium and nickel exploration assets in Western Australia (refer Figure 1).

Bald Hill East (E15/1608)

The Bald Hill East tenement is 2kms from the Bald Hill lithium mine (26.5Mt @ 1% Li₂O resource¹) and seen on Figure 2. BOA will target a potential extension to the mineralised zone as shown.

Delays in completing the heritage survey, due to unavailability of heritage representatives, have pushed the timetable for drilling to late Q2, 2025.

Cat Camp (E63/2050)

The Cat Camp tenement is in the Lake Johnston/Lake Percy region of WA. BOA will focus drilling over the area of known pegmatites and nickel mineralisation. Local pegmatites are shallow and thick and surface geochemistry has highlighted areas of anomalous lithium which will be the target of the drill program.

Fraser Range

Fraser South (E63/1859)

In the Fraser Range, BOA is planning to drill the Snowys Prospect – a highly conductive anomaly identified from an electromagnetic survey over the Fraser South tenement.

Massive sulphides in mafic-ultramafic intrusions in the Fraser Range are the host rocks for Ni, Cu and Co mineralisation which are highly conductive. The Snowys Prospect has the potential for Nova (Ni-Cu-Co) or Andromeda (Zn-Cu) style modified Volcanogenic Massive Sulphides (VMS) mineralisation.

The heritage survey over the Fraser South tenement has been completed and BOA was advised that there were no changes required to the Conservation Management Plan. BOA awaits approval of the CMP before drilling can commence. The CMP submission and approval process has taken over a year and BOA eagerly awaits its approval.

IGO operated tenements

Symons Hill (E28/1932), Transline North (E28/2849), Transline South (E28/2866)

In late December, IGO Limited (ASX:IGO) advised it was returning operatorship of the Transline North (E28/2849) and Transline South (E28/2866) tenements back to BOA after completing its evaluation. These two tenements house the Eggpie and Ballast NE nickel targets. BOA is evaluating the work done by IGO before planning any exploration activities.

On completion of the handover, IGO will operate one of the BOA tenements held in the Fraser Range (E28/1932).

Koongulla

Koongulla (E45/5392), Koongulla East (E45/5866), Koongulla South (E45/5959)

BOA is seeking a partner to progress its gold focused exploration over the Koongulla tenements in the Paterson Region of WA.

The Koongulla Project comprises three tenements and covers an area of approximately 671km² as shown in Figure 2².

BOA has identified a large dome feature, analogous to the Telfer Dome which houses the 32Moz Au and 1Mt Cu Telfer mine operated by Newcrest Mining Limited.

Other major gold discoveries in the region include Rio Tinto's Winu copper project and the Havieron copper-gold deposit, estimated to contain >7Moz Au.

The Telfer and other deposits in the region are temporally, structurally and possibly genetically related to a suite of gold-bearing intrusions, including the Koongulla Dome.

Figure 2: Regional map showing the Koongulla tenement package

Optimising the BOA portfolio

In line with BOA's policy to focus its resources and portfolio on high potential exploration tenements, BOA has been undertaking a review of its holdings and an update schedule is included in Appendix 2.

BOA continues to evaluate its Fraser Range holdings as well as seek a partner for the Koongulla tenements in the Paterson Province.

In addition, BOA has been evaluating new opportunities to diversify the portfolio and lower the risk profile of the asset base.

BOARD AND MANAGEMENT CHANGES

Company Secretary James Barrie was elected a director at the 2023 AGM. He had previously been appointed by the board to fill a vacancy. He resigned 29 November 2024.

Mark Tomlinson was elected a director at the 2024 AGM. He was appointed 29 October 2024.

BOA non-executive director Graeme Purcell's re-election at the 2024 AGM was passed by a majority vote of shareholders.

CAPITAL RAISING – SHARE PLACEMENT

No capital raising was completed during the reporting period.

DIVIDENDS

No dividends were paid during the reporting period.

This report is made in accordance with a resolution of Directors, pursuant to section 298(2)(a) of the Corporations Act 2001.

NOTES TO THE FINANCIAL STATEMENTS

Note 1. Material accounting policies

The principal accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

New or amended Accounting Standards and Interpretations adopted

The Company has adopted all the new, revised or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period. The adoption of these standards had no impact on these financial statements.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

Note 2. Basis of preparation

These general purpose financial statements for the interim half-year reporting period ended 31 December 2024 have been prepared in accordance with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the Corporations Act 2001, as appropriate for for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'.

This interim financial report is intended to provide users with an update on the latest annual financial statements of BOA Resources Ltd. As such, it does not contain information that represents relatively insignificant changes occurring during the half-year. It is therefore recommended that this report be read in conjunction with the annual financial statements of BOA Resources Ltd for the year ended 30 June 2024, together with any public announcements made during the following half-year.

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, unless otherwise stated.

Historical cost convention

The financial statements have been prepared under the historical cost convention.

Note 3. Operating segments

Identification of reportable operating segments

The Company is organised into one operating segment, exploration for minerals within Australia. This operating segment is based on the internal reports that are reviewed and used by the Board of Directors (who are identified as the Chief Operating Decision Makers ('CODM')) in assessing performance and in determining the allocation of resources.

Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the Company in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value and the Company does not have a limited amount of authorised capital.

On a show of hands, every member present at a meeting in person or by proxy shall have one vote and, upon a poll, each share shall have one vote.

Capital risk management

The Company's objectives when managing capital are to safeguard its ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders and to maintain an optimum capital structure to reduce the cost of capital.

Capital is regarded as total equity, as recognised in the statement of financial position, plus net debt. Net debt is calculated as total borrowings less cash and cash equivalents.

In order to maintain or adjust the capital structure, the Company may issue new shares.

Note 12. Equity – Reserves

	Dec 2024 \$	Jun 2024 \$
Share-based payments reserve	<u>177,114</u>	<u>177,114</u>

Share-based payments reserve

The reserve is used to recognise the value of equity benefits provided to employees and directors, as part of their remuneration, and other parties as part of their compensation for services.

Movements in reserves

Movements in each class of reserve during the current half-year and previous financial year are set out below:

	Share-based payments \$

No dividends were declared or paid during the half-year.

Note 14. Financial instruments

Remaining contractual maturities

The following tables detail the Company's remaining contractual maturity for its financial instrument liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the financial liabilities are required to be paid. The tables include both interest and principal cash flows disclosed as remaining contractual maturities and therefore these totals may differ from their carrying amount in the statement of financial position.

Independent Auditor's Review Report

To the members of BOA Resources Limited

Report on the Half-year Financial Report

Conclusion

We have reviewed the accompanying Condensed Half-year Financial Report of BOA Resources Limited (the company). Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the Condensed Half-year Financial Report of BOA Resources Limited is not in accordance with the Corporations Act 2001, including:

- Giving a true and fair view of the company's financial position as at 31 December 2024 and of its performance for the Half-year ended on that date; and
- Complying with Australian Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

The Condensed Half-year Financial Report comprises:

- Statement of financial position as at 31 December 2024;
- Statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the Half-year ended on that date;
- Notes 1 to 19 comprising a summary of material accounting policies and other explanatory information; and
- The Directors' Declaration.

Basis for Conclusion

We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 Review of the Financial Report performed by the Independent Auditor of the Entity. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Half-year Financial Report section of our report. We are independent of the group in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the corporations Act 2001 which has been given to the directors of the company, would be in the same terms if given to the directors as at the time of this auditor's review report.

Responsibilities of the Directors for the Half-year Financial Report

The Directors of the Company are responsible for:

- The preparation of the Condensed Half-year Financial Report that gives a true and fair view in accordance with Australian Accounting Standards and Corporations Act 2001
- For such internal control as the Directors determine is necessary to enable the preparation of the Condensed Half-year Financial Report that is free from material misstatement, whether due to fraud or error.

Auditor's responsibility for the review of the Half-year Financial Report

Our responsibility is to express a conclusion on the Half-year Financial Report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the Half-year Financial Report is not in accordance with the Corporations Act 2001 including: giving a true and fair view of the group's financial position as at 31 December 2024 and its performance for the half-year ended on that date; and complying with Australian Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

A review of a Half-year Financial Report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
