PRINCIPAL ACTIVITIES AND REVIEW OF OPERATIONS

The Company is an oil and gas exploration company whose principal activity is the Presidio Oil and Gas Project which is located in Presidio County in the State of Texas in the USA.

Presidio Oil Project - 70% Working Interest (WI) in 4 Wells and 10,091.6 Gross Acres

Helios has a 70%WI in a total of 7,877.8 gross acres and a 70%WI in the 4 wells drilled by Helios in the Presidio Oil and Gas Project, namely, Presidio 52#1, Presidio 141#2, Quinn Creek 141#1 and Quinn Mesa 113#1.

Commercialization of the Presidio Oil & Gas Project

Helios' primary focus with the Presidio Oil & Gas Project is on phased-in gas commercialization along with oil production sales. The Presidio Oil & Gas Project is comprised of a large wet gas resource and from the gas isotope analysis, it shows the wetness ratios are between 24-30% which corresponds to oil associated gas in the genetic gas classification.

Several technologies are being reviewed for a potential pilot project, including utilizing the gas for electricity generation for field use and for local commercial gas sales after stripping out the liquids (NGLs) for sale. Other options being evaluated include connecting the field to the Trans Pecos Gas pipeline located approximately 50 miles to the east, and the feasibility of utilizing modular small scale LNG plants in the field.

Commercialization options being assessed by Helios for the Presidio Oil and Gas Project also include bringing in a farmin joint venture partner to participate in the Presidio Oil and Gas Project.

Leases Acquired or Disposed of During the Half Year Ending on 31 December 2024

During the half year ending on 31 December 2024, no additional oil and gas leases were acquired, and a total of 340 acres of leases were allowed to expire during the second half of the year. All 7,877 gross acres the subject of the Presidio Oil and Gas Project are located in the south-west portion of Presidio County, Texas and are the subject of oil and gas lease agreements entered into with private oil and gas mineral rights owners.

Presidio Oil & Gas Project - Infrastructure

Access to the 4 wells that constitute the Presidio Oil & Gas Project (Presidio 52#1, Presidio 141#2, Quinn Creek 141#1 and Quinn Mesa 113#1) is provided by a 25 mile unsealed, formed road constructed by Helios that branches off the sealed US-90 highway which carries heavy truck and passenger vehicle traffic. The El Paso Oil Refinery located in El Paso, Texas has a processing capacity of 135,000 barrels of oil per day and is located 170 miles from the Presidio Oil & Gas Project. Crude oil is sold there by truck delivery.

The Presidio Oil & Gas Project is located 250 miles (or 5 hours by truck) from Midland, Texas which is the epicenter of the Permian Basin oil industry. All rigs, supplies and services required for the Presidio Oil & Gas Project are sourced from Permian Region. Oil production in the Permian Region in December 2023 reached approximately 5,974,000 bopd.

Production Facilities Installed

Permanent production facilities have been installed at the well site location of the Presidio 141#2 well consisting of a 3-phase separator, two 500 barrel oil tanks, two 500 barrel water tanks, and a flare stack. The Quinn Creek 141#1 well has also been piped into and connected to flow to the shared field production facilities located at the Presidio 141#2 location.

Flowback Testing - Presidio 52#1 Well

Flowback testing of the Presidio 52#1 well occurred during the 2023-2024. A workover programme was subsequently planned for Presido 52#1 well to improve oil and wet gas production. Production from the lowest two production zones became impaired and a cleanup of the well was required. These two zones are the most productive zones in the Presidio 52#1 well. The reduction of production from these 2 zones resulted in wet gas production reducing to 500MCF per day. The well is considered shut in with intermitted flow and continues to unload frack water, with modest amount of oil and gas.

Background to the Presidio 52#1 Well

The Presidio 52#1 well was successfully drilled to a total depth (TD) of 8,806 feet. During drilling, the Presidio 52#1 well encountered the lower bench of the Ojinaga Formation (primary target) and the Eagle Ford Shale Formation (secondary target) as well as two older (deeper) Cretaceous units, being the Buda and Georgetown Formations (both secondary targets).

The lower bench of the Ojinaga Formation was encountered at the depth of 6,632 feet and is 793 feet thick. Helios has successfully tested or produced oil and or gas from all 4 wells it has drilled which have penetrated the Ojinaga Formation.

The oil analysis shows that the oil in the Ojinaga Formation is sourced from the Eagle Ford Shale Formation. The Eagle Ford Shale was encountered at a depth of 7,425 feet and is 836 feet thick with the deepest 235 feet also referred to as the Boquillas Formation (which is equivalent to the lower Eagle Ford Formation in Karnes County, Texas, USA).

A vertical fracture stimulation job undertaken in the Presidio 52#1 well comprising 4 stages situated within the 1,623 foot oil and gas bearing column commencing from the lower bench of the Ojinaga Formation and ending at the deepest part of the Eagle Ford Shale.

Very good to excellent oil and gas shows in the Presidio 52#1 Well

Very good to excellent oil and gas shows were observed throughout the drilling of the entire lower bench of the Ojinaga Formation and throughout the drilling of the entire Eagle Ford Formation (which includes the 235 feet of the Boquillas Formation). The distance between the commencement of the lower bench of the Ojinaga Formation at 6,632 feet and the cessation of casing at 8,255 feet is 1,623 feet. That is a 1,623 foot oil and gas bearing column.

The 1,623 feet interval was fracked across 4 stages per a frack design created by John Ely and his team from Ely and Associates. The four frack intervals have been co-mingled as a vertical completion for production purposes. Gas measurements were consistently high throughout the drilling through the entire lower bench of the Ojinaga Formation and throughout the drilling of the entire Eagle Ford Formation. From the gas isotope analysis, it shows the wetness ratios are between 24-30% which corresponds to oil associated gas in the genetic gas classification.

Quinn Creek 141#1 Well During the Half Ending 31 December 2024

Quinn Creek 141#1 is now shut in with production tubing run in the well. Various artificial lift applications are being investigated to optimize sustainable production. The well continues to build up pressure while being shut in and is being flowed intermittently.

Presidio 141#2 Testing During the Half Ending 31 December 2024

Presidio 141#2 is currently shut in as various artificial lift applications are being investigated to optimize sustainable production. The well continues to build up pressure while being shut in in and is being produced intermittently.

Corporate

Helios has \$151,039 debt and cash at bank at the end of the half year period on 31 December 2024 was \$195,089.

OPERATING RESULT

The loss from operations for the half year ended 31 December 2024 after providing for income tax was \$1,366,078 (2023: \$2,874,450). The total comprehensive income for the half year ended 31 December 2024 after providing for income tax was \$1,416,463 (2023: loss \$4,256,027).

Additional information on the operations and financial position of the Group and its business strategies and prospects is set out in this directors' report and the interim financial report.

AFTER REPORTING DATE EVENTS

On 6 February 2025, the Company announced the appointment of John Cathcart as Non-Executive Director of the Company.

On 10 February 2025, the Company announced the issue of Convertible Notes that raised \$691,325 to support ongoing oil and gas exploration of the Presidio Project in Texas, USA, repayment of current director and staff loans, and general business activities.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS

1. Summary of Material Accounting Policies

This general purpose interim financial report includes the financial statements and notes of Helios Energy Ltd (the "Company"), a public limited entity, and its controlled entities (the "Group") for the half-year ended 31 December 2024.

(a) Basis of Preparation

These general purpose interim financial statements for the half-year reporting period ended 31 December 2024 have been prepared in accordance with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the Corporations Act 2001, as appropriate for for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'.

These general purpose interim financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 30 June 2024 and any public announcements made by the company during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The principal accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, unless otherwise stated.

(b) New or amended Accounting Standards and Interpretations adopted

The Group has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

(c) Going concern

The financial report has been prepared on the basis that the Group is a going concern, which contemplates the continuity of normal business activity, the realisation of assets and the settlement of liabilities in the normal course of business.

For the half year ended 31 December 2024 the Group recorded a net loss of \$1,366,078 (2023: \$2,874,450), a net cash outflow from operating activities of \$315,760 (2023: \$2,280,717) and a working capital deficit of \$1,825,337 (2023: \$529,820). At 28 February 2025, the Group had a net working capital deficit of \$574,480.

The ability of the Group to continue as a going concern is principally dependent upon the ability of the Group to continue to secure funds by raising capital from equity markets and managing cash flows in line with available funds. These conditions indicate a material uncertainty that may cast significant doubt about the Group's ability to continue as a going concern and, therefore, that it may be unable to realise its assets and discharge its liabilities in the normal course of business.

The Directors believe it is appropriate to prepare the financial report on a going concern basis for the following reasons:

- the Group has a net asset position of \$46,785,682 as at period end and a cash balance of \$195,089 as at period end. At 28 February 2025 the Group has a cash balance of \$329,036.
- the Group raised \$691,325 in February 2025 from the issue of convertible notes (refer to Note 8 for further details).
- the Group announced a Placement of \$1 million and a fully underwritten non-renounceable rights issue of \$2.6 million (before costs) on 13 March 2025. Refer to Note 8 for further details.
- the Group has the option, if necessary, to defer certain expenditure or abandon certain projects and reduce costs in order to minimise its funding requirements.

1. Summary of Material Accounting Policies (continued)

(c) Going concern (continued)

- the Group has the ability to raise further funds through capital raising as it has successfully demonstrated in the past and it is currently progressing with arrangements to conduct a capital raising within the next quarter.
- the Group is in discussions with creditors with regards to repayment plans, timing and terms.

Should the Group be unable to continue as a going concern, it may be required to realise its assets and extinguish its liabilities other than in the normal course of business and at the amounts stated in the financial report. The financial report does not include any adjustments relating to the recoverability and classification of recorded asset amounts or to the amounts and classification of liabilities that might be necessary should the Group not continue as a going concern.

2. Segment Information

Identification of reportable operating segments

The Group is organised into two operating segments, being oil and gas exploration in the USA and helium in China. This is based on the internal reports that are being reviewed by the Board of Directors who are identified as the chief Operating Decision Makers (CODM) in assessing performance and in determining the allocation of resources.

INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of Helios Energy Limited

Report on the Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of Helios Energy Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 31 December 2024, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, material accounting policy information and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Group does not comply with the *Corporations Act 2001* including:

- i. Giving a true and fair view of the Group's financial position as at 31 December 2024 and of its financial performance for the half-year ended on that date; and
- ii. Complying with Accounting Standard AASB *134 Interim Financial Reporting and the Corporations Regulations 2001*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Financial Report section of our report. We are independent of the Company in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to the audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be the same terms if given to the directors as at the time of this auditor's review report.

Material uncertainty relating to going concern

We draw attention to Note 1(c) in the financial report which describes the events and/or conditions which give rise to the existence of a material uncertainty that may cast significant doubt about the Group's ability to continue as a going concern and therefore the Group may be unable to realise its assets and discharge its liabilities in the normal course of business. Our conclusion is not modified in respect of this matter.

Responsibility of the directors for the financial report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is true and fair and is free from material misstatement, whether due to fraud or error.

Auditor's responsibility for the review of the financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including giving a true and fair view of the Group's financial position as at 31 December 2024 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
