NATURE OF THIS DOCUMENT

This presentation has been prepared by Aspire Mining Limited (Aspire or the Company). The information is based on publicly available information, internally developed data and other sources. By receiving this presentation, you acknowledge and represent to the Company that you have read, understood and accepted the terms of this disclaimer. It is the responsibility of all recipients of this presentation to obtain all necessary approvals to receive this presentation and receipt of this presentation will be taken by the Company to constitute a representation and warranty that all relevant approvals have been obtained.

NOT AN OFFER

This presentation is for information purposes only and does not purport to be all inclusive or to contain all information about the Company or any of the assets, current or future, of the Company. This presentation does not comprise a prospectus. product disclosure statement or other offering document under Australian law (and will not be lodged with ASIC) or any other law. This presentation also does not constitute or form part of any invitation, offer for sale or subscription or any solicitation for any offer to buy or subscribe for any securities in any jurisdiction nor shall they or any part of them form the basis of or be relied upon in connection therewith or act as any inducement to enter into any contract or commitment with respect to securities. Any decision to purchase new shares must be made on the basis of each investor's own investigations and inquiries into the Company on the basis of the information to be contained in the prospectus to be prepared and issued to eligible investors and a review of the Company's other periodic and continuous disclosure announcements lodged with the ASX, which are available at www.asx.com.au. This presentation does not constitute an offer to sell, or a solicitation of an offer to buy, any securities in the United States. This presentation and its contents must not be distributed, transmitted or viewed by any person in the United States or any jurisdiction where the distribution, transmission or viewing of this presentation would be unlawful under the securities or other laws of that or any other jurisdiction.

NOT INVESTMENT ADVICE

This presentation is not investment or financial product advice (nor tax, accounting or legal advice) and its contents are not intended to be used for the basis of making an investment decision. Recipients of this presentation should carefully consider whether the company is an appropriate investment for them in light of their personal circumstances, including their financial and taxation position. This presentation does not take into account the individual investment objectives, financial situation and particular needs of each investor or shareholder. You may wish to seek independent financial and taxation advice before making any decision in respect of this presentation. Neither Aspire nor any of its related bodies corporate is licensed to provide financial product advice in respect of Aspire's securities or any other financial products.

FORWARD LOOKING STATEMENTS

This presentation contains forward-looking information which is based on the assumptions, estimates, analysis and opinions of Aspire's management made in light of its experience and its reasonable perception of trends, current conditions and expected developments, as well as other factors that management of the Company believes to be relevant and reasonable in the circumstances at the date that such statements are made, but which may prove to be incorrect.

Assumptions have been made by the Company regarding, among other things: the price of coking coal, the timely receipt of required governmental approvals, the timeline for project construction, development and production activities, forecast financial information, the accuracy of capital and operating cost estimates, the completion of a feasibility study for the Ovoot Coking Coal Project on its exploration and development activities, the ability of the Company to operate in a safe, efficient and effective manner and the ability of the Company to obtain financing as and when required and on reasonable terms. Readers are cautioned that the foregoing list is not exhaustive of all factors and assumptions which may have been used by the Company.

Although management believes that the assumptions made by the Company and the expectations represented by such information are reasonable, there can be no assurance that the forward-looking information will prove to be accurate. Forwardlooking information involves known and unknown risks, uncertainties, and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any anticipated future results, performance or achievements expressed or implied by such forward-looking information. Such factors include, but are not limited to, the actual market price of coking coal, the actual results of current exploration, the actual results of future exploration, the ability to obtain financing on expected terms, obtaining regulatory approvals and the conditions attached to the same, delays in project construction and development, changes in project parameters as plans continue to be evaluated, foreign exchange fluctuations and general economic conditions, increased costs and demand for production inputs, the outcomes of studies, the speculative nature of exploration and project development, including the risks of obtaining necessary licenses and permits and diminishing quantities or grades of reserves, political and social risks, changes to the regulatory framework within which the Company operates or may in the future operate, environmental conditions including weather conditions. geological and geotechnical events, and environmental issues, recruitment and retention of personnel, industrial relations issues and litigation, as well as all those factors disclosed in the Company's publicly filed documents. Readers should not place undue reliance on forward-looking information. The Company does not undertake to update any forward-looking information, except in accordance with applicable securities laws.

DISCLAIMER

No representation or warranty, express or implied, is made by the Company that the material contained in this presentation will be achieved or prove to be correct. Except for statutory liability which cannot be excluded, each of the Company, its directors, officers, employees, advisers and agents expressly disclaims any responsibility for the accuracy, fairness, sufficiency or completeness of the material contained in this presentation, or any opinions or beliefs contained in this presentation, and excludes all liability whatsoever (including in negligence) for any loss or damage which may be suffered by any person as a consequence of any information in this presentation or any error or omission there from. To the maximum extent permitted by the law, the Company disclaims any obligation to update or keep current the information contained in this presentation or to correct any inaccuracy or omission which may become apparent, or to furnish any person with any further information. Any opinions expressed in the presentation are subject to change without notice.

Ovoot is a Quality Investment Opportunity

Aspire's Ovoot Coking Coal Project is a standalone, permitted coking coal development now progressing into the development phase.

Ovoot Validated as Low Capex, High Payback: Independent Technical Report (ITR) supports the robust returns and technical viability demonstrated in the Life-of-Mine plan underpinning the current JORC Coal Reserve estimate.¹

Financing in Progress: Structuring in place to minimise shareholder dilution and maximise value, including off-balance sheet financing of road to preserve capital for mining and operations.

Fast-Track Development Underway – Camps & Early Works: Site establishment has commenced, to expedite construction of worker camp and early-stage infrastructure.

De-Risked Project with Social Licence Secured: Years of engagement ensure strong community and government backing.

Compelling Value Proposition – Positioned for Rapid Execution: With approvals secured and a clear funding path, Ovoot is ready to develop.

High-Return Coking Coal Project Confirmed

Aspire's Ovoot Coking Coal Project has robust economic parameters, a capital-efficient development plan, and a short payback period. The Project has a structured pathway to production with demonstrated community support.

Key Takeaways

Robust Economics: \$US2.2 billion pretax NPV

30+ Year Mine Life: 116 Mt Life of Mine washed coking coal sales

Low-Cost, High-Yield: Low capital costs to first coal production, 3.8 year pre-tax payment period

Phased Expansion from 1.5 Mtpa to 5.0 Mtpa production rate

Fast-Track Development Underway: Early infrastructure works in progress

Project Economic Highlights¹

<u> </u>	2,174 1,558	NPV ₁₀ (US\$m) (Pre-tax) NPV ₁₀ (US\$m) (Post-tax)
	215	Pre-production capital (US\$m)
*	3.8 4.2	Payback period (Yr) (Pre-tax) Payback period (Yr) (Post-tax)
\$	220	Average Annual Free Cash Flow (US\$m) ²
	142	All In Sustaining Cost (US\$/t) ³
<u></u>	230	Assumed price for Ovoot fat coking coal (US\$/t) ⁴

Ovoot Coking Coal Project

A premium 'fat' coking coal project of significant resource scale and saleability, with all major permits in place to construct; significant work has been done by Aspire to optimise and de-risk the route to market of Ovoot coal

Overview	
Ownership	100%
JORC Coal Resource	219.4 Mt
JORC Coal Reserve	130.1 Mt
Coal Type	Low ash 'fat' coking coal
Construction Start	Q2-2025
First Coal Delivery	Q4-2026
Tenement Validity	August 2042 ¹
Trucking Distance	600 km
Railing Distance	1,115 km
Major Permits	Mine (2022) CHPP (2024) Road (2024)

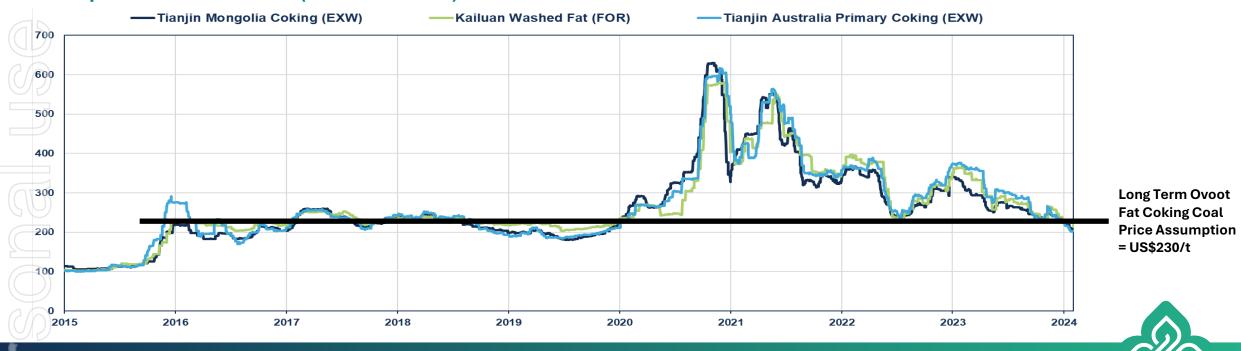

Premium Fat Coking Coal – Scarcity Drives Strong Prices

Ovoot's 'fat' coal is highly sought after for its wide plastic range, affording it excellent blending properties with other coals

Sustained supply shortfalls result in strong demand and prices¹

- Ovoot's fat coking coal is sought after in the prospective Target Market Regions of Hebei, Inner Mongolia, Liaoning, Heilongjiang, and Jilin provinces in China
- Supply shortfalls of washed, fat coking coals in these regions are expected to reach 18.1 Mtpa by 2029, increasing from a 15.1 Mt shortfall in 2023
- Average prices for Ovoot specification coal delivered to Erlian port in Inner Mongolia are forecast to be US\$230/t in 2026.

Comparative Coal Prices (USD/t inc. VAT)²

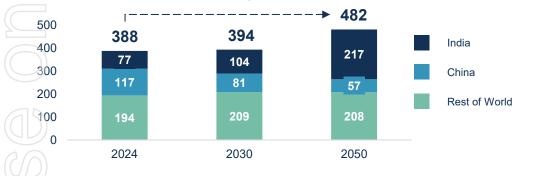

aspirelimited.com

Ovoot's Market Advantage: High Demand, Limited Supply

Ovoot is ideally positioned to meet the growing global demand for premium coking coals, including a 4.1% CAGR for Indian metallurgical coal demand, as one of few new projects forecast to come online

Global Export Coking Coal Demand (Mt)¹

Fat Coal Supply and Demand in Target Markets²

Ovoot Fills the Regional "Fat" Coking Coal Supply Gap

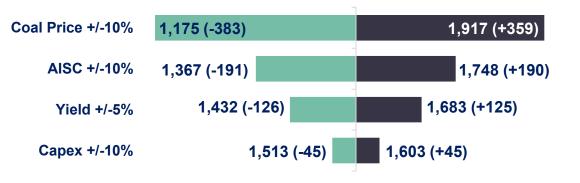

Ovoot Project Economics¹

Financial Summary

	Unit	Value
NPV ₁₀ (post-tax)	US\$m	1,558
Payback period (post-tax)	Years	4.2
Pre-Production Capital	US\$m	215
Fat Coking Coal price	US\$/t	230
Life of Mine Duration	Years	31
Initial production rate (from 2026)	Mtpa	1.5
Steady-state production rate (from 2032)	Mtpa	5.0
Free Cash Flow (LOM²) (post-tax)	US\$m	6,806
Average annual Free Cash Flow	US\$m	220
EBIT (LOM)	US\$m	9,863
Average annual EBIT	US\$m/yr	318
Total Material Moved (LOM)	Mbcm	1,122
Coal Sold (LOM)	Mt	116
Mongolian taxes and royalties paid (LOM)	US\$m	3,954
Strip Ratio (LOM)	bcm:ROMt	6.5
Average Processing Yield (LOM)	%	79

Financial Sensitivities (US\$m NPV₁₀)

AISC (LOM)	US\$/t	142

Ovoot Project Economics

Coking Coal Export Royalty Structure ¹

Realised Coal Sale Price (US\$/t)	Unit	Royalty Rate
0 to 99.99	%	5.0
100.00 to 129.99	%	6.0
130.00 to 159.99	%	6.5
160.00 to 189.99	%	7.0
190.00 to 209.99	%	7.5
Over 210.00	%	8.0

Pre-Production Capital Costs

	Unit	Study Outcome
Mining	US\$m	59
Processing	US\$m	65
Transportation	US\$m	62
Logistics	US\$m	26
Other	US\$m	2
Total Pre-Production Capital	US\$m	215

Tax Regime

Mongolia has a progressive corporate tax system, whereby the tax rate is 10% on the first taxable income up to Mongolian Tugrik ₹6.0 billion (c.US\$1.8 million)

For annual taxable income exceeding ₹6.0 billion, the tax rate is ₹600 million plus 25% on the taxable income over ₹6.0 billion

Life-of-Mine Capital Costs

	Unit	Study Outcome
Mining	US\$m	1,799
Processing	US\$m	383
Transport	US\$m	3,087
Logistics	US\$m	2,950
Sustaining Capital (LOM)	US\$m	1,477

Ovoot Project Economics

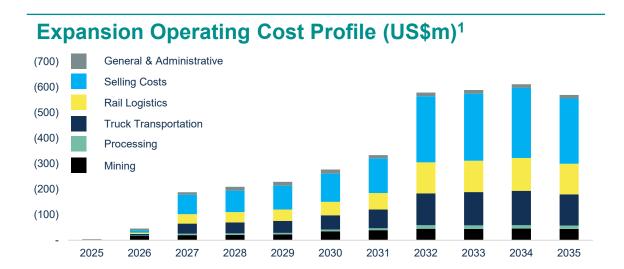

Free Cash Flow (US\$m)

Positive Free Cash Flow: strong project economics demonstrates Ovoot's world-class quality and enables Aspire to fund operations and growth initiatives internally

Fast Ramp-Up in Early Years: enables swift scaling of operations, contributing to robust financial performance

Rapid Finance Repayment: allows for quick repayment of financing, ensuring financial stability and operational flexibility

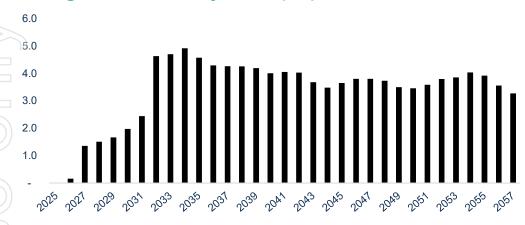

- Ramp-Up to 5.0 Mtpa: with introduction of expanded processing capacity, a significant step increase is projected through to 2032, with CHPP feed reaching 5.0 Mtpa
- Enhanced Efficiency: increase in production will lead to lower unit rates, optimizing cost efficiency
- Low Mining Costs: low strip ratio and simple mining process deliver low mining costs, enhancing project economics

Ovoot Project Economics

Coking Coal Sales by Year (Mt)

The sales profile is a direct reflection of our resource capabilities, showcasing a steady and reliable growth pattern. This stability is intrinsically linked to our robust production and processing capacity, ensuring consistent performance and scalability

The deposit consists of more than 97% coking coal, a high-quality resource that is essential for steel production now and into the future.

Capital Expenditure Profile (US\$m)

- Development capital requirements are relatively low and strategically staged over several years. This approach aligns with our planned production increases, ensuring efficient and sustainable growth
- Sustaining capital requirements can be self-funded through free cash flow, ensuring financial stability and minimising the need for external financing
- Additional capital optimisation may be achieved through vendor financing and contractor arrangements, enhancing our financial flexibility and operational efficiency

Ovoot: A Project Built for Mutual Prosperity

The Ovoot development plan has evolved based upon feedback from extensive community consultation. Mining, processing, transportation and logistics plans have been revised accordingly, and presented back to the community for approval.

Evolved plans based on extensive community consultation

- 500+ Households Consulted: Direct engagement has shaped development of the Ovoot Coking Coal Project development plan.
- **21 Community Meetings**: Addressing local resident concerns mainly related to dust, water, and transport.
- Public-Private Partnership Road: Infrastructure benefiting both Aspire & local communities.
- Jobs and Economic Growth: Significant employment and business opportunities for locals.
- **Sustainable, Modern Mining**: No open-air product coal stockpiles, enclosed processing, and low-impact trucking.

Mining: Simple, High-Return Plan in Place

Simple, productive truck and excavator operations supported by permanent camp and connected to the Central Electricity Grid

Open Pit Mine Plan

Best Practice Sustainable Mining

- Low stripping ratio: Thick, shallow coal seam enables a low Life-of-Mine stripping ratio of just 6.5 bcm/ROM.
- LOM tonne Efficient resource recovery: Focus on Upper Seam enables faster introduction of in-pit overburden dumping.
- Phased production growth: Scaling from 1.5 Mtpa to 5.0 Mtpa.
- Modern open-pit mining: Open-pit truck and excavator methods using equipment well-supported in Mongolia.
- Quality control: Onsite laboratories to support raw and product coal testing, and environmental monitoring.
- **Utilities available:** Access to electrical grid and water wells already existing onsite.

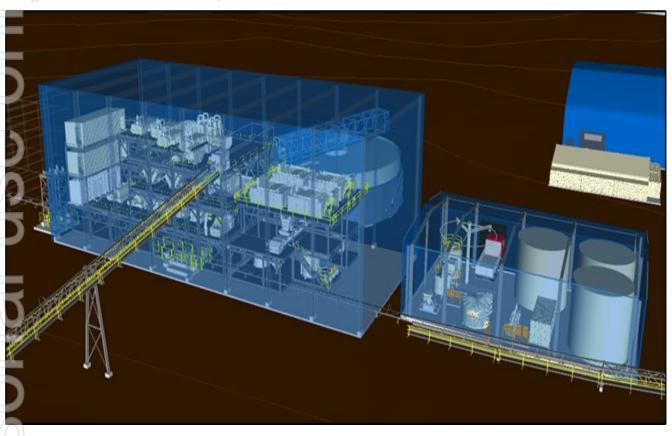

Processing: Modern, Efficient and Environmentally Friendly

Modern, fully enclosed, modular 350 tph plant designed to consistently produce a high yield of low ash coking coal

Ovoot Coal Handling and Preparation Plant (CHPP)

Modern, High-Efficiency Coal Processing

- Fully enclosed CHPP: Minimising environmental impact and addressing community concerns about potential for coal dust.
- 350 tph modular plant: Optimised for high recovery. Modular expansion considered in design.
- No tailings dams: Dewatered reject co-disposed with mine overburden for sustainable waste management.
- **Seamless logistics:** Covered conveyors, automated truck loading.

Transportation: Formula 1 Style Logistics to Maximise Value

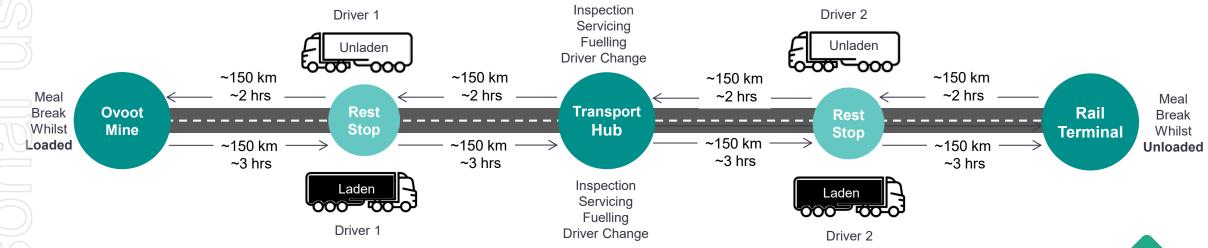

The transportation system is planned to ensure that trucks remain in motion, evenly spread across the circuit, reducing peak infrastructure requirements and ensuring efficiency of operation

A Smart, Efficient Supply Chain

- No heavy-duty 'Gobi trucks': Modern, low-emission vehicles with advanced safety systems.
- **Trucks move in a relay system:** Non-stop trucking, utilising multiple drivers per truck, on a 'first in, first out' basis.
- **Drivers just drive:** Provided with professionally inspected, serviced and fuelled trucks each shift.

Keeping Wheels in Motion

- **Maximised productivity**: Staggered driver shift starts prevent congestion and ensure rest between shifts.
- **Efficient turnarounds:** Site-based workers to load or unload trucks during long-haul driver meal breaks.
- **Safe drivers:** Short duration rosters will manage fatigue and fitness for duty of well-trained drivers.

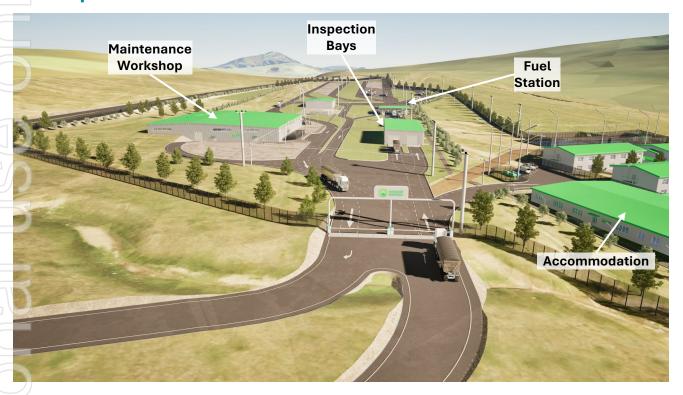

24 Hour Coal Haulage Routine for Enhanced Safety and Efficiency

State of the Art Transportation Hub

The Transportation Hub is designed to support safe and productive coal haulage operations by ensuring that long-haul drivers operate a fully inspected and serviced vehicle each shift

Transportation Hub Infrastructure

Purpose-Built for Safe, Efficient Coal Transport

- Strategic midpoint location efficiently centralises servicing and refuelling whilst balancing laden and unladen haulage operations.
- 24/7 operation ensuring continuous and evenly distributed truck movement.
- Onsite accommodation & maintenance providing workers with quality rest prior to each shift worked.
- Modern trucks from Tier 1 vendors will increase safety, reduce emissions and increase productivity.

Logistics: Erdenet Rail Terminal to facilitate End Market Access

Truck unload, coal storage, and train loadout for contained, productive and efficient transloading of coal

Erdenet Rail Terminal (ERT)

Fast, Reliable Rail Access to End Markets

- Enclosed coal receival & storage: Trucks side-tip coal into an enclosed hopper, transferring to a 55 kt (Phase 1) / 110 kt (Phase 2) storage facility.
- Rail transport secured: MoU with national rail operator UBTZ¹ for up to 4.0 Mtpa haulage.
- Approved trackwork: Feasibility confirmed by UBTZ and the MRTD.
- Dedicated rail spur: Two spur lines and a siding on the Erdenet-Salkhit main line to be built.
- Fast train loading: Semi-autonomous system loads trains in under an hour.
- Global connectivity: Linked to international rail networks, enabling seaborne trade.
- Workforce facilities: Onsite accommodation and amenities provided.

aspirelimited.com Notes : (1) Ulaanbaatar Tumur Zam

Delivering Sustainable Benefits

Responsible mining will ensure that the local environment is protected, whilst also delivering tangible and sustainable benefits to local communities and Mongolia more broadly

Aspire is committed to supporting the United Nations Sustainable Development Goals

- Responsible environmental management enclosed coal handling, no tailings dams.
- Infrastructure legacy roads and services benefiting local communities.
- Job creation & economic growth long-term benefits for Khuvsgul province and Mongolia.

Symbiotic coexistence of mining, agriculture and tourism to benefit local people

- Agriculture, and more recently tourism, are the traditional and incumbent industries in Khuvsgul
- Responsible practices and appropriate controls will protect and support these industries
- Potential benefits to local businesses and communities have been shown to residents toured through the Hunter Valley region of New South Wales, Australia

- Development of regional infrastructure is a key component of the Vision 2050 Long Term Development Policy
- Construction of public road under Public-Private-Partnership will accelerate this development
- Project has been deemed suitable for implementation under Public-Private-Partnership Agreement

Mr Tserenpuntsag Tserendamba is a successful Mongolian businessman and UHNW individual who has been a substantial shareholder of Aspire since 2018

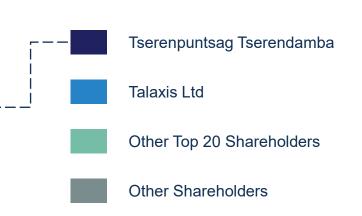

He is the founder and controlling shareholder of the Gem Group in Mongolia, holder of multiple successful subsidiary companies

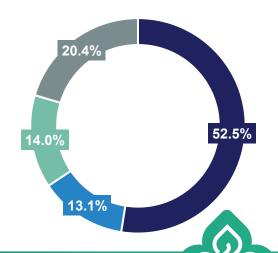

He has invested approximately A\$60 million in Aspire to date and is strongly focused on supporting Aspire to enter production at Ovoot in 2026

Share Price Performance since 1 January 2024

Shareholder Register

Board and Management

MICHAEL AVERY Non-Executive Chairman

- 30+ year mining industry veteran
- Significant Mongolian coal project experience
- Strong management track record within large public companies, including Rio Tinto, BHP and Brambles
- BE Mining, MBA and MAusIMM

RUSSELL TAYLOR Executive Director

- Experienced across multiple countries and commodities
- Led onsite delivery of the Ukhaa Khudag coal mine, the first world-class coal mine in Mongolia and several others globally
- Managed several open cut mines, including with Reliance Power, Peabody and Idemitsu
- MEngSc and Member of AICD

SAM BOWLES Chief Executive Officer

- 10 years Australian underground and open pit coal mining experience with Rio Tinto and Anglo Coal
- 15 years of coal project technical, operational and executive leadership on the ground in Mongolia
- Previously COO of Mongolia's largest washed coking coal producer, Mongolian Mining Corporation, responsible for mining, processing and transportation
- BE Mining and MAusIMM.

ACHIT-ERDENE DARAMBAZAR Executive Director

- Chairman of Mongolia International Capital Corporation (MICC) the first Mongolian investment bank and brokerage firm
- 20+ years of investment banking experience with an extensive network across banks, funds and private equity investors
- Masters in International Relations from Columbia University and a Bachelor's in Economics from Middlebury College

BOLDBAATAR BAT-AMGALAN Non-Executive Director

- Experienced senior public relations and publishing expert
- Previously a Director of Erdenet Mining Company
- Formerly held senior roles within the Government of Mongolia, including State Secretary of Foreign Affairs.

TRISTAN GARTHE Chief Financial Officer

- 20+ years of financial and strategic expertise in the steel & mining sectors
- History of success in capital raising, capital management, project development, and operational optimisation
- Fellow of CPA Australia, holds an MBA, a Diploma of Applied Finance, and is a Graduate of the AICD

ESTIMATES OF MINERAL RESOURCES AND ORE RESERVES

The estimates of mineral resources and ore reserves in this announcement were reported in the ASX announcement titled "Ovoot Coal Resources and Reserves Updated – Revised" dated 22 November 2024. The Company confirms that it is not aware of any new information or data that materially affects the information included in that announcement, and that all material assumptions and technical parameters underpinning the estimates in the announcement continue to apply and have not materially changed.

PRODUCTION TARGET AND FORECAST FINANCIAL INFORMATION

The production target and forecast financial information derived from it in this announcement were reported in the ASX announcement titled "Ovoot Coal Resources and Reserves Updated – Revised" dated 22 November 2024. The Company confirms that all the material assumptions underpinning the production target, and the forecast financial information derived from the production target, in that announcement continue to apply and have not materially changed.

Aspire's Ovoot Coking Coal Project has robust economic parameters, a capital-efficient development plan, and a short payback period. The Project has a structured pathway to production with demonstrated community support.
