

ASX ANNOUNCEMENT

22 APRIL 2025

Appointment of Joint Company Secretary

Bannerman Energy Ltd (ASX: BMN, OTCQX: BNNLF, NSX: BMN) (Bannerman or the Company) is pleased to announce the appointment of Ms Karen Logan as Joint Company Secretary effective from 22 April 2025.

Karen is a Chartered Secretary with over 20 years of governance and regulatory compliance experience and skills developed in a range of company secretarial positions and consulting engagements for private and ASX-listed companies based in Australia and overseas. She has extensive corporate experience in the resources sector and other industries.

Karen is a Fellow of The Chartered Governance Institute and a Fellow of the Governance Institute of Australia. Karen holds a Bachelor of Commerce degree in Accounting and Business Law from Curtin University and a Graduate Diploma in Applied Corporate Governance from Chartered Secretaries Australia (renamed Governance Institute of Australia). She is also a Graduate Member of the Australian Institute of Company Directors.

Karen is nominated as an additional person responsible for communication with the ASX in relation to Listing Rule matters. Steve Herlihy, Bannerman's Chief Financial Officer, continues as a Joint Company Secretary.

This ASX release was authorised on behalf of the Bannerman Board by:

ABOUT BANNERMAN ENERGY (ASX:BMN, NSX:BMN, OTCQX:BNNLF)

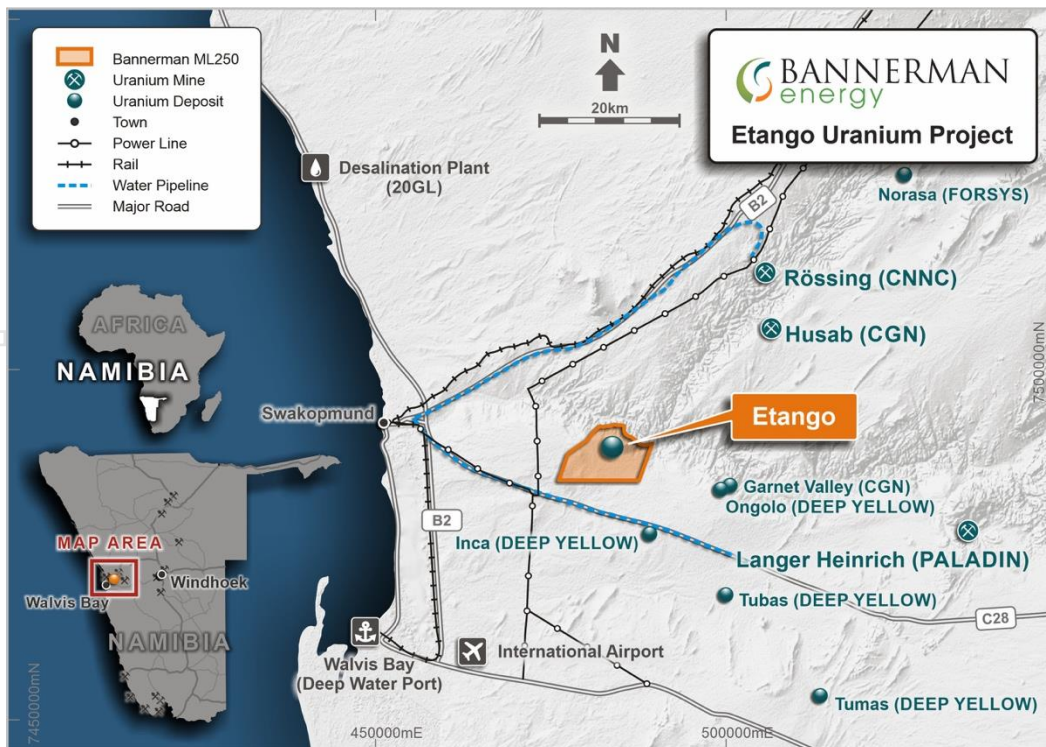

BannerMan Energy Ltd is a uranium development business listed on the Australian and Namibian stock exchanges and traded on the OTCQX Market in the US. Its flagship asset is the advanced Etango Uranium Project located in the Erongo Region of Namibia.

Etango has benefited from extensive exploration and feasibility activity over the past 15 years. The Etango tenement possesses a globally large-scale uranium mineral resource¹. In December 2022, a Definitive Feasibility Study (DFS)² was completed on the Etango-8 Project, confirming to a definitive-level the strong technical and economic viability of conventional open pit mining and heap leach processing of the Etango deposit at 8Mtpa throughput (for average annual output of 3.5 Mlbs U₃O₈). In March 2024, a scoping study³ demonstrated the capacity to expand annual production to 6.7 Mlbs U₃O₈.

Etango's advanced credentials are further highlighted by the construction and multi-year operation of the Etango Heap Leach Demonstration Plant, which comprehensively de-risked the conventional acid heap leach process to be utilised on the Etango ore. All environmental approvals have been received for the proposed Etango mine and external mine infrastructure, based on a 12-year environmental baseline. BannerMan was awarded the Mining Licence for Etango in December 2023 and is progressing all key project workstreams towards a targeted positive Final Investment Decision (FID) in parallel with strengthening uranium market fundamentals.

Namibia is a premier uranium investment jurisdiction, with a 45-year history of uranium production and export, excellent infrastructure and support for uranium mining from both government and community. As the world's third largest producer of uranium, Namibia is an ideal development jurisdiction boasting political stability, security, a strong rule of law and an assertive development agenda. The BannerMan team has ample direct experience in the development, construction and operation of uranium projects in Namibia, as well as extensive links into the downstream nuclear power industry.

BannerMan has long established itself as an Environmental, Social and Governance (ESG) leader in the uranium and nuclear energy sector. It is also a leader within Namibia on social development and community engagement and exercises best-practice governance in all aspects of its business. This was recently recognised with receipt of the 2023 African Mining Indaba's ESG Award for Community Engagement.

1 and 2. Refer to BannerMan's ASX release dated 6 December 2022, *Etango-8 Definitive Feasibility Study*. BannerMan confirms that it is not aware of any new information or data that materially affects the information included in that release. All material assumptions and technical parameters underpinning the estimates in that ASX release continue to apply and have not materially changed.

3. Refer to BannerMan's ASX release dated 18 March 2024, *Etango-XP and Etango-XT Scoping Study*.
