Disclaimer

This presentation does not constitute investment advice. This presentation has been prepared by Haranga Resources Limited ("the Company" or ASX:HAR) to provide summary information about the Company and its activities as at the date of this presentation (May 2025). Neither this presentation nor the information contained in it constitutes a disclosure document or an offer, invitation, solicitation or recommendation in relation to the purchase or sale of shares in any jurisdiction. The presentation does not take into account any person's particular investment objectives, financial resources or other relevant circumstances and the opinions and recommendations in this presentation are not intended to represent recommendations of particular investments to particular persons. All securities transactions involve risks, which include (among others) the risk of adverse or unanticipated market, financial or political developments. This presentation does not purport to contain all of the information that a prospective investor may require to make an evaluation of the Company or its business activities. Nothing in this document is, or is intended to be, a recommendation to invest in the Company. The Company confirms that it is not aware of any information or data that materially affects the information included in this presentation, and that all material assumptions and technical parameters underpinning the announcements on which this presentation relies continue to apply. The information contained in this presentation is a professional opinion only and is given in good faith. Certain information in this presentation has been derived from third parties and though Haranga Resources has no reason to believe that it is not accurate, reliable or complete, it has not been independently audited or verified by Haranga Resources.

Any forward-looking statements included in this presentation involve subjective judgement and analysis and are subject to uncertainties, risks and contingencies, many of which are outside the control of, and maybe unknown to, Haranga Resources. In particular, these statements speak only to the date of this presentation, they assume the success of Haranga Resources' strategies, and they are subject to significant regulatory, business, competitive and economic uncertainties and risks. Actual future events may vary materially from the forward-looking statements and the assumptions on which these assumptions are based. Recipients of this presentation are cautioned not to place undue reliance on such forward-looking statements.

Haranga Resources makes no representation or warranty as to the accuracy, reliability or completeness of information in this document and does not take responsibility for updating any information or correcting any errors or omissions which may become apparent after this presentation is released.

To the extent permitted by law, Haranga Resources and its officers, employees, related bodies corporate and agents disclaim all liability, direct, indirect or consequential (and whether or not arising out of the negligence, default or lack of care of Haranga Resources and/or any of its agents) for any loss or damage suffered by a recipient or other persons arising out of, or in connection with, any use or reliance on this presentation or information. All amounts in A\$ unless stated otherwise.

Competent Person Statement, Previously Reported Information & Cautionary Statement

The information referenced in this presentation that relates to Exploration Results has previously been released on the ASX. The Company confirms that it is not aware of any information or data that materially affects the information included in the market announcements, and that all material assumptions and technical parameters underpinning the previously released announcements continue to apply. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcements referred to in this presentation.

Cautionary Statement

The Mineral Resource estimates relating to the Lincoln Gold Project contained in this announcement have been prepared in accordance with Canadian National Instrument 43-101 ("NI-43-101") standards and have not been reported in accordance with the 2012 Joint Ore Reserves Committee's Australasian Code for Reporting of Mineral Resources and Ore Reserves ("JORC Code"). Refer to Haranga's website at <https://haranga.com/> for information in relation to the Mineral Resource estimates prepared for Lincoln. A competent person has not done sufficient work to classify the Mineral Resources in accordance with the JORC Code and it is uncertain that following evaluation and/or further exploration work that the estimate will be able to be reported as a Mineral Resource or Ore Reserve in accordance with the JORC Code. Please refer to further disclosure required by the ASX Listing Rules in the announcement dated 25 March 2025.

Compelling Value Proposition

KEY VALUE DRIVERS

✓ Significant Exploration Upside Potential

- 5.8 km of the richest segment of the Mother Lode
- 3.4Moz of historic gold production @ >8g/t Au
- Potential for strike extensions and repetitions at depth
- Pathway to +1Moz of high-grade gold

✓ Very High Grades (>9 g/t gold)

- NI 43-101 Resource reported in 2015

✓ Extensive Infrastructure

- Surface: processing plant, workshops, offices
- Underground: 880 m decline, 900m ore drives

MITIGATED RISK

✓ Fully permitted for mining and processing

- Major and operations permits granted
- Use Permit to process 315,000 tonnes/year
- Community and Government support

✓ Extensive Historical Studies & Ore Body Access

- Extensive drilling and mapping data
- Potential for strong recoveries from conventional flow sheet
- Immediate access to ore from decline and ore drives access

PERFECT TIMING

CLEAR PATHWAY & CATALYSTS

- ✓ Fully funded post acquisition, \$6m raised
- ✓ Immediate high impact drilling campaign
- ✓ Fast tracking to JORC compliant resource
- ✓ Update previous feasibility with modernised approach and higher gold prices
- ✓ Well positioned to move towards production

Refer to ASX Announcement 25 Mar 2025 Haranga Secures Richest section of Legendary Mother Lode

Value Driver: Significant Exploration Upside

- ✓ Jackson-Plymouth segment produced 8.4Moz gold, or half of the gold from the Mother lode
 - ✓ 3.4 Moz from Seduli's mineral Leases
- ✓ Lincoln, Comet and Medean:
 - ✓ Part of a mineral system known to extend to > 1800m below the surface
 - ✓ Blind discoveries only drilled to shallow depths (150-250 m)
 - ✓ Previous Focus on firming up shallow resources
- ✓ Potential for strike extensions and repetitions at depth

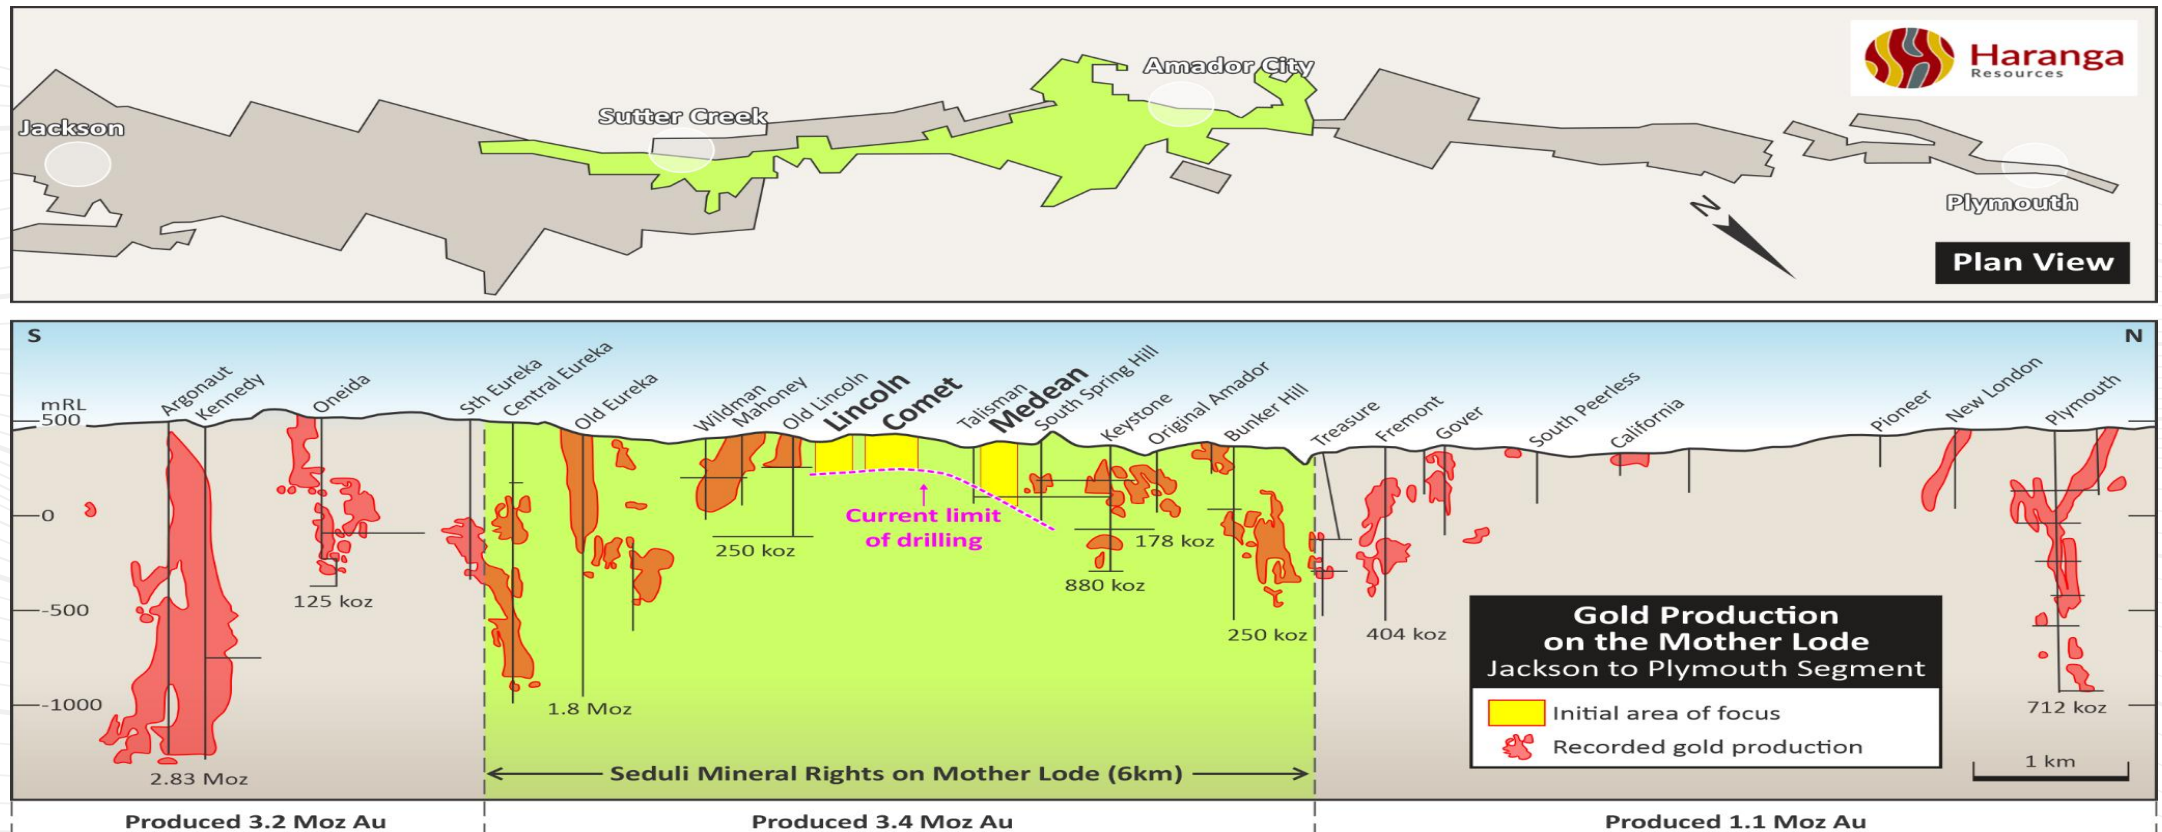

Figure: Jackson-Plymouth section of the Mother Lode has produced 8.4Moz

Refer to ASX Announcement 25 Mar 2025 Haranga secures richest section of legendary Mother Lode

Value Driver: Exceptionally High Grade

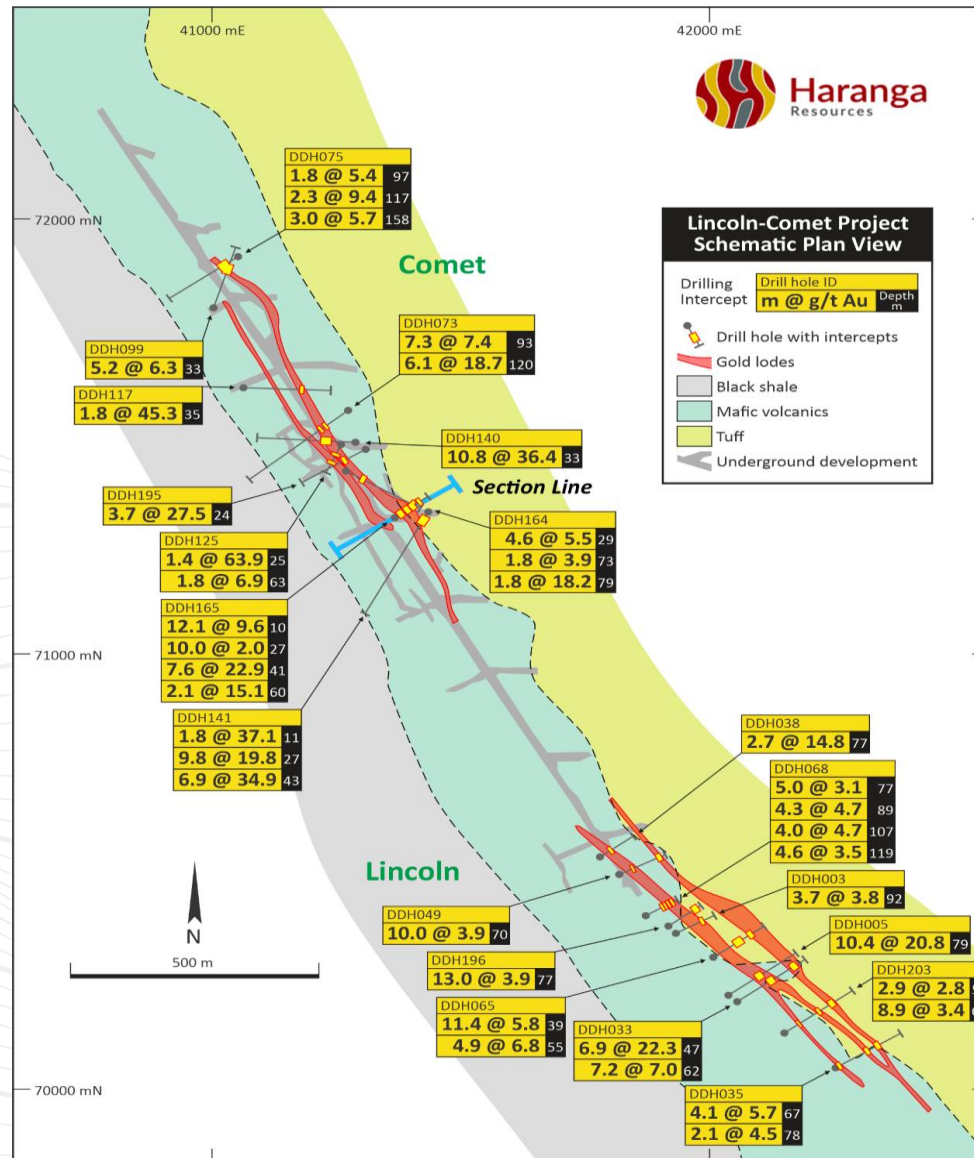

Figure: Plan view of veins hosted within mafic unit, as defined from drilling, with section line (See Appendix Drillhole Table)

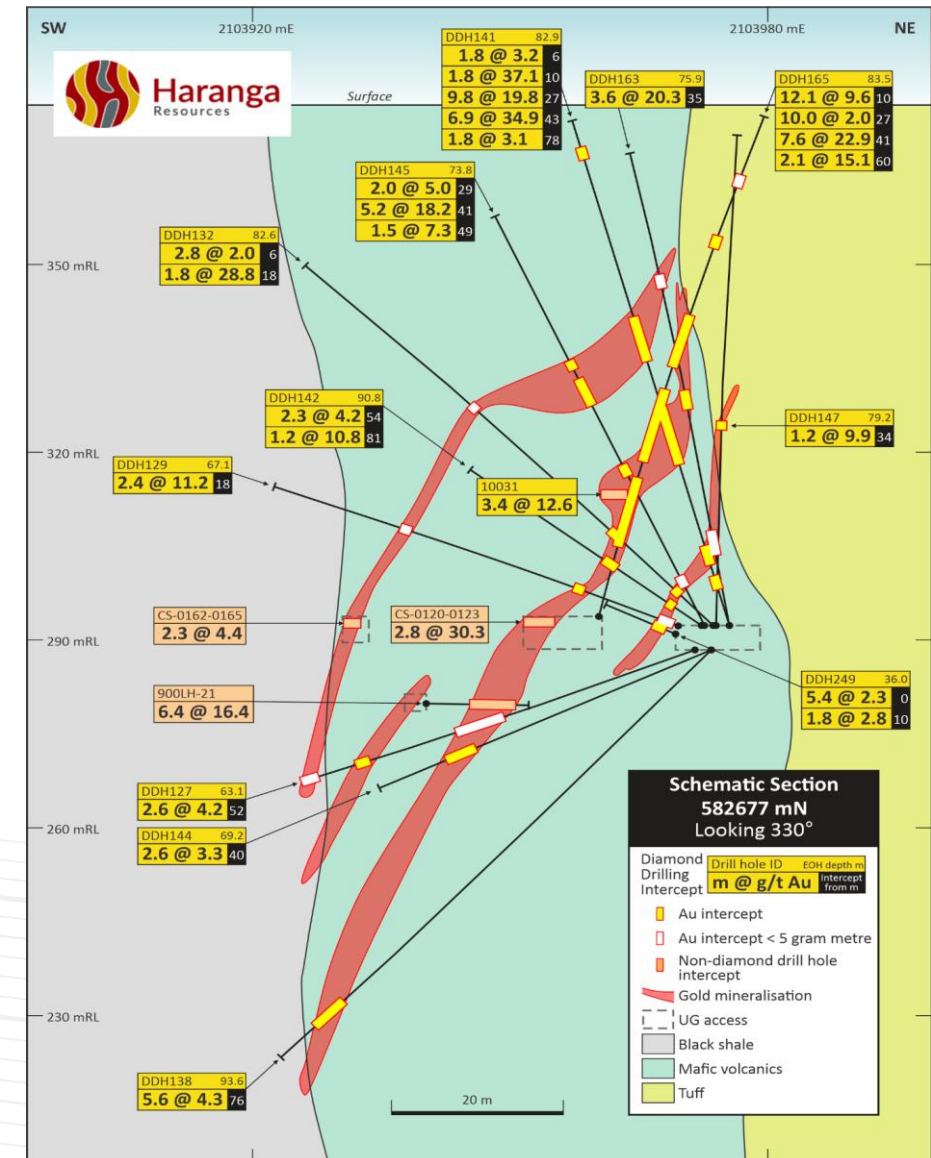

Figure: Section line showing veins hosted within mafic unit, as defined from drilling (See Appendix Drillhole Table)

Refer to ASX Announcement 25 Mar 2025 Haranga secures richest section of legendary Mother Lode

Value Driver: Update Resource to JORC

34,771m drilled across 336 holes

- ✓ **Cutoff grade from 2015 needs lowering to reflect change in gold price**

Deposit	Classification	Tonnage	Grade (g/t)	Ounces Au
Lincoln-Comet	Indicated	137,894	13.75	61,000
Lincoln-Comet	Inferred	459,043	8.71	128,000
Medean (Keystone)	Inferred	361,973	8.33	97,000
TOTAL	Ind/Inf	958,910	9.29	286,000

Table: Gold Resource reported 2015 under NI 43-101 (**Non JORC**), using a 4.2 g/t cut-off for the Lincoln Gold Project

CAUTIONARY STATEMENT

The Mineral Resource estimates relating to the Lincoln Gold Project contained in this announcement have been prepared in accordance with Canadian National Instrument 43-101 ("NI-43-101") standards & have not been reported in accordance with the 2012 Joint Ore Reserves Committee's Australasian Code for Reporting of Mineral Resources and Ore Reserves ("JORC Code"). Refer Haranga's website <https://haranga.com/> for information in relation to the Mineral Resource estimates prepared for Lincoln. A competent person has not done sufficient work to classify the Mineral Resources in accordance with the JORC Code and it is uncertain that following evaluation and/or further exploration work that the estimate will be able to be reported as a Mineral Resource or Ore Reserve in accordance with the JORC Code. Please refer to further disclosure required by the ASX Listing Rules at the conclusion of this announcement.

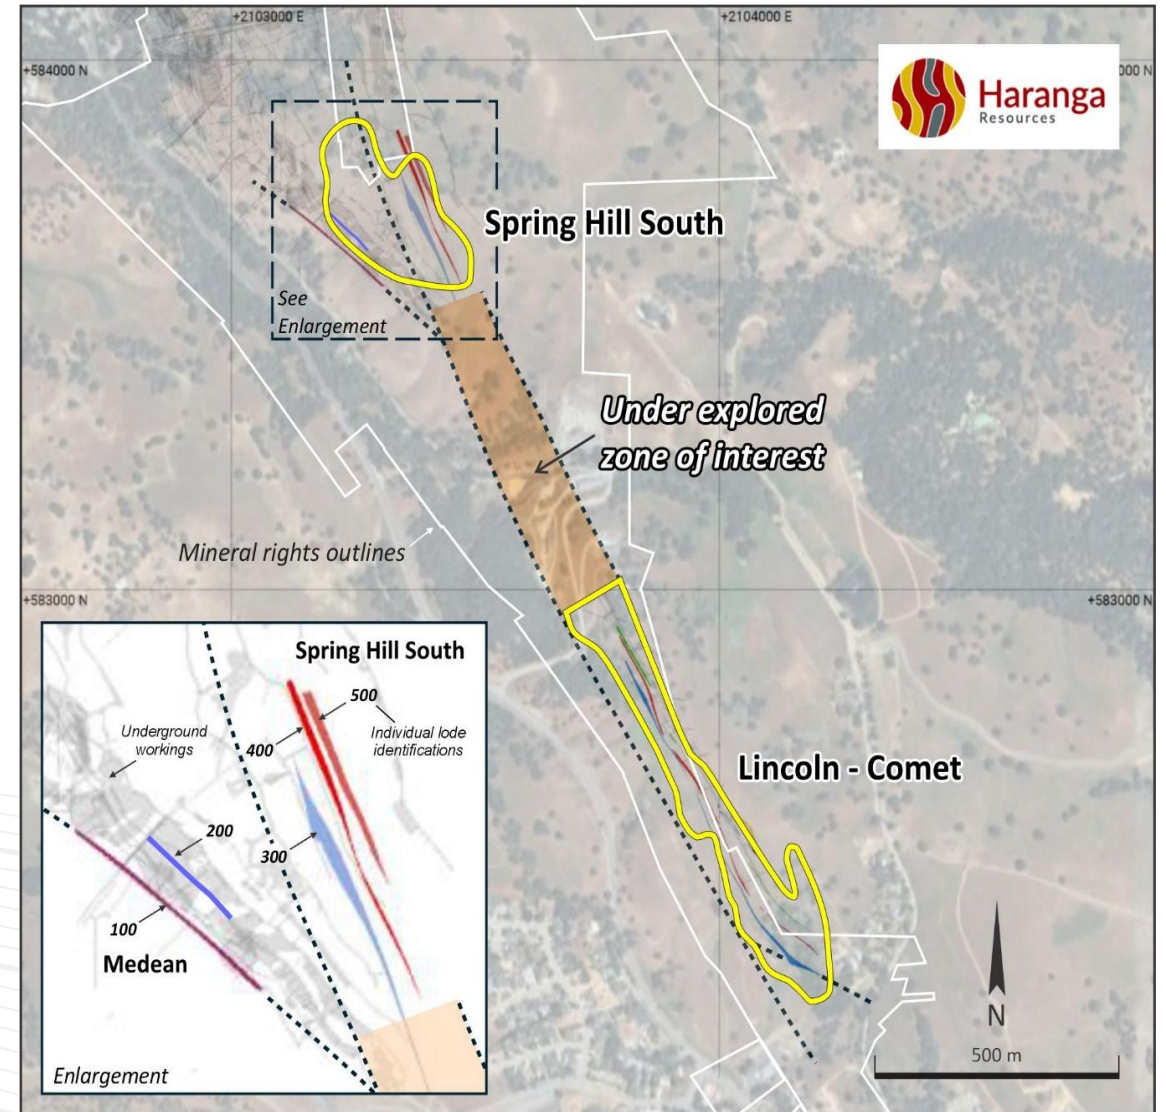

Figure: Plan of modelled mineralised zones for Lincoln-Comet and Keystone (South Spring Hill) highlighting zone of interest

Refer to ASX Announcement 25 Mar 2025 Haranga secures richest section of legendary Mother Lode

Value Driver: Pathway to +1Moz High Grade

The **blue and green zones** below represent areas associated with the current non-JORC compliant resource. Haranga intends to **convert** these into JORC-compliant resources through **targeted drilling**. Extensional drilling **along strike and at depth** could also expand the JORC resource base further

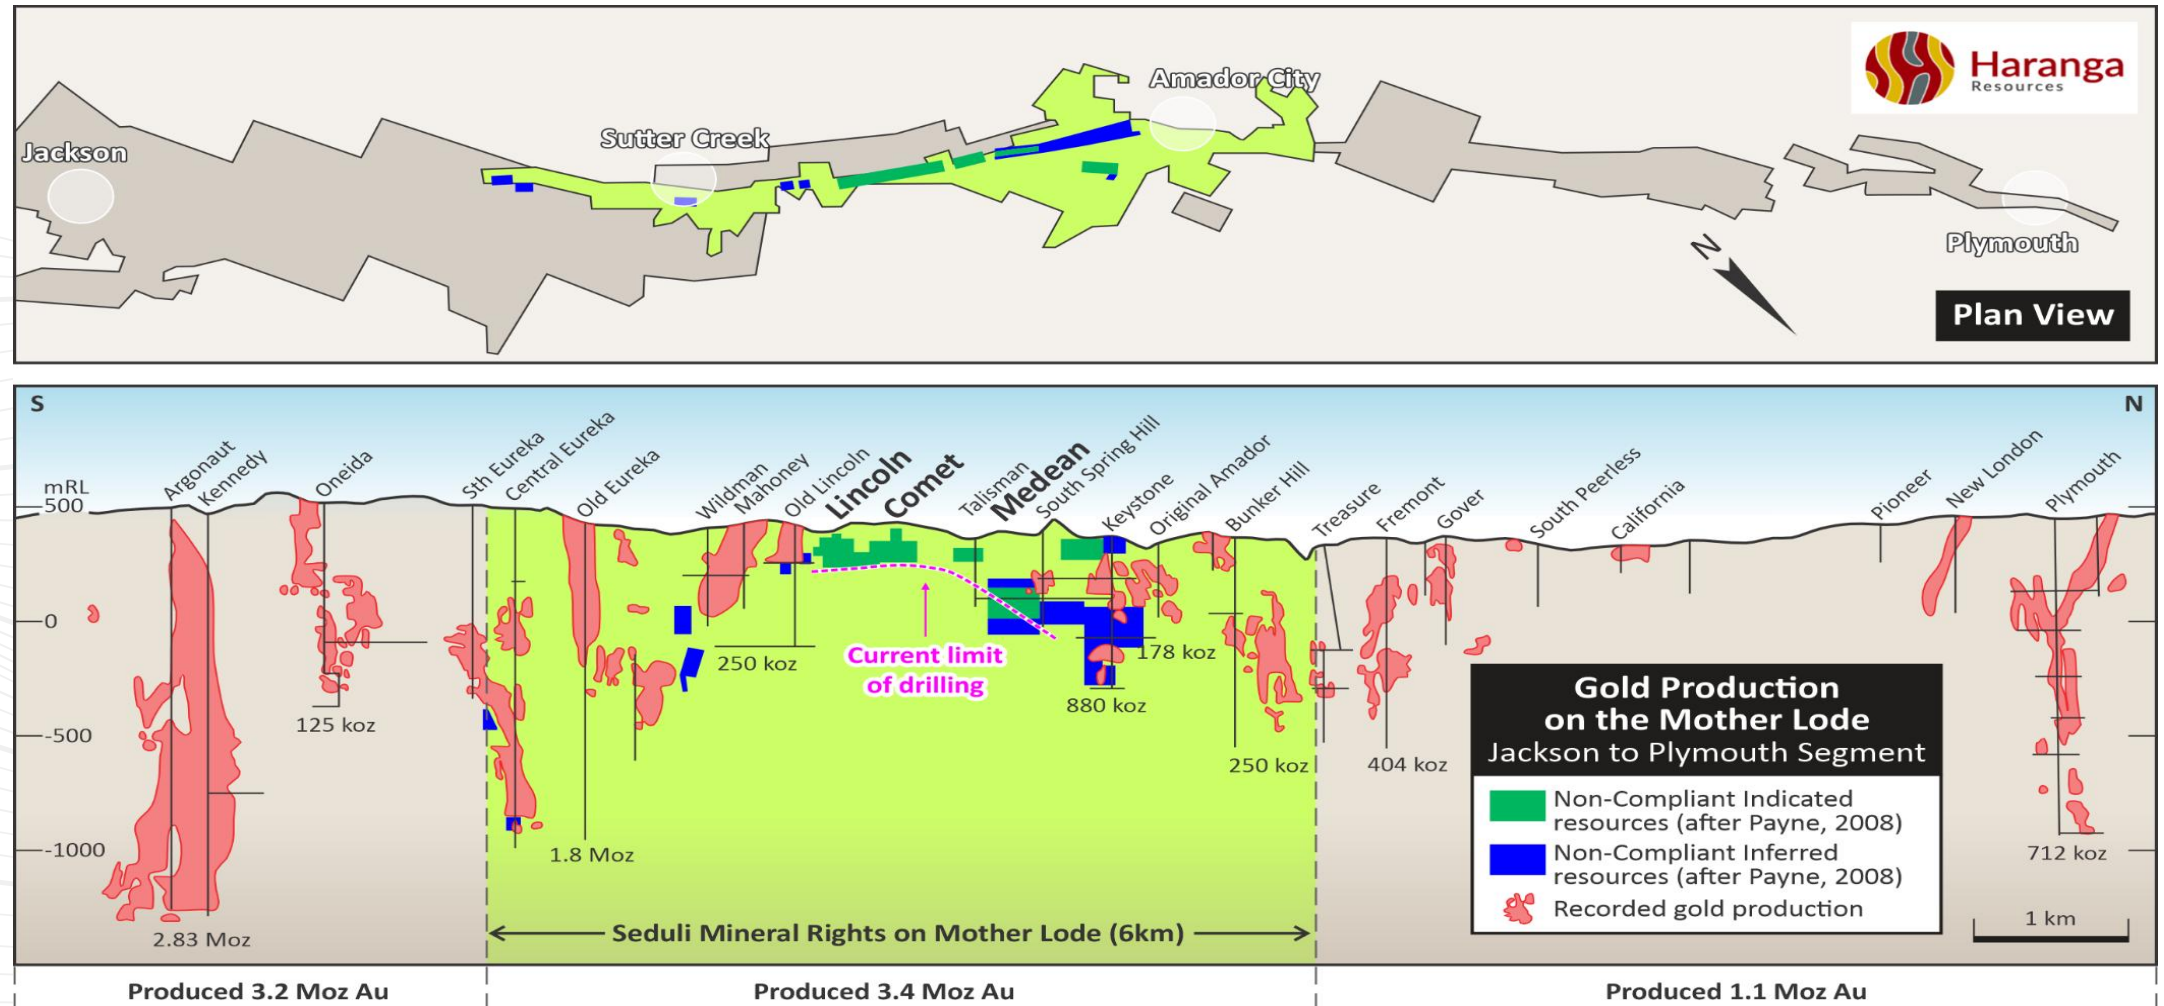

Figure: Plan and Long Section of Resources (Non-Compliant) illustrating the scope of mineralisation identified from historic sampling at Keystone (South Spring Hill)

Refer to ASX Announcement 25 Mar 2025 Haranga secures richest section of legendary Mother Lode

Value Driver: Infrastructure A\$90m Sunk Capital

- ✓ **Permitted** 315ktpa processing plant supporting mining operations (CUP)
- ✓ Existing infrastructure with **over A\$90M in sunk capital**, including but not limited to:
 - Decline & level development: **1,780m** of underground mine infrastructure;
 - Processing plant; and
 - Offices & workshop

Lincoln Gold Mine Entrance

Drying Shed & Processing Plant

Waste Rock Pad

Portal Entrance

Refer to ASX Announcement 25 Mar 2025 Haranga secures richest section of legendary Mother Lode

Ball Mill

Workshop With 10 Ton Crane

Mitigated Risk: Fully Permitted & Mining County

- ✓ Lincoln Mine has a **perpetual Conditional Use Permit (CUP), which is a requirement** for mining & processing in Amador
- ✓ The CUP at Lincoln **took ~10 years to obtain** and **significantly de-risks** all planned activities, by ensuring that regulatory support is in place
- ✓ **Rich mining history**, Mother Lode's Jackson-Plymouth segment produced 8.4Moz gold
- ✓ Amador County is home **to large industrial mineral open pit operations**, including Purebase and US Mine Corp, representing some of the **largest industrial mines in the USA**
- ✓ **25 active mining operations** in Amador County

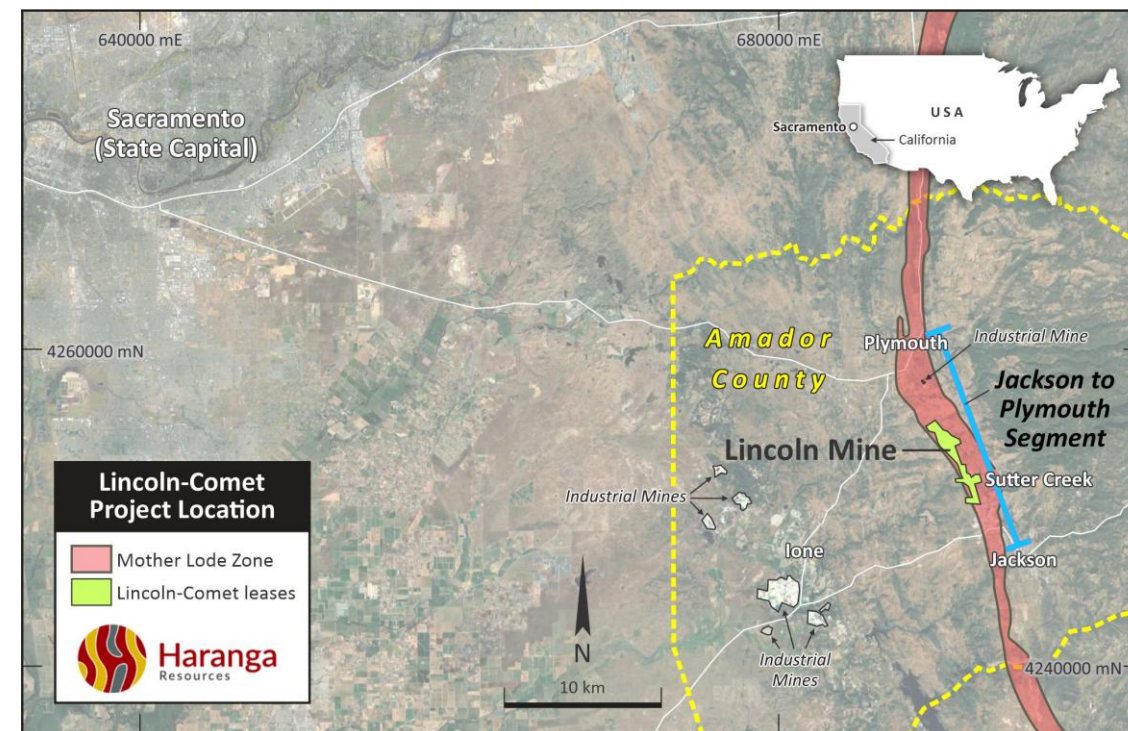

Figure: Project is located Southeast of Sacramento, California, USA

US Mine Corp HMC Project, Ione

US Mine Corp Silica Project, Ione

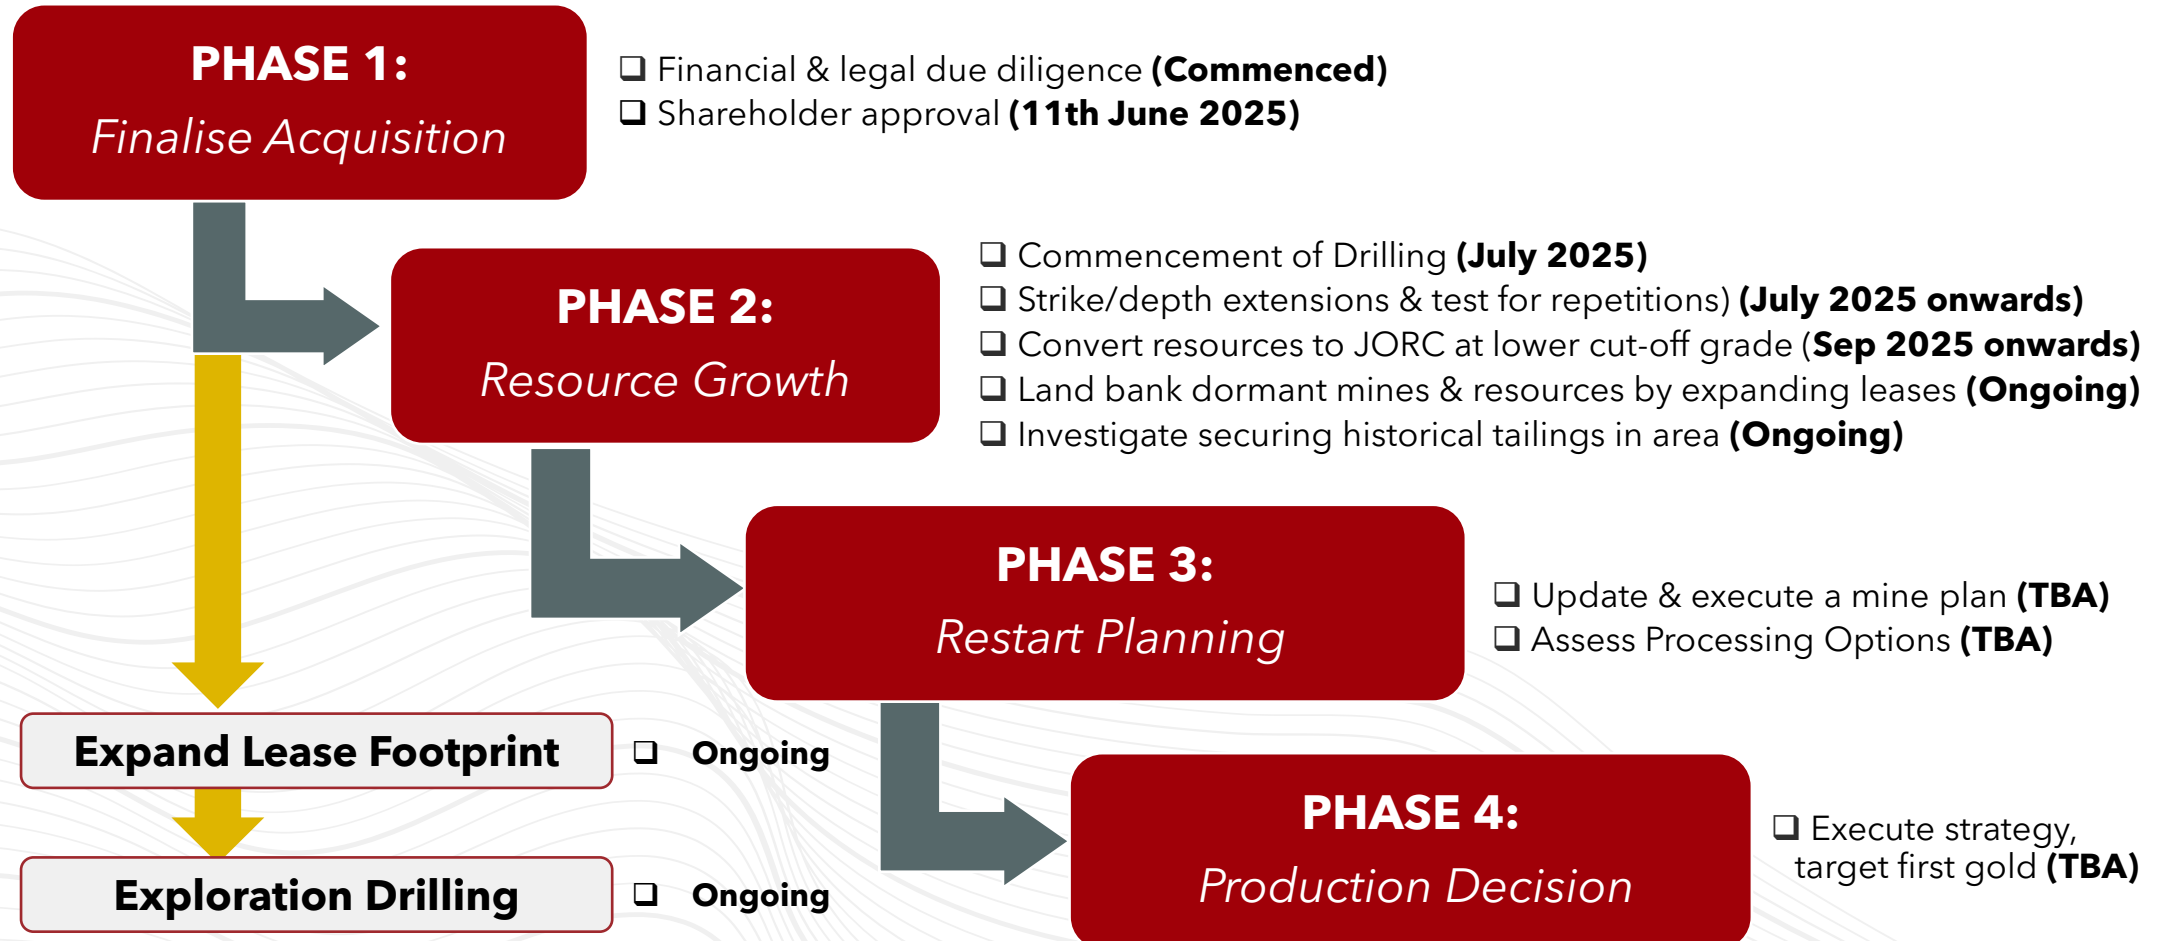

Lincoln Gold Mine, Sutter

Refer to ASX Announcement 25 Mar 2025 Haranga secures richest section of legendary Mother Lode

Path to Near-Term Production and Catalysts

- ✓ Take advantage of existing infrastructure, permitting, and exploration potential
- ✓ Opportunity to progress mine development to exploit gold market boom

The Golden Opportunity

- ✓ **Exceptional Value Drivers**
 - High-grade
 - Resource expansion potential
 - Booming gold market
 - Advanced infrastructure
- ✓ **Mitigated Risk**
 - Fully permitted
 - Extensive mine & processing infrastructure
 - Reduced capital requirements
 - Utilise extensive knowledge and data gained from historical feasibility study (2015)
- ✓ **Clear Delivery Path**
 - Drilling to convert to JORC resources
 - Extension drilling
 - DFS: Mine planning and plant engineering
- ✓ **Near-term milestones and catalysts**
 - Exploration drilling
 - Conversion to JORC resource
 - Lease expansion and exploration
 - Development planning

HARANGA RESOURCES LTD

APPENDIX

Capital Structure and Transaction

Capital Structure, Transaction & Milestones

Description	Shares On Issue at Completion of Transaction	Performance Rights, & Broker Options
Haranga Existing Shares on Issue	91,279,376	
[1] Haranga Director fees & creditors	4,800,000	
[2] Haranga Convertible Loan Facility	12,500,000	
[3] Seduli Upfront Shares	40,000,000	
[4] Seduli Performance Rights		120,000,000
[5] Seduli Debt Shares	19,300,000	
[6] Placement & Placement Con-note	120,000,000	
[7] Facilitation Shares	10,000,000	
[8] Unlisted Broker Options		20,000,000**
Total	297,879,376	

Notes

- [1]** - Shares in lieu of unpaid Director fees & creditors subject to shareholder approval (SA)
[2] - Convertible Loan Facility as announced 5/11/24, subject to SA (excludes interest payable)
[3] - Seduli Upfront Shares, subject to SA (6 month escrow from date of issue - Carve out up to \$500k)
[4] - Seduli Performance Rights, subject to SA and Milestones (Refer Escrow section in announcement). Milestone details: **(i)** Haranga completing sample re-assaying and a sensitivity analysis of the existing drilling data for the Lincoln Gold Project and an independent competent person being reasonably satisfied that the majority of that database can be used in the estimation of a mineral resource to be reported under the JORC Code (20m Performance Rights), **(ii)** commencement of drilling at the Lincoln Gold Project (20m Performance Rights), **(iii)** the announcement of a JORC compliant resource of at least 300,000oz Au at no less than 5 grams per tonne (g/t), utilising a cutoff grade of 2 grams per tonne (g/t) (40m Performance Rights); and **(iv)** the announcement of a JORC compliant resource of at least 400,000oz Au at no less than 5 grams per tonne (g/t), utilising a cutoff grade of 2 grams per tonne (g/t) **OR** the announcement of a JORC exploration target of 200,000oz to 400,000oz Au at the Keystone prospect (40m Performance Rights)
[5] - Seduli Debt Shares, subject to SA (Refer Escrow section in announcement)
[6] - Placement & Placement Convertible Note (Placement T1 ~22.8m shares under 7.1/7.1A, T2 ~82.7m shares subject to SA and Placement Convertible Note 14.4m shares subject to SA)
[7] - Facilitation Shares related to Seduli introducer fee, subject to SA and 4 month escrow
[8] - Unlisted Broker Options related to Placement/Placement Convertible Note, subject to SA (Ex @ \$0.08, issue price \$0.0001 & 3-year expiry from issue). **Does not include existing unlisted broker options prior to transaction of 4m, with 18c expiry at 4th October 2026

Shares On Issue & Cash On Hand

Top Shareholders (9 May 2025)

Key Personnel Post Transaction

Michael Davy
Non-Executive Chairman

Michael is an Australian Accountant with over 15 years' experience across a range of industries. Michael is currently a director and owner of numerous successful private businesses. During the past five years Michael has held directorships in several ASX listed companies and is currently the Non-Executive Chairman of Raiden Resources Limited (ASX: RDN), Non-Executive Director of Arcadia Minerals Limited (ASX: AM7) and a Non-Executive Director of Vanadium Resources Limited (ASX:VR8).

**Proposed
Jeremy King**
Non-Executive Director

Peter Batten
Managing Director

Mr Batten is a geologist with more than 40 years' experience in mineral exploration, development and mining in Australia, Africa, Asia, Europe and North and South America. He was Managing Director for Bannerman Resources Ltd, with uranium projects in Namibia and Botswana. He was founding Managing Director of Berkeley Resources Ltd, exploring for gold in China, and also served as a Technical Director of Kalia Ltd, securing the first gold exploration licences in Bougainville. Mr Batten has acted as mine manager on several WA gold mines and undertook numerous resource estimates through his consultancy Exploration and Mining Consultants.

**Proposed
Bruce McCracken**
Non-Executive Director

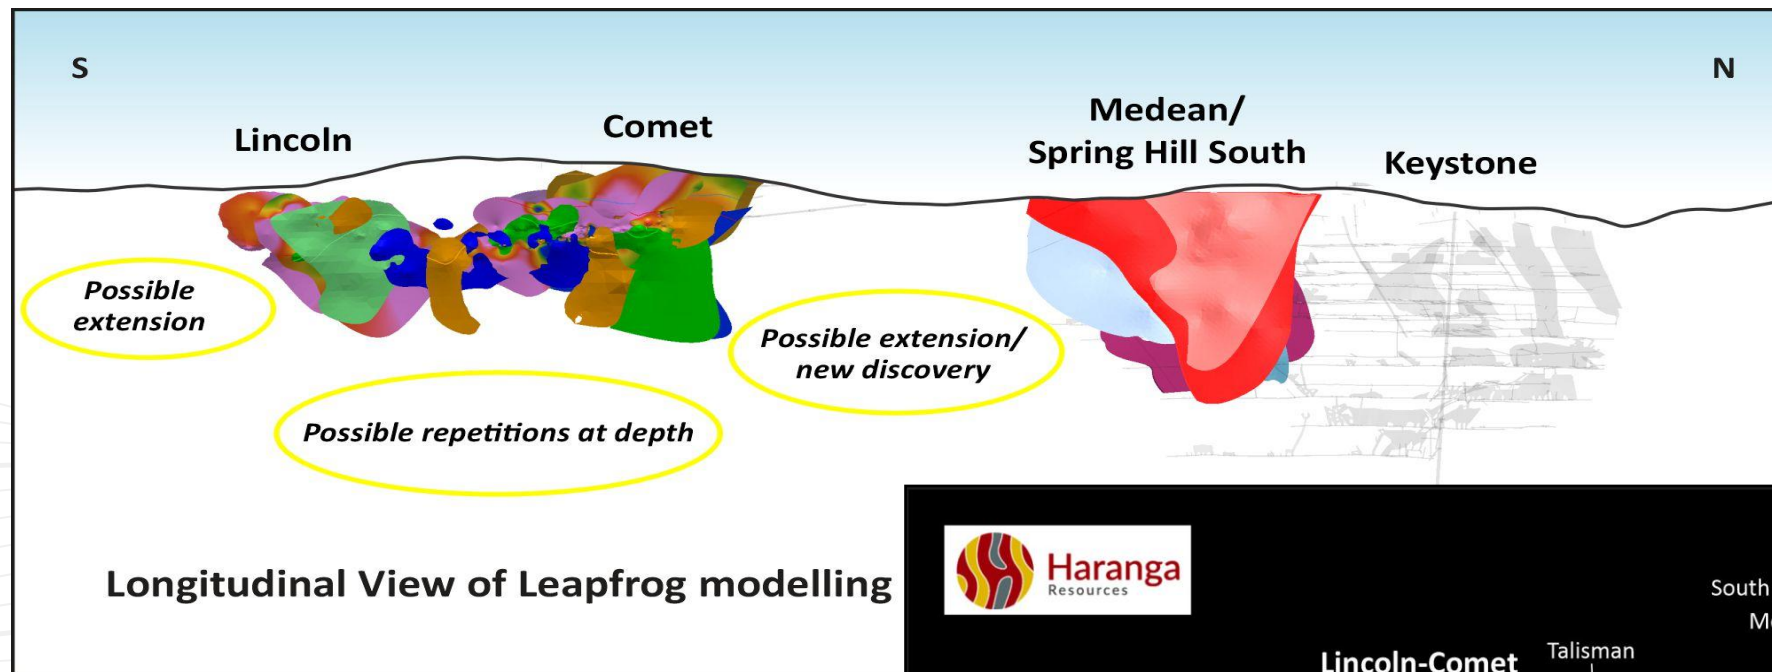

Kyla Garic
Company Secretary

Ms Garic is a Director of Onyx Corporate Pty Ltd. Onyx provides Company Secretarial and CFO services to listed companies. Ms Garic's qualifications include a Bachelor of Commerce, Master of Accounting, Grad Dip Institute of Chartered Accountants Australia and New Zealand and Grad Dip in Applied Corporate Governance.

Foreign Mineral Resource Estimate

Schedule 1 - Lincoln Gold Project - Foreign Estimate Disclosures

The NI 43-101 Mineral Resources for the Lincoln Gold Project, as at 2 July 2015, are estimated at 958,910 tonnes at 9.29g/t Au for 286,000 ounces of gold.

The information in this presentation relating to the Lincoln Gold Project Mineral Resources is reported in accordance with the requirements applying to foreign estimates in the ASX Listing Rules and, as such, are not reported in accordance with the JORC Code.

A Competent Person has not yet completed sufficient work to classify the NI 43-101 Mineral Resources as JORC Code Mineral Resources in accordance with the JORC Code 2012.

It is uncertain that following evaluation and/or further exploration work that the NI 43-101 Mineral Resources will be able to be reported as Mineral Resources or Ore Reserves in accordance with the JORC Code.

The information in this announcement that relates to the NI 43-101 Mineral Resources and of the Lincoln Gold Project has been extracted from the unpublished report entitled "Updated Technical Report on the Lincoln Mine Project, Amador County, California, prepared for Sutter Gold Mining Inc" dated 2 July 2015 (the "Report"), which sets out the Mineral Resources of the Lincoln Gold Project as at 2 July 2015.

The Mineral Resource estimates for the Lincoln Gold Project have been prepared using the National Instrument 43-101 - Standards of Disclosure for Mineral Projects of the Canadian Securities Administrators (the "Canadian NI 43-101 Standards").

The Mineral Resources estimates for the Lincoln Gold Project are not, and do not purport to be, compliant with the JORC Code and are therefore classified as "foreign estimates" under the ASX Listing Rules.
