ASX ANNOUNCEMENT

Tenement Renewals Advance Evion's Maniry Graphite Project

Highlights:

- Three key tenements renewed under Madagascar's updated Mining Code.
- Among the first approvals issued under new Mining Implementation Procedures.
- Signals government support for Maniry and World Bank-led reform of Madagascar's mining sector.

Evion Group Ltd ("Evion" or "the Company") (ASX: EVG) is pleased to announce that it has received formal confirmation from the Bureau du Cadastre Minier de Madagascar¹ (BCMM) regarding the renewal of three key exploration tenements - **PR3432**, **PR25606**, and **PR39750** - at its flagship Maniry Graphite Project, located in southern Madagascar.

These tenements are among the first to be renewed under Madagascar's updated Mining Code and newly enacted Implementation Procedures, reflecting progress in modernising the country's mining sector².

The renewal reflects confidence in the Maniry Project and supports Evion's positioning as an early mover under the reformed mining framework.

The Company expects the remainder of its tenements to be renewed in the coming weeks. These tenement renewals position Evion for the formal upgrade of these permits to Exploration (full Mining Permits), which is expected to occur in the near term, along with the formal issuance of the Company's Environmental Permits by the National Office for the Environment (ONE)³.

Evion Managing Director, Mr David Round, commented:

³ <https://www.pnae.mg/>

“The renewal of these key tenements marks a significant step forward for the Maniry Project and reflects strong support from the Malagasy Government under the new Mining Code. Evion is proud to be among the first to advance under this updated framework, and we remain focused on securing full mining and environmental permits as we advance toward development.”

Tenement renewals had been on hold pending the implementation of Madagascar’s revised Mining Code and associated Implementation Procedures. Their resumption, backed by the World Bank and government leadership, signals renewed momentum in building a modern and transparent mining framework. Evion’s early approval under this new regulatory framework highlights its alignment with national development priorities and its contribution to the sustainable growth of Madagascar’s exploration and mining sector.

This announcement has been authorised by the Board of Evion Group NL.

Forward Looking Statements

Some of the statements appearing in this announcement may be in the nature of forward-looking statements. You should be aware that such statements are only predictions and are subject to inherent risks and uncertainties. Those risks and uncertainties include factors and risks specific to the industries in which Evion Group operates and proposes to operate as well as general economic conditions, prevailing exchange rates and interest rates and conditions in the financial markets, among other things. Actual events or results may differ materially from the events or results expressed or implied in any forward-looking statement.

No forward-looking statement is a guarantee or representation as to future performance or any other future matters, which will be influenced by a number of factors and subject to various uncertainties and contingencies, many of which will be outside the Company's control.

The Company does not undertake any obligation to update publicly or release any revisions to these forward-looking statements to reflect events or circumstances after today's date or to reflect the occurrence of unanticipated events. No representation or warranty, express or implied, is made as to the fairness, accuracy, completeness or correctness of the information, opinions or conclusions contained in this announcement. To the maximum extent permitted by law, none of the Company's Directors, employees, advisors or agents, nor any other person, accepts any liability for any loss arising from the use of the information contained in this announcement. You are cautioned not to place undue reliance on any forward-looking statement. The forward-looking statements in this announcement reflect views held only as at the date of this announcement.

This announcement is not an offer, invitation or recommendation to subscribe for, or purchase securities by the Company. Nor does this announcement constitute investment or financial product advice (nor tax, accounting or legal advice) and is not intended to be used for the basis of making an investment decision. Investors should obtain their own advice before making any investment decision.

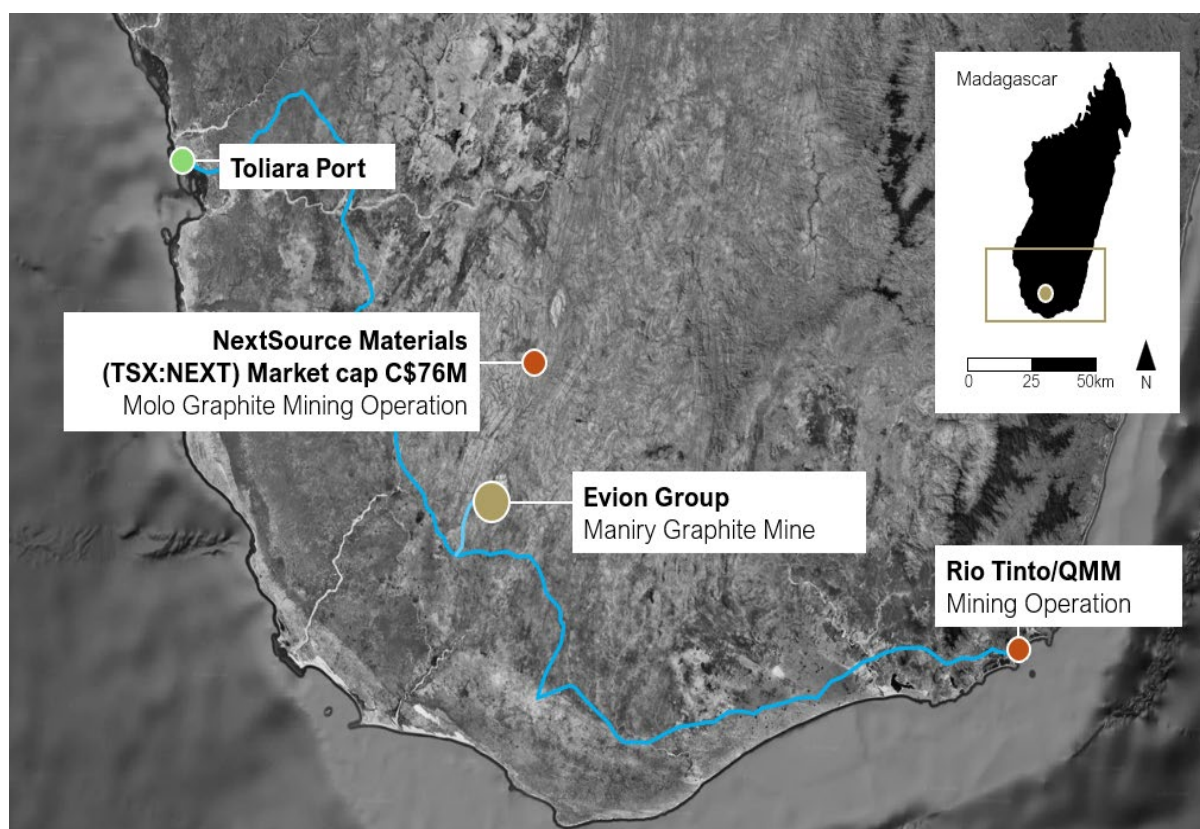

Company Profile

Evion Group (ASX:EVG) is a vertically integrated graphite developer positioned for growth with projects being developed in Madagascar, India and Europe.

The Maniry Project in southern Madagascar seeks to connect a substantial high-grade graphite resource to accelerating global markets serving the world's electrification such as battery anode manufacturers. Madagascar is the world's largest producer and exporter of natural graphite outside China. A Definitive Feasibility Study (DFS) completed in 2022 reported Maniry could produce up to 60 kilotonnes of graphite concentrate per annum for up to 21 years and had a real, pre-tax Net Present Value (NPV₈) of US\$263 million⁴.

Evion Group is progressing an opportunity to feed fine flake product for Maniry to its Battery Anode Material Project in Germany which is focused on producing up to 30,000 tonnes per year.

Panthera Graphite Technologies is a 50:50 joint venture (JV) established with Metachem Manufacturing Co, an experienced expandable graphite producer near the city of Pune in India with over 20 years' operating history. Panthera's production facility is located in a Special Economic Zone, adjacent to key transport infrastructure. Operations commenced Q4 2024, with the first shipment made in March 2025.
