Disclaimer and Forward-looking Statements

This presentation/document has been prepared by the management of Image Resources NL ("Image", "IMA", or "the Company"). The information presented includes an indicative outlook of the business activities of Image for the calendar year (CY) 2025 and beyond and is provided to aid investors and potential investors with assessing the value of the Company. Some of the information provided may be based on past performance, however, this information should not be considered a reliable indicator of future performance. The information presented supersedes all previously presented information of its kind unless otherwise noted. This information is based in part on Image's interpretation of trends in commodity prices, financial markets, economic and macro-economic factors and consequently is subject to variation.

Certain statements in this presentation/document, and in subsequent oral statements made by and on behalf of Image, constitute "forward-looking statements" or "forward-looking information" within the meaning of applicable securities laws. Such statements involve known and unknown risks, uncertainties and other factors, which may cause actual results, performance or achievements of the Company, the Company's exploration and/or operational projects, or the mineral sands and/or general mining industry, to be materially different from any forecast results, performance or achievements expressed or implied by such forward-looking statements or information. Such statements can be identified by the use of words such as "may", "would", "could", "will", "intend", "expect", "believe", "plan", "anticipate", "estimate", "scheduled", "forecast", "predict", "potential", "possible" and other similar terminology, or state that certain actions, events or results "may", "could", "would", "might" or "will" be taken, to occur or be achieved. These statements reflect the Company's current expectations and aspirations regarding future events, performance and results as of the date of this presentation/document.

Statements in this presentation/documents that constitute forward-looking statements or information include, but are not limited to, statements regarding forecast, projected or aspirational production statistics, revenue streams, operating costs and EBITDA. Forward-looking information and statements may also include commodity price assumptions, projected capital and operating costs, metal or mineral metallurgical recoveries, mine life, production rates and other assumptions used in the variety of feasibility studies from time to time on any of Image's projects or proposed endeavours, or other documents published by Image or contained in this presentation/document or in the Company's ASX announcements and published by Image on its website. Readers are cautioned that actual results may vary from those presented. Certain of the factors and assumptions used to develop the forward-looking information, as well as the risks that could cause the actual results to differ materially, are contained in the Company's Quarterly Reports, Annual Reports, feasibility study reports and other documents and announcements lodged with the ASX and disclosed on the Company's website at www.imageres.com.au.

Accessing the information contained in this presentation implies an acknowledgement that you have read and understood the above disclaimer and qualifications regarding forward-looking statements.

Information regarding the calculation of Ore Reserves and Mineral Resources in this presentation (if any), and the consents provided by the respective JORC Competent Persons is referenced within this presentation/document or presented at the end of this presentation/document. For additional information and details on the content of this presentation/document, please refer to the respective ASX announcements on the Company's website.

Outline of AGM Presentation

- Quick trip down **Boonanarring** memory lane
 - Successes, plans, and setbacks
- **CY2024 recap**
 - Challenges and successes
- **Outcomes stemming from CY2024 successes**
 - Completion of critical construction, commissioning, **return to production**
- **Beyond Atlas**
 - **Chapter 2** ambitions

Boonanarring Project – a trip down memory lane

✓ Reasons for Success

- Low capital cost; **A\$56M** (used equipment)
- High-grade deposit; **8.0% HM** and **28% zircon** in the HM
- Coarse grain minerals; **90+%** HM recovery
- **Location, Location, Location** 80km north of Perth
- **On-time, on-budget** build
- Nameplate capacity in **2 months**
- **Simple** business model

Operational Highlights

✓ Credible mineral sands developer/operator

- **Boonanarring** construction 2018; operation 2019-2023
- Produced **1.2m tonnes** heavy mineral concentrate (HMC) containing approximately:
 - **370kt zircon**, 670kt ilmenite, 40kt rutile, 5kt monazite
- Generated **AU\$792M revenue**, AU\$338M EBITDA, AU\$75M NPAT
- Repaid **AU\$50M** debt early; paid **2 cent dividends** in 2021 and 2022
- Acquired **Eneabba and McCall**s tenements in 2022 for AU\$36M cash
- Ended CY2023 with **AU\$46M** cash

personal use only

Original Business Strategy – Chapter 1

✓ 2017 Bankable Feasibility Study Strategy¹

- Build and profitably operate **Boonanarring** project
- **Self-fund** relocation of mining and processing equipment to **Atlas**
- Build and profitably operate **Atlas** project
- Mines **operated in series** using same processing equipment and operating team
- **Simple** business strategy: **one mine, one product (HMC), one customer**

Note: 1 – ASX announcement dated 30 May 2017 “Strong BFS Results for Boonanarring / Atlas”.

Original Plan Setbacks

No viable Boonanarring extensions

Atlas Permitting Delays

Three primary drivers of permitting delays

1. Regulators adjusting review processes and conditions for rehabilitation and land offset requirements for clearing of Banksia Woodlands classified as TECs under the Biodiversity Conservation Act and associated regulations of 2018.
2. Adoption of the WA Aboriginal Cultural Heritage Act 2021 and associated regulations of 2022, creating massive delays in the conduct of heritage surveys due to uncertainties on all sides. Fortunately, the new Act was rescinded in November 2023, but the damage from delays was already done.
3. The inability of regulatory departments, esp. WA EPA, to meet their internal timelines for the various steps in processing mining applications, due in part to labour shortages (post-COVID effect).

Collectively, these issues resulted in **15 months of permitting delays.**

CY2024 Recap – Challenges and Successes

Challenges

- No mining/processing; no production
- No product sales; **zero revenue**
- Full **transition year** (Boonanarring to Atlas)
- **Cash conservation** measures enacted (reduced expenditures on studies/other projects)
- Major **bush fire** encroachment around Atlas camp and construction area (November)

Successes

- Finalised permitting for Atlas (August)
- **Self-funded Atlas construction** without need to raise equity
- **Rapid construction** in 2H to 85% completion by end of December
- Secured **working capital** through Prepayment Facility with Offtakers (US\$20M – Q4)
- Completed **positive PFS on Yandanooka** (April)

Atlas Project - Physicals

- 80-person accommodations camp for drive-in, drive-out (DIDO) working arrangements
- Constructed in Aug-Sep 2024

- Wet concentration plant incorporating Mineral Technologies' CT1 spiral technology for greatly reduced footprint and potentially lower water requirements
- Construction commenced 15 August 2024
- Ready for commissioning end of January 2025

Atlas Project – Commissioning & Start-up

- Project commissioning commenced 8 Feb 2025
- 1st HMC production 17 Feb

- 1st HMC transport to Geraldton intermediate storage 12 Mar 2025
- Start of operations declared from 1 April
- 1st HMC shipment/sale 10 April
- Overall development timeline similar to Boonanarring

Project Locations – Mineral Sands

Project Locations - Gold

IMA Gold Tenements

Project Locations – Mineral Sands

YANDANOOKA – PFS complete
BFS underway – targeting
1H 2027 production

ATLAS – Operational
April 2025 1st HMC sales

BIDAMINNA – PFS complete
BFS underway – targeting
2H 2028 production

Eneabba Tenements
Acquisition - 2022

McCalls Project &
Mindarra Springs
Acquisition – 2022

McCALLS - preliminarily
targeting 2030 production

BOONANARRING
Operated 2018 - 2023
Mined out August 2023

New Business Strategy – Chapter 2

✓ Chapter 2 strategy – Growth & Sustainability

➤ Growth

- Multiple mines – operating simultaneously
- Multiple products – establishing mineral separation capabilities
- Multiple customers – expanding customer base globally

➤ Sustainability

- Longer mine life – 20+ years
- Value-adding – converting ilmenite to synthetic rutile – novel process
- Focusing on reducing emissions and environmental impacts
- Targeting greater use of new and innovative technology – automation, robotics, AI

Yandanooka Pre-Feasibility Study – APRIL 2024

PFS¹ HIGHLIGHTS: Based on selling heavy mineral concentrate (HMC) product

BFS COMMENCED

Pre-tax NPV⁸

A\$151M

Pre-tax IRR

72%

Capital estimate

A\$50.3* M

Capital payback

15 Months

EBITDA

A\$277M

Forecast mine-life

8.2 Years

Total HMC production

1.0Mt

ORE RESERVE HIGHLIGHTS

30 million tonnes

Probable Ore Reserves
at 3.9% total heavy
minerals ("HM")

**Mineralisation from
surface** with average
strip ratio of 0.1:1

High-value mineral assemblage with
90.5% valuable heavy minerals ("VHM")
in HM: **14% zircon**, 3.3% rutile, 27%
leucoxene, 46% ilmenite% and 0.2%
monazite in HM

**High-quality ilmenite
suitable feedstock for
upgrading to
synthetic rutile**

Predominantly medium-grained
free-flowing sand with 15% slimes
and 14% oversize amenable to
simple dry mining and classic wet
concentration plant mineral
recovery

Notes: * - Capital in BFS forecast to increase by A\$22M to replace Boonanarring equipment used for Atlas

Note: 1 – ASX announcement dated 19 April 2024 "Strong Feasibility Results Yandanooka Project".

Bidaminna Pre-Feasibility Study – JUNE 2023

PFS¹ HIGHLIGHTS: Based on selling heavy mineral concentrate (HMC) product

BFS COMMENCED

Pre-tax NPV ⁸	Pre-tax IRR ⁸	Capital estimate	Capital payback	EBITDA	Forecast mine-life	Total HMC production
A\$ 192 M	28%	A\$ 194 M	3.8 Years	A\$ 379 M	10.5 Years	2.1 Mt

ORE RESERVE HIGHLIGHTS

 123 million tonnes Probable Ore Reserves at 1.8% total heavy minerals ("HM")	 2.1 million tonnes total contained HM	 High-value mineral assemblage with 93% valuable heavy minerals ("VHM") in HM 12% leucoxene, 72% ilmenite, 5% zircon, 4% rutile and 0.3% monazite	 High-quality ilmenite suitable feedstock for upgrading to synthetic rutile	 Predominantly medium-grained free-flowing sand with 4% slimes and 4% oversize	 Amenable to low-cost dredge mining	 Forecast ore processing rate: 11.8 million tonnes per annum
---	--	--	--	--	---	--

Note: 1 – ASX announcement dated 27 June 2023 "PFS Results – Bidaminna Mineral Sands Project".

Titanium – Value Adding

Titanium minerals in HMC – Converting* **Ilmenite to Synthetic Rutile**

	<u>TiO2 grade</u>	<u>Mass in HMC</u>	<u>Indicative US\$/t</u>	
➤ Ilmenite	55-70%	70-80%	\$300	
➤ Leucoxene	70-90%	5-10%	\$500	
➤ Rutile	>95%	5-10%	\$1,200	<u>Mass % of ilmenite</u>
➤ Synthetic Rutile	90-95%	--	\$1,000	~60%**
<u>Mass % of ilmenite</u>				
➤ Iron byproduct	--	~40%	~\$200 (95% Fe fines)	

Note: typical titanium assemblage in Image projects HMC in WA

* - using Image provisionally patented novel SR processing technology

** - mass of synthetic rutile produced as percent of mass of ilmenite before conversion

Synthetic Rutile Quality

Initial bench-scale test results – ASX announcement 9 August 2023

Highlights of test results:

- Initial Bidaminna ilmenite grade: **60% TiO₂**
- Ilmenite to SR conversion process: **fluidized bed reactor using hydrogen as iron reductant**
- Final SR grade: **>95% TiO₂ (same as natural rutile)**
- SR impurities: 0.03% Cr₂O₃, 0.03% CaO, 1.45% SiO₂, 0.10% P₂O₅, 0.09% V₂O₅,
20 ppm U, <50ppm Th
- TiO₂ recovery: **>95%**
- Test parameters: considered commercial-in-confidence
- Lower conversion temperatures than classic Becher SR process

	TiO ₂	Fe ₂ O ₃	Cr ₂ O ₃	ZrO ₂	SiO ₂	Al ₂ O ₃	CaO	MgO	MnO	SO ₃	P ₂ O ₅	V ₂ O ₅	Nb ₂ O ₅	U	Th
	%	%	%	%	%	%	%	%	%	%	%	%	%	ppm	ppm
HMC	48.6	27.8	0.07	3.63	15.65	1.56	0.21	0.26	0.96	0.15	0.18	0.2	0.11	50	250
Ilmenite	59.6	38.8	0.08	0.07	1.96	1.08	0.21	0.29	1.34	0.04	0.07	0.22	0.14	20	<50
Synthetic Rutile	96.6	1.84	0.03	0.09	1.45	0.29	0.03	0.08	0.03	<0.01	0.10	0.09	0.24	20	<50

Synthetic Rutile Novel Production Process

Novel process for conversion of ilmenite to synthetic rutile (SR)

- **Provisional patent** refiled November 2024
- Process uses **alternative furnace** with numerous potential advantages:
 - Accepts variable feedstock moisture content
 - **Lower energy consumption**
 - Substantially less material short-circuiting
 - Potential to conduct **oxidation and reduction** in same furnace
 - Can accommodate use of **hydrogen** as reductant
 - Capable of handling substantially finer grain size feedstocks
 - Lower flowrate of gases results in **lower dust emissions** (captured and returned to furnace)
 - Can use multiple liquid or gaseous fuels including hydrogen
- **Second patent** for wider application of feedstocks being considered

Preliminary Conceptual Development Plan

Ore Reserves Statement

Forward looking statements

Certain statements made during or in connection with this communication, including, without limitation, those concerning the economic outlook for the mining industry, expectations regarding prices, exploration or development costs and other operating results, growth prospects and the outlook of Image's operations contain or comprise certain forward-looking statements regarding Image's operations, economic performance and financial condition. Although Image believes that the expectations reflected in such forward-looking statements are reasonable, no assurance can be given that such expectations will prove to have been correct.

Accordingly, results could differ materially from those set out in the forward looking statements as a result of, among other factors, changes in economic and market conditions, success of business and operating initiatives, changes that could result from future acquisitions of new exploration properties, the risks and hazards inherent in the mining business (including industrial accidents, environmental hazards or geologically related conditions), changes in the regulatory environment and other government actions, risks inherent in the ownership, exploration and operation of or investment in mining properties, fluctuations in prices and exchange rates and business and operations risks management, as well as generally those additional factors set forth in our periodic filings with ASX. Image undertakes no obligation to update publicly or release any revisions to these forward-looking statements to reflect events or circumstances after today's date or to reflect the occurrence of unanticipated events.

Ore Reserves Statement

*Includes Reserve under JORC 2012 reported separately.													

Mineral Resources Statement

Previously reported information

This report includes information that relates to Mineral Resources, Ore Reserves, production targets and forecast financial information derived from production targets which were prepared and first disclosed under JORC Code 2012. The information was extracted from the Company's previous ASX announcements as follows:

- Yandanooka Mineral Resource: 19 April 2024 "Strong Feasibility Result Yandanooka Project"
- Yandanooka Ore Reserve: 19 April 2024 "Strong Feasibility Result Yandanooka Project"
- Boonanarring Mineral Resources and Ore Reserves: 29 March 2023 "Boonanarring Annual Ore Reserve Update"
- Bidaminna Ore Reserve: 27 June 2023 "Pre-Feasibility Study Results – Bidaminna Mineral Sands Project"
- Atlas Ore Reserves: 21 December 2022 "Revised Announcement – Atlas Project Ore Reserve Update"
- Atlas Mineral Resources: 15 December 2022 "Mineral Resources Update – Atlas Deposit"
- Bidaminna Mineral Resource: 28 February 2023 – "Mineral Resources Update - Bidaminna Project"
- Gingin North Mineral Resource: 31 March 2021 – "Project MORE Update Boonanarring Atlas Projects"
- Boonanarring North Extension Mineral Resource: 31 March 2021 – "Project MORE Update Boonanarring Atlas Projects"
- Boonanarring North West Mineral Resource: 31 March 2021 – "Project MORE Update Boonanarring Atlas Projects"
- Helene Mineral Resources: 31 March 2021 – "Project MORE Update Boonanarring Atlas Projects"
- Hyperion Mineral Resources: 31 March 2021 – "Project MORE Update Boonanarring Atlas Projects"
- Titan Mineral Resources: 31 October 2019

Mineral Resources Statement

- Titan Mineral Resources: 31 October 2019
- Telesto South Mineral Resources: 31 October 2019
- Calypso Mineral Resources: 31 October 2019.
- Drummond Crossing, Durack, Ellengail, Robbs Cross, Thomson, Corridor: 11 March 2022 “Mineral Resource Update – Eneabba Tenements”
- McCalls and Mindarra Springs: 20 May 2022 “Mineral Resource Update McCalls Mineral Sands Project”
- West Mine North: 29 July 2022 “Mineral Resource Update – West Mine North”
- Gingin South: 14 December 2023 “Mineral Resource Updates Gingin South, Red Gully, and Regans Ford”
- Red Gully: 14 December 2023 “Mineral Resource Updates Gingin South, Red Gully, and Regans Ford
- Regans Ford: 14 December 2023 “Mineral Resource Updates Gingin South, Red Gully, and Regans Ford

All of the above announcements are available on the Company’s website at www.imageres.com.au. The Company confirms it is not aware of any new information or data that materially affects the information included in the original market announcements and that all material assumptions and technical parameters underpinning the estimates in the relevant market announcements continue to apply and have not materially changed. The Company confirms that the form and context in which any Competent Person’s findings are presented have not been materially modified from the original market announcement.
