Chief executive officer's report

Dear shareholders,

We grew our operating cash flows by 43% year-on-year in FY25 as a result of continued cost optimizations and prudent expense management across marketing and staff costs. Our Singapore business continued to see strong growth in FY25, with cash receipts growing 31% year-on-year. Our Hong Kong business saw a decline as a result of increasing competition and continued macroeconomic challenges.

Our revenue decreased by 5% year-on-year to \$4,524k in FY25 compared to \$4,779k in FY24, while our total expenses decreased by 12% year-on-year to \$3,673k in FY25 compared to \$4,165k in FY24. This resulted in a 39% year-on-year decrease in our NPAT to \$849k in FY25 compared to \$611k in FY24.

Our cash receipts decreased by 6% year-on-year to \$4,509k in FY25 compared to \$4,807k in FY24:

- Hong Kong: 27% decrease year-on-year in cash receipts to \$2,159k in FY25, down from \$2,967k in FY24, and represented 48% of our total cash receipts
- Singapore: 31% increase year-on-year in cash receipts to \$2,347k in FY25, up from \$1,789k in FY24, and represented 52% of our total cash receipts

FY26 outlook and growth strategy

Looking ahead to fiscal year 2026, we will continue to focus on growing and optimizing our personal matchmaking business, while explore potential expansions into the singles events business and new geographic markets such as the UK.

There were no significant changes in the state of affairs of the Group during the financial year.

Matters subsequent to the end of financial year

There were no matters which have significantly affected the Group's operations, results or state of affairs, or may do so in future years.

Likely developments and expected results of operations

Looking ahead to fiscal year 2026, we will continue to focus on growing and optimizing our personal matchmaking business, while explore potential expansions into the singles events business and new geographic markets such as the UK.

Environmental regulation

The Group's operations are not regulated by any significant environmental regulation under a law of the Australian Commonwealth or of any jurisdiction where it intends to operate.

To the extent that any environmental regulations may have an incidental impact on the Company's operations, the Directors of the Company are not aware of any breach by the Company of those regulations.

Dividends

There were no dividends declared for the year ended 30 June 2025 (2024: NIL).

Remuneration report (Audited)

The Directors present the Love Group Global Ltd remuneration report, outlining key aspects of the Company's remuneration policy and framework, and remuneration awarded this year. The information provided in this remuneration report has been audited as required by the *Corporations Act 2001*.

The report is structured as follows:

- Key Management Personnel (KMP) covered in this report
- Remuneration policy and link to Group performance
- Use of remuneration consultants
- Non-executive director remuneration policy
- Executive remuneration and benefits
- Details of remuneration
- Service agreements
- Details of share-based compensation
- Equity instruments held by Key Management Personnel
- Other transactions with Key Management Personnel

Key Management Personnel disclosed in this report

Non-executive directors	Terence Grigg
	Tod McGrouther
Executive director and CEO	Michael Ye

Remuneration policy and link to Group performance

The Board's policy for determining the nature and amount of remuneration of key management personnel of the Company and the Group is designed to:

- Maintain the ability to attract and retain senior executives and directors;
- Avoid paying excessive remuneration;
- Remunerate fairly having regard to market conditions and individual contribution; and
- Align the interests of employees and Directors with that of the Company and the Group as much as possible.

The Company was originally listed on the Australian Securities Exchange on 5 December 2014, and suspended on 12 October 2015 following approval by shareholders to change the Company's activities by the acquisition of Datetix Limited (now known as Love Group Hong Kong Limited), a Hong Kong based on-demand dating platform business. The Company was reinstated to official quotation on ASX on 27 November 2015 following completion of the acquisition and, since reinstatement, the primary objectives of the Company have been:

- Consolidating the change of activities, including the sale of the non-core services business;
- Expanding a team of development and marketing personnel for the Datetix on-demand dating business in existing and new market areas;
- Developing, releasing and improving iOS and Android apps for the on-demand dating platform;
- Growing the suite of revenue sources associated with the platform; and
- Acquiring related businesses to generate synergies in marketing and product offerings.

Remuneration policy and link to Group performance (continued)

Company acquired both Lovestruck Limited and Noonswoon Co., Ltd and all key intellectual property of Noonswoon Inc. during FY2017. Company developed Ever application and launched in Singapore during FY2024.

Details of market price movements in the Company's ordinary share price at 30 June each year are:

	2025	2024	2023	2022	2021
Share price at year end	\$0.115	\$0.130	\$0.135	\$0.070	\$0.097
Change in share price ¹	-\$0.015	-\$0.005	+\$0.065	-\$0.027	+\$0.038
TSR - Year on year ²	-11.5%	-3.7%	+92.8%	-27.8%	+64.4%
Market capitalisation ³	\$4,661,429	\$5,269,442	\$5,472,112	\$2,837,392	\$3,931,814
Profit / (Loss) for the year	\$849,044	\$611,052	\$203,319	\$204,954	(\$597,045)
KMP remuneration	\$512,780	\$486,521	\$560,004	\$312,416	\$292,597

1. The change in share price as measured by the price at the end of the year from the opening share price.
2. Total shareholder return (TSR) – measured as the percentage change in the share price over the year.
3. Market capitalisation – calculated as the total ordinary shares on issue multiplied by the closing share price.

The link between remuneration, company performance and shareholder wealth generation is tenuous during the establishment and user acquisition phase of an internet based business.

The Company operates an Employee Incentive Plan. Under the plan, shares under a limited recourse loan were provided to a KMP and options have been granted to the Key Management Personnel (KMP) and other employees. Details of share-based compensation granted to KMP are set out below.

Voting and comments made at the Company's 2024 Annual General Meeting (AGM)

At the 2024 AGM, 7.5% of the votes received supported the adoption of the remuneration report for the year ended 30 June 2024. The Company did not receive any specific feedback at the AGM regarding its remuneration practices.

Use of remuneration consultants

During the year the Company did not engage an independent remuneration consultant to review remuneration practices for the Key Management Personnel.

Love Group Global Ltd Directors' Report – 30 June 2025

Non-executive Director remuneration policy

Non-executive Directors' fees and payments reflect the demands made on, and the responsibilities of, the non-executive Directors. The fees are determined within a pool limit, which is periodically reviewed and proposed changes recommended for approval by shareholders. The pool is currently limited to \$300,000 per annum. Non-executive directors do not receive performance-based pay. There are no retirement allowances for non-executive directors. No additional fees are payable to non-executive directors.

The following base fees, exclusive of superannuation contributions required under the Australian superannuation guarantee legislation currently apply.

	Date	Per Annum
Chairman - Terence Grigg	From 30 November 2017 to 30 June 2023 From 1 July 2023	\$36,000 \$42,000
Non-executive director - Tod McGrouther	From 1 February 2018 to 30 June 2023 From 1 July 2023	\$30,000 \$36,000

Executive remuneration and benefits

Executive payments currently consist of base salary plus statutory superannuation and other benefits. Base pay is structured as a total employment package which may be delivered as a combination of prescribed non-financial benefits at the executives' discretion. There are no guaranteed base pay increases in any executives' contracts.

Throughout the year all remuneration for key management personnel was fixed and not linked to performance except for shares and options issued under the employee incentive plan.

(b) Outstanding balances arising from sales/purchases of goods and services, transactions

No outstanding balances with related parties during the year ended 30 June 2025 (2024: Nil).

(c) Loans to Key Management Personnel and their related parties

No outstanding loans to Key Management Personnel and their related parties during the year ended 30 June 2025 (2024: Nil).

No other transactions occurred between Key Management Personnel and their related entities with the Group during the year (2024: Nil), not disclosed above or in note 20.

Terms and conditions

All transactions were made on normal commercial terms and conditions and at market rates.

END OF AUDITED REMUNERATION REPORT

Shares under option

There are no unissued ordinary shares of the Company under option at the date of this report for the year ended 30 June 2025 and 30 June 2024.

Shares issued on the exercise of options

The Company did not issue any shares during the year ended 30 June 2025 and up to date of this report on the exercise of options granted.

Insurance of officers and auditors

During the financial year the Company paid a premium in respect of a contract insuring directors, secretaries and executive officers of the Company and its controlled entities against any liability incurred as director, secretary or executive officer to the extent permitted by the *Corporations Act 2001*. The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

The Company has not otherwise, during or since the end of the financial year, except to the extent permitted by law, indemnified or agreed to indemnify an officer or auditor of the Company or any of its controlled entities against a liability incurred as such an officer or auditor.

Proceedings on behalf of the Company

No person has applied to the Court under section 237 of the *Corporations Act 2001* for leave to bring proceedings on behalf of the company, or to intervene in any proceedings to which the company is a party for the purpose of taking responsibility on behalf of the company for all or part of those proceedings.

Non-audit services

The Directors are satisfied that the provision of non-audit services during the period by the auditor (or by another person or firm on the auditor's behalf) is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*. The Board assesses the provision of non-audit services by the auditors to ensure that the auditor independence requirements of the *Corporations Act 2001* in relation to the audit are met.

Details of amounts paid or payable to the auditor for non-audit services provided during the period by the auditor are outlined in note 18 to the financial statements.

The Directors are of the opinion that the services as disclosed in note 18 to the financial statements do not compromise the external auditor's independence requirements of the *Corporations Act 2001* for the following reasons:

- all non-audit services have been reviewed and approved to ensure that they do not impact the integrity and objectivity of the auditor; and
- none of the services undermine the general principles relating to auditor independence as set out in APES 110 Code of Ethics for Professional Accountants issued by the Accounting Professional and Ethical Standards Board, including reviewing or auditing the auditor's own work, acting in a management or decision-making capacity for the company, acting as advocate for the company or jointly sharing economic risks and rewards.

Love Group Global Ltd
Directors' Report – 30 June 2025

Officers of the company who are former partners of A D Danieli Audit Pty Ltd

There are no officers of the company who are former partners of A D Danieli Audit Pty Ltd.

Auditor's Independence Declaration

Section 307C of the *Corporations Act 2001* requires our auditors, A D Danieli Audit Pty Ltd, to provide the Directors of Love Group Global Ltd with an Independence Declaration in relation to the audit of the attached Financial Statements. This Independence Declaration is included in this Financial Report and forms part of this Directors' Report.

Signed in accordance with a resolution of the Board of Directors, pursuant to section 298(2)(a) of the *Corporations Act 2001*.

Note 1: Summary of significant accounting policies

Love Group Global Ltd is a listed public company domiciled in Australia. The address of the Company's registered office is Level 8, 99 St Georges Terrace, Perth WA 6000. The financial statements are for the year ended 30 June 2025.

The principal accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

New or amended Accounting Standards and Interpretations adopted

The Group has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

a) Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards, other authoritative pronouncements of the Australian Accounting Standards Board and the *Corporations Act 2001*. The Group is a for-profit entity for the purpose of preparing the financial statements. These general purpose financial statements are presented in Australian dollars, which is the Group's functional and presentation currency.

The financial statements were authorised for issue on 19 August 2025 by the Board of Love Group Global Ltd.

i) Compliance with IFRS

Australian Accounting Standards include Australian equivalents to International Financial Reporting Standards (A-IFRS). Compliance with A-IFRS ensures that the financial statements of the Group comply with International Financial Reporting Standards (IFRS).

ii) Historical cost convention

These financial statements have been prepared under the historical cost convention.

b) Parent entity information

In accordance with the *Corporations Act 2001*, these financial statements present the results of the Group only. Supplementary information about the parent entity is disclosed in Note 21.

Note 1: Summary of significant accounting policies (continued)

c) Principles of consolidation

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Love Group Global Ltd ('the Company' or 'the Parent entity') as at 30 June 2025 and the results of all subsidiaries for the year then ended. Love Group Global Ltd and its subsidiaries together are referred to in these financial statements as the 'consolidated entity' or 'Group'.

Subsidiaries are all those entities over which the consolidated entity has control. The consolidated entity controls an entity when the consolidated entity is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the consolidated entity. They are de-consolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between entities in the consolidated entity are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the consolidated entity.

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. A change in ownership interest, without the loss of control, is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the non-controlling interest acquired is recognised directly in equity attributable to the parent.

Non-controlling interest in the results and equity of subsidiaries are shown separately in the statement of profit or loss and other comprehensive income, statement of financial position and statement of changes in equity of the consolidated entity. Losses incurred by the consolidated entity are attributed to the non-controlling interest in full, even if that results in a deficit balance.

Where the consolidated entity loses control over a subsidiary, it derecognises the assets including goodwill, liabilities and non-controlling interest in the subsidiary together with any cumulative translation differences recognised in equity. The consolidated entity recognises the fair value of the consideration received and the fair value of any investment retained together with any gain or loss in profit or loss.

d) Operating segments

Operating segments are presented using the 'management approach' where the information presented is on the same basis as the internal reports provided to the Chief Operating Decision Maker ("CODM"). The CODM is responsible for the allocation of resources to operating segments and assessing their performance. Further information is contained in Note 4.

Note 1: Summary of significant accounting policies (continued)

e) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements of the Group are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Australian dollars, which is the Group's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the year-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined.

Exchange differences arising on the translation of monetary items are recognised in profit or loss except where deferred in equity as a qualifying cash flow or net investment hedge.

Exchange differences arising on the translation of non-monetary items are recognised directly in other comprehensive income to the extent that the underlying gain or loss is recognised in other comprehensive income; otherwise the exchange difference is recognised in profit or loss.

f) Revenue recognition

Revenue from contracts with customers

Revenue is recognised at an amount that reflects the consideration to which the consolidated entity is expected to be entitled in exchange for transferring goods or services to a customer. For each contract with a customer, the consolidated entity identifies the contract with a customer; identifies the performance obligations in the contract; determines the transaction price which takes into account estimates of variable consideration and the time value of money; allocates the transaction price to the separate performance obligations on the basis of the relative stand-alone selling price of each distinct good or service to be delivered; and recognises revenue when or as each performance obligation is satisfied in a manner that depicts the transfer to the customer of the goods or services promised.

Variable consideration within the transaction price, if any, reflects concessions provided to the customer such as discounts, rebates and refunds, any potential bonuses receivable from the customer and any other contingent events. Such estimates are determined using either the 'expected value' or 'most likely amount' method. The measurement of variable consideration is subject to a constraining principle whereby revenue will only be recognised to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur. The measurement constraint continues until the uncertainty associated with the variable consideration is subsequently resolved. Amounts received that are subject to the constraining principle are initially recognised as deferred revenue in the form of a separate refund liability.

Revenue is recognised for the major business activities as follows:

(i) Dating Services

It comprises of online, subscription fee, events, matchmaking services, dates and love academy.

- Matchmaking Income - Online:
Revenue derived from the provision of workforce mobilisation services and dating

Note 1: Summary of significant accounting policies (continued)

f) Revenue recognition (continued)

services via the internet is recognised when the Group has delivered services to the purchaser and there is no unfulfilled obligation that could affect the purchasers' acceptance of service.

- **Event Income:**
This relates to events held. Income is mainly derived through the sales of tickets. Revenue is recognised at a point in time upon delivery of the service to the customer.
- **Matchmaking Income - Consultation:**
This relates to revenue derived from Premium matchmaking services targeting singles seeking serious relationships and marriage. Service packages offered range from one month to twenty-four months. Revenue will be recognised over the service period and upon satisfaction of performance obligation.
- **Dates Income:**
This relates to revenue derived from restaurant commission and lounge business income. Revenue is recognised at a point in time upon delivery of the service to the customer.
- **Love Academy Income:**
This relates to revenue derived from photo-shooting and image consulting services. Revenue is recognised at a point in time upon delivery of the service to the customer.

g) Income Tax

The income tax expense or benefit for the year is the tax payable on the current year's taxable income based on the national income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting, nor taxable, profit or loss. Deferred income tax is determined using tax rates and laws that have been enacted or substantially enacted by the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities and assets are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax balances attributable to amounts recognised directly in equity are also recognised directly in equity.

Note 1: Summary of significant accounting policies (continued)

h) Current and non-current classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in the consolidated entity's normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current.

A liability is classified as current when: it is either expected to be settled in the consolidated entity's normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. All other liabilities are classified as non-current.

i) Impairment of non-financial assets

Non-financial assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use.

For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

j) Cash and cash equivalents

For Statement of Cash Flow presentation purposes, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown in current liabilities on the Statement of Financial Position.

k) Trade and other receivables

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less any allowance for unexpected credit losses. Trade receivables are generally due for settlement within 30 days. They are presented as current assets unless collection is not expected for more than 12 months after the reporting date.

The consolidated entity has applied the simplified approach to measuring expected credit losses, which uses a lifetime expected loss allowance. To measure the expected credit losses, trade receivables have been grouped based on days overdue.

Other receivables are recognised at amortised cost, less any allowance for expected credit losses.

Note 1: Summary of significant accounting policies (continued)

l) Plant and equipment

Plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable the future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting year in which it is incurred.

Depreciation is calculated using the straight line method to allocate the cost or revalued amounts, net of their residual values, over the estimated useful lives as follows:

– Office leasehold, furniture and equipment; 1-5 years

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss.

m) Right-of-use assets

A right-of-use asset is recognised at the commencement date of a lease. The right-of-use asset is measured at cost, which comprises the initial amount of the lease liability, adjusted for, as applicable, any lease payments made at or before the commencement date net of any lease incentives received, any initial direct costs incurred, and, except where included in the cost of inventories, an estimate of costs expected to be incurred for dismantling and removing the underlying asset, and restoring the site or asset.

Right-of-use assets are depreciated on a straight-line basis over the unexpired period of the lease or the estimated useful life of the asset, whichever is the shorter. Where the consolidated entity expects to obtain ownership of the leased asset at the end of the lease term, the depreciation is over its estimated useful life. Right-of use assets are subject to impairment or adjusted for any remeasurement of lease liabilities.

The consolidated entity has elected not to recognise a right-of-use asset and corresponding lease liability for short-term leases with terms of 12 months or less and leases of low-value assets. Lease payments on these assets are expensed to profit or loss as incurred.

Note 1: Summary of significant accounting policies (continued)

n) Goodwill

Goodwill is not amortised but is tested annually for impairment or more frequently if events or changes in circumstances indicate that it might be impaired. Goodwill is carried at cost less accumulated impairment losses.

For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash generating units, or groups of cash generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or group of units. Each unit or group of units to which the goodwill is so allocated represents the lowest level within the Group at which the goodwill is monitored for internal management purposes.

Impairment is determined by assessing the recoverable amount of the cash generating unit (group of cash generating units) to which the goodwill relates. When the recoverable amount of the cash generating unit (group of cash generating units) is less than the carrying amount, an impairment loss is recognised.

When goodwill forms part of a cash generating unit (group of cash generating units) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in this manner is measured based on the relative values of the operation disposed of and the portion of the cash generating unit retained.

o) Investments and other financial assets

Investments and other financial assets are initially measured at fair value. Transaction costs are included as part of the initial measurement, except for financial assets at fair value through profit or loss. Such assets are subsequently measured at either amortised cost or fair value depending on their classification. Classification is determined based on both the business model within which such assets are held and the contractual cash flow characteristics of the financial asset unless, an accounting mismatch is being avoided.

Financial assets are derecognised when the rights to receive cash flows have expired or have been transferred and the consolidated entity has transferred substantially all the risks and rewards of ownership. When there is no reasonable expectation of recovering part or all of a financial asset, its carrying value is written off.

Financial assets at fair value through profit or loss

Financial assets not measured at amortised cost or at fair value through other comprehensive income are classified as financial assets at fair value through profit or loss. Typically, such financial assets will be either: (i) held for trading, where they are acquired for the purpose of selling in the short-term with an intention of making a profit, or a derivative; or (ii) designated as such upon initial recognition where permitted. Fair value movements are recognised in profit or loss.

Financial assets at fair value through other comprehensive income

Financial assets at fair value through other comprehensive income include equity investments which the consolidated entity intends to hold for the foreseeable future and has irrevocably elected to classify them as such upon initial recognition.

Note 1: Summary of significant accounting policies (continued)

o) Investments and other financial assets (continued)

Impairment of financial assets

The consolidated entity recognises a loss allowance for expected credit losses on financial assets which are either measured at amortised cost or fair value through other comprehensive income. The measurement of the loss allowance depends upon the consolidated entity's assessment at the end of each reporting period as to whether the financial instrument's credit risk has increased significantly since initial recognition, based on reasonable and supportable information that is available, without undue cost or effort to obtain.

p) Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of the year which are unpaid. The amounts are unsecured and are usually paid within 30 – 60 days of recognition. Amounts received in respect of subscriptions for software products or services are also included in trade and other payables until the product or service is delivered.

q) Contract liabilities

Contract liabilities represent the consolidated entity's obligation to transfer goods or services to a customer and are recognised when a customer pays consideration, or when the consolidated entity recognises a receivable to reflect its unconditional right to consideration (whichever is earlier) before the consolidated entity has transferred the goods or services to the customer.

r) Lease liabilities

A lease liability is recognised at the commencement date of a lease. The lease liability is initially recognised at the present value of the lease payments to be made over the term of the lease, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the consolidated entity's incremental borrowing rate. Lease payments comprise of fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, amounts expected to be paid under residual value guarantees, exercise price of a purchase option when the exercise of the option is reasonably certain to occur, and any anticipated termination penalties. The variable lease payments that do not depend on an index or a rate are expensed in the period in which they are incurred.

Lease liabilities are measured at amortised cost using the effective interest method. The carrying amounts are remeasured if there is a change in the following: future lease payments arising from a change in an index or a rate used; residual guarantee; lease term; certainty of a purchase option and termination penalties. When a lease liability is remeasured, an adjustment is made to the corresponding right-of-use asset, or to profit or loss if the carrying amount of the right-of-use asset is fully written down.

Note 1: Summary of significant accounting policies (continued)

s) Borrowings

All loans and borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the loans and borrowings using the effective interest method. Fees paid for establishing loan facilities are recognised as transaction costs if it is probable that some or all of the facility will be drawn down, and deferred until the draw down occurs. If it is not probable that the facility will be drawn down, fees are capitalised as prepayments for liquidity services and amortised over the period to which the facility relates.

Borrowings are derecognised from the statement of financial position when the obligation specified in the contract has been discharged, cancelled or expires. The difference between the carrying amount of the borrowing derecognised and the consideration paid is recognised in profit or loss as other income or finance costs.

Where the terms of a borrowing are renegotiated and the Group issues equity instruments to a creditor to extinguish all or part of a borrowing, the equity instruments issued as part of the debt for equity swap are measured at the fair value of the equity instruments issued, unless the fair value cannot be measured reliably, in which case, they are measured at the fair value of the debt extinguished. The difference between the carrying amount of the debt extinguished and the fair value of the equity instruments issued is recognised as a gain or loss in profit or loss.

All borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the end of the reporting period.

t) Employee benefits

(i) Short-term employee benefits

Liabilities for wages and salaries, including non-monetary benefits, annual leave and long service leave expected to be settled wholly within 12 months of the reporting date are measured at the amounts expected to be paid when the liabilities are settled.

(ii) Other long-term employee benefits

The liability for annual leave and long service leave not expected to be settled wholly within 12 months of the reporting date are measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on corporate bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

(iii) Share-based payments

The Company established an Employee Share Ownership Plan, and issued share options and performance rights to employees under the Plan. The share options and performance rights constitute equity based payments in accordance with AASB 2 Share-Based Payments, and the options and performance rights have been valued in accordance with the requirements of AASB 2. The options have been valued by independent consultants who used appropriate pricing models to determine the value of the options. Performance rights are measured at fair value on grant date.

Note 1: Summary of significant accounting policies (continued)

u) Contributed equity

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

v) Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the Company, on or before the end of the financial year but not distributed at reporting date.

w) Earnings per share

Basic earnings per share is calculated as net profit attributable to members of the parent, adjusted to exclude any costs of servicing equity (other than dividends) and preference share dividends, divided by the weighted average number of ordinary shares, adjusted for any bonus element.

Diluted earnings per share is calculated as net profit attributable to members of the parent, adjusted for:

- Costs of servicing equity (other than dividends) and preference share dividends;
 - The after tax effect of dividends and interest associated with dilutive potential ordinary shares that have been recognised as expenses; and
- Other non-discretionary changes in revenues or expenses during the year that would result from the dilution of potential ordinary shares; divided by the weighted average number of ordinary shares and dilutive potential ordinary shares, adjusted for any bonus element.

x) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the taxation authority. Where the GST is not recoverable from the taxation authority it is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the taxation authority is included with other receivables or payables in the Statement of Financial Position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the taxation authority, are presented as operating cash flow.

y) Comparatives

Where necessary, comparative information has been reclassified and repositioned for consistency with current year disclosures.

Note 1: Summary of significant accounting policies (continued)

z) Share based payment

Equity-settled share-based compensation benefits are provided to employees.

Equity-settled transactions are awards of shares, or options over shares that are provided to employees in exchange for the rendering of services.

The cost of equity-settled transactions is measured at fair value on grant date. Fair value is independently determined using the appropriate pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option, together with non-vesting conditions that do not determine whether the consolidated entity receives the services that entitle the employees to receive payment. No account is taken of any other vesting conditions.

The cost of equity-settled transactions is recognised as an expense with a corresponding increase in equity over the vesting period. The cumulative charge to profit or loss is calculated based on the grant date fair value of the award, the best estimate of the number of awards that are likely to vest and the expired portion of the vesting period. The amount recognised in profit or loss for the period is the cumulative amount calculated at each reporting date less amounts already recognised in previous periods.

All changes in the liability are recognised in profit or loss.

Market conditions are taken into consideration in determining fair value. Therefore, any awards subject to market conditions are considered to vest irrespective of whether or not that market condition has been met, provided all other conditions are satisfied.

If equity-settled awards are modified, as a minimum an expense is recognised as if the modification has not been made. An additional expense is recognised, over the remaining vesting period, for any modification that increases the total fair value of the share-based compensation benefit as at the date of modification.

If the non-vesting condition is within the control of the consolidated entity or employee, the failure to satisfy the condition is treated as a cancellation. If the condition is not within the control of the consolidated entity or employee and is not satisfied during the vesting period, any remaining expense for the award is recognised over the remaining vesting period, unless the award is forfeited.

Note 1: Summary of significant accounting policies (continued)

aa) New and Amended Accounting Policies Adopted by the Group

The Group has adopted all the new or amended Australian Accounting Standards and interpretations that are mandatory for the first time for the financial year beginning 1 July 2024, including:

AASB 2022-6 Amendments to Australian Accounting Standards – Non-current Liabilities with Covenants

AASB 2022-6 amends AASB 101 Presentation of Financial Statements to clarify that when an entity determines the classification of a liability as current or non-current, it shall not consider covenants that must be complied with only after the reporting date.

In addition, the amendments introduce enhanced disclosure requirements for liabilities classified as non-current that are subject to covenants that will be tested within 12 months of the reporting date.

The adoption of AASB 2022-6 did not result in a change to the classification of the Group's liabilities in the statement of financial position as at 30 June 2025. However, where applicable, the Group has included the required disclosures for liabilities subject to such post-reporting date covenant conditions

Note 2: Financial risk management

a) General Objectives, Policies and Processes

In common with all other businesses, the Group is exposed to risks that arise from its use of financial instruments. This note describes the Group's objectives, policies and processes for managing those risks and the methods used to measure them. Further quantitative information in respect of these risks is presented throughout these financial statements.

There have been no substantive changes in the Group's exposure to financial instrument risks, its objectives, policies and processes for managing those risks or the methods used to measure them from previous periods unless otherwise stated in this note.

The principal financial instruments from which financial instrument risk arises are:

Financial Assets:

- Cash and cash equivalents
- Trade and other receivables

Financial Liabilities:

- Trade and other payables

The carrying amounts of the Group's financial assets and liabilities at the reporting date are:

	Year ended 30 June 2025 \$	Year ended 30 June 2024 \$
Financial Assets		
Cash and cash equivalents	2,461,359	2,545,161
Trade and other receivables	39,016	38,945
Total Financial Assets	2,500,375	2,584,106
Financial Liabilities		
Trade and other payables	329,532	321,945
Total Financial Liabilities	329,532	321,945

The Board has overall responsibility for the determination of the Group's risk management objectives and policies.

The Group's activities expose it to a variety of financial risks: market risk (interest rate risk and price risk), credit risk and liquidity risk. The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the Group.

The Group uses different methods to measure different types of risk to which it is exposed.

Note 2: Financial risk management (continued)

a) General Objectives, Policies and Processes (continued)

Risk management is carried out under policies approved by the Board of Directors. The Board provides principles for overall risk management, as well as policies covering specific areas, such as, interest rate risk, credit risk and investment of excess liquidity.

(b) Interest rate risk

The Group's exposure to interest rates related primarily to the Group's cash deposits.

	Year ended 30 June 2025 \$	Year ended 30 June 2024 \$
Cash and cash equivalents	2,461,359	2,545,161

The Group regularly analyses its interest rate opportunity and exposure. Within this analysis consideration is given to existing positions and alternative arrangements for its deposits.

The following sensitivity analysis is based on the interest rate risk relating to cash deposits at reporting date.

At 30 June 2025, if interest rates had increased or decreased by 50 basis points from the year end rates, as illustrated in the table below, with all other variables held constant, post-tax loss for the year would have been affected as follows:

	Year ended 30 June 2025 \$	Year ended 30 June 2024 \$
Judgement of reasonable possible movement		
+0.5% (50 basis points)	12,307	12,726
-0.5% (50 basis points)	(12,307)	(12,726)

The movement in losses are due to higher/lower interest received. As the Group does not have any derivative instruments the movements in equity are those of profit only. A movement of + and - 0.5% is selected because this historically is within a range of rate movements.

(c) Foreign currency risk

The group operates internationally and is exposed to foreign currency risk from various currency exposures, primarily with respect to the HK dollars, Sterling pound, Singapore dollars, Thai Bhat and Chinese Renminbi.

Foreign exchange risk arises from future commercial transactions and recognised financial assets and liabilities denominated in a currency that is not the entity's functional currency. The risk is measured using sensitivity analysis and cash flow forecasting.

The carrying amount of the Group's foreign currency denominated financial assets and financial liabilities at the reporting date were not significant.

Note 2: Financial risk management (continued)

(d) Credit risk

Credit risk is the risk that the other party to a financial instrument will fail to discharge their obligation resulting in the Group incurring a financial loss. The maximum exposure to credit risk at reporting date is the balances recognised in cash and trade and other receivables. Cash is deposited with major banks in Australia, London, Thailand, Hong Kong and Singapore. Trade and other receivables are closely monitored and in most cases services are invoiced in advance or progressively, which limits the chance of financial loss.

The consolidated entity has a credit risk exposure, which as at 30 June 2025, customers owed the consolidated entity \$39,016 (2024: \$38,945). This balance was within its terms of trade and no impairment was made as at 30 June 2025. There are no guarantees against this receivable but management closely monitors the receivable balance on a monthly basis and is in regular contact with this customer to mitigate risk.

Generally, trade receivables are written off when there is no reasonable expectation of recovery. Indicators of this include the failure of a debtor to engage in a repayment plan, no active enforcement activity and a failure to make contractual payments for a period greater than 1 year.

(e) Fair value

The carrying value of cash and cash equivalents, receivables and payables represent reasonable approximations of their fair values due to their short-term nature.

(f) Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The objective of managing liquidity risk is to ensure, as far as possible, that the Group will always have sufficient liquidity to meet its liabilities when they fall due.

Prudent liquidity risk management implies maintaining sufficient cash and the availability of funding through access to debt or equity funding sources. The Group manages liquidity risk by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The Group has Total Liabilities of \$1,208,818 (2024: \$1,285,672) of which \$870,606 (2024: \$961,795) is recorded as payment received for services not yet delivered. The Group has trade and other receivables of \$39,016 (2024: \$38,945), trade and other payables of \$329,532 (2024: \$321,945), and total assets of \$2,564,192 (2024: \$2,643,196) of which \$2,461,359 (2024: \$2,545,161) consists of cash or cash equivalents providing the Board with comfort that the Group is solvent and can meet its payment obligations in full as they fall due.

Note 2: Financial risk management (continued)

(f) Liquidity risk (continued)

Maturities of financial liabilities

The table below analyses the Group's financial liabilities into relevant maturity groupings based on the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

2025	\$	\$
	0-6 Months	Carrying Amounts
Trade and other payables	329,532	329,532
	<u>329,532</u>	<u>329,532</u>
2024	\$	\$
	0-6 Months	Carrying Amounts
Trade and other payables	321,945	321,945
	<u>321,945</u>	<u>321,945</u>

Note 3: Critical accounting estimates and judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Group and that are believed to be reasonable under the circumstances.

The Group makes judgements, estimates and assumptions concerning the future. The resulting estimates and judgements will, by definition, seldom equal the related actual results. In the opinion of the Directors, below are estimates and judgements in the financial report that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Revenue from contracts with customers in allocating the transaction price

When recognising revenue in relation to products or services rendered to customers, there are multiple performance obligations as defined in the contract. Management has allocated the transaction price to performance obligations based on either the goods or services that have been provided to the customer.

Note 4: Operating segments

a) Identification of reportable operating segments

The consolidated entity is organised into two operating segments based on differences in products and services provided: Dating services and Corporate.

The operating segments are based on the units identified in the operating reports reviewed by the Board and executive management who are identified as the Chief Operating Decision Makers (CODM) and that are used to make strategic decisions and in assessing performance. The Board considers the Group from both a business unit and geographic perspective and has identified two reportable segments.

The CODM reviews EBITDA (earnings before interest, tax, depreciation and amortisation). The accounting policies adopted for internal reporting to the CODM are consistent with those adopted in the financial statements.

The information reported is on a monthly basis.

Type of products and services

The principal products and services of each of these operating segments are as follows:

Dating Services	the online, events, love academy and matchmaking services in Hong Kong, London, Singapore and Bangkok.
Corporate	indirect expenses which include auditing and accounting fees, employee benefits expenses for General and Administrative and Research and Development staff and office rent.
Geographical	services in Asia covering Hong Kong, Singapore and Bangkok, and Europe in London.

	2025 \$	2024 \$
Income tax expense		
Current tax	6,305	3,142
Income tax payable attributable to: Profit from continuing operations		
Aggregate income tax expense	6,305	3,142
Unused tax losses for which no deferred tax asset has been recognised:		
Revenue loss	2,782,659	2,764,440
Potential tax benefit at 30% (2024:25%)	834,798	691,110
Current Tax Liabilities		
Income tax payable attributable to:		
Parent Entity	-	-
Other entities not in the tax consolidated group	8,680	1,932
	8,680	1,932

Deferred tax assets have not been recognised in the Statement of Financial Position as the recovery of these benefits is uncertain. The benefit of these deferred tax assets will only be obtained if:

- (1) the Company derives future assessable income of a nature and of an amount sufficient to enable the benefit from the deductions for the temporary differences to be realised;
- (2) the Company continues to comply with the conditions for deductibility imposed by tax legislation; and
- (3) no changes in tax legislation adversely affect the entity in realising the benefit from the deductions for the temporary differences.

Note 9: Current assets – Cash and cash equivalents

	2025 \$	2024 \$

Balance at end of period	40,535,169		15,689,549	16,500,232

b) Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on winding up of the Company in proportion to the number of and amounts paid on shares held.

On a show of hands every holder of ordinary shares present at a meeting in person or by proxy, is entitled to one vote, and upon a poll each share is entitled to one vote.

Ordinary shares have no par value and the Company does not have a limited amount of authorised capital.

c) Options

No shares under option as at 30 June 2025 (2024: nil).

d) Capital risk management

The Company's objectives when managing capital are to safeguard its ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

Love Group Pte Limited	Singapore	100%	Foreign	Singapore
Lovestruck Limited	London	100%	Foreign	United Kingdom
Lovestruck Co., Ltd	Bangkok	100%	Foreign	Thailand

Key assumptions and judgements

Determination of Tax Residency

Section 295 (3A) of the Corporation Acts 2001 requires that the tax residency of each entity which is included in the Consolidated Entity Disclosure Statement (CEDS) be disclosed. In the context of an entity which was an Australian resident, "Australian resident" has the meaning provided in the Income Tax Assessment Act 1997. The determination of tax residency involves judgment as the determination of tax residency is highly fact dependent and there are currently several different interpretations that could be adopted, and which could give rise to a different conclusion on residency.

In determining tax residency, the consolidated entity has applied the following interpretations:

- Australian tax residency

The consolidated entity has applied current legislation and judicial precedent, including having regard to the Commissioner of Taxation's public guidance in Tax Ruling TR 2018/5.

- Foreign tax residency

The consolidated entity has applied current legislation and where available judicial precedent in the determination of foreign tax residency. Where necessary, the consolidated entity has used dependent tax advisers in foreign jurisdictions to assist in its determination of tax residency to ensure applicable foreign tax legislation has been complied with.

Directors' declaration

In the opinion of the Directors:

- (a) The attached financial statements and notes thereto are in accordance with the *Corporations Act 2001*, including:
 - i) Giving a true and fair view of the Group's financial position as at 30 June 2025 and of its performance for the year ended on that date;
 - ii) Complying with Accounting Standards, *Corporations Act 2001* and other mandatory professional reporting requirements; and
 - iii) Complying with International Financial Reporting Standards as disclosed in Note 1(a)(i).
- (b) There are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.
- (c) The information disclosed in the attached consolidated entity disclosure statement is true and correct.

The Directors have been given the declarations required by section 295A of the *Corporations Act 2001*.

This declaration is made in accordance with a resolution of the directors.

**Independent Auditor's Audit Report
To the Members of Love Group Global Ltd
A.B.N. 82 009 027 178
And Controlled Entities**

Report on the audit of the Financial Report

Opinion

We have audited the consolidated financial report of Love Group Global Ltd and controlled entities (the consolidated entity), which comprises the consolidated statement of financial position as at 30 June 2025, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- (i) giving a true and fair view of the Group's financial position as at 30 June 2025 and of its financial performance for the year then ended; and
- (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (the Code)* that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Liability limited by a scheme approved under Professional Standards Legislation

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter	How our Audit Addressed the Key Audit Matter
<i>Revenue Recognition</i> The Group had revenue of \$4,439,628 (2024: \$ 4,698,511) during the year, of which \$ 863,444 (2024: \$ 954,185) was classified as contract liabilities.	We have evaluated the appropriateness of management's assessment regarding the recognition of revenue and the allocation between revenue and deferred revenue. Based on our work, we are satisfied that the revenue and contract liabilities are fairly stated.
<i>Lease Commitments – AASB 16 Exemption Assessment</i> The Group has leases in Hong Kong and Singapore. Management applied short-term lease exemptions to two Singapore leases. Judgement is required on lease terms and materiality which affects recognition of right-of-use assets and lease liabilities.	We reviewed lease agreements and payment schedules. We tested management's exemption assessments and verified compliance with AASB 16. Based on our work, we noted no significant issues on the recognition of right-of-use assets and lease liabilities.
<i>Return of Capital</i> The Group returned \$800,000 capital to shareholders. Correct classification and legal compliance are required to ensure accurate equity presentation and statutory adherence..	We inspected board and shareholder approvals, tested bank payments, and reviewed compliance with <i>Corporations Act 2001</i> . Based on our work, we noted no significant issues on the treatment of return of capital.

Other Information

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2025, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion.
- Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial report. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included on pages 10 to 15 of the directors' report for the year ended 30 June 2025.

In our opinion, the Remuneration Report of Love Group Global Ltd, for the year ended 30 June 2025, complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
