## INDUSTRY LEADER JOINS YOJEE TO ACCELERATE MOSAIC ROLL-OUT

Yojee Limited (**ASX: YOJ**, “Yojee” or “the Company”) is pleased to announce that leading air cargo industry expert Mr Scott McCorquodale has joined the Company to play a key role in the development and roll-out of its MOSAIC platform. With over 30 years’ experience driving digital transformation at Qantas, CCN and WiseTech Global, Scott’s involvement brings world-class expertise and credibility to Yojee’s mission of delivering next-generation freight forwarding and customs solutions.

Mr McCorquodale is a highly regarded industry expert in the international air cargo industry, who has held executive roles across the airline and transportation technology sectors for over 30 years. During his time with Qantas, Scott played a pivotal role in leading the development and execution of industry-leading air cargo digitalisation solutions at that time. Following this, Scott founded and led the Australia & New Zealand operations of CCN (Cargo Community Network, a Singapore based air cargo technology provider), which became the prominent provider of data exchange and digitalisation solutions for air cargo operations in the region. CCN Australia & New Zealand was acquired by WiseTech Global in 2016, with Scott then taking on senior roles at WiseTech focusing on growing the broader global air cargo solutions portfolio. In these roles with WiseTech, Scott worked closely with global airlines in implementing connectivity programs, and contributed actively to air cargo industry working groups with the International Air Transport Association (IATA).

Mark Connell, CEO of Yojee:

“I’m thrilled to have Scott working with us. His many years of expertise and deep industry experience will be invaluable as we accelerate the delivery of our MOSAIC product to market. Scott’s track record in driving digital transformation in air cargo is second to none, and his involvement further strengthens our team as we continue delivering world-class solutions for the global freight forwarding and customs industries.”

Mr McCorquodale will receive equity in the Company as consideration for services provided over an initial period of 12 months in lieu of cash payments. The Company will grant 850,000 Performance Rights to Mr McCorquodale under its employee incentive plan which will vest on a quarterly basis subject to his continuing engagement as a consultant.

This announcement is authorised by the Board of Yojee Limited.
