Great Boulder Resources Limited ("Great Boulder" or the "Company") (ASX:GBR) is pleased to announce that it has successfully received binding commitments for a Placement to raise \$5 million (before costs) ("Strategic Placement"). The Strategic Placement will comprise the issue of approximately 74 million new fully paid ordinary shares (New Shares) in the Company at an issue price of 6.75 cents per share.

The Strategic Placement will occur in a single tranche with shares issued pursuant to the Company's existing placement capacity under ASX Listing Rules 7.1A (74,074,074 shares). Great Boulder's Managing Director, Andrew Paterson commented:

"This Strategic Placement is a further step change for the Company as leading global institutional investors acknowledge our significant growth potential and join as shareholders sharing the Great Boulder vision for success."

"This \$5 million placement was unsolicited, reflecting recognition of the Company's significant value proposition. Combined with the Company existing cash reserves (circa \$12 million) this positions us very well to deliver on our dual goals of defining one million ounces of gold as our short-term target"

and advance our early mining opportunity at Ironbark while we build our resource base for the next stage of growth through 2026 and beyond.”

Canaccord Genuity acted as Lead Manager and Bookrunner to the Strategic Placement. Salient Corporate acted as Corporate Advisor to the Strategic Placement.

This announcement has been approved by the Great Boulder Board.
