# Introduction

The following is a summary of the activities of Lord Resources Limited ("Lord" or "the Company") for the year ended 30 June 2025. It is recommended that this Annual Report be read in conjunction with any public announcements made by the Company during the year. In accordance with the continuous disclosure requirements, readers are referred to the announcements lodged with the Australian Securities Exchange regarding the activities of the Company.

Lord is an ASX-listed explorer focused on copper at the Ilgarari Project, with additional exposure to lithium (Horse Rocks, Jingjing) and gold (Gabyon, Jarama) in Western Australia.

# **Highlights**

- **Ilgarari Copper Project (E52/2274):** Earn-in to sulphide rights below 120m RL, with the ability to earn up to 80%. Completion consideration (cash and shares) was satisfied during FY25 and the earn-in has commenced.
- Targeting underpinned by new geophysics:
  - Detailed gravity survey defined gravity lows coincident with known mineralisation and dilation zones.
  - o Co-funded moving-loop electromagnetic (MLEM) program (~59.5 line-km) identified multiple conductors along strike and beneath historical workings.
- **Government co-funding secured:** Up to \$306,500 awarded under the WA Exploration Incentive Scheme (EIS), comprising up to \$216,000 for deep diamond drilling and up to \$90,500 for MLEM.
- **Heritage engagement:** Ngarlawangga Aboriginal Corporation (NAC) heritage survey completed across the Alac and Main zones, clearing access for drilling.
- **Horse Rocks Lithium (E15/1770):** Binding JV framework with Mineral Resources (ASX:MIN) providing staged, non-dilutive farm-in funding (Stage 1 earn-in to 40% for \$1.0m, with options to 70% and 85% under subsequent stages).
- Capital management: A 1-for-1 entitlement offer at \$0.018 raised \$0.569m in June 2025 (before costs). The shortfall, completed in July 2025, raised a further \$0.825m; total gross proceeds were approximately \$1.394m.
- **Subsequent events:** Maiden drilling at Ilgarari commenced in August 2025 (combination of reverse-circulation (RC) and diamond (DD); ~10 holes planned). On 17 September 2025, the Company reported a ~20m interval with visible chalcocite and native copper; assays are pending. Given early success, the Company plans to fast-track exploration at Ilgarari.
- **Board:** Mr Davide Bosio joined the Board on 23 July 2025. Mr Bosio brings extensive financial services, resources and listed-company experience.

Figure 1 Summary of projects

# **Projects Overview**

# **Ilgarari Copper Project - Western Australia**

(earning up to 80% of mineral rights below 120 m RL)

**Location & Geology:** Ilgarari lies ~110 km south of Newman within the Collier Basin (Bangemall Supergroup). Copper mineralisation is associated with the northeast-trending Ilgarari Fault. Historic drilling has outlined mineralisation over >4km of strike, with multiple high-grade sulphide intersections reported below the 120m RL.

**Earn-in:** Under an agreement executed in November 2024, Lord (via Tailflower Pty Ltd) may earn up to 80% of the sulphide rights (all minerals below 120m RL). Following due diligence, the upfront cash and share consideration were completed and the earn-in commenced during FY25.

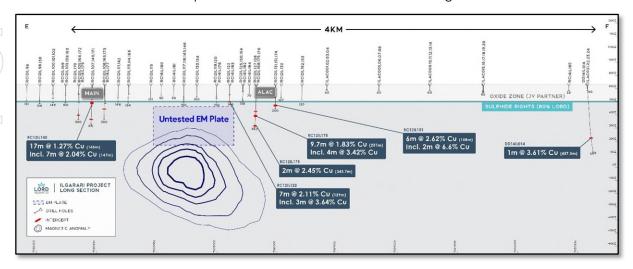

Figure 2 Long Section of EM plate modelling above the magnetic anomaly. Blue lines represent TMI

# FY25 Work Programs & Results:

- Reprocessing of historical IP and magnetic datasets highlighted a regionally significant magnetic feature between the Main and Alac zones.
- A detailed gravity survey (200m x 100m grid) mapped a prominent gravity low coincident with the Ilgarari Fault and areas of known mineralisation, with evidence of a dilation zone between Main and Alac.
- The co-funded MLEM program (~59.5 line-km across 34 lines) generated multiple conductors along strike, including plates beneath historical workings and conductors coincident with the top of the magnetic anomaly between Main and Alac.

**Subsequent to year end:** In August 2025, Lord commenced its maiden drill program (RC and DD) to test near-mine conductors and deeper coincident geophysical targets. On 17 September 2025, the Company reported a ~20m interval with visible chalcocite and native copper (assays pending).

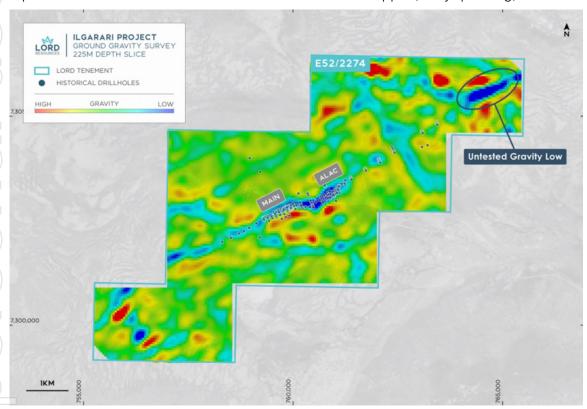

Figure 3 Ilgarari Project, Drillhole collars (black dots) over gravity imagery at 225m depth slice from surface. Blue colours are gravity low, red colours are gravity high

# Outlook (FY26 focus):

- Complete and assess RC and deep DD holes and integrate down-hole geophysics and petrophysics to refine 3D targeting along the Ilgarari Fault corridor.
- Advance northeast applications E52/4403 and E52/4405 to broaden the footprint along trend.

# **Horse Rocks Lithium Project (E15/1770)**

The Horse Rocks Project (23.8 km²) is located 20 km south of Coolgardie and ~8 km west of MinRes' Mt Marion Lithium Mine in the Eastern Goldfields.

JV & Strategy: A binding farm-in with Mineral Resources (MinRes) provides staged, non-dilutive funding:

- Stage 1: MinRes may earn 40% by funding \$1.0m;
- Stage 2: Option to 70% by funding \$5.0m;
- Stage 3: Option to 85% by sole-funding to Decision to Mine.

FY25 activity focused on exploration planning; expenditure continued to be financed under the farm-in framework.

# **Jingjing Lithium Project**

Located within the Eastern Goldfields Province of the Archaean Yilgarn Craton (~125 km south-east of Kalgoorlie; ~50 km north-east of Norseman), the tenements straddle the contact between greenstone and granitoids and are considered prospective for LCT-type pegmatites. The Bald Hill lithium-tantalum mine lies ~18.5 km north and Buldania ~19 km south of the project area.

**FY25:** Regional geochemistry confirmed multiple, large LCT anomalies across two licences. Work prepared for follow-up of ultrafine fraction (UFF) anomalies defined in FY24, with heritage and approvals progressed to facilitate drilling when priorities and market conditions permit.

# **Gabyon Gold Project**

The Gabyon Project (single granted exploration licence) is ~400 km north of Perth and 10 km west of Yalgoo in the Murchison Domain of the Yilgarn Craton. The regional Salt Creek Fault passes through the tenure; secondary shears and splays are considered potential fluid conduits.

**FY25:** Activities centred on desktop review and planning, with heritage survey preparations ahead of any ground-disturbing work. Gabyon remains a longer-dated gold opportunity within Lord's portfolio.

# Jarama Gold Project (E59/2501)

Covering 18 km², Jarama lies 330 km north-northeast of Perth and 40 km west of Paynes Find, at the northern end of the Ninghan Fold Belt within the Yalgoo-Singleton Greenstone Belt (Murchison Domain, Yilgarn Craton).

A review of Lord's 2022 drilling identified 0.59 g/t Au (35-36 m) at end-of-hole in 22JRC008, remaining open at depth. FY25 planning prioritised follow-up drilling to test depth and strike extensions when resourcing allows.

# **Cambridge Nickel-PGE Project**

No material activity was undertaken in FY25. Given limited near-term potential and a focus on copper and lithium, the Cambridge tenements were relinquished.

# **New Opportunities**

The Company continues to evaluate additional opportunities in high-demand metals (including copper and gold) in tier-one jurisdictions.

# **Corporate**

# **Capital Raisings**

In May 2025, Lord announced a non-renounceable 1-for-1 entitlement offer at \$0.018 per new share to raise up to \$1,393,668 (before costs), via a Prospectus lodged with ASIC on 29 May 2025.

In June 2025, the Company received applications for 31,606,926 new shares, totalling \$568,924. The resulting shortfall of 45,819,087 shares was successfully placed in July 2025, raising a further \$824,744 (before costs).

# **Board & Management**

In July 2025, Lord appointed Mr Davide Bosio as Non-Executive Director. Mr Bosio is an experienced company director with significant financial services, resources and ASX experience, and currently serves as a non-executive director at Black Cat Syndicate Limited (ASX: BC8) and Yojee Ltd (ASX: YOJ).

The Company also advised that Mr Christopher Swallow resigned as Non-Executive Director to focus on his role as Managing Director of DeSoto Resources Limited.

In July 2025, Mr Andrew Taylor (appointed in August 2024) resigned as Chief Executive Officer.

# **Competent Person's Statement**

The information in this report that relates to exploration results is based on and fairly represents information compiled by Ms Georgina Clark, a Competent Person who is a Member of the Australian Institute of Geoscientists. Ms Clark is a full time employee to the Company. Ms Clark has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves' ("JORC Code"). Ms Clark consents to the inclusion in the report of the matters based on her information in the form and context in which it appears.

# **Information relating to Previous Disclosure**

The technical and financial information in this report that relates to the Projects has been previously reported by the Company in compliance with JORC 2012 in various releases as follows:

| <ul> <li>30 July 2024</li> </ul>     | Quarterly Activities/Appendix 5B Cash Flow Report            |

The Company confirms that it is not aware of any new information or data that materially affects the information included in these earlier market announcements. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcements.

Statements regarding Lord's plans with respect to its mineral properties are forward-looking statements. There can be no assurance that Lord's plans for development of its mineral properties will proceed as currently expected. There can also be no assurance that Lord will be able to confirm the presence of mineral deposits, that any mineralisation will prove to be economic or that a mine will successfully be developed on any of Lord's mineral properties.

The Directors of Lord Resources Limited submit herewith the annual financial report of Lord Resources Limited ("Company") and its controlled entities ("Group" or "Consolidated Entity") for the year ended 30 June 2025 and the independent auditor's report thereon. In order to comply with the provisions of the Corporations Act 2001, the Directors report as follows:

### **DIRECTORS**

The names and particulars of the directors of the Company during or since the end of the financial year are as follows.

Directors were in office for the entire period unless otherwise stated.

# Paul Lloyd, BBus, CA

Independent Non-Executive Chairman

Appointed 25 February 2021

Mr Lloyd is a Chartered Accountant with over 35 years commercial experience. Mr Lloyd operates his own corporate consulting business, specialising in corporate, financial and management advisory services. He is the Managing Director of Arizona Lithium Limited (AZL) and has been responsible for a number of IPOs, reverse takeovers, project acquisitions and capital raisings for ASX listed public companies during his career.

During the past three years he has served as a director of the following listed companies:

| Company                  | Date appointed   | Date ceased |  |
|--------------------------|------------------|-------------|--|
| Arizona Lithium Limited  | 7 September 2018 | -           |  |
| BPM Minerals Limited     | 5 October 2020   | -           |  |
| Diablo Resources Limited | 1 April 2021     | -           |  |

# Barnaby Egerton-Warburton, BEcon

Managing Director to 31 July 2024, Non-Executive Director from 1 August 2024

Appointed 4 March 2015

Mr Egerton-Warburton has over 25 years' experience in trading, investment banking and capital markets, holding senior roles with JP Morgan, BNP Equities and Prudential Securities in New York, Sydney and Hong Kong. He has served as Managing Director and Non-Executive Director across the investment banking, technology, energy and resources sectors. He holds a degree in Economics and is a graduate of the Australian Institute of Company Directors.

During the past three years he has served as a director of the following listed companies:

| Company Date ap  | ppointed Date ceased    |
|--|-------------------------|
| Arizona Lithium Limited 16 May                                 | 2019 -                  |
| Locality Planning Energy Holdings Limited 13 Marc              | ch 2020 6 February 2024 |
| Diablo Resources Limited 1 April 2                             | 2021 -                  |
| Pantera Minerals Limited 23 Dece                               | ember 2020 -            |
| NSX Limited 12 Apri  | l 2022 -                |
| Southern Cross Payments Ltd (formerly Isignthis Ltd) 1 April 2 | 2009 19 August 2022     |

### **Davide Bosio**

Independent Non-Executive Director

Appointed 23 July 2025

Mr Bosio is an experienced company director with significant financial services, resources and listed company experience, currently serving as a non-executive director at gold producer, Black Cat Syndicate Limited (ASX: BC8) and Yojee Ltd (ASX: YOJ), a technology company focussed on transport management and freight forwarding.

Previous listed roles include having served on the board of De Grey Mining Ltd (ASX: DEG) as well as Spectrum Metals Ltd which was ultimately acquired by Ramelius Resources Ltd (ASX: RMS). Most recently, Davide served as the WA State Manager and Director of Corporate Finance at investment and wealth management firm Shaw and Partners ("Shaw") having overseen the sale of the historic WA broking firm, DJ Carmichael Pty Limited to Shaw in 2019.

During the past three years he has served as a director of the following listed companies:

| Company  | Date appointed  | Date ceased     |
|--|-----------------|-----------------|
| Catalina Resources Limited (formerly Shree Minerals Limited) | 4 October 2018  | 19 January 2023 |
| Caeneus Minerals Limited                                     | 24 May 2021     | 6 December 2022 |
| Yojee Limited  | 5 February 2024 | -               |
| Black Cat Syndicate Limited                                  | 1 October 2024  | -               |

# **Christopher Swallow**

Independent Non-Executive Director

Appointed 28 April 2021, resigned 23 July 2025

Mr Swallow has more than 15 years' experience in executive roles spanning the resource, start-up, marketing and government sectors having worked across Australia, Asia and Africa.

Previously he worked in an operational capacity as the Corporate Development Officer for Guinea-focused gold explorer Predictive Discovery Limited and Minbos Resources Limited and he has worked in Strategic Communications as an Advisor to numerous ASX-listed Australian, North American and West African mineral explorers, covering a range of commodities including gold, nickel, zinc and copper.

During the past three years he has served as a director of the following listed companies:

| Company                  | Date appointed | Date ceased |
|--------------------------|----------------|-------------|
| DeSoto Resources Limited | 1 April 2022   | -           |

# **COMPANY SECRETARY**

Paul Jurman, BCom, CPA Appointed 28 April 2021

Mr Jurman is a Certified Practising Accountant with over 20 years' experience and has been involved with a diverse range of Australian public listed companies in company secretarial and financial roles. He is also company secretary of Tempest Minerals Limited, Carnavale Resources Limited, Desert Metals Limited and Platina Resources Limited.

## **Directors' interests**

The relevant interests in the shares and options of the Company at the date of this report are as follows:

| Name                | Ordinary shares | Unlisted<br>Options<br>Ex \$0.10,<br>expiry<br>15/06/27 | Unlisted<br>Options<br>Ex \$0.25,<br>expiry<br>31/01/27 | Unlisted<br>Options<br>Ex \$0.036,<br>expiry<br>30/06/30 | Unlisted<br>Options<br>Ex \$0.03,<br>expiry<br>15/07/30 |
|---------------------|-----------------|---|---|--|---|
| P Lloyd             | 2,800,000       | 3,200,000   | 50,000  | -  | -   |
| B Egerton-Warburton | 5,770,663       | 4,000,000   | 647,331   | -  | -   |
| D Bosio             | 12,000,000      | 3,000,000   | -   | 4,000,000  | 1,000,000   |

No director has an interest, whether directly or indirectly, in a contract or proposed contract with the Group.

The Company advises that it has resolved to issue 8,000,000 Options exercisable at \$0.036 each, expiring on 30 June 2030 to current directors, Mr Paul Lloyd (4,000,000 Options) and Mr Barnaby Egerton-Warburton (4,000,000 Options), subject to shareholder approval at the next general meeting which will serve to provide an incentive and reward for future services in a manner that aligns the interests of the Directors with the interests of all Shareholders.

## **PRINCIPAL ACTIVITIES**

The principal activity of the Group during the course of the year was acquiring and exploring mineral interests, prospective for precious metals and energy.

# **RESULTS AND DIVIDENDS**

The consolidated loss after tax for the year ended 30 June 2025 was \$1,738,283 (2024: \$2,131,840). No dividends were paid during the year and the Directors do not recommend payment of a dividend.

### **LOSS PER SHARE**

Basic loss per share for the year was 2.3 cents (30 June 2024: 4.7 cents).

# **OPERATING AND FINANCIAL REVIEW / MATERIAL BUSINESS RISKS**

The Group is currently engaged in mineral exploration for metals in Australia. A review of the Group's operations, including information on exploration activity and results thereof, financial position, strategies and projects of the Group during the year ended 30 June 2025 is provided in this Annual Report and, in particular, in the "Review of Operations" section immediately preceding this Directors' Report. The Group's financial position, financial performance and use of funds information for the financial year is provided in the financial statements that follow this Directors' Report.

As an exploration entity, the Group has limited operating revenue or earnings and consequently the Group's performance cannot be gauged by reference to those measures. Instead, the Directors consider the Group's performance based on the success of exploration activity, acquisition of additional prospective mineral interests, joint venture arrangements over mineral interests and, in general, the value added to the Group's mineral portfolio during the course of the financial year.

Whilst performance can be gauged by reference to market capitalisation, that measure is also subject to numerous external factors. These external factors can be specific to the Group, generic to the mining industry and generic to the stock market as a whole and the Board and management would only be able to control a small number of these factors.

The Group's business strategy for the financial year ahead and, in the foreseeable future, is to continue exploration activity on the Group's existing mineral projects, (including through joint venture arrangements where appropriate), identify and assess new mineral project opportunities throughout the world and review development strategies where individual projects have reached a stage that allows for such an assessment. Due to the inherent risky nature of the Group's activities, the Directors are unable to comment on the likely results or success of these strategies.

The Group's activities are also subject to numerous risks, mostly outside the Board's and management's control. These risks can be specific to the Group, generic to the mining industry and generic to the stock market as a whole. The key risks, expressed in summary form, affecting the Group and its future performance include but are not limited to:

- Geological and technical risk posed to exploration and commercial exploitation success;
- Sovereign risk, change in government policy, change in mining and fiscal legislation;
- Prevention of access by reason of political or civil unrest, outbreak of hostilities, inability to obtain regulatory or landowner consents or approvals, or native title issues;
- Force majeure events;
- Change in metal market conditions;
- Mineral title tenure and renewal risks; and
- Capital requirement and lack of future funding.

This is not an exhaustive list of risks faced by the Group or an investment in it. There are other risks generic to the stock market and the world economy as a whole and other risks generic to the mining industry, all of which can impact on the Group.

# LIKELY DEVELOPMENTS AND EXPECTED RESULTS

The Company's main objective is to create Shareholder wealth via the discovery of an economic mineral deposit via systematic exploration of the Company's Projects

The Directors are unable to comment on the likely results from the Company's planned exploration activities due to the speculative nature of such activities.

# **SIGNIFICANT CHANGES IN STATE OF AFFAIRS**

There has not been any significant changes in the state of affairs of the Company and its controlled entities during the financial year, other than as noted in this Annual Report.

### SUBSEQUENT EVENTS

No matter or circumstance has arisen which has significantly affected, or may significantly affect, the operations of the Group, the results of those operations or the state of affairs of the Group in subsequent financial years other than the matters referred to below.

- In July 2025, the Company issued 150,000 ordinary shares on vesting of performance rights.
- In July 2025, the Company announced completion of the placement of the Shortfall arising from the non-renounceable Entitlement offer, issuing 45,819,087 ordinary shares at \$0.018 to raise \$824,744.
- 708 Capital Pty Ltd ('708 Capital') was appointed as Lead Manager for the Shortfall Offer. For managing the Shortfall, 708 Capital (and its nominees) subscribed for 2.5 million options exercisable at \$0.03, expiring on or before 15 July 2030 at an issue price of \$0.00001.
- In July 2025, the Company appointed Mr Davide Bosio as a director and issued him 4,000,000 options exercisable at \$0.036 each, expiring on 30 June 2030 and 3,000,000 options exercisable at \$0.10 each, expiring on 15 June 2027. Mr Chris Swallow resigned as a director and Mr Andrew Taylor resigned as Chief Executive Officer. Mr Taylor's 1,000,000 performance rights lapsed.
- In July 2025, the Company issued 1,900,000 options, exercisable at \$0.036 each, expiring on 30 June 2030 to technical staff and consultants.
- In September 2025, the Company announced it had received firm commitments to raise \$814,000 and proposed to undertake a non-renounceable entitlement issue to eligible Lord shareholders on the basis of one share for every four shares held at the record date at an issue price of \$0.037 per share to raise a further \$1.618 million.

# **ENVIRONMENTAL ISSUES**

The Group is aware of its environmental obligations with regards to its exploration activities and ensures that it complies with all regulations when carrying out exploration work.

### **DIRECTORS' MEETINGS**

The number of meetings of the Directors and the number of meetings attended by each Director during the year ended 30 June 2025 were:

| Name                | Eligible to attend | Attended |
|---------------------|--------------------|----------|
| P Lloyd             | 5                  | 5        |
| B Egerton-Warburton | 5                  | 5        |
| C Swallow           | 5                  | 5        |

There were 5 director meetings held during the year. However, matters of Board business have also been resolved by circular resolutions of Directors, which are a record of decisions made at a number of informal meetings of the Directors held to control, implement and monitor the Group's activities throughout the period.

At present, the Company does not have any formally constituted committees of the Board. The Directors consider that the Group is not of a size nor are its affairs of such complexity as to justify the formation of special committees.

### **REMUNERATION REPORT - AUDITED**

This report outlays the remuneration arrangements in place for the Key Management Personnel (as defined under section 300A of the Corporations Act 2001) of Lord Resources Limited.

The following were Key Management Personnel (KMP) of the Company during or since the end of the financial period.

| Directors           | Position   |
|---------------------|--|
| P Lloyd             | Non-Executive Chairman   |
| B Egerton-Warburton | Managing Director to 31 July 2024, Non-Executive Director from 1 August 2024 |
| C Swallow           | Non-Executive Director to 23 July 2025                                       |
| D Bosio             | Non-Executive Director from 23 July 2025                                     |

### Other KMP

The term 'Other KMP' is used in this remuneration report to refer to the following persons. Except as noted, the named persons held their current position for the whole of the financial year and since the end of the financial year:

| Other | <b>KMF</b> |
|-------|------------|
|-------|------------|

A Taylor Chief Executive Officer Appointed 1 August 2024, resigned 30 July 2025

There have been no other changes of Key Management Personnel after the reporting date and up to the date the financial report was authorised for issue.

# Remuneration policy

The remuneration policy of Lord Resources Limited has been designed to align directors' objectives with shareholder and business objectives by providing a fixed remuneration component which is assessed on an annual basis in line with market rates. The Board of Lord Resources Limited believes the remuneration policy to be appropriate and effective in its ability to attract and retain the best directors to run and manage the Company.

The Board's policy for determining the nature and amount of remuneration for Board members is as follows:

- The remuneration policy and setting the terms and conditions for the Executive Directors and other senior staff members is developed and approved by the Board based on local and international trends among comparative companies and industry generally. It examines terms and conditions for employee incentive schemes, benefit plans and share plans. Independent advice is obtained when considered necessary to confirm that executive remuneration is in line with market practice and is reasonable within Australian executive reward practices.
- All executives receive a base salary (which is based on factors such as length of service and experience) and superannuation.
- The Group is an exploration entity and is, therefore, speculative in terms of performance. Consistent with attracting and retaining talented executives, directors and senior executives are paid market rates associated with individuals in similar positions within the same industry. Options and performance incentives may be issued particularly as the Group moves from an exploration to a producing entity and key performance indicators such as profit and production and reserves growth can be used as measurements for assessing executive performance.
- The Board policy is to remunerate non-executive directors at market rates for comparable companies for time, commitment and responsibilities. The Constitution and the ASX Listing Rules specify that the aggregate remuneration of Non-Executive Directors shall be determined from time to time by a general meeting, currently set at \$350,000. An amount not exceeding the amount determined is then divided between the directors as agreed. Fees for non-executive directors are not linked to the performance of the Group. However, to align Directors' interests with shareholder interests, the directors are encouraged to hold shares in the Company.
- Executive Directors' remuneration and other terms of employment are reviewed annually by the nonexecutive directors having regard to performance against goals set at the start of the year, relative comparative information and independent expert advice.

Except as detailed in the Remuneration Report, no director has received or become entitled to receive, during or since the financial period, a benefit because of a contract made by the Group or a related body corporate with a director, a firm of which a director is a member or an entity in which a director has a substantial financial interest. This statement excludes a benefit included in the aggregate amount of emoluments received or due and receivable by directors and shown in the Remuneration Report, prepared in accordance with the Corporations regulations, or the fixed salary of a full time employee of the Group.

# Relationship between remuneration policy and Group performance

The remuneration policy has been tailored to increase goal congruence between shareholders, directors and key management personnel. The Group is in the early exploration phase of its operations and due consideration is made of developing long-term shareholder value. From time to time, this is facilitated through the issue of options and performance rights to encourage the alignment of personal and shareholder interest. The Company believes this policy will be effective in increasing shareholder wealth.

# Performance on shareholder wealth

In considering the Group's performance and benefits for shareholder wealth, the Board has referred to the following indices in respect of the current and the previous three financial years:

|                                | 2025        | 2024        | 2023        | 2022        |
|--------------------------------|-------------|-------------|-------------|-------------|
| Basic (loss) per share (cents) | (2.3)       | (4.7)       | (6.2)       | (7.7)       |
| Dividends (cents)              | -           | -           | -           | -           |
| Net (loss) for the year (\$)   | (1,738,283) | (2,131,840) | (2,417,704) | (1,388,503) |
| Share price (\$)               | 0.017       | 0.035       | 0.09        | 0.22        |

# Remuneration Structure

In accordance with best practice corporate governance, the structure of remuneration for Non-Executive Directors and Executive Directors is separate and distinct.

# **Details of Remuneration**

Details of the remuneration of the Directors and other Key Management Personnel of the Company are set out in the following table. Detail of the employment contracts with the former Managing Director, Mr Egerton-Warburton and former CEO, Mr Andrew Taylor are as follows:

| Name                          | Term of Agreement  | Base Salary including<br>Superannuation |
|-------------------------------|--|---|
| Barnaby Egerton-<br>Warburton | Commenced 7 April 2022, ceased on 31 July 2024 upon appointment of new CEO and reverted to Non-Executive Director. | \$216,450                               |
| Andrew Taylor                 | Commenced 1 August 2024, ceased on 30 July 2025  | \$245,300                               |

The employment contract otherwise contains provisions considered standard for an agreement of its nature (including representations and warranties and confidentiality provisions).

Voting and comments made at the Company's 2024 Annual General Meeting (AGM) - At the 2024 AGM, 94.78% of the votes received supported the adoption of the remuneration report for the year ended 30 June 2024. The Company did not receive any specific feedback at the AGM regarding its remuneration practices.

# **Remuneration of KMP:**

Remuneration for the year ended 30 June 2025

|                        | Short-term<br>benefits | Post-employment | Equity-based compensation | Total   | Proportion related to performance |

# **SHARE OPTIONS AND PERFORMANCE RIGHTS**

As at the date of this report, there are 19,438,560 Listed Options, 60,600,000 Unlisted Options and 200,000 Performance Rights on issue.

|                    | Number     | Exercise Price (cents) | Expiry Date     |
|--------------------|------------|------------------------|-----------------|
| Listed Options     | 19,438,560 | 25                     | 31 January 2027 |
| Unlisted Options   | 12,000,000 | 25                     | 28 March 2027   |
| Unlisted Options   | 35,200,000 | 10                     | 15 June 2027    |
| Unlisted Options   | 5,000,000  | 12                     | 15 June 2027    |
| Unlisted Options   | 2,500,000  | 3                      | 15 July 2030    |
| Unlisted Options   | 5,900,000  | 3.6                    | 30 June 2030    |
| Performance Rights | 200.000    | <del>-</del>           | 30 June 2027    |

These options and performance rights do not entitle the holder to participate in any share issue of the Company or any other body corporate.

During the financial year, the Company issued issued CEO, Mr Andrew Taylor 1,000,000 options exercisable at \$0.10 and expiring on 15 June 2027, following completion of his probation period in November 2024.

800,000 options exercisable at \$0.25 and 1,850,000 options exercisable at \$0.30 expired unexercised during the year ended 30 June 2025.

Options issued after 30 June 2025 and up to the date of this report are:

- 2,500,000 options exercisable at \$0.03, expiring on or before 15 July 2030 at an issue price of \$0.00001 were issued to nominees of 708 Capital Pty Ltd as part of its compensation for arranging placement of the shortfall arising from the pro-rata non-renounceable Entitlement offer offered on the basis of one (1) new fully paid ordinary share in the capital of the Company for every one (1) existing share held at an issue price of \$0.018 per New Share.
- In July 2025, the Company announced the appointment of Davide Bosio as a Non-Executive Director and as part of his appointment issued him
  - 4,000,000 Options exercisable at \$0.036 each, expiring on 30 June 2030; and
  - 3,000,000 Options exercisable at \$0.10 each, expiring on 15 June 2027.
- In July 2025, the Company issued 1,900,000 options, exercisable at \$0.036 each, expiring on 30 June 2030 to technical staff and consultants.

During the financial year, there were no shares issued as a result of the exercise of options.

In November 2024, the Company issued former Chief Executive Officer (CEO), Mr Andrew Taylor a total of 1,000,000 performance rights, following completion of his probation period in November 2024, with an expiry date of 6 November 2026. These performance rights lapsed in July 2025 upon Mr Taylor's resignation. No performance rights have been issued since year end.

In July 2024, the Company issued 100,000 ordinary shares on vesting of performance rights and a further 150,000 ordinary shares were issued in July 2025 on vesting of performance rights.

# INDEMNIFICATION AND INSURANCE OF DIRECTORS AND OFFICERS

In accordance with the constitution, except as may be prohibited by the Corporations Act 2001, every officer or agent of the Group shall be indemnified out of the property of the Group against any liability incurred by him in his capacity as Officer or agent of the Group or any related corporation in respect of any act or omission whatsoever and howsoever occurring or in defending any proceedings, whether civil or criminal.

During the period, the Company agreed to pay an annual insurance premium of \$14,819 (2024: \$12,298) in respect of directors' and officers' liability and legal expenses' insurance contracts, for directors, officers and employees of the Company. The insurance premium relates to:

- costs and expenses incurred by the relevant officers in defending proceedings, whether civil or criminal and whatever the outcome.
- other liabilities that may arise from their position, with the exception of conduct involving a wilful breach of duty.

# **NON - AUDIT SERVICES**

No non-audit services were provided during the year by the independent auditors of the Company.

### **AUDITOR'S INDEPENDENCE DECLARATION**

The lead auditor's independence declaration for the year ended 30 June 2025 has been received and forms part of the directors' report and can be found on the following page of the annual report.

# PROCEEDINGS ON BEHALF OF THE COMPANY

No person has applied to the Court to bring proceedings on behalf of the Company or intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or any part of those proceedings.

The Company was not a party to any such proceedings during the year.

# **CORPORATE GOVERNANCE STATEMENT**

The Board of Directors of the Company is responsible for the corporate governance of the Company and guides and monitors the business and affairs on behalf of the shareholders by whom they are elected and to whom they are accountable. The Company's governance approach aims to achieve exploration, development and financial success while meeting stakeholders' expectations of sound corporate governance practices by proactively determining and adopting the most appropriate corporate governance arrangements.

ASX Listing Rule 4.10.3 requires listed companies to disclose the extent to which they have followed the recommendations set by the ASX Corporate Governance Council during the reporting period. The Company has disclosed this information on its website at www.lordresources.com. The Corporate Governance Statement is current as at 30 June 2025 and has been approved by the Board of Directors.

The Company's website at www.lordresources.com contains a corporate governance section that includes copies of the Company's corporate governance policies.

Signed in accordance with a resolution of the directors made pursuant to s 298(2) of the Corporations Act 2001.

On behalf of the Directors.

**PAUL LLOYD** 

Chairman

Dated this 26<sup>th</sup> day of September 2025.

Perth, Western Australia

# **AUDITOR'S INDEPENDENCE DECLARATION**

As lead auditor for the audit of the consolidated financial report of Lord Resources Limited for the year ended 30 June 2025, I declare that to the best of my knowledge and belief, there have been no contraventions of:

- a) the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- b) any applicable code of professional conduct in relation to the audit.

Perth, Western Australia 26 September 2025 L Di Giallonardo Partner

# 1. CORPORATE INFORMATION

Lord Resources Limited is a company limited by shares, incorporated in Australia. The Company's shares are publicly traded on the Australian Securities Exchange.

The nature of the operations and principal activity of the Group is acquiring and exploring mineral interests, prospective for precious metals and energy.

# 2. SUMMARY OF MATERIAL ACCOUNTING POLICIES

# (a) Basis of preparation

The financial statements are general purpose financial statements, which have been prepared in accordance with the requirements of the Corporations Act 2001, Accounting Standards and Interpretations and complies with other requirements of the law. The financial statements have also been prepared on a historical cost basis. Cost is based on the fair values of the consideration given in exchange for assets. For the purpose of preparing the consolidated financial statements, the Group is a for-profit entity.

The financial report is presented in whole Australian dollars.

The accounting policies detailed below have been consistently applied to all of the years presented unless otherwise stated. The financial statements are for the Group consisting of Lord Resources Limited and its subsidiaries.

# **Going Concern**

The financial statements have been prepared on a going concern basis, which contemplates the continuity of normal business activity and the commercial realisation of the Group's assets and the settlement of liabilities in the normal course of business. The Group has incurred a loss for the period after tax of \$1,738,283 (2024: \$2,131,840) and experienced net operating and investing cash outflows of \$1,400,591. As at 30 June 2025, the Group has net current assets of \$730,059.

The Group's ability to continue as a going concern will depend upon the Group being able to manage its liquidity requirement and by taking some or all of the following actions:

- raising additional capital (refer Note 25 Events subsequent to balance date);
- successful exploration and subsequent exploitation of the Group's tenements;
- reducing its working capital expenditure; and
- disposing of non-core projects.

After taking into account the current financial position of the Group the directors have a reasonable expectation that the Group will have adequate resources to fund its future operational requirements and for these reasons, they continue to adopt the going concern basis in preparing the financial report.

Should the Group be unable to raise the funds required via any of the above means, there exists a material uncertainty that may cast significant doubt on the Group's ability to continue as a going concern, in which case it may be required to realise its assets and extinguish its liabilities other than in the ordinary course of business, and at amounts that differ from those stated in the financial statements. This financial report does not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts or classification of liabilities and appropriate disclosures that may be necessary should the Group be unable to continue as a going concern.

# (b) New, revised or amending Accounting Standards and Interpretations adopted

Standards and Interpretations applicable to 30 June 2025

In the year ended 30 June 2025, the Directors have reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to the Group and effective for the current annual reporting period. As a result of this review, the Directors have determined that there is no material impact of the Standards and Interpretations on the Group, and, therefore, no change is necessary to Group accounting policies.

Standards and Interpretations on issue not yet effective

The Directors have also reviewed all Standards and Interpretations that have been issued but are not yet effective for the year ended 30 June 2025. As a result of this review the Directors have determined that there is no material impact of the Standards and Interpretations on issue not yet effective on the Group and, therefore, no change is necessary to Group accounting policies.

# 2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

# (c) Statement of compliance

The financial statements of Lord Resources Limited (the Company) for the year ended 30 June 2025 was authorised for issue on 26 September 2025.

The financial report complies with Australian Accounting Standards, which include Australian equivalents to International Financial Reporting Standards ('AIFRS'). Compliance with AIFRS ensures that the financial report, comprising the financial statements and notes thereto, complies with International Financial Reporting Standards ('IFRS').

### (d) Basis of consolidation

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Lord Resources Limited ('Company' or 'parent entity') as at 30 June 2025 and the results of all subsidiaries for the year then ended. Lord Resources Limited and its subsidiaries are referred to in this financial report as the Group or Consolidated Entity.

The financial statements of the subsidiaries are prepared for the same reporting period as the parent company, using consistent accounting policies.

In preparing the consolidated financial statements, all intercompany balances and transactions, income and expenses and profit and losses resulting from intra-group transactions have been eliminated in full

Subsidiaries are fully consolidated from the date on which control is transferred to the Group and cease to be consolidated from the date on which control is transferred out of the Group. Control exists where the company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing when the Group controls another entity.

The acquisition of subsidiaries has been accounted for using the purchase method of accounting. The purchase method of accounting involves allocating the cost of the business combination to the fair value of the assets acquired and the liabilities and contingent liabilities assumed at the date of acquisition. Accordingly, the consolidated financial statements include the results of subsidiaries for the period from their acquisition.

# (e) Income tax

Deferred income tax is provided on all temporary differences at the balance date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognised for all taxable temporary differences:

- except where the deferred income tax liability arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither that accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, except where the timing of the reversal of the temporary differences will not reverse in the foreseeable future.

Deferred income tax assets are recognised for all deductible temporary differences, carry-forward of unused tax assets and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry-forward of unused tax assets and unused tax losses can be utilised:

- except where the deferred income tax asset relating to the deductible temporary difference
  arises from the initial recognition of an asset or liability in a transaction that is not a business
  combination and, at the time of the transaction, affects neither the accounting profit nor taxable
  profit or loss; and
- in respect of deductible temporary differences with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred income tax assets is reviewed at each balance date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

# 2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

# (e) Income tax - continued

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance date.

Income taxes relating to items recognised directly in equity are recognised in equity and not in the statement of comprehensive income.

# (f) Exploration and evaluation expenditure

Exploration costs are expensed as incurred. Acquisition costs are accumulated in respect of each separate area of interest. Acquisition costs are carried forward where right of tenure of the area of interest is current and they are expected to be recouped through the sale or successful development and exploitation of the area of interest, or where exploration and evaluation activities in the area of interest have not yet reached a stage that permits a reasonable assessment of the existence of economically recoverable reserves. When an area of interest is abandoned or the Directors decide that it is not commercial, any accumulated acquisition costs in respect of that area are written off in the financial period in which that decision is made, to the extent that they will not be recovered in the future. Amortisation is not charged on acquisition costs carried forward in respect of areas of interest in the development phase until production commences.

Exploration and evaluation assets are assessed for impairment when facts and circumstances suggest that the carrying amount of an exploration and evaluation asset may exceed its recoverable amount. The recoverable amount of the exploration and evaluation asset (for the cash generating unit(s) to which it has been allocated being no larger than the relevant area of interest) is estimated to determine the extent of the impairment loss (if any). Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but only to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in previous years.

Where a decision has been made to proceed with development in respect of a particular area of interest, the relevant exploration and evaluation asset is tested for impairment and the balance is then reclassified to development.

### (g) Revenue

Revenue is recognised to the extent that control of the goods or services has passed, and it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised:

# (h) Cash and cash equivalents

Cash and short-term deposits in the statement of financial position comprise cash at bank and in hand and short-term deposits with an original maturity of three months or less.

For the purposes of the statement of cash flows, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts.

# (i) Employee benefits

Provision is made for the Group's liability for employee benefits arising from services rendered by employees to balance date (where applicable). Employee benefits expected to be settled within one year together with entitlements arising from wages and salaries, annual leave and sick leave which will be settled after one year, have been measured at the amounts expected to be paid when the liability is settled, plus related on-costs. Other employee benefits payable later than one year have been measured at the present value of the estimated future cash outflows to be made for those benefits.

Contributions are made by the Group to employee superannuation funds and are charged as expenses when incurred (where applicable).

### 2. **SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)**

### (i) Impairment of assets

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired and makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of its fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets and the asset's value in use cannot be estimated to be close to its fair value. In such cases the asset is tested for impairment as part of the cash-generating unit to which it belongs. When the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset or cash-generating unit is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses relating to continuing operations are recognised in those expense categories consistent with the function of the impaired asset unless the asset is carried at revalued amount (in which case the impairment loss is treated as a revaluation decrease).

An assessment is also made at each reporting date as to whether any previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in profit or loss unless the asset is carried at revalued amount, in which case the reversal is treated as a revaluation increase. After such a reversal the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

# AUD BEN IBUOSIED IO-Earnings / (loss) per share

Basic earnings / (loss) per share is calculated as net profit / (loss) attributable to members of the parent, adjusted to exclude any costs of servicing equity (other than dividends) and preference share dividends, divided by the weighted average number of ordinary shares, adjusted for any bonus element.

# Financial Instruments

Investments and other financial assets are initially measured at fair value. Transaction costs are included as part of the initial measurement, except for financial assets at fair value through profit or loss. Such assets are subsequently measured at either amortised cost or fair value depending on their classification. Classification is determined based on both the business model within which such assets are held and the contractual cash flow characteristics of the financial asset unless an accounting mismatch is being avoided.

Financial assets are measured at amortised cost if they are held within a business model whose objective is to hold assets in order to collect contractual cash flows which arise on specified dates and are solely principal and interest. All other financial instrument assets are classified and measured at fair value through profit or loss unless the entity makes an irrevocable election on initial recognition to present gains and losses on equity instruments (that are not held-for-trading) in other comprehensive income. For financial liabilities, the portion of the change in fair value that relates to the Group's credit risk is presented in other comprehensive income.

Financial assets are derecognised when the rights to receive cash flows have expired or have been transferred and the consolidated entity has transferred substantially all the risks and rewards of ownership. When there is no reasonable expectation of recovering part or all of a financial asset, its carrying value is written off.

# 2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

# (I) Financial Instruments - continued

Financial assets at fair value through other comprehensive income

Financial assets at fair value through other comprehensive income include equity investments which the Group intends to hold for the foreseeable future and has irrevocably elected to classify them as such upon initial recognition.

Impairment of financial assets

The Group recognises a loss allowance for expected credit losses on financial assets which are either measured at amortised cost or fair value through other comprehensive income. The measurement of the loss allowance depends upon the consolidated entity's assessment at the end of each reporting period as to whether the financial instrument's credit risk has increased significantly since initial recognition, based on reasonable and supportable information that is available, without undue cost or effort to obtain.

Where there has not been a significant increase in exposure to credit risk since initial recognition, a 12-month expected credit loss allowance is estimated. This represents a portion of the asset's lifetime expected credit losses that is attributable to a default event that is possible within the next 12 months. Where a financial asset has become credit impaired or where it is determined that credit risk has increased significantly, the loss allowance is based on the asset's lifetime expected credit losses. The amount of expected credit loss recognised is measured on the basis of the probability weighted present value of anticipated cash shortfalls over the life of the instrument discounted at the original effective interest rate.

For financial assets mandatorily measured at fair value through other comprehensive income, the loss allowance is recognised in other comprehensive income with a corresponding expense through profit or loss. In all other cases, the loss allowance reduces the asset's carrying value with a corresponding expense through profit or loss.

# (m) Plant and equipment

Plant and equipment is stated at cost less accumulated depreciation and any accumulated impairment losses.

The assets' residual values, useful lives and amortisation methods are reviewed, and adjusted if appropriate, at each financial year end. Depreciation is calculated on a diminishing value basis over the estimated useful life of the assets as follows:

Plant and equipment - 4 years

# (n) Trade and other payables

Trade payables and other payables are carried at cost and represent liabilities for goods and services provided to the Group prior to the end of the financial year that are unpaid and arise when the Group becomes obliged to make future payments in respect of the purchase of these goods and services.

# (o) Issued capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

# (p) Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors of Lord Resources Limited.

# 2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

# (q) Share based payments

For equity-settled share-based payment transactions, the Group shall measure the goods or services received, and the corresponding increase in equity, directly, at the fair value of the goods or services received, unless that fair value cannot be estimated reliably. If the Group cannot estimate reliably the fair value of the goods or services received, the Group shall measure their value, and the corresponding increase in equity, indirectly, by reference to 1 the fair value of the equity instruments granted.

The Group, from time to time, provides compensation benefits to employees (including directors) and consultants of the Group in the form of share-based payment transactions, whereby employees and consultants render services in exchange for shares or rights over shares ('equity-settled transactions').

The cost of these equity-settled transactions is measured by reference to the fair value at the date at which they are granted. The fair value is determined by either a Black-Scholes model or Hoadley model.

The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance conditions are fulfilled, ending on the date on which the recipient become fully entitled to the award ('vesting date').

The cumulative expense recognised for equity-settled transactions at each reporting date until vesting date reflects (i) the extent to which the vesting period has expired and (ii) the number of awards that, in the opinion of the directors of the Group, will ultimately vest. This opinion is formed based on the best available information at balance date. No adjustment is made for the likelihood of market performance conditions being met as the effect of these conditions is included in the determination of fair value at grant date.

No expense is recognised for awards that do not ultimately vest, except for awards where vesting is conditional upon a market condition.

Where the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified. In addition, an expense is recognised for any increase in the value of the transaction as a result of the modification, as measured at the date of modification.

Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. However, if a new award is substituted for the cancelled award and designated as a replacement award on the date that it is granted, the cancelled and new award are treated as if they were a modification of the original award, as described in the previous paragraph.

The dilutive effect, if any, of outstanding options is reflected as additional share dilution in the computation of earnings / (loss) per share.

# 2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

# (r) Critical accounting estimates and judgements

The application of accounting policies requires the use of judgements, estimates and assumptions about carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions are recognised in the period in which the estimate is revised if it affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The key estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of certain assets and liabilities within the next annual reporting period are:

# Exploration and evaluation expenditure

The Group's accounting policy for exploration and evaluation expenditure is set out in Note 2 (f). The application of this policy necessarily requires the Board to make certain estimates and assumptions as to future events and circumstances. Any such estimates and assumptions may change as new information becomes available. If, after having capitalised expenditure under this policy, it is concluded that the expenditures are unlikely to be recoverable by future exploitation or sale, then the relevant capitalised amount will be written off to the statement of comprehensive income.

The Board determines when an area of interest should be abandoned. When a decision is made that an area of interest is not commercially viable, all costs that have been capitalised in respect of that area of interest are written off. The Directors' decision is made after considering the likelihood of finding commercially viable reserves.

# Share-based payment transactions

The Group measures the cost of equity-settled transactions with employees and consultants by reference to the fair value of the equity instruments at the date at which they are granted. The fair value of options and performance rights is determined using either a Black-Scholes model or Hoadley model, using various assumptions.

# (s) Parent Entity Financial Information

The financial information for the parent entity, Lord Resources Limited, disclosed in Note 24 has been prepared on the same basis as the consolidated financial statements.

# 3. REVENUE

|                               | Consol     | Consolidated |  |

# (c) Key Management Personnel remuneration disclosures

Information regarding individual Directors and executives compensation and some equity instruments disclosures as permitted by Schedule 5B to the Corporations Regulations 2001 is provided in the Remuneration Report section of the Directors' Report. Apart from the details disclosed in this note, no Director has entered into a material contract with the Company or the Group since the end of the previous financial year and there were no material contracts involving Directors' interests existing at year-end.

# (d) Other Key Management Personnel transactions

Marketing services, website design and maintenance and assistance with report writing fees of \$6,845 (2024: \$2,290) were paid or payable during the year ended 30 June 2025 to Propel Agency Pty Ltd on arm's length commercial terms, consistent with non-related party suppliers, a company in which Mr Swallow is a director and has a beneficial interest.

# 7. CURRENT RECEIVABLES

- (i) In June 2024, the Company allotted 15,000,000 free attaching options to sophisticated and professional investors who participated in a capital raising of 30,000,000 fully paid shares at an issue price of \$0.05 each to raise \$1.5 million. Following shareholder approval received at the general meeting of shareholders held on 20 June 2024, a total of 8,700,000 options were issued to the directors, Mr Egerton-Warburton (4,000,000 options), Mr Lloyd (3,200,000 options) and Mr Swallow (1,500,000 options). The Company also issued a further 2,500,000 options, on the same terms to technical staff and consultants. Refer to Note 18 (a) for further details relating to the valuation of options issued to directors, technical staff and consultants
- (ii) Bell Potter Securities Pty Ltd ('Bell Potter') was appointed Lead Manager for the capital raising undertaken by the Company in May and June 2024 and as compensation, Bell Potter (or its nominees) were issued 5,000,000 options exercisable at \$0.10, expiring 15 June 2027 and 5,000,000 options exercisable at \$0.12, expiring 15 June 2027.

# TOL BELSOUSI MZE OUII Performance rights

Performance rights in the capital of the Company have been granted as follows:

| per share  | 75,223,880   | 45,154,266  |
| Effect of dilution   | -            |             |
| Weighted average number of ordinary shares for   |              |             |
| diluted loss per share   | 75,223,880   | 45,154,266  |

#### **Effect of Dilutive Securities - Share Options**

The Company has 68,638,560 options and 1,350,000 performance rights at 30 June 2025 (30 June 2024: 70,738,560). Options and performance rights are considered to be potential ordinary shares. However, in periods of a net loss, options and performance rights are anti-dilutive, as their exercise will not result in lower earnings per share. The options and performance rights have therefore not been included in the determination of diluted loss per share.

#### 18. SHARE-BASED PAYMENTS

#### **Securities Incentive Plans**

On 29 November 2024, the Company adopted an employee incentive scheme titled "Employee Securities Incentive Plan" (**Plan**). The Plan is required to be renewed by shareholder approval every three years. The Plan is designed to provide incentives, assist in the recruitment, reward and retention of employees and provide opportunities for employees (both present and future) to participate directly in the equity of the Company. The Plans generally allow the Company to set the terms and conditions of each grant, subject to compliance with the overall framework of the Plans, ASX Listing Rules and any other applicable regulations.

#### Non-plan-based payments

The Company also makes share-based payments to Directors, consultants and/or service providers from time to time, not under any specific plan.

The expense recognised in the Statement of Comprehensive Income in relation to share-based payments is \$54,790 (30 June 2024: \$245,800), relating to performance rights and options. In addition, for the year ended 30 June 2024, a share-based payment expense of \$138,500, being the value of options issued to the lead manager as consideration for lead manager services provided for the share placement conducted during the year ended 30 June 2024, was included in transaction costs and applied against issued capital.

The following tables illustrates the number and weighted average exercise prices of and movements in share options and performance rights issued during the year:

#### 18. **SHARE-BASED PAYMENTS**

#### (a) Options

#### (b) Performance rights

|  | 2025<br>Number | 2024<br>Number |
|--|----------------|----------------|
| Outstanding at the beginning of the year | 450,000        | 450,000        |
| Issued during the year                   | 1,000,000      | -              |
| Exercised during the year                | (100,000)      | -              |
| Outstanding at the end of the year       | 1,350,000      | 450,000        |
| Vested at the end of the year            | -              | -              |

In November 2024, the Company issued Chief Executive Officer (CEO), Mr Andrew Taylor a total of 1,000,000 performance rights, following completion of his probation period in November 2024, with an expiry date of 6 November 2026. 125,000 Performance Rights will vest and become exercisable on the 12-month anniversary of Mr Taylor's appointment as CEO, 125,000 Performance Rights will vest and become exercisable on the 24-month anniversary of Mr Taylor's appointment as CEO and 750,000 Performance Rights will vest and become exercisable upon the Company raising a cumulative additional \$3,000,000 of capital in support of its current or additional projects within two years of the Mr Taylor's appointment as CEO.

#### 18. SHARE-BASED PAYMENTS (continued)

#### (b) Performance rights (continued)

In November 2022, the Company issued an employee a total of 450,000 performance rights with an expiry date of 30 June 2027. 100,000 Performance Rights vested and were exercised into ordinary shares during the period, 150,000 Performance Rights will vest and become exercisable upon the continuous employment of the Employee for a period of 36 months from 1 July 2022 and 200,000 Performance Rights will vest and become exercisable upon the continuous employment of the Employee for a period of 48 months from 1 July 2022.

The following table lists the inputs to the model used for the year ended 30 June 2025.

| Performance Rights        | 2025<br>CEO |
|---------------------------|-------------|
| Number                    | 1,000,000   |
| Volatility                | 100%        |
| Risk-free interest rate   | 3.79%       |
| Expected life of Rights   | 1-2 years   |
| Exercise price            | Nil         |
| Share price at grant date | \$0.031     |
| Fair value per Right      | \$0.031     |

#### 19. NOTES TO THE STATEMENT OF CASH FLOWS

#### (a) Reconciliation of cash and cash equivalents

For the purposes of the statement of cash flows, cash and cash equivalents consists of cash at bank and in hand and short-term deposits with an original maturity of three months or less, net of outstanding bank overdrafts.

|              | Consolidated |           |  |
|--------------|--------------|-----------|--|
|              | 2025         | 2024      |  |
|              | \$           | \$        |  |
| Cash at bank | 978,126      | 1,880,662 |  |
|              | 978,126      | 1,880,662 |  |

#### (b) Reconciliation of loss after tax to net cash outflows from operating activities

|  | Consolidated |             |  |
|--|--------------|-------------|--|
|  | 2025         | 2024        |  |
|  | \$           | \$          |  |
| Loss after income tax                        | (1,738,283)  | (2,131,840) |  |
| Depreciation and amortisation                | 92,049       | 45,289      |  |
| Share-based payments expense                 | 54,790       | 245,800     |  |
| Impairment - Acquisition costs - exploration | 173,036      | -           |  |
| Interest adjustment - leases                 | (9,909)      | -           |  |
| (Increase) / decrease in assets              |              |             |  |
| Trade and other receivables                  | 1,963        | 31,735      |  |
| Prepayments                                  | (44,189)     | (1,662)     |  |
| Increase / (decrease) in liabilities         |              |             |  |
| Trade and other payables                     | 158,178      | (353,093)   |  |
| Provisions                                   | 19,329       | 2,186       |  |
| Net cash outflows from operating activities  | (1,293,036)  | (2,161,585) |  |

#### (c) Non-cash investing activities

During the year, the Company issued 4,226,392 fully paid ordinary shares at a deemed valuation of \$100,000 as part consideration for the right to earn up to an 80% interest in the sulphide rights of the Ilgarari Copper Project.

#### 20. COMMITMENTS AND CONTINGENCIES

#### (a) Commitments

In order to maintain current contractual rights concerning its mineral projects, the Group has certain commitments to meet minimum expenditure requirements on the mineral exploration assets in which it has an interest.

The current annual minimum lease expenditure commitments on tenements wholly owned by the Group are \$192,000 (2024: \$152,000).

If the Group decides to relinquish certain leases and/or does not meet these obligations, assets recognised in the balance sheet may require review to determine the appropriateness of carrying values. The sale, transfer, or farm-out of exploration rights to third parties will reduce or extinguish these obligations.

#### (b) Contingent liabilities

The Group does not have any contingent liabilities at balance date other than as below:

In accordance with the agreement to acquire Tailflower Pty Ltd, the following deferred consideration may become payable in future periods with respect to the Jarama Gold Project, Cambridge Nickel Copper Project, Gabyon Gold Project and the Horse Rocks Lithium (Tenements):

• A 2% Gross Value Royalty (GVR) is payable for all minerals, metals and products recovered and sold from within the boundaries of the Tenements comprising the Projects.

In accordance with the agreement to acquire the Jingjing Lithium Project, a 0.5% Net Smelter Return ('NSR') royalty is payable on minerals produced from the tenements comprising the Jingjing Lithium Project.

In accordance with agreement to earn into the Ilgarari Project, a royalty to be paid to a former owner of the Tenement, consisting of:

- \$50 per tonne of copper metals produced up to a total of 20,000 tonnes of copper metal and a 1% NSR above 20,000 tonnes of copper; and
- a 1% net royalty on all metals produced other than copper.

The directors cannot predict whether the achievement of the above milestone is probable at balance date. As a result, no value has been recorded for this deferred consideration.

#### 21. FINANCIAL RISK MANAGEMENT AND FINANCIAL INSTRUMENTS

#### Overview

The activities of the Company expose it to a variety of financial risks, including:

- market risk;
- credit risk; and
- liquidity and capital risks.

The Company's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the business. Lord will use different methods to measure different types of risk to which it is exposed. These methods include sensitivity analysis in the case of interest rate, foreign exchange and other price risks and ageing analysis for credit risk.

This note presents information about the Company's exposure to each of the above risks, their objectives, policies and processes for measuring and managing risk, and the management of capital.

The Board of Directors has overall responsibility for the establishment and oversight of the risk management framework. Management monitors and manages the financial risks relating to the operations of the Company through regular reviews of the risks.

#### (a) Market risk

#### (i) Foreign exchange risk

Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities that are denominated in a currency that is not the entity's functional currency. The Australian dollar is the reporting currency for the Group and the functional currency for the parent company. At period end, the Group did not have any foreign exchange risk that was material to the Group.

#### 21. FINANCIAL RISK MANAGEMENT AND FINANCIAL INSTRUMENTS (continued)

#### (ii) Interest rate risk

The Group is exposed to movements in market interest rates on short term deposits.

The Group's exposure to interest rate risk and the effective weighted average interest rate for each class of financial assets and financial liabilities is set out in the following table:

|  | Note                   | Floating<br>interest<br>rate | Fixed<br>interest<br>rate | Non-<br>interest<br>bearing         | Total                                       | Weighted<br>average<br>interest<br>rate |
|--|------------------------|------------------------------|---------------------------|-------------------------------------|---|---|
|  |                        | \$                           | \$                        | \$                                  | \$  | %                                       |
| 2025   |                        |                              |                           |                                     |   |   |
| Financial assets   |                        |                              |                           |                                     |   |   |
| Cash and cash equivalents  | 19(a)                  | 678,126                      | 300,000                   | _                                   | 978,126                                     | 3.22                                    |
| Trade and other receivables  | 7                      | _                            | -                         | 40,255                              | 40,255                                      | _                                       |
|  |                        | 678,126                      | 300,000                   | 40,255                              | 1,018,381                                   | -                                       |

#### Cash flow sensitivity analysis for variable rate instruments

A change of 100 basis points in interest rates at the reporting date would have increased (decreased) equity and profit or loss by the amounts shown below, where interest is applicable. This analysis assumes that all other variables remain constant. The analysis is performed on the same basis for 2024.

| Consolidated                | Profit                  | or (Loss)               | Equity                  |                         |  |
|-----------------------------|-------------------------|-------------------------|-------------------------|-------------------------|--|
|                             | 100bp<br>increase<br>\$ | 100bp<br>decrease<br>\$ | 100bp<br>increase<br>\$ | 100bp<br>decrease<br>\$ |  |

#### 21. FINANCIAL RISK MANAGEMENT AND FINANCIAL INSTRUMENTS (continued)

#### **Financial assets**

Trade receivables from other entities are carried at nominal amounts less any allowance for doubtful debts. Other receivables are carried at nominal amounts due. Interest is recorded as income on an accruals basis.

#### **Financial liabilities**

Liabilities are recognised for amounts to be paid in the future for goods and services received, whether or not billed to the Group.

#### Net fair value of financial assets and liabilities

The carrying amount of financial assets and liabilities approximates fair value because of their short-term maturity.

#### (iii) Commodity price risk

As Lord explores for a variety of minerals including lithium, gold, nickel, copper and cobalt, it will be exposed to the risks of fluctuation in prices for those minerals. The market for all of these minerals has a history of volatility, moving not only with the standard forces of supply and demand, but also in the case of gold, to investment and disinvestment. Prices fluctuate widely in response to changing levels of supply and demand but, in the long run, prices are related to the marginal cost of supply.

#### (b) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and cash and investment deposits. The Group has adopted the policy of only dealing with credit worthy counterparties and obtaining sufficient collateral or other security where appropriate, as a means of mitigating the risk of financial loss from defaults.

The main risks the Group is exposed to through its financial instruments are the depository banking institution itself, holding the funds, and interest rates. The Group does not have significant exposure to any single counterparty or any group of counterparties having similar characteristics.

The carrying amount of financial assets recorded in the financial statements, net of any provisions for losses, represents the Group's maximum exposure to credit risk.

The Company and Group have established an allowance for impairment that represents their estimate of incurred losses in respect of other receivables and investments. The main components of this allowance are a specific loss component that relates to individually significant exposures. The management does not expect any counterparty to fail to meet its obligations.

#### (c) Liquidity and capital risk

The Group's total capital is defined as the shareholders' net equity plus any net debt. The objectives when managing the Company's capital is to safeguard the business as a going concern, to maximise returns to shareholders and to maintain an optimal capital structure in order to reduce the cost of capital.

The Group does not have a target debt / equity ratio but has a policy of maintaining a flexible financing structure so as to be able to take advantage of investment opportunities when they arise. There are no externally imposed capital requirements. Whilst the Group is in an exploration phase, it is unlikely to operate with debt capital, although this may change as projects become more advanced.

There have been no changes in the strategy adopted by management to control the capital of the Group since the prior year.

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group manages liquidity risk by maintaining adequate reserves by continuously monitoring forecast and actual cash flows.

If the Company anticipates a need to raise additional capital in the next 12 months to meet forecasted operational activities, then the decision on how the Company will raise future capital will depend on market conditions existing at that time.

#### 21. FINANCIAL RISK MANAGEMENT AND FINANCIAL INSTRUMENTS (continued)

Typically, the Group ensures that it has sufficient cash on demand to meet expected operational expenses for a period of 60 days, including the servicing of financial obligations. This excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

#### 22. INVESTMENT IN CONTROLLED ENTITIES

#### (a) Particulars in relation to subsidiaries

| Entity                 | Country of incorporation | Equity<br>holding | Equity<br>holding | Class of<br>Shares |
|------------------------|--------------------------|-------------------|-------------------|--------------------|
|                        |                          | <b>2025</b><br>%  | 2024<br>%         |                    |
| Parent Entity          |                          |                   |                   |                    |
| Lord Resources Limited |                          |                   |                   |                    |
| Subsidiaries           |                          |                   |                   |                    |
| Tailflower Pty Ltd     | Australia                | 100               | 100               | Ord                |

#### (b) Risk exposure

Refer to Note 21 for information on the Group's and parent entity's exposure to credit, foreign exchange and interest rate risk.

#### 23. SEGMENT REPORTING

The directors have considered the requirements of AASB 8 - Operating Segments and the internal reports that are reviewed by the chief operating decision maker (the Board) in allocating resources and have concluded that there are no separate identifiable business segments. The operations and assets of Lord Resources Limited and its controlled entities are employed in exploration activities relating to minerals in Australia.

#### 24. PARENT ENTITY DISCLOSURES

#### (a) Summary financial information

#### **Financial Position**

|                             | 2025<br>\$   | 2024<br>\$   |

#### 24. PARENT ENTITY DISCLOSURES (continued)

#### Summary financial information (continued) (a)

#### Financial performance

|   | 2025<br>\$  | 2024<br>\$  |
|---|-------------|-------------|
| Loss for the year after income tax Other comprehensive income | (1,738,283) | (2,131,840) |
| Total comprehensive loss                                      | (1,738,283) | (2,131,840) |

#### Guarantees entered into by the parent entity in relation to the debts of its subsidiary

Lord Resources Limited has not entered into any guarantees in relation to the debts of its subsidiary.

#### Contingent liabilities of the parent (c)

The parent entity did not have any contingent liabilities as at 30 June 2025 or 30 June 2024 other than as disclosed in Note 20 (b).

#### Contractual commitments for the acquisition of property, plant or equipment

As at 30 June 2025 (30 June 2024 - \$Nil), the parent entity did not have any contractual commitments for the acquisition of property, plant or equipment.

# AUUO ASIN IIBU OSIA JOL **EVENTS SUBSEQUENT TO BALANCE DATE**

No matter or circumstance has arisen which has significantly affected, or may significantly affect, the operations of the Group, the results of those operations or the state of affairs of the Group in subsequent financial years other than the matters referred to below.

- In July 2025, the Company issued 150,000 ordinary shares on vesting of performance rights.
- In July 2025, the Company announced completion of the placement of the Shortfall arising from the pro-rata non-renounceable Entitlement offer (Offer) and issued 45,819,087 ordinary shares at an issue price of \$0.018 to raise \$824,744.
- 708 Capital Pty Ltd ('708 Capital') was appointed as Lead Manager for the Shortfall Offer. For managing the Shortfall, 708 Capital (and its nominees) subscribed for 2.5 million options exercisable at \$0.03, expiring on or before 15 July 2030 at an issue price of \$0.00001.
- In July 2025, the Company appointed Mr Davide Bosio as a director and issued him 4,000,000 options exercisable at \$0.036 each, expiring on 30 June 2030 and 3,000,000 options exercisable at \$0.10 each, expiring on 15 June 2027. Mr Chris Swallow resigned as a director and Mr Andrew Taylor resigned as Chief Executive Officer. Mr Taylor's 1,000,000 performance rights lapsed.
- In July 2025, the Company issued 1,900,000 options, exercisable at \$0.036 each, expiring on 30 June 2030 to technical staff and consultants.
- In September 2025, the Company announced it had received firm commitments to raise \$814,000 and proposed to undertake a non-renounceable entitlement issue to eligible Lord shareholders on the basis of one share for every four shares held at the record date at an issue price of \$0.037 per share to raise a further \$1.618 million.

# LORD RESOURCES LIMITED CONSOLIDATED ENTITY DISCLOSURE STATEMENT AS AT 30 JUNE 2025

#### **Basis of Preparation**

This Consolidated Entity Disclosure Statement (CEDS) has been prepared in accordance with the *Corporations Act 2001*. It includes certain information for each entity that was part of the Group at the end of the financial year.

#### **Determination of Tax Residency**

Section 295 (3A) of the Corporation Acts 2001 defines tax residency as having the meaning in the Income Tax Assessment Act 1997. The determination of tax residency involves judgment as there are currently several different interpretations that could be adopted, and which could give rise to a different conclusion on residency.

In determining tax residency, the Group has applied the following interpretations:

#### Australian tax residency

The Group has applied current legislation and judicial precedent, including having regard to the Tax Commissioner's public guidance in Tax Ruling TR 2018/5.

#### Foreign tax residency

Where necessary, the Group has used independent tax advisers in foreign jurisdictions to assist in determining tax residency and ensure compliance with applicable foreign tax legislation.

#### Partnerships and Trusts

Australian tax law does not contain specific residency tests for partnerships and trusts. Generally, these entities are taxed on a flow-through basis, so there is no need for a general residence test. Some provisions treat trusts as residents for certain purposes, but this does not mean the trust itself is an entity that is subject to tax.

#### Details of entities within the consolidated group

## LORD RESOURCES LIMITED DIRECTORS' DECLARATION

In the opinion of the Directors of Lord Resources Limited:

- (a) The accompanying financial statements and notes are in accordance with the Corporations Act 2001 including:
  - (i) giving a true and fair view of the Group's financial position as at 30 June 2025 and of its performance for the year then ended; and
  - (ii) complying with Accounting Standards, the Corporations Regulations 2001, professional reporting requirements and other mandatory requirements.
- (b) There are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.
- (c) The financial statements and notes thereto are in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board.
- (d) The information disclosed in the attached Consolidated Entity Disclosure Statement is true and correct.

This declaration has been made after receiving the declarations required to be made to the directors in accordance with section 295A of the Corporations Act 2001 for the financial year ended 30 June 2025.

Signed in accordance with a resolution of the Directors made pursuant to s 295(5) of the Corporations Act 2001.

On behalf of the Board.

PAUL LLOYD

Chairman

Dated this 26<sup>th</sup> day of September 2025

Perth, Western Australia

#### **INDEPENDENT AUDITOR'S REPORT**

To the Members of Lord Resources Limited

#### Report on the Audit of the Financial Report

#### Opinion

We have audited the financial report of Lord Resources Limited ("the Company") and its controlled entities ("the Group"), which comprises the consolidated statement of financial position as at 30 June 2025, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, notes to the financial statements, including material accounting policy information, the consolidated entity disclosure statement and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act* 2001, including:

- (a) giving a true and fair view of the Group's financial position as at 30 June 2025 and of its financial performance for the year then ended; and
- (b) complying with Australian Accounting Standards and the Corporations Regulations 2001.

#### Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* ("the Code") that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Material Uncertainty Related to Going Concern

We draw attention to Note 2(a) in the financial report, which indicates that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

#### Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

HLB Mann Judd is a member of HLB International, the global advisory and accounting network.

In addition to the matter described in the *Material Uncertainty Related to Going Concern* section, we have determined the matters described below to be the key audit matters to be communicated in our report.

#### **Key Audit Matter**

How our audit addressed the key audit matter

#### **Exploration and evaluation expenditure**Refer to Note 11

The Group has capitalised acquisition costs in relation to its exploration and evaluation areas of interest of \$1,486,820 as at 30 June 2025.

Our audit procedures determined that capitalised exploration and evaluation expenditure was a key audit matter as it was an area which required a significant amount of audit effort and communication with those charged with governance and was determined to be of key importance to the users of the financial statements.

Our procedures included but were not limited to the following:

- We obtained an understanding of the key processes associated with management's review of the carrying value of the capitalised exploration and evaluation expenditure;
- We considered the Directors' assessment of potential indicators of impairment;
- We obtained evidence that the Group has current rights to tenure of its areas of interest;
- We examined the exploration budget and discussed with management the nature of planned ongoing activities; and
- We examined the disclosures made in the financial report.

#### Other Information

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2025, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report, or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of:

(a) the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001*; and

(b) the consolidated entity disclosure statement that is true and correct in accordance with the *Corporations Act 2001*, and

for such internal control as the directors determine is necessary to enable the preparation of:

- (a) the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and
- (b) the consolidated entity disclosure statement that is true and correct and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that
  are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
  effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### REPORT ON THE REMUNERATION REPORT

Opinion on the Remuneration Report

We have audited the Remuneration Report included within the Directors' Report for the year ended 30 June 2025.

In our opinion, the Remuneration Report of Lord Resources Limited for the year ended 30 June 2025 complies with Section 300A of the *Corporations Act 2001*.

#### Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with Section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

<sup>\*</sup> In March 2024, the Company entered into a binding farm-in agreement with Mineral Resources Limited (MinRes) on the Horse Rocks Lithium Project.

Under the terms of the agreement, MinRes has the right to acquire an initial 40% legal and beneficial interest in Horse Rocks by funding \$1,000,000 of expenditure subject to conditions.

Looking ahead, MinRes has the option to further increase its stake through Stage 2 and Stage 3 farmin obligations, demonstrating its confidence in the project's potential.

- Stage 2: A Joint Venture will be created, MinRes can earn a further 30% interest in the Project (total 70%), by funding an additional \$5,000,000 in expenditure within 36 months of the start of Stage 2.
- Stage 3: MinRes can earn a further 15% interest in the Project (total 85%), by funding expenditure through to a Decision to Mine.

<sup>\*\*</sup> Lord's Ilgarari interest is 80% below 120m from surface. (see ASX release dated 6 November 2024: Acquisition of High-Grade Ilgarari Copper Project in WA).
