Independent Auditor's Report

# Elementos is advancing two mature tin assets through key development stages into operations within the reliable, regulated and responsible mining jurisdictions of Andalucía, Spain, and Tasmania, Australia.

The company is focussed primarily on developing the Oropesa Tin Project in Andalucía, Spain into production, additionally the company continues to define the resource and a plan for restarting the historic Cleveland Tin Mine in Tasmania, Australia. Oropesa's recently delivered robust Definitive Feasibility Study (DFS) and Maiden Ore Reserve statement clearly demonstrates the technical and economic viability of the project. The project now has a clear pathway to develop the only highly defined, responsibly planned, strategically located tin project within the European Union.

The company is also actively maturing its mine-to-metal tin strategy, to ensure a vertically integrated and independent tin supply 100% within the EU. The company is maturing it's previously signed term-sheet for an option agreement to acquire 50% of the Robledallano Tin Smelter, located 220km from Oropesa, and has now also signed an Industrial Testwork Partnership Agreement with Atlantic Copper (a Freeport-McMoRan Company) who operate a second smelter at the Huelva Metallurgical complex, located 245km from the Oropesa Tin Project.

# **Chairman's Letter**

### Dear fellow shareholders

The past year has been one of success and progress for Elementos. We have delivered on a series of strategic milestones that position the company for its next phase of growth, headlined by the completion of the Definitive Feasibility Study (DFS) for the Oropesa Tin Project. Alongside this, we strengthened our balance sheet through the cornerstone investment from Metals X, advanced our vertical integration initiatives within Europe, and continued disciplined maturation of the Cleveland Project. Supported by a strong tin price environment and rising recognition of tin's critical role in the energy transition and technology supply chains, Elementos is emerging as a leading developer of responsibly sourced tin.

With the DFS now complete, Oropesa is firmly established as a technically and economically robust development project. The study outlines a 1.4 million tonne per annum (Mtpa) open-cut operation producing approximately 3,405 tonnes (t) of contained tin in ingot form over a 12-year mine life, with an all-in sustaining cost modelled at US\$15,000/t. At a US\$30,000/t tin price, the project delivers a pre-tax NPV8% of approximately A\$270 million, an internal rate of return of 26% and a payback period of 2.7 years. These compelling results are underpinned by a 15.9Mt Ore Reserve at 0.36% tin and provide a clear pathway to development.

Alongside the DFS, we submitted the Exploitation (Mining) Project, Restoration Plan and Environmental Impact Study to the Andalucian Administration for assessment toward the Mining Licence and Unified Environmental Authorisation (AAU). This milestone submission represents the culmination of more than a year of technical and regulatory engagement, comprising over 11,000 pages across 152 files. Oropesa remains a priority project within the Junta de Andalucía's Project Accelerator Unit, and ongoing dialogue with the regulators has been highly constructive.

We also continued to advance our vertical integration plans. The company progressed negotiations for an option to acquire up to 50% of the Robledallano Tin Smelter, located approximately 220km from Oropesa, and entered into an industrial testwork partnership with Atlantic Copper at Huelva to investigate processing options for lower-grade material. These initiatives further align Elementos with the European Union's Critical Raw Materials Act and will strengthen Oropesa's position as a fully integrated mine-to-metal operation.

While Oropesa remains our clear priority, the Cleveland Project in Tasmania continues to demonstrate strong potential. This year we drilled a 1,122m hole into the Foleys Zone, partly funded by the Tasmanian Government, intersecting new zones of tungsten with a suite of high-value critical minerals - fluorspar/fluorite, molybdenum, bismuth, and rubidium - a rare and unique mineral which trades around US\$1.1 million/tonne. These encouraging results continue to highlight Cleveland's multi-commodity potential and its role as a growth option behind Oropesa.

One of the most significant developments of the year was welcoming Metals X, Australia's largest tin producer, as a strategic shareholder. Their acquisition of a 19.98 per cent interest in Elementos via a \$5 million placement signifies confidence in our assets and development strategy. We were also pleased to welcome Brett Smith and Daniel Broughton to the Elementos Board. Their operational expertise, particularly from the Renison operation, strengthens the Board's capability as we transition Oropesa from study to development.

Tin's strong market fundamentals have provided an encouraging backdrop for these achievements. Tin prices reached multi-year highs in early 2025 due to persistent supply constraints in Myanmar and intermittent disruptions in Indonesia and the Democratic Republic of Congo. With demand from electronics, renewable energy, 5G deployment, automation and artificial intelligence continuing to rise, industry analysts forecast structural supply deficits later this decade. This environment underscores the strategic importance of Oropesa as one of the few advanced, permitted tin developments in the Western world.

Our achievements this year reflect a deep commitment to environmental, social and governance principles. The DFS aligns with our environmental regulatory submissions which include fully costed rehabilitation, compensation and remediation plans. The DFS and permitting documents also incorporates design modifications agreed with the Andalucian Administration to further reduce environmental impacts, optimise water and tailings management and deliver additional long-term benefits to the surrounding communities. We remain focused on transparent engagement, regional value creation and environmental stewardship as the project advances.

Looking ahead, we are focused on securing approvals for Oropesa, advancing development readiness activities, and further strengthening our strategic partnerships. At Cleveland, we will continue to build the technical case for its future development while maintaining capital discipline. With a strong balance sheet, supportive tin market conditions and a clear execution plan, Elementos is well positioned to deliver value to all stakeholders and to play an increasingly important role in the global tin market.

would like to thank our executive team, and our dedicated staff in Spain and Australia for their outstanding efforts. I also extend my gratitude to our host communities, partners and shareholders for their unwavering support. We end this year with a stronger foundation than ever, and I am confident we are entering a new chapter of growth and delivery.

Yours sincerely,

Andy Greig Chairman

# **Review of Operations**

# **Oropesa Tin Project**

Andalucia, Spain

The Oropesa Tin Project is located in the Guadiato Valley, in the Province of Cordoba, within the Andalucía Autonomous Region, Spain, and as a result, is strategically located within the European Union. Oropesa has one of the world's largest undeveloped, open-cut tin deposits, and is the only tin project being actively developed within the European Union, with access to Spain's world-class infrastructure. The project is progressing through development, with a recently completed DFS, Maiden Ore Reserve Statement and with Primary Licences being processed by the Andalucían Regulators.

The project is a "State Significant Project" in Andalucia (being a member of the Government's "Project Accelerator Unit") and of strategic significance to the European Union which is committed to sourcing a responsible and local "domestic' supply of critical minerals like tin.

The Oropesa tenement consists of an exploration concession package (Investigation Permit No. 13.050) covering an area of 13km², located approximately 75km north-west of city of Cordoba and 180km north-east of the capital of Seville in southern Spain. The local Guadiato Valley district has a rich mining history, having been a mining district for base metals (copper, lead, silver, and iron) and coal, leaving the region eager for further industrial and mining investments.

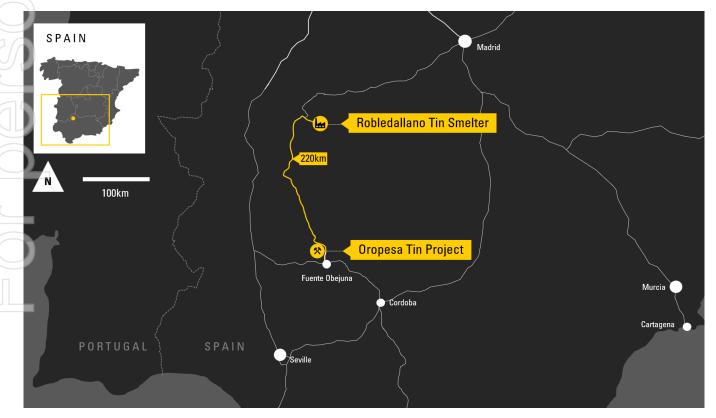

Figure 1. Location of both the Oropesa Tin Project and Robledallano Tin Smelter in Spain.

### **Definitive Feasibility Study (DFS) results**

In April 2025, Elementos confirmed Oropesa's robust technical, environmental and economic validity following the completion of a DFS.

The DFS confirmed the project's compliance with regulations, responsible approach to planning, minimisation of environmental disturbance and low impact to the surrounding communities; whilst also highlighting the strategic benefits of being the only mine-to-metal vertically integrated tin project in development within the European Union.

The DFS, delivered by Elementos' Spanish subsidiary Minas de Estaño de España S.L.U. (MESPA), is based on the responsible development, operation and rehabilitation of an open-cut tin mine, processing plant, tailings storage facility, waste dumps and supporting infrastructure to support a base-case mine life of approximately 12 years. The operation is designed to produce a high-grade, low impurity tin concentrate (~63% Sn), which is planned to be toll treated in a local Spanish smelter before being sold by the company onto customers as tin ingots (metal).

All the assumptions used in the DFS align with the submitted project approvals documents with the Junta de Andalucia (Andalucian Government) and its major departments. The project has undergone extensive data acquisition, lab work, metallurgical assessment and pilot testing, engineering development works, project delivery planning, reporting, scheduling, market tendering, assessment and definition. The project exceeds the 30% design level, and is 90% market priced, meeting the AACE Class-3 threshold for DFS maturity.

Annual Production	C1-Cash Costs (Tin Metal)	Life of Mine EBITDA
1.36Mt	US\$14,440/t	A\$996M
Annual Production (Contained Tin)	AISC Costs	Internal Rate of Return (US\$30k/t Pre-Tax)
3,405t	US\$14,825/t	26%
Life of Mine	NPV <sub>8</sub> (US\$30k/t Pre-Tax, Un-geared)	Capital payback
12 years	A\$270m	2.7 years

**Figure 2**. DFS Summary Table. Please note that this table has been rounded for compliance, which may lead to differences in reporting.

### DFS highlights:

- Demonstrated technical and economic viability of the Oropesa Tin Project which now has a clear pathway to develop the highly defined, responsibly planned, strategically located and vertically integrated mine-to-metal smelting solution located within the EU.
- Maiden Ore Reserve Estimate of 15.9Mt at 0.36%Sn announced, based upon the previously published Mineral Resource Estimate of 19.6Mt at 0.39%Sn.
- DFS based on a 1.4Mtpa open-cut mining project, producing an average 3,405t of contained tin per year, as tin ingot, for the European tin market over an operating base-case mine life of 12 years.
- The project has an average Life of Mine (LoM) All-In-Sustaining-Cost (AISC) of US\$15,000/t tin metal.
- DFS is aligned with the recently lodged Environmental and Mining Licence permit applications

- DFS capital costs are now estimated at €149m (A\$260m|US\$156m) including 10.4% contingency.
- Based on an LME referenced tin price of US\$30,000/t over the life-of-mine, the DFS confirms pre-tax ungeared NPV<sub>8%</sub> of A\$270m, pre-tax IRR of 26%, payback period of 2.7 years.
- Based on spot LME tin price (02 April 2025) of US\$38,575 per tonne over the life-of-mine, the DFS confirms pretax ungeared NPV<sub>8%</sub> of A\$587m, pre-tax IRR of 42%, payback period of 1.7 years.

### Maiden Ore Reserve Statement

A Maiden Ore Reserve estimate of 15.9Mt at 0.36%Sn for Oropesa was also published, based upon the previously published Mineral Resource Estimate of 19.6Mt at 0.39%Sn.

Table 1. Maiden Ore Reserve Estimate

Reserve Category <sup>1</sup>	Sn (%) <sup>2</sup>	Tonnes <sup>3</sup> (M tonnes)	Contained Sn Metal (tonnes)	Reserve Contribution (%)
Proved	0.34%	6.1	21,028	38%
Probable	0.37%	9.8	36,866	62%
Total	0.36%	15.9	57,894	100%

### Notes:

- 1. All figures are rounded to reflect appropriate levels of confidence, apparent differences in totals may occur due to rounding.
- 2. A cut-off grade of 0.15% Sn has been applied.
- 3. Tonnages are expressed on a ROM basis, incorporating the effects of mining losses and dilution.
- 4. The reference point at which these ore reserves are defined is as the ore is delivered to the ROM Pad.

### DFS economic outcomes

The OropesaTin Project's economic returns (NPV, IRR, payback) are robust at a variety of tin price assumptions and discount rates as evidenced in Tables 2 and 3. The DFS base case reference tin price of US\$30,000/t and the consensus long term price of US\$35,400/t are highlighted.

Table 2- A\$M Project NPV- 100% basis, real, ungeared, pre-tax

			DFS Base Price			LT Av. Consensus			
		US\$27.5k/t	US\$30.0k/t	US\$32.5k/t	US\$35.0k/t	US\$35.4k/t	US\$37.5k/t	US\$40.0k/t	US\$42.5k/t
	6%	230.7	336.0	441.2	546.5	563.5	651.8	757.0	862.3
	8%	178.0	270.4	362.7	455.1	470.0	547.5	639.8	732.2
	10%	134.3	215.9	297.5	379.0	392.2	460.6	542.2	623.7
	12%	97.9	170.4	242.9	315.3	327.0	387.8	460.3	532.7

Table 3- Project payback period and Internal Rate of Return (IRR)-100% basis, real, ungeared, pre-t	<b>Table 3-</b> Project	payback period an	d Internal Rate of Return	(IRR)-100% basis, real,	ungeared, pre-tax
---	-------------------------	-------------------	---------------------------	-------------------------	-------------------

		DFS Base Price			LT Av. Consensus			
	US\$27.5k/t	US\$30.0k/t	US\$32.5k/t	US\$35.0k/t	US\$35.4k/t	US\$37.5k/t	US\$40.0k/t	US\$42.5k/t
Pre-tax IRR	20.2%	25.6%	30.7%	35.5%	36.2%	40.0%	44.4%	48.6%
Payback Period	37.9	32.4	29.3	24.1	23.2	20.8	19.5	18.3

Oropesa's tin production costs are based on a DFS level of design and market pricing providing a high-level of confidence in the reported production cost buildup. Table 4 displays Oropesa's ability to produce tin at a competitive cost, significantly below the referenced DFS base case, and therefore able to withstand periods of lower-than-forecast tin prices.

Table 4-Tin Production Costs

Cost Area	US\$	US\$/tonne ROM Ore	US\$/tonne Sn Conc.	US\$/tonne Sn Metal
Clearing, Topsoil & Mining Preparation	\$595,500	\$0.04	\$10	\$10
Mining	\$250,715,700	\$15.71	\$3,960	\$6,270
Processing	\$245,210,700	\$15.36	\$3,870	\$6,130
Rehabilitation, Closure & Decommissioning	\$33,037,400	\$2.07	\$520.0	\$830
Other Costs	\$48,158,500	\$3.02	\$760.0	\$1,200
Total C1 Cash Operating Costs	\$577,717,800	\$36.19	\$9,120	\$14,440
Depreciation (excl. funding costs)	\$219,027,026	\$13.72	\$3,458	\$5,475
Total C2 Cash Operating Costs	\$796,744,883	\$49.91	\$12,579	\$19,915
Royalties	\$15,274,000	\$0.96	\$240.0	\$380
Total C3 Cash Operating Costs	\$812,018,842	\$50.87	\$12,820	\$20,297
Sustaining Capital	\$7,063,600	\$0.44	\$110	\$180
All In Sustaining Cost (AISC)	\$600,055,400	\$37.59	\$9,470	\$15,000

the DFS capital cost estimate of €149m (A\$260m| US\$156m) includes 10.4% contingency. The level of design has been significantly matured, meeting the required design and pricing levels for a AACE Class-3 DFS estimate with all major packages designed, market tendered (including contractual terms), cost-assessed, as follows:

- 30% engineering design level exceeded (Aligned with AACE Class-3 design maturity).
- 90% of packages have been tendered and market priced by experienced Spanish contractors.
- 60% of the total capital cost has been priced from a single Engineering, Procurement, and Construction (EPC) lump-sum-turn-key (LSTK) price, which was developed with Duro Felguera under an Early Contractor Involvement (ECI).

### **Industrial Testwork Partnership executed with Atlantic Copper**

In March 2025, Elementos signed an Industrial Testwork Partnership Agreement with Atlantic Copper S.L.U. Under the Agreement, Atlantic Copper funded the production of a laboratory sample of tin concentrate from Oropesa's lower-grade ore and process waste and its subsequent metallurgical testing at the Wardell Armstrong (part of SLR Group) laboratories in Cornwall, England, during the June quarter.

This testwork presents a value-accretive opportunity which has the potential to deliver higher metallurgical recoveries which in-turn increases the utilisation of Mineral Resources and removes further metal content in waste and reject streams at Oropesa.

The laboratory completed multi-gravity separation (MGS) tests, followed by magnetic separation of the concentrates. This process has been tested with the objective of recovering tin from low grade streams separate to the main tin flotation circuit. In the revised configuration for low grade streams being tested, MGS would be followed by magnetic separation, with a final gravity concentration following, which is the stage next to be tested. The upgrade factors achieved thus far via MGS has been encouraging, producing a pre-concentrate comparable to that obtained via traditional flotation.

### **Primary License Submissions lodged**

During the June quarter, the company lodged the documentation set required to obtain the key primary licences for the OropesaTin Project. These substantial submissions are the key requirements to be assessed for the award of both an Environmental Licence (Unified Environmental Authorization, AAU) and a Mining Licence (Exploitation Concession) required to construct and operate the OropesaTin Mine. These submissions will be assessed by the Andalucian Administration, governed by the applicable regulations.

These three sets of documentation (totalling 152 separate files, ~11,324 pages) will be reviewed and assessed for award of the two primary licences, by the following government departments- as simplistically presented in Figure 3 below.

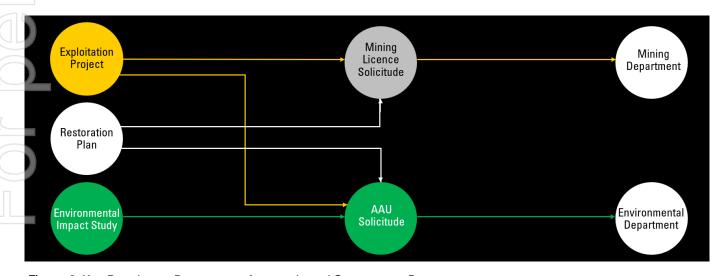

Figure 3. Key Regulatory Documents, Approvals and Government Departments

### Oropesa recognised in OECD Report on regional development

The Oropesa Tin Project was named in the OECD's 2025 report Enhancing Regional Mining Ecosystems in Andalusia, Spain. The report highlights Oropesa as one of the key mining projects contributing to the strategic and sustainable development of Spain's Andalucía region.

Elementos is proud to see Oropesa specifically referenced in Table 1.3: Key Mining Projects in the Region, reinforcing the project's role in helping meet Europe's critical mineral needs through a low-impact, vertically integrated tin supply chain.

Importantly, the report also identifies Oropesa's host municipality, Fuente Obejuna, as an area experiencing economic and population decline, with a 15% drop in population over the last decade. The OECD outlines how mining can serve as a catalyst for revitalising such rural communities, supporting employment, infrastructure, and broader economic resilience.

These findings reinforce the long-term social value of the Oropesa Project, and align with Elementos' commitment to local job creation, environmental responsibility, and community collaboration. As we progress through permitting and toward development, we remain focused on delivering lasting benefits to our regional partners and stakeholders.

### Tenure rights update

The Company rights over the key Oropesa Tin Project tenement were extended during the reporting period. The granting of the Investigation Permit (equivalent of Australian Exploration Licence) extension follows close collaboration with the Andalucia Mining Department.

During the reporting period, Elementos was notified that it had been the awarded three additional tenements in Cordoba Province, Andalucia. The tenure covers historically relinquished mining rights, which have been explored by the company and assessed as holding high geological prospectivity as well as being of strategic importance to support access and infrastructure around the Oropesa Project.

# **Cleveland Tin Project**

Tasmania, Australia

The Cleveland Tin Project is located 80km southwest of Burnie in the mineral-rich northwest region of Tasmania, Australia. The project hosts the Cleveland tin mine, an historic, underground operation still boasting a large Mineral Resource and excellent access to electrical, water and transport infrastructure. Recent drilling has confirmed a large zone of tungsten mineralisation and a suite of supporting critical minerals below the tin and copper Mineral Resources.

The company is currently planning to conduct technical studies to define the economic case for the company's planned re-start of the old Cleveland Tin Mine.

The Cleveland Project already hosts a large suite of JORC Mineral Resources:

- 1. 7.47Mt of tin and copper hard-rock Mineral Resources
- 2. 3.70Mt of tin and copper tailing Ore Reserves,
- 3.97Mt tungsten Inferred Mineral Resource

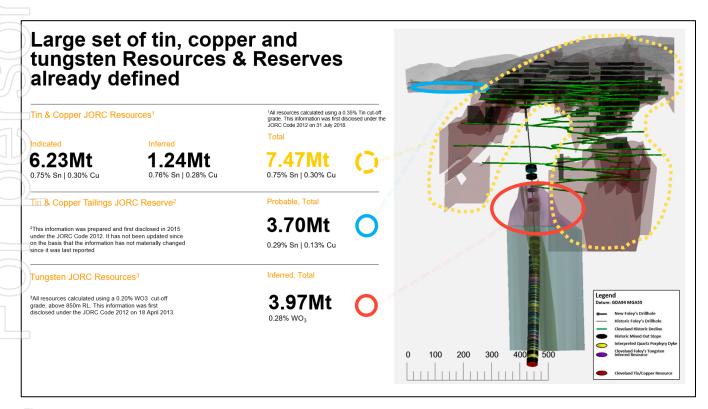

Figure 4. Cross-section depicting location of the known tungsten and tin, copper mineral resources at Cleveland.

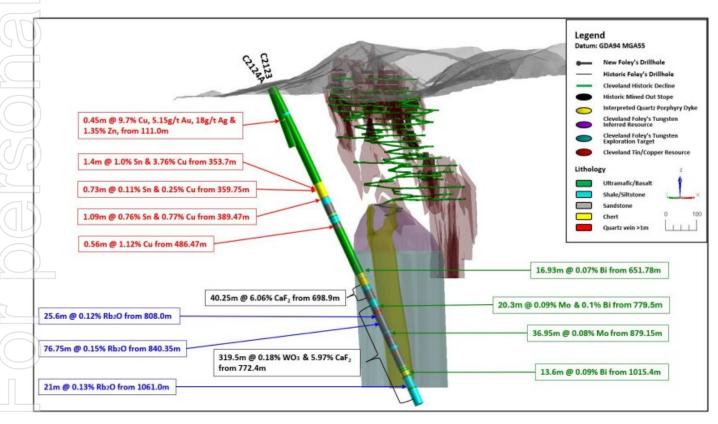

The Cleveland tin mine continues to prove-up more base, precious and critical minerals with FY2025 exploration drilling into the Tungsten Exploration Target intersecting significant mineralisation previously unknown, including:

- 1. Rubidium
- 2. Fluorite (aka Fluorspar, Fluorine)
- 3. Molybdenum
- 4. Bismuth

### Cleveland emerges as multi-commodity play with improved economic potential

Cleveland emerged as more than just a tin (and copper) project during the first half of the financial year with the unexpected discovery of a suite of critical minerals potentially amplifying possible future economic outcomes for the development considerably.

C2123 was drilled from a new location at a new orientation to historical drilling to test for extensions within the highly prospective "Foleys Zone" lying beneath the Cleveland Mineral Resource. In July 2024, additional high-grade tin and copper mineralisation was intersected in diamond drill hole C2124A which was completed to 1,122m - 1.4m @ 1.0% Sn and 3.76% Cu from 353.7m including: 0.6m @ 1.9% Sn and 7.69% Cu from 353.7m. A second zone of similar, yet lower grade mineralisation was also encountered - 0.73m @ 0.11% Sn & 0.25% Cu from 359.75m.

**Figure 5.** Cross-section depicting location of the significant assay data for drill hole C2124A in relation to the known tungsten and tin, copper mineral resources and underground infrastructure at Cleveland (looking from the southeast).

These C2124A intercepts are significant because they are interpreted to likely represent the discovery of a new zone/lens of tin-copper mineralisation (not an extension), separated yet adjacent to the northwest of the current JORC tin and copper resource.

Drilling costs were co-funded by the Tasmanian Government which committed \$70,000 from its Exploration Drilling Grant Initiative program.

Notably, in October 2024, Elementos reported that assays returned by drill hole C2124A had also confirmed a suite of high-value critical minerals - fluorspar/fluorite, molybdenum, bismuth, and rubidium (as rubidium carbonate), a rare and unique mineral which trades around US\$1.1 million/tonne.

Assays also encountered large tungsten mineralisation over 465.9m (above a cut-off grade of 0.1%) including a single continuous zone of **319.5m** @ **0.18% WO**<sub>3</sub> from 772.4m (downhole). The substantial grade and intensity are globally significant. This is despite the fact the hole drifted slightly at depth and missed the ultimate porphyry dyke target (historically intersected) leaving potential further upside for the mineralisation, grades and the project.

### Foleys Zone Resource Estimate

The last JORC mineral resource estimate for the Foleys Zone tungsten resource was reported in 2018 and was based on historical data dating back to when Aberfoyle Ltd closed the Cleveland Mine in 1986. More recent exploration drilling by Elementos has identified extensions to the zone of tungsten mineralisation within the Foleys Zone and has provided additional information regarding the orientation and location of the tungsten mineralised zone. A process to determine an updated Mineral Resource Estimate and Exploration Target has commenced on the Foleys Zone tungsten mineralisation and will be re-reported upon its completion.

# **Corporate**

### **Cash Position**

At 30 June 2025, cash at bank totalled \$4,430,942 and the company had on issue 294,409,546 Shares, 29,795,908 unlisted options at various prices and 4,980,000 unlisted performance rights.

### \$5.0 million Strategic Placement to Metals X

On 19 May 2025, Elementos announced that it had entered into a binding agreement with Metals X Limited ACN 110 150 055 (ASX: MLX) (Metals X) to raise \$5.0 million by way of a strategic private placement at an issue price of \$0.0848 per new fully paid ordinary share in the Company (Strategic Placement).

The proceeds of the Strategic Placement will assist the funding and continued development of our Oropesa Tin Project in Spain towards Final Investment Decision and the continued re-development of our Cleveland Tin Project in Tasmania, as well as general company expenses.

Metals X is Australia's largest tin producer and has been listed on the ASX since August 2004, with a market capitalisation of approximately \$483 million. As at the date of this report, Metals X owns a 50% equity interest in the Renison Tin Operation comprising the Renison Tin Mine and the Mount Bischoff Project. Metals X also has multiple other investments in companies undertaking exploration and development of tin, gold and base metals projects in Australia. For more information, please visit www.metalsx.com.au.

### Appointment of Directors

In accordance with the terms of the agreement with Metals X, Elementos appointed current Metals X Executive Director, Mr Brett Smith, and current Metals X CFO, Mr Daniel Broughton, as additional directors of the Company.

Mr Smith is an experienced mining and corporate executive, having managed engineering and construction companies in Australia and internationally. He has developed and delivered a number of mining and mineral processing projects including coal, iron ore, base and precious metals. He currently serves on the board of a number of publicly listed and private mining companies and has over 32 years international experience in the engineering, construction and mineral processing businesses.

Mr Broughton has over 18 years' experience with financial operations of listed mining companies. He is a director of a private mining company, and serves as the CFO on a number of publicly listed companies. He graduated with a Bachelor of Commerce from Murdoch University, Western Australia in 2005 and obtained a Graduate Diploma of Chartered Accounting from The Institute of Chartered Accountants, Australia in 2010.

### 2024 Capital raise

Total funds raised under the August 2024 Placement and subsequent Entitlement Offer was \$3,837,217 (before costs).

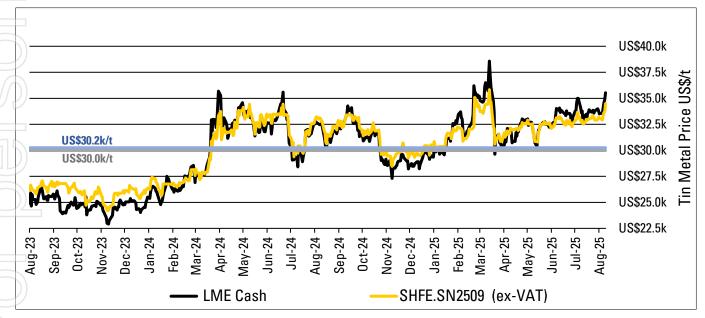

### Tin pricing

Tin prices remained notably elevated and demonstrated strong resilience throughout FY25, supported by ongoing supply-side challenges and steady demand growth. Over the full 12-month period, LME tin prices held well above long-term averages, having averaged over US \$30,000 per tonne on average over a 2-year period and closing the financial year at US\$33,845 per tonne on LME.

Supply dynamics continued to shape sentiment across the tin market. Myanmar's Wa State operations remained mostly offline, which restricted ore flows into China. Indonesian refined tin exports were disrupted by regulatory reforms and port congestion, resulting in a sustained reduction of supply to the seaborne market. In the Democratic Republic of Congo, Alphamin's Bisie mine, which contributes more than six per cent of global output, was forced to temporarily halt production due to regional conflict. Although operations resumed a month later, second-quarter production came in approximately 21 per cent below target, prompting the company to revise its annual forecast downwards. Chinese smelters in Yunnan and Jiangxi also faced ongoing feedstock shortages, despite ramping up ore supply from Africa, with utilisation levels falling below 50 per cent during some periods, which further tightened the availability of refined tin metal and added pressure to international markets.

Demand trends provided an important counterbalance. The global electronics sector staged a gradual recovery, supported by growth in semiconductor output, renewable energy and electric vehicle manufacturing. Solder consumption, which represents more than half of total tin demand, showed clear signs of expansion alongside the rebound in electronics production. Commentary from the International Tin Association (ITA) and BMI Research supported a constructive long-term outlook, with the ITA forecasting a global tin shortfall of approximately 13,000 tonnes by 2030 and BMI projecting that structural tightness will emerge as early as 2028 due to under-investment and geopolitical instability in key producing regions.

Overall, FY25 tin pricing highlighted a metal market that is strategically tight and highly sensitive to geopolitical and operational risks. Prices remained elevated throughout the year, supported by limited supply, strong physical demand and slightly improving end-use sectors. Industry forecasts point towards a deepening supply deficit over the coming years, reinforcing a positive outlook for the tin sector.

**Figure 6.** Tin Price Movements on LME & SHFE (SHFE.SN2508 ex-VAT) over the last 22-months, including movements during the Quarter.

### Post year

### New \$2.0 million loan facility established, after repayment of Chairman's outstanding \$1.0 drawn loan

Subsequent to the period ending, Elementos Limited repaid the drawn \$1.0m amount from the previous announced unsecured Loan Facility with the company's largest shareholder and Non-Executive Chairman, Mr Andy Greig. The company has entered a new two-year \$2.0m facility with Mr Andy Greig at the same terms.

The key terms of the new Facility include:

- Maximum loan value of AUD\$2.0M for a maximum term of 24 months
- Ability to draw down in minimum tranches of \$250,000 at the company's discretion
  - Interest rate of 6% per annum on drawn funds, no fees on undrawn funds
- Unsecured and no conversion rights
- No requirement for the company to repay principal or interest during the loan term
  - Repayable by Elementos at any time during the loan term

# **Environmental, Social and Governance**

Following Elementos' initial Environmental, Social and Governance (ESG) Position Statement in 2021, the company has made further commitments to developing its global tin assets in a responsible way.

### Elementos has subsequently progressed in the following manner:

- ✓ Worked closely with the Andalucia Administration to modify key layout and disturbance aspects of the Environmental Impact Study, Exploitation Licence and Restoration Plan for the Oropesa Project in Spain which is designed to comply with European regulations and OECD guidance.
- Continued to improve long-term relationships with the communities in which we operate and committed to the economic development of the mine via our application for the Oropesa Exploitation licence.
- Established an interactive dialogue with Environmental experts at the University of Cordoba, who have in-depth
   expertise in the flora and fauna of the local project area.

Elementos will continue to monitor the evolving ESG landscape and ensure its ESG commitments remain relevant and effective in a changing environment.

### Revised Tin Code Reporting Plan

In FY2023 the company made the decision to delay its reporting against the tin code for a period of time, to ensure it has the adequate time and resources to deliver a suitable submission aligned with its projects environmental commitments. During FY2024 the company was engaged in detailed negotiations with the Andalucian Administration, for the majority of the period, regarding modifications to the project layout and disturbance areas and therefore decided whilst the project scope was being ammended it was not the prudent time to progress tin code reporting. The company maintains it's target of reporting against the Tin Code, but will maintain optionality as to when it decides to commence reporting.

### **Background on the Tin Code**

The Tin Code ESG reporting tool has 10 Principles supported by more than 70 Standards. These standards are specific to various tiers of the supply chain, with many being relevant to mine operators and others to smelters or secondary recycling companies and vice-versa. Company evidence for each standard is independently evaluated by an external assessor against a range of indicators to demonstrate progressive improvement with an expectation to achieve conformance in priority areas and to increasingly make use of assurance for further validation. This approach has been adopted to provide an opportunity for positive change among all operators.

The Tin Code reflects leading ESG standards & international expectations including;

- ISO (14001, 9001, 45001, 37001)
- OECD Guidance for responsible supply chains
- ILO Convention standards
- RMI Risk Readiness Assessment
- Investor expectations & more

The Tin Code is accepted and recognised by leading external organisations:

- LME passport listed multi-dimensional ESG reporting tool
- LME Responsible Sourcing Standard 7.3 conditionally approved for 'Track A'
- IRMA Initiative for Responsible Mining Assurance (IRMA)
- Responsible Steel recognition in progress
- TO BSM | MOSIBOL 10 L ICMM Mining Principles – equivalency in progress

Tenement Interests							
Elementos Limited h	eld the following inte	erests in tenen	nents as at the da	ate of this report:			
Tenement Name	Tenement Number	Area (km²)	ELT Interest	Tenement Location			
Cleveland	EL7/2005	60	100%	Tasmania, Australia			
Oropesa	13.050	13	100% <sup>1</sup>	Andalucia, Spain			

1 Elementos currently holds 100% of the project. Noting that SPIB (a local Spanish drilling company) continues to hold rights to convert to a 4% holding of the Spanish project subsidiary on its election at Final Investment Decision (FID) for the projects and a 1.35% Net Smelter Royalty.

Elementos Limited has been provisionally awarded the following three tenement interests in Spain as at the date of this report, subject to final legal award<sup>2</sup>.

Tenement Name	Tenement Number	Area (km²)	ELT Interest	Tenement Location
Laurencia	13050_2	4.2	100%	Andalucia, Spain
Pascuala	13050_3	9.9	100%	Andalucia, Spain
San Jose	12841 0	21	100%	Andalucia, Spain

# **Resources and Reserves**

## Oropesa Project

### Total Tin Metal Resource (at 0.15% Sn cut-off)

30 June 2024 and 30 June 2025 - unchanged

1	Category	ategory Tonnage (Kt)		Contained Sn (t)
L	Measured	7,418	0.36	26,801
	Indicated	11,113	0.41	45,012
	Sub: Measured & Indicated	18,532	0.39	71,813
Ţ	Inferred	1,071	0.38	4,021
	Total	19,602	0.39	75,834

Feb-2023 Oropesa Mineral Resource Estimate at a 0.15% Sn cut-off Table subject to rounding errors; Sn = tin

See ASX Release on 14th February 2023 "Oropesa Tin Project – 2023 Mineral Resource Update"

### Ore Reserve Estimate (at 0.15% Sn cut-off)

30 June 2025

Category	Tonnage (Mt)	Sn Grade %	Contained Sn (t)	Reserve Contribution (%)
Proved	6.1	0.34	21,028	38
Probable	9.8	0.35	36,866	62
Total	15.9	0.36	57,894	100

### Notes:

- 1. All figures are rounded to reflect appropriate levels of confidence, apparent differences in totals may occur due to rounding.
- A cut -off grade of 0.15% Sn has been applied.
- 3. Tonnages are expressed on a ROM basis, incorporating the effects of mining losses and dilution.
- 4. The reference point at which these ore reserves are defined is as the ore is delivered to the ROM Pad.

The following summary statements are made in relation to the Ore Reserve:

- This is a maiden declaration of the Ore Reserves for the Oropesa Tin Project with no previous estimate having been made.
  - The JORC Ore Reserve Estimate for the Oropesa Tin Project has been prepared in accordance with the guidelines of the JORC Code (2012), providing a detailed assessment of the project's economically mineable material. The estimate is based on a DFS, incorporating geological modelling, resource classification, mine design and scheduling, metallurgical test work, environmental impact studies and financial evaluations.
- Oropesa Tin Project is a significant tin deposit with reserves classified as Proved and Probable, demonstrating technical and economic viability for open-cut mining over a 12-year operating mine life.
- The estimation process considers modifying factors such as mining recovery, dilution, processing recoveries, and commodity pricing to ensure a high level of confidence in the reported Ore Reserves.
- The Ore Reserves estimated tonnage of 15.9Mt is 81% of the MRE (19.6Mt).
- No Inferred resources are included in the Ore Reserves.

See ASX Release dated 4 April 2025 - Oropesa Tin Project: Definitive Feasibility Study (DFS) Results and Maiden Ore Reserves Statement

### Total Zinc Metal Resource (at 0.05% Zn cut-off)

30 June 2024 and 30 June 2025 - unchanged

Category	ory Tonnage (Kt)		Contained Zn (t)
Measured	8,664	0.37	31,670
Indicated	14,053	0.39	54,356
Sub: Measured & Indicated	22,717	0.38	86,026
Inferred	1,028	01.32	13,545
Total	23,745	0.42	99,571

Nov-2023 Oropesa Mineral Resource Estimate at a 0.05% Zn cut-off

Table subject to rounding errors; Zn = zinc

See ASX Release dated 29 November 2023 - Maiden Zinc Mineral Resource at Oropesa Tin Project.

### **Cleveland Project**

### Total Tin-Copper Mineral Resource (at 0.35% Sn cut-off)

30 June 2024 and 30 June 2025 – unchanged

Category	Tonnage (Mt)	Sn Grade %	Contained Sn (t)	Cu Grade %	Contained Cu (t)
Indicated	6.23	0.75	46,700	0.30	18,700
Inferred	1.24	0.76	9,400	0.28	3,500
Total					

Table subject to rounding errors; Sn = tin, Cu = copper

### Tailings Ore Reserve (at 0% Sn cut-off)

30 June 2024 and 30 June 2025 – unchanged

Ľ	Category	Tonnage (Mt)	Sn Grade %	Contained Sn (t)	Cu Grade %	Contained Cu (t)
	Probable	3.70	0.29	11,000	0.13	5,000

Table subject to rounding errors; Sn = tin, Cu = copper

### Tungsten Mineral Resource - Above 850RL (at 0.20% W03 cut-off)

30 June 2024 and 30 June 2025 – unchanged

Category	Tonnage (Mt)	W0₃ Grade %	Contained W0 <sub>3</sub> (t)
Inferred	4.00	0.30	12,000

Table subject to rounding errors; WO3 = tungsten oxide

### Tungsten Exploration Target – Below 850RL (at 0.20% W03 cut-off)

30 June 2024 and 30 June 2025 - unchanged

Category	Tonnage (Mt)	W0₃ Grade %	Contained W0 <sub>3</sub> (t) Range
Inferred	15-24	0.24-0.30	36,000-72,000

Table subject to rounding errors; WO<sub>3</sub> = tungsten oxide

The potential quantity and grade of the Exploration Target is conceptual in nature and therefore is an approximation. There has been insufficient exploration to estimate a Mineral Resource, and it is uncertain if further exploration will result in the estimation of a Mineral Resource.

The Group regularly reviews its Mineral Resources and Reserves to assess their reasonableness, engaging suitably qualified competent person/s where required. A summary of the governance and controls applicable to the Group's Mineral Resources and Reserves processes is as follows:

- Review and validation of drilling and sampling methodology and data spacing, geological logging, data collection and storage, sampling
   and analytical quality control;
  - Geological interpretation review of known and interpreted structure, lithology and weathering controls;
  - Estimation methodology relevant to mineralisation style and proposed mining methodology;
- Comparison of estimation results with previous mineral resource models, and with results using alternate modelling methodologies;
- Visual validation of block model against raw composite data; and
- Peer review by senior company personnel and independent consultants as required.

### **Competent Persons Statement**

The information in this report that relates to the Annual Mineral Resources and Ore Reserves Statement, Exploration Results and Exploration Targets is based on information and supporting documentation compiled by Mr Chris Creagh, who is an employee to Elementos Ltd. Mr Creagh is a Competent Person who is a Member of the Australasian Institute of Mining and Metallurgy and who consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

Mr Creagh has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (JORC Code 2012).

The information in this report that relates to Processing and Metallurgy for the Oropesa Tin Project is based on and fairly represents information and supporting documentation compiled by Chris Creagh, who is an employee to Elementos Ltd. Mr Creagh is a Competent Person who is a Member of the Australasian Institute of Mining and Metallurgy and who consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

Mr Creagh has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (JORC Code 2012). The Australian Securities Exchange has not reviewed and does not accept responsibility for the accuracy or adequacy of this release.

# **Cautionary Statements**

### Forward-looking statements

This report contains a series of forward-looking statements. The words "expect", "potential", "intend", "estimate" and similar expressions identify forward-looking statements. Forward-looking statements are subject to known and unknown risks and uncertainties that may cause the actual results, performance or achievements to differ materially from those expressed or implied in any of the forward-looking statements in this release that are not a quarantee of future performance.

Statements in this release regarding the Elementos business or proposed business, which are not historical facts, are forward-looking statements that involve risks and uncertainties. These include Mineral Resource Estimates, metal prices, capital and operating costs, changes in project parameters as plans continue to be evaluated, the continued availability of capital, general economic, market or business conditions, and statements that describe the future plans, objectives or goals of Elementos, including words to the effect that Elementos or its management expects a stated condition or result to occur. Forward-looking statements are necessarily based on estimates and assumptions that, while considered reasonable by Elementos, are inherently subject to significant technical, business, economic, competitive, political and social uncertainties and contingencies. Since forward-looking statements address future events and conditions, by their very nature, they involve inherent risks and uncertainties. Actual results in each case could differ materially from those currently anticipated in such statements. Investors are cautioned not to place undue reliance on forward-looking statements.

Elementos has concluded that it has a reasonable basis for providing these forward-looking statements and the forecast financial information included in this Presentation. This includes a reasonable basis to expect that it will be able to fund the development of the Oropesa Tin Project upon successful delivery of key development milestones. The detailed reasons for these conclusions are outlined throughout this ASX release and in Appendix 1 (JORC Code 2012, Table 1. Consideration of Modifying Factors) contained in the announcement released to the ASX on 29 March 2022. All material assumptions and technical parameters underpinning the production target and forecast financial information contained in the Study continue to apply and have not materially changed.

While Elementos considers all of the material assumptions to be based on reasonable grounds, there is no certainty that they will prove to be correct or that the range of outcomes indicated by the Study will be achieved. To achieve the range of outcomes indicated in the Study, pre-production funding in excess of US\$86m will likely be required. There is no certainty that Elementos will be able to source that amount of funding when required. Discussions with potential funders have confirmed that a project of this scale will be able to be funded with a combination of Debt and Equity. The company is confident that the capital costs are sufficiently low that raising the required equity will be possible. The company continues to have the full support of its existing largest shareholders and is working with potential offtake partners, brokers, senior debt providers, private equity firms and traditional funders to ensure that the Company will be in a position to fund the project as needed. It is also possible that such funding may only be available on terms that may be dilutive to or otherwise affect the value of Elementos' shares. It is also possible that Elementos could pursue other value realisation strategies such as a sale, partial sale or joint venture of the Oropesa Tin Project. This could materially reduce Elementos' proportionate ownership of, and corresponding funding liability, for the Oropesa Tin Project.

The inclusion of such statements should not be regarded as a representation, warranty or prediction with respect to the accuracy of the underlying assumptions or that any forward-looking statements will be or are likely to be

fulfilled. Elementos undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date of this document (subject to securities exchange disclosure requirements).

The information in this document does not take into account the objectives, financial situation or particular needs of any person or organisation. Nothing contained in this document constitutes investment, legal, tax or other advice.

### Mineral Resources, Ore Reserves and Production Targets

The information in this report that relates to the Mineral Resources and Ore Reserves were last reported by the company in compliance with the 2012 Edition of the JORC Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. The Mineral Resources, Ore Reserves, production targets and financial information derived from a production target were included in market releases dated as follows:

- 1. Cleveland JORC Resource Significantly Expanded, 5 March 2014 (tungsten resource)
- 2. Cleveland Tailings Ore Reserve, 3 August 2015
- 3. Substantial increase in Cleveland Open Pit Project Resources following revised JORC study, 26 September 2018
- 4. Oropesa Tin Project Mineral Resource Estimate, 8 November 2021
- 5. Optimisation Study Oropesa Tin Project, 29 March 2022
- 6. Oropesa Tin Project 2023 Mineral Resource Update, 14 February 2023
- 7. Maiden Zinc Mineral Resource at Oropesa Tin Project, 29 November 2023
- 8. Oropesa Tin Project: Definitive Feasibility Study (DFS) Results and Maiden Ore Reserves Statement, 4 April 2025

### References to Previous Releases

- 1. 29 November 2023, Maiden Zinc Mineral Resource at Oropesa Tin Project
- 2. 14 February 2023, Oropesa Tin Project 2023 Mineral Resource Update
- 3. 10 March 2022, Government support for Oropesa Tin Project
- 3 August 2023; Elementos confirms zinc mineralisation and by-product potential at Oropesa Tin Project
- 5 29 November 2023, Maiden Zinc Mineral Resource at Oropesa Tin Project
- 6. 14 February 2023, Oropesa Tin Project 2023 Mineral Resource Update
- 7. 29 October 2013, Cleveland Project Tungsten Potential
- 8. 26 September 2018, Substantial Increase in Cleveland Open Pit Project Resources following Revised JORC Study
- 9. 3 March 2023, Fluorite Confirmed at Cleveland Project
- 10. 20 June 2023, Update on Regulatory Approvals and DFS
- 11. 15 May 2024, Approvals & DFS to Resume at Oropesa Tin Project
- 12. 16 May 2024, Tin and Tungsten drilling commences at Cleveland Tin Project
- 13. 13 June 2024, Agreement for 50% interest in Operating Spanish Tin Smelter
- 14. 18 June 2024, High Grade Copper & Gold intersected at Cleveland Project
- 15. 10 July 2024, Additional High Grade Tin & Copper hit at Cleveland Project
- 16. 1 August 2024, Placement and Entitlement Offer Commitments Raises \$3.0m

The company confirms that it is not aware of any new information or data that materially affects the information included in the market announcements referred above and further confirms that all material assumptions underpinning the production targets, forecast financial information derived from a production target and all material assumptions and technical parameters underpinning the Ore Reserve and Mineral Resource statements contained in those market releases continue to apply and have not materially changed.

# **Directors' Report**

# **Directors' Report**

The directors submit their report on the consolidated entity ("Group") consisting of Elementos Limited and the entities it controlled at the end of, and during, the financial year ended 30 June 2025.

### **Directors**

The following persons were directors of Elementos Limited during the financial year and up to the date of this report, unless otherwise stated:

Mr Andy Greig Mr Joe David Mr Corey Nolan Mr CalvinTreacy Mr Brett Smith (appointed 23 May 2025) Mr Daniel Broughton (appointed 23 May 2025)

### Information on Directors

The board has a strong combination of technical, managerial and capital markets experience. Expertise and experience includes operating and mineral exploration in Australia. The names and qualifications of the current directors are summarised as follows:

### **Andy Greig**

Non-Executive Chairman

Mr Greig (GDipBus (Monash); Fellow, ATSE) retired from the Bechtel Group, Inc., the globally renowned engineering, construction, and project management company, in 2015 after a 35-year career. Mr Greig was a director of Bechtel Group, Inc. for 5 years, and for 13 years through until 2014; the President of its Mining and Metals Global Business Unit.

Mr Greig has deep experience in the engineering and construction of large mining and minerals processing projects around the world. He is a business graduate of Monash University, and a Fellow of the Australian Academy of Technological Sciences and Engineering.

Mr Greig has not held any other (ASX listed) directorships in the last three years.

### Joe David

Managing Director

Mr David joined Elementos as Chief Executive Officer in April 2021 and was appointed Managing Director in January 2022.

His career has spanned executive roles with private equity, listed and private mining companies, an Associate Director within M&A advisory as well running his own project development consulting company. He has managed the development of natural resource projects, bankable feasibility studies, exploration and metallurgical programs, project financing, corporate finance advisory, corporate strategy, and mergers and acquisitions.

Mr David is a Mining Engineer (AusIMM), Civil Engineer and holds a Commerce Degree in Finance.

Mr David is a member of the ESG Committee.

Mr David has not held any other (ASX listed) directorships in the last three years.

### **Corey Nolan**

Non-executive Director

Mr Nolan is an accomplished public company director whose 30-year career in the resources industry started on the ground in operations before spanning a broad range of corporate roles from equities analyst and corporate finance director to a number of senior executive and board positions.

As Managing Director of ASX listed Platina Resources Limited since August 2018, he has been instrumental in restructuring the company's project portfolio, which has included the acquisition, funding, exploration and development of new assets.

Prior to Platina, Mr Nolan was Chief Executive Officer at Sayona Mining Limited where he led the acquisition and development of the Authier Lithium Project in Canada and chartered a substantial growth in the company's market capitalisation.

Mr Nolan's qualifications include a Bachelor of Commerce, Masters Degree in Mineral and Energy Economics and graduate diploma from the Australian Institute of Company Directors.

Mr Nolan is chairman of the Audit and Risk Committee.

During the past three years, Mr Nolan has also served as a director of ASX listed company Platina Resources Limited (August 2018 to current).

### CalvinTreacy

Non-executive Director

Mr Treacy (BEng, MBA, MAICD) has over 20 years senior management experience in mining, mining technology and manufacturing. He has a strong track record of founding and growing companies, and brings a wealth of experience in the areas of strategic planning and capital raising.

Mr Treacy is a qualified Mechanical Engineer and holds a Masters of Business Administration, with extensive experience across a range of industries and positions.

Mr Treacy has worked in a range of roles including Non-executive Director, Chief Executive Officer, Chief Operating Officer and Production Manager, providing a blend of experience from hands-on management through to executive oversight and strategic management.

Mr Treacy is a member of the Audit and Risk Committee and chairman of the ESG Committee.

Mr Treacy has not held any other (ASX listed) directorships in the last three years.

### **Brett Smith**

Non-executive Director (appointed 23 May 2025)

Mr Smith has over 30 years' experience in the resources, construction and engineering industries in senior operational and financial positions. Mr Smith is Executive Director of Hong Kong listed Dragon Mining which has operating gold mines and processing plants in both Finland and Sweden.

Mr Smith is also Deputy Chairman of Hong Kong listed resources investment company APAC Resources and Executive Director of Australian Securities Exchange listed company Metals X. Mr Smith's qualifications include a Bachelor's Degree in Chemical Engineering (Hons), a Master's Degree in Business Administration and a Master's Degree in Research Methodology.

During the past three years, Mr Smith has also served as a director of ASX-listed companies Metals X (December 2019 to present), Tanami Gold (November 2018 to present), Prodigy Gold (May 2016 to present) and Nico Resources Limited (January 2022 to present).

### **Daniel Broughton**

Non-executive Director (appointed 23 May 2025)

Mr Broughton has over 18 years' experience with financial operations of listed mining companies. Mr Broughton is a director of a private mining company, and serves as the CFO on a number of publicly listed companies. He graduated with a Bachelor of Commerce from Murdoch University, Western Australia in 2005 and obtained a Graduate Diploma of Chartered Accounting from The Institute of Chartered Accountants, Australia in 2010.

During the past three years, Mr Smith has also served as a director of ASX-listed companies Metals X (December 2019 to present), Tanami Gold (November 2018 to present), Prodigy Gold (May 2016 to present) and Nico Resources Limited (January 2022 to present).

### **Company Secretary**

Mr Duncan Cornish held the position of Company Secretary during the financial year and up to the date of this report. Mr Cornish is a Chartered Accountant with significant experience as public company CFO and Secretary, focused on junior resource companies, as well as financial, administration and governance.

Mr Cornish is an accomplished and highly efficient corporate administrator and manager. Duncan has more than 20 years' experience in the accountancy profession both in England and Australia, mainly with the accountancy firms Ernst & Young and PricewaterhouseCoopers.

He has extensive experience in all aspects of company financial reporting, corporate regulatory and governance areas, business acquisition and disposal due diligence, capital raising and company listings and company secretarial responsibilities, and serves as corporate secretary and chief financial officer of several Australian and Canadian public companies.

Mr Cornish holds a Bachelor of Business (Accounting) and is a member of the Chartered Accountants Australia and New Zealand.

### Interests in Securities

As at the date of this report, the interests of each director in shares, options and rights issued by the Company are shown in the table below:

Directors	Shares	Rights	Options
A. Greig	46,916,586	-	10,236,843
J. David	1,529,764	3,800,000	6,128,068
C. Nolan	291,136	-	20,796
C. Treacy	1,758,633	-	1,605,263
B. Smith	161,635	-	-
D. Broughton	4,000	-	-

### **Principal Activities**

The principal activity of the Group during the year was exploration and project development activity in relation to the OropesaTin Project. The Group is also exploring the Cleveland tin-copper-tungsten Project, which minimises upfront capital, with cash flow funding future stages.

### **Operating Results**

The Group's operating loss for the financial year, after applicable income tax was \$2,287,155 (2024: \$1,276,542).

### **Dividends Paid or Recommended**

There were no dividends paid or recommended during the financial year.

### **Review of Operations**

Information on the operations of the Group during the financial year and up to the date of this report is set out separately in the Annual Report under Review of Operations.

### **Review of Financial Condition**

### Capital Structure

At 1 July 2024, the Company had 194,740,085 ordinary shares, 1,200,000 performance rights and 11,040,000 unlisted options on issue.

During the period, the Company announced that it had received commitments to complete a private placement of 31,737,149 shares to be issued at \$0.095 per share with one option for every two shares, exercisable at \$0.18 by 31 January 2026. The transaction completed in two tranches as follows:

- On 12 August 2024 14,826,317 shares were issued at \$0.095 per share raising \$1,408,500 and 7,413,161 options.
- On 3 December 2024, following shareholder approval at the Annual General Meeting, 16,910,832 shares were issued at \$0.095 per share raising \$1,606,529 and 8,455,417 options. Of this amount \$1,035,178 was used to offset the outstanding loan balance and accrued interest with the Company's Non-Executive Chairman, Mr Andy Greig (see Note 10), through the issue of 10,896,611 shares and 5,448,306 options.

On 18 October 2024, the Company announced the completion of an entitlement offer which resulted in 8,654,614 shares issued at \$0.095 per share raising \$822,188 and the issue of 4,327,330 options exercisable at \$0.18 by 31 January 2026.

On 3 December 2024, following shareholder approval at the Annual General Meeting, the Managing Director was issued 1,000,000 shares for nil consideration.

On 19 May 2025, the Company announced the strategic placement to Metals-X to raise a total of \$5,000,000 through the issue of 58,962,264 ordinary shares at \$0.848 per share to complete in two stages:

- On 23 May 2025, 58,277,698 ordinary shares were issued at \$0.0848 per share.
- On 17 July 2025, 684,566 ordinary shares were issued at \$0.0848 per share following shareholder approval.

At 30 June 2025, the Company had 294,409,546 ordinary shares, 4,980,000 performance rights and 29,795,908 unlisted options on issue.

As at the date of this report, the Company had 295,094,112 ordinary shares, 4,980,000 performance rights and 29,795,908 unlisted options on issue.

### Financial Position

At 30 June 2025, the Group's net assets totalled \$28,146,413 (2024: \$19,964,616) which included cash assets of \$4,430,942 (2024: \$503,214).

The Group's working capital, being current assets less current liabilities has increased from a deficit of \$201,701 at 30 June 2024 to a surplus of \$3,148,630 at 30 June 2025, principally due to successful capital raisings during the period less ongoing exploration and evaluation expenditure and operating costs.

### **Treasury policy**

The Group does not have a formally established treasury function. The Board is responsible for managing the Group's finance facilities. The Group does not currently undertake hedging of any kind.

### Liquidity and funding

The Group has sufficient funds to finance its operations and exploration activities, and to allow the Group to take advantage of favourable business opportunities, not specifically budgeted for, or to fund unforeseen expenditure.

### Significant Changes in State of Affairs

There was no significant changes in the state of affairs of the Group in the financial year.

### **Events After Reporting Date**

Subsequent to the reporting period the following occurred:

- On 17 July 2025, 684,566 ordinary shares were issued at \$0.0848 per share as completion of the strategic placement with Metals-X.
- During July 2025, the Company repaid the outstanding balance of \$1,019,890 (inclusive of interest) to Mr Andrew Greig under the existing loan facility. The Company and Mr Greig entered into a new loan facility on the same terms with a maturity date of 21 July 2027.

Other than the events noted above, there are no other matters or circumstances that have arisen since the end of the year which significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial years.

### Environmental Issues

The Group is subject to significant environmental regulations under the laws of the Commonwealth of Australia and states of Australia in which the Group currently operates. In addition, the Group is subject to the environmental regulations of the Central Government of Spain, Government of Andalucia, Cordoba Province of Andalucia, Fuente Obejuna municipality and to a lesser extent the European Union in relation to the OropesaTin Project.

The directors monitor the Group's compliance with environmental obligations. The directors are not aware of any compliance breach arising during the year and up to the date of this report.

In addition, in 2021 the company established an Environmental, Social and Governance (ESG) Position Statement as part of its desire to maturing its global tin assets into production in a responsible way. The company made further commitments to commence reporting against the Tin Code in 2023, the company has subsequently decided to delay its reporting until it is closer to receiving its Environmental Licences. The company has resolved that seeking to report against the Tin Code as a development project was not a prudent use of the company's resources or Management's time, with the focus in 2025 being dedicated to submitting it's Primary Licence applications with the Andalucian Government. The company plans for the ESG sub-committee to revisit this reporting commitment during the 2026 financial year.

### **Native Title**

Mining tenements that the Group currently holds, are not subject to any known NativeTitle claims. The Group has a policy that is respectful of the NativeTitle rights and therefore surveys sites before disturbance for archaeological items.

	rt for the year ended 30 June 2025
Remuneration Report (Audited)	
This report details the nature an	nd amount of remuneration for each director and other key management personnel
The names of key management	personnel of Elementos Ltd who have held office during the financial year are:
	,
Key Management Personnel	Position
Key Management Personnel Andy Greig	Position  Director – Non-executive Chairman
Andy Greig	Director – Non-executive Chairman
Andy Greig Joe David	Director — Non-executive Chairman  Managing Director
Andy Greig Joe David Corey Nolan	Director – Non-executive Chairman  Managing Director  Director - Non-executive
Andy Greig Joe David Corey Nolan Calvin Treacy	Director - Non-executive Chairman  Managing Director  Director - Non-executive  Director - Non-executive

The Group's remuneration policy seeks to align director and executive objectives with those of shareholders and business, while at the same time, recognising the early development stage of the Group and the criticality of funds being utilised to achieve development objectives. The board believes the current policy has been appropriate and effective in achieving a balance of these objectives.

The Group's remuneration policy provides for long-term incentives to be offered through a director and employee share option plan and also through a performance rights plan. Options and/or rights may be granted under these plans to align directors', executives', employees' and shareholders' interests. Two methods may be used to achieve this aim, the first being performance rights and options that vest upon reaching or exceeding specific predetermined objectives, and the second being options granted with higher exercise prices (than the share price at issue) rewarding share price growth.

The board of directors is responsible for determining and reviewing the Group's remuneration policy, remuneration levels and performance of both executive and non-executive directors. Independent external advice will be sought when required. No independent external advice was sought during the current year.

### Performance-Based Remuneration

Performance-based remuneration includes both short-term and long-term incentives and is designed to reward key management personnel for reaching or exceeding specific objectives or as recognition for strong individual performance.

The short-term incentives ('STI') program is designed to align the targets of the Company with the performance of key management personnel. The STI payments are granted based on the Board assessment of the Executives performance for the period and are payable at the discretion of the Board.

Long-term incentives are comprised of share options and performance rights, which are granted from time-to-time to encourage sustained strong performance in the realisation of strategic outcomes and growth in shareholder value.

The exercise price of the options is determined after taking into account the underlying share price performance in the period leading up to the date of grant and if applicable, performance conditions attached to the share options. Subject to specific vesting conditions, each option is convertible into one ordinary share.

Performance rights are issued with performance conditions that align with strategic outcomes of the business.

The Group's policy for determining the nature and amount of remuneration of board members and key executives is set out below.

#### Non-Executive Directors

Board policy is to remunerate non-executive directors at market rates for comparable companies for time, commitment and responsibilities. The maximum aggregate amount of fees that can be paid to non-executive directors is subject to approval by shareholders at the Annual General Meeting and is not linked to the performance of the Group. The maximum aggregate amount of fees that can be paid to non-executive directors approved by shareholders is currently \$400,000. One-third, by number, of non-executive directors retires by rotation at the Company's Annual General Meeting. Retiring directors are eligible for re-election by shareholders at the Annual General Meeting of the Company. The appointment conditions of the non-executive directors are set out and agreed in letters of appointment.

Non-Executive Director fees as at 30 June 2025 were \$55,000 per annum (including superannuation where applicable) to each non-executive director. In addition, Non-Executive Directors who act as a Director of operational subsidiaries are paid an annual fee of \$15,000 per operating subsidiary.

If directors perform services for the Company that, in the opinion of the other directors, is outside the scope of the ordinary duties of the director, the Company may pay that director for those services in addition to the remuneration outlined above.

#### Executives

The remuneration structure for executives is based on a number of factors, including length of service, particular experience of the individual concerned, and overall performance of the Group. The executives receive payments provided for under an employment or service agreement, which may include cash, superannuation, short-term incentives, and equity based performance remuneration.

Joe David was appointed Chief Executive Officer (CEO) on 13 April 2021 and subsequently Managing Director on 27 January 2022. The key terms of the employment agreement with Joe David were:

- Total Fixed Remuneration of \$325,000 per annum (inclusive of superannuation);
- Short term incentive of up to 30% of base package (salary and superannuation) for the 2025 financial year, at the
  discretion of the Board, based on performance for the period; and
- 3 months' notice of termination by either party.

Drew Speedy was appointed Chief Financial Officer (CFO) on 1 April 2019. The key terms of the employment agreement with Drew Speedy are:

- Total Fixed Remuneration of \$133,808 per annum (inclusive of superannuation); and
- 90 days' notice of termination by either party.

# Remuneration Details of Key Management Personnel

	D. Speedy	300,000	5,849	20,250	9-0 ct-2024	by 31-12-2027	31-Jul-2028	INII	\$0.087

# Company Performance, Shareholder Wealth, and Director and Executive Remuneration

During the financial year, the Company has generated losses as its principal activity was mineral exploration.

The following table shows the share price of the Company since 2021 (historical comparative prices have been adjusted to reflect the 25:1 consolidation undertaken in December 2021).

	30 June 2025	30 June 2024	30 June 2023		30 June 2021
Share Price at year end (\$)	0.10	0.13	0.165	0.405	0.425
Net profit/(loss) (\$)	(654,318)	(1,575,360)	(1,481,159)	(2,522,450)	(1,773,012)

As the Company is still in the exploration and development stage, the link between remuneration, company performance and shareholder wealth is tenuous. Share prices are subject to the influence of metal prices and market sentiment towards the sector, and as such, increases and decreases might occur independent of executive performance and remuneration.

# Shares Held by Key Management Personnel

Details of shares held directly, indirectly or beneficially by key management personnel during the year ended 30 June 2025 were as follows:

Key Management Personnel	Balance at 1 July 2024	Granted as Compensation	Received on Exercise of Options / Rights	Net change other	Balance at 30 June 2025
A. Greig	26,442,901	-	-	20,473,685(2)	46,916,586
J. David	273,631	1,000,000 <sup>(1)</sup>	-	256,133 <sup>(2)</sup>	1,529,764
C. Nolan	249,545	-	-	41,591 <sup>(2)</sup>	291,136
C. Treacy	1,548,107	-	-	210,526 <sup>(2)</sup>	1,758,633
B. Smith	-	-	-	161,635 <sup>(3)</sup>	161,635
D. Broughton	-	-	-	4,000(3)	4,000

# Unlisted performance rights held by Key Management Personnel

The number of performance rights in Elementos Limited held by each key management person of the consolidated entity during the financial year is set out below. There were no rights issued post year end.

Key Management Personnel	Balance at 1 July 2024	Granted as compensation	Exercised	Expired	Balance at 30 June 2025	Total vested and exercisable at 30 June 2025
J. David	800,000	3,600,000	-	(600,000)	3,800,000	-
D. Speedy	400,000	1,080,000	-	(300,000)	1,180,000	-
	1,200,000	4,680,000	-	(900,000)	4,980,000	-

# Other transactions with Key Management Personnel

On 22 January 2024, the Company executed a loan facility with the Company's Non-Executive Chairman Mr Andy Greig, a related party, with the following terms:

- Loan amount: \$2,000,000
- Loan term: 2 years
- Interest rate: 6% on drawn funds
- Unsecured
- No conversion rights
- No requirement to repay principal or pay interest during the loan term
- Repayable by the Company at any time (during the loan term)

On 3 December 2024, the Company repaid the outstanding balance of the loan (\$1,000,000) via the participation of Mr Andy Greig in the August 2024 capital raising, and the loan facility balance was refreshed to \$2,000,000.

As at 30 June 2025, the balance outstanding was \$1,000,000. Subsequent to the reporting period the Company repaid the balance of \$1,019,890 (inclusive of interest). The Company and Mr Andrew Greig entered into a new loan facility on the same terms with a maturity date of 21 July 2027.

There were no other transactions with Key Management Personnel during the financial year.

End of Remuneration Report (Audited)

# **Options**

At the date of this report, the unissued ordinary shares of the Company under options are as follows:

# **Unlisted Options**

C. Treacy	5	4	2	2
B. Smith	N/A	N/A	N/A	N/A
D. Broughton	N/A	N/A	N/A	N/A

There were no meetings of the ESG Committee during the period.

#### **Corporate Governance**

In recognising the need for the highest standards of corporate behaviour and accountability, the directors of Elementos Limited support and, where practicable or appropriate, have adhered to the ASX Principles of Corporate Governance. The Company's corporate governance statement is set out in this Annual Report.

## **Indemnification and Insurance of Directors and Auditors**

The Company has entered into a Deed with each of the directors whereby the Company has agreed to provide certain indemnities to each director to the extent permitted by the Corporations Act and to use its best endeavours to obtain and maintain directors' and officers' indemnity insurance, subject to such insurance being available at reasonable commercial terms.

The Company has paid premiums to insure each of the directors of the Company against liabilities for costs and expenses incurred by them in defending any legal proceedings arising out of their conduct while acting in the capacity of director of the Company, other than conduct involving a wilful breach of duty in relation to the Company. The contracts include a prohibition on disclosure of the premium paid and nature of the liabilities covered under the policy.

The Company has not given an indemnity or entered into an agreement to indemnify, or paid or agreed to pay insurance premiums in respect of any person who is or has been an auditor of the Company or a related entity during the year and up to the date of this report.

# Proceedings on Behalf of the Company

No person has applied for leave of Court to bring proceedings on behalf of the Company or intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or any part of those proceedings. The Company was not a party to any such proceedings during the year.

#### **Non-Audit Services**

The auditors did not provide any non-audit services during the year (2024: Nil).

# **Future Developments and Likely Outlook**

Planned developments in the operations of the Group and the expected results of those operations in subsequent financial years has been discussed where appropriate in the Annual Report under Review of Operations.

There are no further developments of which the Directors are aware which could be expected to affect the results of Group's operations and plans, other than information which the Directors believe comment on, or disclosure of, would prejudice the interests of the Group.

#### **Business Risks**

The Company is currently developing two mineral projects, which are currently licensed for exploration, into approved mines which still require approvals, feasibility studies, finance, offtake, construction development and commissioning into operations, these activities carry inherent risks. Factors specific to the company or those which impact the market more broadly, may individually or in combination, impact the financial and operating performance of the Company. These events may be beyond the control of the Board and management of the Company.

The material risks for the company are outlined below. This summary is not an exhaustive list of all the risks that may affect the Company and its projects, nor have they been listed in any particular order of materiality.

- Exploration of in-situ minerals- the success of the Company depends on the discovery and quantification of mineralisation, positive assessment that those resources are economically mineable, access to required development capital, movement in the price of commodities, securing and maintaining title to the Company's exploration and mining tenements and licenses and obtaining all consents and approvals necessary for the conduct of its exploration and development activities. The Company undertakes extensive exploration and laboratory tests prior to establishing JORC compliant Mineral Resource and Ore Reserve estimates, with industry accepted QA/QC protocols. The Company employs qualified professionals and engages external experts to assist with the evaluation of exploration results where required and utilises third party competent persons to prepare JORC resource statements or suitably qualified senior management of the Company.
- Technical/Feasibility Studies-The company conducts technical and feasibility studies, modelling and economic reporting of its projects in conjunction with third party experts who, where required, provide Competent Person sign-off under the JORC Code and listing rules. The economic studies (Scoping Studies, Pre-Feasibility Studies & Definitive Feasibility Studies) are published as per the regulations and clearly states the risks and confidence levels associated with inputs, the confidence levels associated with capital and operating costs as well as any other material statements and the risks that remain. The Company engages adequately qualified, to the company's knowledge, external experts to assist with the development and compilation of studies and utilises third party competent persons to prepare JORC resource statements or suitably qualified senior management of the Company.
  - Regulatory Approval Risk- the Company's operations are subject to various National, State/Regional(Spain), Provincial(Spain) and local laws (including Royal Decrees in Spain), as well as other Regulations, Standards, Guidelines and Plans, including those relating to exploration/investigation(Spain), mining/exploitation(Spain), development & construction permits and licence requirements, industrial relations, environment, land access use, royalties, water, native title and cultural heritage, mine safety and occupational health. Approvals, licences and permits required to comply with such rules are subject to the discretion of the applicable government and/or regulatory body officials. No assurance can be given that the Company will be successful in acquiring and maintaining such authorisations in full force and effect without modification or revocation. To the extent such approvals are required and not retained or obtained in a timely manner or at all, the Company may be curtailed or prohibited from continuing or proceeding with exploration, development or production. The Company's business and results of operations could be adversely affected if applications lodged for exploration, environmental and mining/exploitation(Spain) licences are not granted. Mining/Exploitation(Spain) and exploration/investigation(Spain) tenements are subject to periodic renewal. The renewal of the term of a granted tenement is also subject to the discretion of the relevant Minister and/or Department. Renewal conditions may include increased expenditure and work commitments or compulsory relinquishment of areas of the tenements comprising the Company's projects. The imposition of new conditions or the inability to meet those conditions may adversely affect the operations, financial position and/or performance of the Company. The Company diligently lodges tenement annual reports and renewals and liaises closely with applicable government departments to best manage its regulatory compliance.
- Environmental all phases of mining and exploration present environmental risks and hazards. The Company's operations are subject to environmental regulations pursuant to a variety of national, state/regional(Spain), Provincial(Spain) and local laws and regulations. Environmental legislation provides for, among other things, restrictions and prohibitions on spills, releases or

emissions of various substances produced in association with exploration and mining operations. Compliance with such legislation can require significant expenditures and a breach may result in the imposition of fines and penalties, some of which may be material. Environmental legislation is evolving in both Australian and Spain in a manner expected to result in stricter standards and enforcement, larger fines and liability and potentially increased capital expenditures and operating costs. Environmental assessments of proposed projects carry a heightened degree of responsibility for companies and directors, officers and employees. The Company assesses each of its projects very carefully with respect to potential environmental issues, in conjunction with specific environmental regulations applicable to each project, prior to commencing field exploration and in great details when submitting its Environmental applications to support mining operations.

- **Safety** safety is of critical importance in the planning, organisation and execution of the Company's exploration, development and planned mining activities. The Company is committed to providing and maintaining a working environment in which its employees are not exposed to hazards that will jeopardise an employee's health, safety or the health and safety of others associated with the Company. The Company recognises that safety is both an individual and shared responsibility of all employees, contractors and other persons involved with the operation of the organisation. The Company has a Safety and Health Management system which is designed to minimise the risk of an uncontrolled safety and health event and to continuously improve the safety culture within the organisation. In addition, all contractors and consultants are inducted to site when they are performing activities deemed a risk to themselves or others. This is supported by a culture which supports all personnel feeling they are free to report incidents or risks without worrying about persecution.
- Contractual -The transition from exploration, through construction and onto operations presents a range of contractual risks that can materially impact project outcomes. These include uncertainties in securing and maintaining tenure over mineral rights, negotiating land access agreements, funding agreements, offtake agreements and ensuring compliance with evolving regulatory frameworks. As projects advance, risks intensify around procurement and construction contracts, particularly regarding cost overruns, delays, and contractor performance. Long-term offtake and financing agreements may also carry exposure to market volatility and counterparty risk. Additionally, variations in permitting timelines and environmental obligations can trigger renegotiations or penalties. A further layer of complexity arises from shareholder agreements, especially where minority or strategic partners are involved. These arrangements may introduce constraints on decision-making, require unanimous or supermajority approvals for key actions, have time bars, damage protections, claw-back mechanisms, differences in rights and obligations with the potential to create potential misalignments in strategic priorities or funding obligations.
- **Funding-** the Company will require additional funding to continue the exploration, development and construction of its projects before they become cashflow positive. There is no certainty that the Company will have access to available financial resources sufficient to fund its exploration, feasibility or development costs at the required points in time. Discussions with ongoing development sources of funds, and key project finance funders have confirmed that a project of these scales should be able to be funded with a combination of Debt (various types) and Equity. The company remains confident that the development capital costs are sufficiently low that raising the required equity, in conjunction with debt facilities, will be possible. The company continues to have the full support of its existing largest shareholders and is working with potential offtake partners, brokers, senior debt providers, private equity firms, government grants and traditional funders to best ensure that the Company will be in a position to fund the projects as needed. It is also possible that Elementos could pursue other value realisation strategies such as a sale, partial sale or joint venture of the projects if the opportunity presents itself.
- Macro-economic/External Risks Fluctuations in commodity prices foreign currency exchange rates have the ability to significantly affect the financial outcomes and profitability of both studies and operating mines. There can be no assurance that commodity prices will be significantly supportive so the Company can develop and mine its deposits at a profit. Commodity prices fluctuate due to a variety of factors including supply and demand fundamentals, international economic and political trends, expectations of inflation, currency exchange fluctuations, interest rates, global or regional consumption patterns and speculative activities. Similarly, demand and supply of capital and currencies, forward trading activities, relative interest rates and exchange rates and relative economic conditions can impact exchange rates.
- Potential acquisitions and investments The Company may pursue and assess other new business opportunities in the
  resource sector in order to realise benefits including complementary revenue streams and future platforms for growth. The
  identification, evaluation and negotiation of these opportunities may require significant time and effort from key management
  and employees, and may result in disruptions to the business. These new business opportunities may take the form of direct

project acquisitions, investments, joint ventures, farm-ins, acquisition of tenements, permits, downstream smelting facilities, and/or direct equity participation. Such transactions (whether completed or not) may require the payment of monies (as a deposit and/or exclusivity fee) after only limited due diligence or prior to the completion of comprehensive due diligence. There can be no guarantee that any proposed acquisition will be completed or be successful. If the proposed acquisition is not completed, monies advanced may not be recoverable, which may have a material adverse effect on the Company. The Company cannot guarantee that every acquisition or partnership that it makes or enters into will result in favourable outcomes for the business. In addition, the process of integrating new businesses or assets may require significantly more financial and management resources, or time to complete, than originally planned.

Reliance on key personnel - The Directors are primarily responsible for overseeing the operations and the strategic management of the Company. The day-to-day operations of the Company are the responsibility of the Managing Director and the team which they manage. There can be no assurance that there will be no detrimental impact on the Company if one or more of the Directors, particularly the Managing Director, no longer act as Directors of the Company.

Information technology/privacy- The Company relies heavily on its own computer systems and those of third party service providers to store and manage private and confidential information. A malicious attack on the Company's systems, processes or people from external or internal sources could put the integrity and privacy of the Company's data at risk. If the Company's efforts to combat any malicious attack are unsuccessful or the Company has actual or perceived vulnerabilities, the Company's business reputation and brand name may be harmed, potentially having a material adverse effect on the Company's operations and financial position.

Insurance- The Company insures its operations in accordance with industry practice in the countries in which it operates. However, in certain circumstances the Company's insurance may not be of a nature or level to provide adequate insurance cover. The occurrence of an event that is not covered or fully covered by insurance could have a material adverse effect on the business, financial condition and results of the Company. Insurance of all risks associated with mineral exploration and production is not always available and where available the costs can be prohibitive.

Climate change-There are a number of climate-related factors that may affect the operations and proposed activities of the Company. Climate change may be said to cause certain physical and environmental risks that cannot be predicted by the Company, including events such as increased severity of weather patterns and incidence of extreme weather events and longer-term physical risks such as shifting climate patterns. These risks said to be associated with climate change may have a direct impact on Company's ability to perform its mining operations, and may significantly change the industry in which the Company operates. In addition, changing investor sentiment towards climate change, including a view that all mining should be avoided due to its contribution to greenhouse gas emissions (despite the reliance on the various metals by the renewables sector) and, thus, cause investors to cease investing in mining and exploration entities, may have a significant adverse effect on the Company's ability to secure additional funding and other ancillary products and services (including, for example, appropriate insurance at affordable prices).

## Auditor's Independence Declaration

The lead auditor's independence declaration under section 307C of the Corporations Act 2001 is attached to this financial report.

Signed in accordance with a resolution of the board of directors.

Joe David Managing Director

Dated 30 September 2025 Brisbane, Queensland

# **Auditor's Independence Declaration**

Tel: +61 7 3237 5999 Fax: +61 7 3221 9227 www.bdo.com.au Level 10, 12 Creek Street Brisbane QLD 4000 GPO Box 457 Brisbane QLD 4001 Australia

# DECLARATION OF INDEPENDENCE BY ANTHONY WHYTE TO THE DIRECTORS OF ELEMENTOS LIMITED

As lead auditor of Elementos Limited for the year ended 30 June 2025, I declare that, to the best of my knowledge and belief, there have been:

- No contraventions of the auditor independence requirements of the Corporations Act 2001 in relation to the audit; and
- 2. No contraventions of any applicable code of professional conduct in relation to the audit.

This declaration is in respect of Elementos Limited and the entities it controlled during the period.

There is not a current on-market buy-back in place.

# (g) Business objectives

The G The Group has used its cash and assets that are readily convertible to cash in a way consistent with its business objectives.

# **Corporate Governance Statement**

The board of directors of Elementos Limited is responsible for the corporate governance of the consolidated entity. The Board guides and monitors the business and affairs of Elementos Limited on behalf of the shareholders by whom they are elected and to whom they are accountable.

Elementos Limited's Corporate Governance Statement (which can be found on the Company's website www.elementos.com.au) is structured with reference to the Australian Securities Exchange ("ASX") Corporate Governance Council's (the "Council") "Corporate Governance Principles and Recommendations, 4th Edition", which are as follows. A copy of the eight Corporate Governance Principles and Recommendations can be found on the ASX's website.

The Board is of the view that, during the reporting period, with the exception of the departures from the ASX Guidelines as set out below, it otherwise complies with all of the ASX Guidelines.

#### ASX CGC Principle 1

Lay solid foundations for management and oversight.

#### Role of the Board

The Board of Directors is pivotal in the relationship between shareholders and management and the role and responsibilities of the Board underpin corporate governance.

The Board is committed to administering the policies and procedures with openness and integrity, pursuing the true spirit of corporate governance commensurate with the Group's needs.

Generally, the powers and obligations of the Board are governed by the Corporations Act and the general law.

Without limiting those matters, the Board expressly considers itself responsible for the following:

- Ensuring compliance with the Corporations Act, ASX Listing Rules (where appropriate) and all relevant laws;
- Oversight of the Group including its framework of control and accountability systems to enable risk to be assessed and managed;
- Appointing and removing the chief executive officer and/or Managing Director;
- Ratifying the appointment and, where appropriate, removal of senior executives including the chief financial officer and the Group secretary;
- Input into and final approval of management's development of corporate strategy and performance objectives;
- Monitoring the cash position of the company and providing oversight on the timing and quantum of capital raises;
- Monitoring senior executive's performance and implementation of strategy;
- Ensuring appropriate resources are available to senior executives;
- Approving and monitoring the progress of major capital expenditure, capital management and acquisitions and divestitures;
- Approving and overseeing Committees where appropriate to assist in the Board's function and powers.

The Functions, Powers and Responsibilities of the Board are set out in the Company's Corporate Governance Charter which is available from the corporate governance section of the Group's website.

The board meets on a regular basis to review the performance of the Company against its goals both financial and non-financial. In normal circumstances, prior to the scheduled board meetings, each board member is provided with a formal board package containing appropriate management and financial reports.

Appropriate background checks are conducted on proposed new directors and material information about a director being reelected is provided to security holders.

Written agreements are entered in to with directors and senior management clearly setting out their roles and responsibilities.

The company secretary works directly with the chair and the executive director on the functioning of all board and committee procedures.

#### **Diversity**

The Group is committed to workplace diversity and ensuring a diverse mix of skills amongst its directors, officers and employees.

Recommendation 1.5 requires that listed entities should establish a policy concerning diversity. Whilst the Group does not currently have a Diversity policy due to its size and nature of its operations, it strives to attract the best person for the position regardless of gender, age, ethnicity or cultural background.

As at 30 June 2024, the proportion of women in the whole organisation is a follows:

	Male	Female
Board Members	6	-
Officers	1	-
Employees	5	1

# **Performance Evaluation**

The Board (in carrying out the functions of the Remuneration and Nomination Committees) considers remuneration and nomination issues annually and otherwise as required in conjunction with the regular meetings of the Board.

An informal performance evaluation of the CEO has been undertaken.

No formal performance evaluation of the non-executive directors was undertaken during the year ended 30 June 2025.

# ASX CGC Principle 2

Structure of the Board to be effective and add value

# **Nomination Committee**

Recommendation 2.1 requires the Board to establish a nomination committee.

Although the Board has adopted a Nominations Committee Charter, the Board has not formally established a Nominations Committee as the Directors consider that the Company is currently not of a size nor are its affairs of such complexity as to justify the formation of this Committee. The Board as a whole is able to address these issues and is guided by the Nominations Committee Charter. The Company will review this position annually and determine whether a Nominations Committee needs to be established.

The Nomination Committee Charter is set out in the Company's Corporate Governance Charter which is available from the corporate governance section of the Group's website.

The Company is developing an appropriate board skills matrix. The skills, experience and expertise relevant to the position of each director who is in office at the date of the Annual Report is detailed in the Directors' report.

Corporate Governance Council Recommendation 2.4 requires a majority of the Board to be independent Directors. The Corporate Governance Council defines independence as being free from any interest, position, association or relationship that might influence, or reasonably be perceived to influence, in a material capacity to bring independent judgement to bear on issues before the board and to act in the best interests of the entity and its security holders generally.

In the context of Director independence, "materiality" is considered from both the Group and the individual Director perspective. The determination of materiality requires consideration of both quantitative and qualitative elements. An item is presumed to be material (unless there is qualitative evidence to the contrary) if it is equal to or greater than 10% of the appropriate base amount.

Qualitative factors considered included whether a relationship is strategically important, the competitive landscape, the nature of the relationship and the contractual or other arrangements governing it and other factors which point to the actual ability of the Director in question to shape the direction of the Group.

In accordance with the Council's definition of independence above and the materiality thresholds set, the directors listed below are not considered independent. As the Chairman of the Company is not considered independent, the Group does not comply with Recommendation 2.5. Corey Nolan and Calvin Treacy are considered independent. Despite not complying with Recommendation 2.4 and 2.5, the Board believes the current structure is appropriate given the size and scale of operations.

I	Name	Position	Reason for non-compliance
	A. Greig	Non-Executive Chairman	Director is a substantial (>5%) shareholder
	J. David	Managing Director	Director was engaged in an executive capacity within the previous 3 years
	B. Smith	Non-Executive Chairman	Director is a representative of substantial (>5%) shareholder
	D. Broughton	Non-Executive Chairman	Director is a representative of substantial (>5%) shareholder

Elementos Limited considers industry experience and specific expertise, as well as general corporate experience, to be important attributes of its Board members. The Directors noted below have been appointed to the Board of Elementos Limited due to their considerable industry and corporate experience. The term in office held by each Director in office at the date of this report is as

A. Greig	Non-Executive Chairman	Director is
J. David	Managing Director	Director v previous 3
B. Smith	Non-Executive Chairman	Director is
D. Broughton	Non-Executive Chairman	Director is
follows:	nd corporate experience. The te	erm in office l
-	nd corporate experience. The te	erm in office l
follows:		erm in office l
follows: Name	Term in Office	erm in office l
Name A. Greig	Term in Office 9 years, 11 months	erm in office l
Name A. Greig J. David	Term in Office 9 years, 11 months 3 year, 8 months	erm in office I
Name A. Greig J. David C. Nolan	Term in Office  9 years, 11 months  3 year, 8 months  16 years 2 months	erm in office I

Directors have the right to seek independent professional advice in the furtherance of their duties as directors at the Group's expense. Written approval must be obtained from the chair prior to incurring any expense on behalf of the Group. Informal induction is provided to any new directors.

# **ASX CGC Principle 3**

# Instil a culture of acting lawfully, ethically and responsibly

The Directors are subject to certain stringent legal requirements regulating the conduct both in terms of their internal conduct as directors and in their external dealings with third parties both on their own and on behalf of the Group.

To assist directors in discharging their duty to the Group and in compliance with relevant laws to which they are subject, the Group has adopted a Corporate Ethics Policy and Corporate Code of Conduct, whistleblower, anti-bribery and corruption policy within its Corporate Governance Charter.

The Corporate Ethics Policy sets out rules binding Directors in respect of:

- a Directors' legal duties as an officer of the Company;
- a Directors' obligations to make disclosures to the ASX and the market generally; and
- dealings by Directors in shares in the Company.

The Corporate Ethics Policy, as set out in the Company's Corporate Governance Charter is available from the corporate governance section of the Group's website.

# ASX CGC Principle 4 Safeguard Integrity in Corporate Reporting

#### **Audit Committee**

The Board has established an Audit and Risk Management Committee which operates under a charter approved by the Board.

Recommendation 4.1 states that an audit committee should be structured so that it:

- i. consists only non-executive directors;
- ii. consists of a majority of independent directors;
- iii. is chaired by an independent chair, who is not the chair of the Board; and
- iv. has at least three members.

The members of the Audit & Risk Management Committee during the financial year were Corey Nolan and Calvin Treacy all of whom are considered non-executive and independent directors. The Committee is chaired by an independent director (Corey Nolan). The Company does not currently fully comply with Recommendation 4.1 due to the committee only consisting of 2 members. The Board believes the current structure is appropriate given the size and scale of operations.

All members of the Audit & Risk Management Committee are considered financially literate in the context of the Company's affairs.

The number of meetings of the Audit & Risk Management Committee held during the year and the number of meetings attended by each Director was as follows:

-		Audit & Risk Management Committee		
	Member	Number of meetings held while in office	Meetings attended	
	C. Nolan	2	2	
	C. Treacy	2	2	

The Audit Committee Charter is set out in the Company's Corporate Governance Charter which is available from the corporate governance section of the Group's website.

# **Certification of financial reports**

The Managing Director and Chief Financial Officer have made the following certifications to the Board:

That the Group's financial reports are complete and present a true and fair view, in all material respects, of the financial

position and performance of the Group and are in accordance with relevant accounting standards;

 The integrity of the reports is founded on a sound system of financial risk management and internal compliance and control.

The Group ensures that its external auditor is present at the AGM to answer any questions with regard to the efficacy of the financial statement audit and the associated independent audit report. The Board ensures that management provide sufficient additional information to ensure the integrity of periodic corporate reports disclosed to the market and, if appropriate, certain declarations are provided by management regarding the underlying assumptions and procedures that have been implemented to ensure this integrity.

# ASX CGC Principle 5 Make timely and balanced disclosure

The Group has adopted a corporate ethics and continuous disclosure policy which is included in the Corporate Governance Charter that duly complies with ASX and ASIC requirements for the timely and accurate reporting of the Group's financial activities, thus ensuring that the Group has disclosed all information which has a material impact on shareholders. This includes the Annual Financial Report, Interim Financial Report, quarterly cash flows, new and relinquished tenements and changes in directors and shareholder interests and other events which are identified to be material. All ASX announcements are available on the Group's website.

The Company Secretary is responsible for communication with the ASX, including responsibility for ensuring compliance with the continuous disclosure requirements of the ASX Listing Rules and oversight of information distributed to the ASX.

# ASX CGC Principle 6 Respect The Rights of Security Holders

The Board of directors undertakes to ensure that shareholders are informed of all major developments affecting the Group. Information is communicated to shareholders through the annual report, interim financial report, announcements made to the ASX, notices of Annual General and Extraordinary General Meetings, the AGM and Extraordinary General Meetings.

Information regarding the Group and its governance is available in the Corporate Governance Charter which can be found on the Group's website.

The Board encourages full participation of shareholders at Annual and Extraordinary General Meetings to ensure a high level of accountability and identification with the Group's direction, strategy and goals. In particular, shareholders are responsible for voting on the re-election of directors.

The Group also offers shareholders the option to receive ASX announcements and other notices from the Company electronically.

# ASX CGC Principle 7 Recognise and manage risk

The Board has established an Audit and Risk Management Committee which operates under a charter approved by the Board.

Recommendation 7.1 states that an audit committee should be structured so that it:

- consists of a majority of independent directors;
- ii. is chaired by an independent chair, who is not the chair of the Board; and
- iii. has at least three members.

The members of the Audit & Risk Management Committee during the financial year are Corey Nolan and Calvin Treacy all of whom are considered independent directors. The Committee is chaired by an independent director (Corey Nolan). The Company does not currently fully comply with Recommendation 7.1 due to the committee only consisting of 2 members. The Board believes the current structure is appropriate given the size and scale of operations.

All members of the Audit & Risk Management Committee are considered to have sufficient technical, legal and industry experience in the context of the Company's affairs to properly assess the risks facing the Group.

The number of meetings of the Audit & Risk Management Committee held during the year and the number of meetings attended by each Director was as follows:

		Audit & Risk Management Committee		
	Member	Number of meetings held while in office	Meetings attended	
	C. Nolan	2	2	
	C. Treacy	2	2	

The Company has developed a basic framework for risk management and internal compliance and control systems which cover organisational, financial and operational aspects of the Company's affairs. Further detail of the Company's risk management policies can be found within the Audit and Risk Management Committee Charter.

Recommendation 7.2 requires that the Board review the Company's risk management framework and disclose whether such a review has taken place. Business risks are considered regularly by the Board and management at management and Board meetings. A formal report to the Board as to the effectiveness of the management of the Company's material business risks has not been formally undertaken.

The Audit and Risk Management Committee Charter is set out in the Company's Corporate Governance Charter which is available from the corporate governance section of the Group's website.

The Company does not have a separate internal audit function. The board considers that the Company is not currently of the size or complexity to justify a separate internal audit function, and that appropriate internal financial controls are in place. Such controls are monitored by senior financial management and the Audit and Risk Committee.

The Directors' Report sets out some of the key risks relevant to the Company and its operations. Although not specifically defined as such, the risks include economic, environmental and social sustainability risks. As noted above, the Company regularly reviews risks facing the Company and adopts appropriate mitigation strategies where possible.

# ASX CGC Principle 8 Remunerate fairly and responsibly

#### **Remuneration Committee**

Although the Board has adopted a Remuneration Committee Charter, the Board has not formally established a Remuneration Committee as the Directors consider that the Company is currently not of a size nor are its affairs of such complexity as to justify the formation of this Committee. The Board as a whole considers themselves to have sufficient legal, corporate, commercial and industry experience in the context of the Company's affairs to properly assess the remuneration issues required by the Group and is able to address these issues while being guided by the Remuneration Committee Charter. The Company will review this position annually and determine whether a Remuneration Committee needs to be established.

The Company believes that given the size and nature of its operations, non-compliance by the Company with Recommendation 8.1 will not be detrimental to the Company.

It is the Company's objective to provide maximum stakeholder benefit from the retention of a high quality Board and Executive team by remunerating directors and key executives fairly and appropriately with reference to relevant employment market conditions. To assist in achieving this objective, the Board links the nature and amount of executive Directors' and officer's remuneration to the Group's financial and operations performance. The expected outcomes of the remuneration structure are:

retention and motivation of key Executives

- attraction of quality management to the Group
- performance incentives which allow executives, management and staff to share the rewards of the success of Elementos Limited.

For details on the amount of remuneration and all monetary and non-monetary components for Key Management Personnel during the period, please refer to the Remuneration Report within the Directors' Report. In relation to the payment of bonuses, options and other incentive payments, discretion is exercised by the Remuneration Committee and the Board, having regard to the overall performance of Elementos Limited and the performance of the individual during the period.

There is no scheme to provide retirement benefits to directors other than statutory superannuation.

The Remuneration Committee Charter is set out in the Company's Corporate Governance Charter which is available from the Corporate governance section of the Group's website.

# **Remuneration Policy**

The Group's remuneration policy is also further detailed in the Remuneration Report in the Directors Report.

#### Non-Executive Director Remuneration

Non-executive directors are remunerated at market rates for time, commitment and responsibilities. Non-executive directors are remunerated by fees as determined by the Board with the aggregate directors' fee pool limit of \$400,000. The maximum aggregate amount of fees that can be paid to non-executive directors is subject to approval by shareholders at the Annual General Meeting. Independent consultancy sources provide advice, as required; ensuring remuneration is in accordance with market practice. Fees for non-executive Directors are not linked to the performance of the Group. However, to align Directors' interests with shareholders' interests, the Directors are encouraged to hold shares in the Company and are, subject to approval by shareholders, periodically offered options and/or performance rights.

The Company has adopted a Trading Policy that includes a prohibition on hedging, aimed at ensuring participants do not enter into arrangements which would have the effect of limiting their exposure to risk relating to an element of their remuneration.

#### Other Information

Further information relating to the Group's corporate governance practices and policies has been made publicly available on the Group's web site.

# Notes to the Consolidated Financial Statements

# For the Year Ended 30 June 2025

#### **NOTE 1: SUMMARY OF MATERIAL ACCOUNTING POLICIES**

The financial statements are general purpose financial statements that have been prepared in accordance with the Corporations Act 2001, Australian Accounting Standards and Interpretations, and other authoritative pronouncements of the Australian Accounting Standards Board. Elementos Limited is a for-profit entity for the purpose of preparing the financial statements. The financial statements are presented in Australian dollars.

Compliance with Australian Accounting Standards ensures that the financial statements and notes also comply with International Financial Reporting Standards. The financial statements are for the consolidated entity consisting of Elementos Limited and its Controlled Entities. Elementos Limited is a public company, incorporated and domiciled in Australia. The financial statements have been prepared on an accruals basis and are based on historical cost. The financial report was authorised for issue on 30 September 2025 by the directors of the Company.

Financial information required for Elementos Limited as an individual entity is included in Note 22.

Material accounting policies adopted in the preparation of these financial statements are presented below. They have been consistently applied unless otherwise stated.

# **Going Concern**

The financial statements have been prepared on a going concern basis which contemplates the continuity of normal business activities and the realisation of assets and discharge of liabilities in the ordinary course of business.

The Group has not generated any revenues from operations. As at 30 June 2025 the Group had cash reserves of \$4,430,942, net current assets of \$3,148,630 and net assets of \$28,146,413. The Group incurred a net loss of \$2,287,155 for the year ended 30 June 2025 and had an outflow of \$1,339,456 of cash from operating activities.

The ability of the Group to maintain continuity of normal business activities and to pay its debts as and when they fall due is dependent on the ability of the Group to successfully raise additional capital and/or successful exploration and subsequent exploitation of areas of interest through sale or development.

These conditions give rise to material uncertainty which may cast significant doubt over the Group's ability to continue as a going concern.

The directors believe that the going concern basis of preparation is appropriate due to the following reasons:

- To date the Group has funded its activities through issuance of equity securities, and it is expected that the Group will be able to fund its future activities through further issuances of equity securities; and
- The directors believe there is sufficient cash available for the Group to continue operating based on the Company's cash flow forecast.

Should the Group be unable to continue as a going concern, it may be required to realise its assets and extinguish its liabilities other than in the ordinary course of business, and at amounts that differ from those stated in the financial statements. This financial report does not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts or classification of liabilities and appropriate disclosures that may be necessary should the Group be unable to continue as a going concern.

## **Principles of Consolidation**

#### Subsidiaries

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Elementos Limited ("Company" or "parent entity") as at 30 June 2025, and the results of all subsidiaries for the year then ended. Elementos Limited and its subsidiaries together are referred to in these financial statements as "the Group" or "the consolidated entity."

The names of the subsidiaries are contained in Note 20. All subsidiaries are accounted for by the parent entity at cost.

Subsidiaries are all entities over which the Group has control. The Group has control over an entity when the Group is exposed to, or has a right to, variable returns from its involvement with the entity, and has the ability to use its power to affect those returns. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of controlled entities have been changed where necessary to ensure consistency with the policies adopted by the Group.

# Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Executive Director.

## **IncomeTax**

The income tax expense/(income) for the year comprises current income tax expense/(income) and deferred tax expense/(income). Current income tax expense charged to profit or loss is the tax payable on taxable income calculated using applicable income tax rates enacted, or substantially enacted, as at reporting date. Current tax liabilities/ (assets) are therefore measured at the amounts expected to be paid to/ (recovered from) the relevant taxation authority. Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the period as well as unused tax losses. Current and deferred income tax expense/ (income) is charged or credited directly to equity instead of profit or loss when the tax relates to items that are credited or charged directly to equity.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates enacted or substantively enacted at reporting date. Their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability.

Deferred tax assets and liabilities are ascertained based on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets also result where amounts have been fully expensed but future tax deductions are available. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

The Company and its Australian 100% owned controlled entities have formed a tax consolidated group.

Members of the Group entered into a tax sharing arrangement. The agreement provides for the allocation of income tax liabilities between the entities in proportion to their contribution to the Group's taxable income. The head entity of the tax consolidated Group is Elementos Ltd.

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised. The amount of benefits brought to account or which may be realised in the future is based on the assumption that no adverse change will occur in income taxation legislation and the anticipation that the Group will derive sufficient future assessable income to enable the benefit to be realised and comply with the conditions of deductibility imposed by the law.

## **Exploration and Evaluation Assets**

Exploration and evaluation expenditure incurred is accumulated in respect of each identifiable area of interest. Such expenditures comprise net direct costs and an appropriate portion of related overhead expenditure but do not include overheads or administration expenditure not having a specific nexus with a particular area of interest. These costs are only carried forward to the extent that they are expected to be recouped through the successful development of the area or where activities in the area have not yet reached a stage which permits reasonable assessment of the existence of economically recoverable reserves and active or significant operations in relation to the area are continuing.

A regular review has been undertaken on each area of interest to determine the appropriateness of continuing to carry forward costs in relation to that area of interest.

A provision is raised against exploration and evaluation assets where the directors are of the opinion that the carried forward net cost may not be recoverable or the right of tenure in the area lapses. The increase in the provision is charged against the results for the year. Accumulated costs in relation to an abandoned area are written off in full against profit or loss in the year in which the decision to abandon the area is made.

When production commences, the accumulated costs for the relevant area of interest are amortised over the life of the area according to the rate of depletion of the economically recoverable reserves.

#### **Restoration Costs**

Costs of site restoration are provided over the life of the facility from when exploration commences and are included in the costs of that stage. Site restoration costs include the dismantling and removal of mining plant, equipment and building structures, waste removal, and rehabilitation of the site in accordance with clauses of the exploration and mining permits. Such costs have been determined using estimates of future costs, current legal requirements and technology on an undiscounted basis.

Any changes in the estimates for the costs are accounted for on a prospective basis. In determining the costs of site restoration, there is uncertainty regarding the nature and extent of the restoration due to community expectations and future legislation. Accordingly, the costs have been determined on the basis that the restoration will be completed within one year of abandoning the site.

The Group currently has no obligation for any restoration costs in relation to discontinued operations, nor is it currently liable for any future restoration costs in relation to current areas of interest. Consequently, no provision for restoration has been deemed necessary.

#### Impairment of Non-Financial Assets

At each reporting date, the Group reviews the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed to profit or loss. No impairment existed at reporting date.

#### Other Receivables

Other receivables are recognised at amortised cost less any allowance expected credit losses.

# Trade and other payables

These amounts represent liabilities for goods and services provided to the consolidated entity prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at amortised cost and not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

## **Borrowings**

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Borrowing costs on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs.

Borrowings are removed from the consolidated statement of financial position when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other income or finance costs.

Borrowings are classified as current liabilities unless the consolidated entity has a right to defer settlement of the liability for at least 12 months after the reporting period.

# Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks and other short-term highly liquid investments with original maturities of less than 3 months.

# **Issued Capital**

Ordinary shares are classified as equity. Transaction costs (net of tax where the deduction can be utilised) arising on the issue of ordinary shares are recognised in equity as a reduction of the share proceeds received.

## **Share Based Payments and Performance Rights**

The Company makes equity-settled share-based payments to directors, employees and other parties for services provided or the acquisition of exploration assets. Where applicable, the fair value of the equity is measured at grant date and recognised as an expense over the vesting period, with a corresponding increase to an equity account. The fair value of shares is ascertained as the market bid price. The fair value of options is ascertained using a Black Scholes option pricing model. The fair value of performance rights with no market conditions is determined by reference to the share price at grant. Where applicable, the number of shares options and performance rights expected to vest is reviewed and adjusted at each reporting date such that the amount recognised for services received as consideration for the equity instruments granted shall be based on the number of equity instruments that eventually vest.

Where the fair value of services rendered by other parties can be reliably determined, this is used to measure the equity-settled payment.

#### Interest income

Interest income is recognised on a proportional basis taking into account the interest rates applicable to the financial assets.

#### **Employee Benefits**

Short-term employee benefit obligations

Liabilities for wages and salaries, including non-monetary benefits and annual leave expected to be settled wholly within 12 months after the end of the reporting period are recognised in liabilities in respect of employees' services rendered up to the end of the reporting period and are measured at amounts expected to be paid when the liabilities are settled.

## Goods and ServicesTax (GST)

Revenues, expenses and assets are recognised net of the amount of GST (or overseas VAT), except where the amount of GST incurred is not recoverable. In these circumstances the GST (or overseas VAT) is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the consolidated statement of financial position are shown inclusive of GST. Cash flows are presented in the consolidated statement of cash flows on a gross basis except for the GST component of investing and financing activities which are disclosed as operating cash flows.

#### Foreign Currency Transactions and Balances

Functional and presentation currency

The functional and presentation currency of Elementos Ltd and its Australian subsidiaries is Australian dollars (\$A).

#### Transactions and balances

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the year-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were measured. Exchange differences arising on the translation of monetary items are recognised in profit or loss, except where deferred in equity as a qualifying cash flow or net investment hedge.

# Group Companies

The financial results and position of foreign operations whose functional currency is different from the Company's presentation currency are translated as follows:

- assets and liabilities are translated at period-end exchange rates prevailing at that reporting date;
- income and expenses are translated at average exchange rates for the period;
- accumulated losses are translated at the exchange rates prevailing at the date of the transaction.

Exchange differences arising on translation of foreign operations are recognised in other comprehensive income.

# **Government grants**

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the group will comply with all attached conditions.

Government grants relating to costs are deferred and recognised in the profit or loss over the period necessary to match them with the costs that they are intended to compensate.

Government grants relating to exploration and evaluation assets that have been capitalised are recognised by deducting the grant received from the carrying amount of the exploration and evaluation asset recognised on the consolidated statement of financial position.

# **Earnings Per Share (EPS)**

Basic earnings per share is calculated by dividing the loss attributable to equity holders of the Company, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial period adjusted for any bonus elements in ordinary shares issued during the period.

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

## New and Amended Standards and Interpretations Adopted During the Year

There were no new or revised accounting standards adopted that had any impact on the Group's accounting policies and required retrospective adjustments.

#### New Standards and Interpretations not yet adopted

Certain new accounting standards and interpretations have been published that are not mandatory for 30 June 2025 reporting periods. The consolidated entity has decided against early adoption of these standards. The consolidated entity's has assessed the impact of these new standards that are not yet effective and determined that they are not expected to have a material impact to the Group's financial statements in the current or future reporting periods and on foreseeable future transactions, except as follows:

AASB 18 Presentation and Disclosure of Financial Statements will be effective for the financial year beginning 1 July 2027 and replaces AASB 101 Presentation of Financial Statements. AASB 18 will not impact the recognition and measurement of items in the financial statements, but may result in significant presentation changes in the consolidated statement of profit or loss and other comprehensive income. Management is still to assess the implications of applying the new standard to the groups financial statements.

#### Fair Values

Fair values may be used for financial asset and liability measurement as well as for sundry disclosures. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. It is based on the presumption that the transaction takes place either in the principal market for the asset or liability or, in the absence of a principal market, in the most advantageous market. The principal or most advantageous market must be accessible to, or by, the Group.

Fair value is measured using the assumptions that market participants would use when pricing the asset or liability assuming that market participants act in their best economic interest. The fair value measurement of a non-financial asset takes into account the market participant's ability to generate economic benefits by using the asset at its highest and best use or by selling it to another market participant that would use the asset at its highest and best use. In measuring fair value, the Group uses valuation techniques that maximise the use of observable inputs and minimise the use of unobservable inputs.

#### **Critical Accounting Estimates and Judgements**

The directors evaluate estimates and judgments incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Group.

# Key Judgements:

#### Exploration and Evaluation Assets

The Group performs regular reviews on each area of interest to determine the appropriateness of continuing to carry forward costs in relation to that area of interest. These reviews are based on detailed surveys and analysis of drilling results performed to reporting date. Exploration and evaluation assets at 30 June 2025 were \$25,657,076 (2024: \$20,959,205). Based on a review performed as at 30 June 2025, the Directors determined that it is still appropriate to continue capitalising costs in relation to the Group's areas of interest.

# **NOTE 2: EXPENSES**

	30 June 2025	30 June 2024
	\$	\$
Included in expenses are the following items:		
Depreciation	60,674	61,096
ASX, ASIC, share registry expenses	91,207	72,658
Business development and investor relations costs	73,389	100,533
Legal fees	68,701	36,122
Insurances	46,027	40,355
Audit, tax and external accounting fees	114,179	88,346
Interest expense	46,074	17,896
Employee benefits expense comprises:		
Salaries and wages	628,847	842,880

Tax loss not recognised (current year and true up)	502,436	471,974
Under/Over	(144)	1,798
Income tax expense/(benefit)	-	-

Deferred tax assets not recognised, the net benefit of which will only be realised if the conditions for deductibility as set out in Note 1 occur:

Temporary differences	-	-
Tax losses	7,295,718	6,827,625

The Group has carried forward tax losses of \$31,383,003 in Australia, which must satisfy the Continuity of Ownership Test, or failing that, the Same BusinessTest, in order to be utilised in the future. Elementos Ltd failed the Continuity of OwnershipTest on 4 January 2019. As a result, tax losses incurred prior to this date will need to satisfy the Same BusinessTest or Similar BusinessTest, in order for them to be available in future years.

# **NOTE 4: CASH AND CASH EQUIVALENTS**

	30 June 2025	30 June 2024
	\$	\$
Cash at bank and on hand	4,386,392	457,380
Short term deposits	44,550	45,834
	4,430,942	503,214

# **NOTE 5:TRADE AND OTHER RECEIVABLES**

	30 June 2025	30 June 2024
	\$	\$
GST & VAT receivable <sup>(a)</sup>	145,829	222,154
	145,829	222,154

(a) The entity has at 30 June 2025 a \$34,549 bank guarantee in place in relation to the corporate office lease.

As at year end, there were no material receivable balances that were past due and not impaired. All receivables as at 30 June 2025 were due within 60 days (2024: 60 days). The carrying value of trade receivables is considered a reasonable approximation of fair value.

# **NOTE 6: EXPLORATION AND EVALUATION ASSETS**

	30 June 2025	30 June 2024
	\$	\$
Exploration and evaluation expenditure carried forward in respect of areas of interest are:	S	
Exploration and evaluation phase - at cost	25,657,076	20,959,205
Movement in exploration and evaluation assets:		
Opening balance - at cost	20,959,205	19,007,033
Capitalised exploration expenditure	3,040,777	2,235,250
Foreign exchange differences	1,657,094	(283,078)
Carrying amount at the end of the year	25,657,076	20,959,205

Recoverability of the carrying amount of exploration assets is dependent on the successful development and commercial exploitation of projects, or alternatively, through the sale of the areas of interest.

## **NOTE 7: TRADE AND OTHER PAYABLES**

	30 June 2025	30 June 2024
	\$	\$
Current:		
Trade payables	402,432	520,324
Accrued expenses <sup>A</sup>	839,869	268,527
Short term employee benefits	175,605	126,380
Total payables (unsecured)	1,417,906	915,231

During the period a Spanish court ruled that MESPA was required to pay a claim of \$537,294 (€300,000) relating to a legal case previously disclosed in contingent liabilities. The court ruled that based on the evidence presented Mr Jose Cereijo Soto was previously appointed and subsequently dismissed as MESPA's Con. Delegado (CEO), entitling him to a payment of €300,000. The Company has appealed this ruling, on advice from our Spanish legal counsel, based on our strong belief that a number of key facts presented by the plaintiff and witnesses were incorrect and inconsistent and these were overlooked by the court when determining its ruling.

The average credit period on purchases of goods and services is 30 days. No interest is paid on trade payables.

# NOTE 8: BORROWINGS

	30 June 2025	30 June 2024
	\$	\$
Current:	·	
Loan <sup>(a)</sup>	1,000,000	-
Total unsecured current liability	1,000,000	-
Non-Current:		
Loan <sup>(a)</sup>		1,000,000
Total unsecured non-current liability	-	1,000,000

- (a) On 22 January 2024, the Company executed a loan facility with the Company's Non-Executive Chairman Mr Andy Greig, a related party, with the following terms:
  - Loan amount: \$2,000,000
  - · Loan term: 2 years
  - Interest rate: 6% on drawn funds
  - Unsecured
  - No conversion rights
  - No requirement to repay principal or pay interest during the loan term
  - Repayable by the Company at any time (during the loan term)

On 3 December 2024, the Company repaid the outstanding balance of the loan (\$1,000,000) via the participation of Mr Andy Greig in the August 2024 capital raising (see Note 8), and the loan facility balance was refreshed to \$2,000,000 which is available to the Company to utilise.

As at 30 June 2025, the balance outstanding was \$1,000,000.

Subsequent to the reporting period the Company repaid the balance of \$1,019,890 (inclusive of interest). The Company and Mr Andrew Greig entered into a new loan facility on the same terms with a maturity date of 21 July 2027.

## **NOTE 9: CONTRIBUTED EQUITY**

# **Fully paid ordinary shares**

		2025		2024

Net issued capital			48,014,045		39,262,318

Ordinary shareholders are entitled to participate in dividends and the proceeds on the winding up of the company in proportion to the number of and amount paid on the shares held. Every ordinary shareholder present at a meeting in person or by proxy is entitled to one vote on a show of hands or by poll. Ordinary shares have no par value.

Notes for the above table, relating to the year ended 30 June 2025, are:

- (a) During the period, the Company announced that it had received commitments to complete a private placement of 31,737,149 shares to be issued at \$0.095 per share with one option for every two shares, exercisable at \$0.18 by 31 January 2026. The transaction completed in two tranches as follows:
  - On 12 August 2024 14,826,317 shares were issued at \$0.095 per share raising \$1,408,500 and 7,413,161 options.
  - On 3 December 2024, following shareholder approval at the Annual General Meeting, 16,910,832 shares were issued at \$0.095 per share raising \$1,606,529 and 8,455,417 options. Of this amount \$1,035,178 was used to offset the outstanding loan balance and accrued interest with the Company's Non-Executive Chairman, Mr Andy Greig (see Note 10), through the issue of 10,896,611 shares and 5,448,306 options.
- (b) On 18 October 2024, the Company announced the completion of an entitlement offerwhich resulted in 8,654,614 shares issued at \$0.095 per share raising \$822,188 and the issue of 4,327,330 options exercisable at \$0.18 by 31 January 2026.
- (c) On 3 December 2024, following shareholder approval at the Annual General Meeting, the Managing Director was issued 1,000,000 shares for nil consideration.
- (d) On 19 May 2025, the Company announced the strategic placement to Metals-X to raise a total of \$5,000,000 through the issue of 58,962,264 ordinary shares at \$0.848 per share to complete in two stages:
  - On 23 May 2025, 58,277,698 ordinary shares were issued at \$0.0848 per share.
  - On 17 July 2025, 684,566 ordinary shares were issued at \$0.0848 per share following shareholder approval.

Balance at end of year		4,980,000	1,200,000
Exercisable at end of year		-	-

During the financial period the Company issued 4,680,000 performance rights to Executives of the Company. The performance rights have both company milestone and employment retention vesting conditions. A share-based payment expense of \$84,388 (2024: credit of \$713,212) was recorded during the period see Note 16 for further details.

#### Capital Management

Exploration companies such as Elementos Limited are funded almost exclusively by share capital.

Management controls the capital of the Group to ensure it can fund its operations and continue as a going concern. Capital management policy is to fund its exploration activities principally by way of equity, and where required, debt and/or project finance. No dividend will be paid while the Group is in the exploration stage. There are no externally imposed capital requirements.

There have been no changes to the capital management policies during the year.

#### NOTE 10: RESERVES

#### Foreign Currency Translation Reserve

The foreign currency translation reserve recorded exchange differences arising on translation of foreign controlled subsidiaries.

#### **Share-Based Payments Reserve**

The share-based payment reserve is used to recognise the fair value of options and rights issued to employees and consultants. This reserve can be reclassified to accumulated losses if options or rights lapse.

#### **NOTE 11: CASH FLOW INFORMATION**

	30 June 2025	30 June 2024
	\$	\$

Options and performance rights are considered potential ordinary shares. Options and performance rights issued are not presently dilutive and were not included in the determination of diluted loss per share for the period.

#### **NOTE 13: COMMITMENTS**

#### (a) Exploration Commitments

The Group has certain obligations to expend minimum amounts on exploration in tenement areas. These obligations may be varied from time to time and are expected to be fulfilled in the normal course of operations of the Group.

The following commitments exist at reporting date but have not been brought to account. If the relevant option to acquire a mineral tenement is relinquished, the expenditure commitment also ceases. The Group has the option to negotiate new terms or relinquish the tenements and also to meet expenditure requirements by joint venture or farm-in arrangements.

30 June 2025	30 June 2024
\$	\$
440,000	598,100
2,178,500	-
2,618,500	598,100
	2,178,500

#### (b) Oropesa Project

The original sale and purchase agreement and a shareholders' agreement between MESPA and the original owner of the Oropesa Investigation License, Sondeos y Perforaciones Industiales Del Bierzo, S.A, dated January 2013 (SHA) provided that MESPA would commence operations at the Project before the end of 2026.

In 2016 the **SHA** was amended to provide an indicative date for the mine opening of three (3) years after the granting of the Exploitation Concession (subject to various extensions of time), the granting of which has not yet occurred.

The Company remains confident that MESPA will open the mine within the required time limits.

#### **NOTE 14: CONTINGENT LIABILITIES**

There were no contingent liabilities at the end of the reporting period.

#### NOTE 15: RELATED PARTYTRANSACTIONS

#### **Parent Entity**

Elementos Limited is the legal parent and ultimate parent entity of the Group, owning 100% of all subsidiaries at 30 June 2025.

#### Subsidiaries

Interest in subsidiaries are disclosed in Note 20.

#### **Key Management Personnel**

	30 June 2025	30 June 2024
	\$	\$
Short-term employee benefits	680,719	700,282
Post-employment benefits	50,538	46,074
Share-based payments	84,388	(400,084)
	815,645	346,272

On 22 January 2024, the Company executed a loan facility with the Company's Non-Executive Chairman Mr Andy Greig, a related party, for up to \$2,000,000. The Company had drawn \$1,000,000 under the loan facility at the reporting period as at 30 June 2025, refer to Note 8 for further details.

#### **NOTE 16: SHARE-BASED PAYMENTS**

#### **Options**

There were no options issued or exercised during the current reporting period. The amount recognised for the financial period under the share-based payment reserve amounted to Nil (2024: \$339,310).

The fair value of options at grant date is determined using generally accepted valuation techniques that take into account exercise price, the term of the option, the impact of dilution, the share price at grant date, the expected price volatility of the underlying share, the expected dividend yield and the risk-free rate for the term of the option and an appropriate probability weighting to

factor the likelihood of the satisfaction of non-vesting conditions. The expected volatility is based on historic volatility, adjusted for any expected changes to future volatility due to publicly available information.

The outstanding balance of options is represented below:						
Grant Date/s	Expiry Date	Exercise Price	Share options 30 June 2025	Share option 30 June 202		
31 May 2022	31 May 2025	\$1.10	-	1,440,0		
11 September 2023	30 June 2026	\$0.25	3,200,000	3,200,0		
11 September 2023	30 June 2026	\$0.30	3,200,000	3,200,0		
11 September 2023	30 June 2026	\$0.35	3,200,000	3,200,0		

All options on issue vested at the time of grant.

#### Performance Rights

During the financial period the Company issued 4,680,000 performance rights to the Company's Executives. The performance rights have company milestone vesting conditions. The amount recognised for the current period under the share-based payment reserve in relation to share based payments amounts to \$84,388 (2023: credit of \$713,212).

The fair value of rights at grant date is determined using the share price at the grant date and the estimated probability of achieving each vesting condition. These values are then recognised over the proposed vesting period.

Inputs used to value the performance rights are as follows:

	Tranche	Number of rights	Grant/ valuation date	Vesting date and exercisable date	Expiry date	Exercise price	Share price at grant
	<u>}_</u>	300,000	8-Jul-2021	Completion of Cleveland PFS and retention to 1-07-23	31 Jan 2025	Nil	\$0.43
	2	300,000	8-Jul-2021	First production of mineral concentrate and retention to 1-07-25	31 Jan 2026	Nil	\$0.43
	3	540,000	9-0 ct-2024	Oropesa environmental approval by 31-Dec-2026	31 July 2027	Nil	\$0.087
	4	240,000	9-0 ct-2024	Oropesa commenced construction by 31-Dec-2027	31 July 2028	Nil	\$0.087

BDO Audit Pty Ltd and its related entities:		
Auditing or reviewing the financial reports	66,200	64,000
	66,200	64,000

#### NOTE 18: FINANCIAL RISK MANAGEMENT

#### (a) Financial Risk Management Policies

The Elementos Group's financial instruments comprises cash balances, receivables and payables. The main purpose of these financial instruments is to provide finance for Group operations.

#### Treasury Risk Management

Key executives of the Company meet on a regular basis to analyse exposure and to evaluate treasury management strategies in the context of the most recent economic conditions and forecasts.

The board of directors has overall responsibility for the establishment and oversight of the Group's risk management framework. Management is responsible for developing and monitoring the risk management policies and reports to the board.

#### Financial Risks

The main risks the Group is exposed to through its financial instruments are interest rate risk, credit risk and liquidity risk. These risks are managed through monitoring of forecast cash flows, interest rates, economic conditions and ensuring adequate funds are available.

#### Interest Rate Risk

The Group's exposure to interest rate risk, which is the risk that a financial instrument's cash flows from interest will fluctuate as a result of changes in market interest rates, arises in relation to the Group's bank balances. This risk is managed through careful placement of surplus funds in interest bearing bank accounts.

The Company has performed sensitivity analysis relating to its exposure to interest rate risk. At year end, the effect on profit and equity as a result of a 1% change in the interest rate, with all other variables remaining constant, is immaterial (2024: immaterial).

#### Liquidity Risk

Liquidity risk is the risk that the Group will not be able meet its financial obligations as they fall due. This risk is managed by ensuring, to the extent possible, that there is sufficient liquidity to meet liabilities when due, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group's activities are funded from equity and where required and available debt and/or project finance.

#### Credit Risk

The maximum exposure to credit risk, excluding the value of any collateral or other security, at reporting date to recognised financial assets, is their carrying amount, net of any provisions for impairment of those assets, as disclosed in the statement of financial position and notes to the financial statements.

Credit risk arises from exposures to deposits with financial institutions and sundry receivables.

Credit risk is managed and reviewed regularly by key executives. The key executives monitor credit risk by actively assessing the rating quality and liquidity of counter parties:

- only banks and financial institutions with an 'A' rating are utilised; and
- all other entities are rated for credit worthiness taking into account their size, market position and financial standing.

At 30 June 2025, there was no concentration of credit risk, other than bank balances and on geographical basis with most financial assets in Australia (2024: nil).

#### (b) Financial Instrument Composition and Contractual Maturity Analysis

	30 June 2025	30 June 2024
	\$	\$
Financial assets:		
Within 6 months:		
cash & cash equivalents	4,430,942	503,214
receivables (i)	145,829	222,154
	4,576,771	725,368
Financial liabilities:		
Within 6 months:		
Payables and accruals (i)	(1,417,906)	(915,231)
Lease liabilities	(29,982)	(27,800)
Borrowings(ii)	(1,048,986)	-
Within 12 months:		
Lease liabilities	(29,982)	(27,801)
Greater than 12 months:		
Lease liabilities	(74,106)	(9,346)
Borrowings(ii)	-	(1,104,384)
	(2,600,962)	(2,084,562)

- (i) Non-interest bearing.The contractual cash flows do not differ to the carrying amount.
- (ii) Interest bearing with a weighted average interest rate of 6% per annum.

#### (c) Fair Values

Fair values of financial assets and financial liabilities are materially in line with carrying values due to their short term nature.

#### **NOTE 19: SEGMENT REPORTING**

Operating segments have been determined on the basis of reports reviewed by the board of directors (chief operating decision makers) in assessing performance and determining the allocation of resources. The Group is managed primarily on a geographic basis, that is, the location of the respective areas of interest (tenements) in Australia and Spain. Operating segments are determined on the basis of financial information reported to the board of directors.

Accordingly, management currently identifies the Group as having two reportable segments, being Australia and Spain.

Basis of accounting for purposes of reporting by operating segments.

#### (a) Accounting policies adopted

Unless stated otherwise, all amounts reported to the Board of Directors, being the chief decision maker with respect to operating segments, are determined in accordance with accounting policies that are consistent to those adopted in the annual financial statements of the Group.

#### (b) Segment Assets

Where an asset is used across multiple segments, the asset is allocated to that segment that receives majority economic value from that asset. In the majority of instances, segment assets are clearly identifiable on the basis of their nature and physical location.

#### (c) Segment Liabilities

Liabilities are allocated to segments where there is a direct nexus between the incurrence of the liability and the operations of the segment. Segment liabilities include trade and other payables, lease liabilities and borrowings.

Total equity	27,215,690	19,964,616
Loss for the period	(1,585,041)	(1,575,360)
Other comprehensive income for the period	-	-
Total comprehensive income for the period	(1,585,041)	(1,575,360)

The Company has no contingent liabilities, nor has it entered into any guarantees in relation to the debts of its subsidiaries (2024: nil).

The Company has not entered into any contractual commitments for the acquisition of property, plant and equipment (2024: nil).

#### **NOTE 23: DIVIDENDS & FRANKING CREDITS**

There were no dividends paid or recommended during the financial year. There are no franking credits available to the shareholders of the Company.

## **Consolidated Entity Disclosure Statement**

As at 30 June 2025

#### **Basis of Preparation**

This Consolidated Entity Disclosure Statement (CEDS) has been prepared in accordance with the Corporations Act 2001. It includes certain information for each entity that was part of the consolidated entity at the end of the financial year.

#### Determination of Tax Residency

Section 295 (3A) of the Corporations Act 2001 defines tax residency as having the meaning in the IncomeTax Assessment Act 1997. The determination of tax residency involves judgement as there are currently several different interpretations that could be adopted, and which could give rise to a different conclusion on residency. Section 295(3A)(a)(vii) requires the determination of tax residency in a foreign jurisdiction to be based on the law of the foreign jurisdiction relating to foreign income tax

In determining tax residency, the consolidated entity has applied the following interpretations:

#### Australian tax residency

The consolidated entity has applied current legislation and judicial precedent, including having regard to the Tax Commissioner's public guidance in Tax Ruling TR 2018/5 and PCG 2018/9.

#### Foreign tax residency

Where necessary, the consolidated entity has used independent tax advisers in foreign jurisdictions to assist in determining tax residency and ensure compliance with applicable foreign tax legislation.

	Type of Entity	% of share capital held	Country of Incorporation	Australian Resident	Foreign jurisdiction(s) in which the entity is a resident for tax (according to the law of the foreign jurisdiction)
Elementos Limited	Body Corporate	N/A	Australia	Yes	No
Rockwell Minerals Pty Ltd	Body Corporate	100%	Australia	Yes	No
Rockwell Minerals (Tasmania) Pty Ltd	Body Corporate	100%	Australia	Yes	No
Elementos Minerales S.A.	Body Corporate	100%	Argentina	No	Argentina
Elementos Spain Pty Ltd	Body Corporate	100%	Australia	Yes	No
Minas de Estano de Espana, S.L.U	Body Corporate	100%	Spain	No	Spain
Southern Spain Tin, S.L	Body Corporate	100%	Spain	No	Spain
Spain Tin Smelting, S.L	Body Corporate	100%	Spain	No	Spain

### **Directors' Declaration**

The directors of the Company declare that:

- The attached financial statements and notes are in accordance with the Corporations Act 2001, including:
  - a. complying with Australian Accounting Standards and Interpretations which, as stated in accounting policy note
     1 to the financial statements, constitutes explicit and unreserved compliance with International Financial Reporting Standards (IFRS); and
  - b. giving a true and fair view of the consolidated entity's financial position as at 30 June 2025 and of its performance for the financial year ended on that date.
- 2. The managing director and chief financial officer have each declared under section 295A that:
  - the financial records of the Company for the financial year have been properly maintained in accordance with section 286 of the Corporations Act 2001;
  - b. the financial statements and notes for the financial year comply with the Australian Accounting Standards and Interpretations; and
  - c. the financial statements and notes for the financial year give a true and fair view.
- 3. In the directors' opinion there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.
- 4. The information disclosed in the attached consolidated entity disclosure statement is true and correct.

This declaration is made in accordance with a resolution of the board of directors.

Joe David Managing Director

#### INDEPENDENT AUDITOR'S REPORT

To the members of Elementos Limited

### Report on the Audit of the Financial Report

#### Opinion

We have audited the financial report of Elementos Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2025, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial report, including material accounting policy information, the consolidated entity disclosure statement and the directors' declaration.

Tel: +61 7 3237 5999

Fax: +61 7 3221 9227

www.bdo.com.au

In our opinion the accompanying financial report of the Group, is in accordance with the Corporations Act 2001, including:

- Giving a true and fair view of the Group's financial position as at 30 June 2025 and of its (i) financial performance for the year ended on that date; and
- (ii) Complying with Australian Accounting Standards and the Corporations Regulations 2001.

#### Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the Financial Report section of our report. We are independent of the Group in accordance with the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the Corporations Act 2001, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Material uncertainty related to going concern

We draw attention to Note 1 in the financial report which describes the events and/or conditions which give rise to the existence of a material uncertainty that may cast significant doubt about the group's ability to continue as a going concern and therefore the group may be unable to realise its assets and discharge its liabilities in the normal course of business. Our opinion is not modified in respect of this matter.

#### Key audit matters

Key audit matter

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the *Material uncertainty* related to going concern section, we have determined the matters described below to be the key audit matters to be communicated in our report.

#### Carrying value of exploration and evaluation assets

# The Group recognises exploration and evaluation Our procedures included, by

assets in accordance with the Group's accounting policy for exploration and evaluation assets as set out in Note 1 and Note 6 in the financial report.

The recoverability of exploration and evaluation assets is a key audit matter due to:

- · the significance of the total balance; and
- the level of procedures undertaken to evaluate management's application of the requirements of AASB 6 Exploration for and Evaluation of Mineral Resources ('AASB 6') in light of any indicators of impairment that may be present.

Our procedures included, but were not limited to, the following:

How the matter was addressed in our audit

- Agree to supporting documentation that the Group has valid rights to explore in the areas represented by the capitalised exploration and evaluation expenditure through inspecting documentation and considering whether the Group maintains the tenements in good standing.
- Making enquiries of management with respect to the status of ongoing exploration programs in the respective areas of interest, critically assessing the Group's cash flow budget for the level of budgeted spend on exploration projects, and held discussions with Directors of the Group as to their intentions and strategy.
- Enquiring of management, reviewing ASX announcements, and reviewing directors' minutes to ensure that the Group had not decided to discontinue activities in any applicable areas of interest and to assess whether there are any other facts or circumstances that existed to indicate impairment testing was required.

#### Other information

The directors are responsible for the other information. The other information comprises the information in the Group's annual report for the year ended 30 June 2025, but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### Responsibilities of the directors for the Financial Report

The directors of the Company are responsible for the preparation of:

- a) the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and
- b) the consolidated entity disclosure statement that is true and correct in accordance with the Corporations Act 2001, and

for such internal control as the directors determine is necessary to enable the preparation of:

- i) the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and
- ii) the consolidated entity disclosure statement that is true and correct and is free of misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

#### Auditor's responsibilities for the audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website (<a href="http://www.auasb.gov.au/Home.aspx">http://www.auasb.gov.au/Home.aspx</a>) at:

https://www.auasb.gov.au/media/bwvjcgre/ar1\_2024.pdf

This description forms part of our auditor's report.

#### Report on the Remuneration Report

#### Opinion on the Remuneration Report

We have audited the Remuneration Report included in or pages 36 to 42 of the directors' report for the year ended 30 June 2025.

In our opinion, the Remuneration Report of Elementos Limited, for the year ended 30 June 2025, complies with section 300A of the *Corporations Act 2001*.

#### Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
