

Australian Gold Conference

Australia's Newest Gold Producer

> Great Divide Mining Ltd ACN 655 868 803 ASX:GDM 28 July, 2025

DISCLAIMER

Nature of Document: This presentation has been prepared and issued by Great Divide Mining Ltd (Company) to provide general information about the Company. The information in this document is in summary form and should not be relied upon as a complete and accurate representation of any matters that a reader should consider in evaluating the Company. While management has taken every effort to ensure the accuracy of the material in this presentation, the Company have not verified the accuracy or completeness of the material contained in this presentation.

Not an offer: this presentation should not be distributed, transmitted, or viewed by any person in any jurisdiction where the distribution, transmission or viewing of this document would be unlawful under the securities or other laws of that or any other jurisdiction.

Not financial product advice: You should not act and should refrain from acting in reliance on this presentation. Nothing contained in this presentation constitutes investment, legal, tax or other advice. This presentation does not take into account the individual investment objectives, financial situation and particular needs of potential investors. Before making a decision to invest in the Company at any time, you should conduct, with the assistance of your broker or other financial or professional adviser, your own investigation in light of your particular investment needs, objectives and financial circumstances and perform your own analysis of the Company before making any investment decision.

Forward looking statements: This presentation contains forward-looking information about the Company and its operations. In certain cases, forward-looking information may be identified by such terms as "anticipates", "believes", "should", "could", "estimates", "likely", "plan", "expects", "may", "intend", "shall", "will", or "would". These statements are based on information currently available to the Company and the Company provides no assurance that actual results will meet management's expectations. Forward-looking statements are subject to risk factors associated with the Company's business, many of which are beyond the control of the Company. It is believed that the expectations reflected in these statements are reasonable but they may be affected by a variety of variables and changes in underlying swiptions which could cause actual results or trends to differ materially from those expressed or implied in such statements. There can be no assurance that actual outcomes will not differ materially from those expressed or implied in such statements.

Disclaimer: No representation or warranty, express or implied, is made by the Company that the material contained in this presentation will be achieved or proved correct. Except for statutory liability which cannot be excluded, the Company, its directors, officers, and employees expressly disclaim any responsibility for the accuracy, fairness, sufficiency or completeness of the material contained in this presentation and excludes all liability whatsoever (including in negligence) for any loss or damage which may be suffered by any person as a consequence of any information in this presentation or any effort or omission therefrom. The Company will not update or keep current the information contained in this presentation or to correct any inaccuracy or omission which may become apparent, or to furnish any person with any further information. Any opinions expressed in the presentation are subject to change without notice. This document should be read in conjunction with ASX releases by the Company, copies of which will be available on the Company's website.

The information in this announcement that relates to Exploration Results based on information compiled by Mr Justin Haines who is CEO of Great Divide Mining Ltd and a Fellow of the Australasian Institute of Mining and Metallurgy (AusIMM) and a Member of the Australian Institute of Geo scientists (AIG). Mr Haines has sufficient experience that is relevant to the styles of mineralisation and types of deposit under consideration, and to the activity that is being undertaking to qualify as a Competent Person, as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves.' Mr Haines is an employee of GDM, and consents to the inclusion in this report of the matters based on his information in the form and context in which it appears.

Historical Exploration Results: The information in this announcement that relates to exploration results is extracted from the Company's prospectus dated 26 May 2023. The Company confirms that it is not aware of any new information or data that materially affects the information reported in the Prospectus and nothing has come to the attention of the Company that causes it to question the accuracy and reliability of any historic exploration.

GREAT DIVIDE MINING

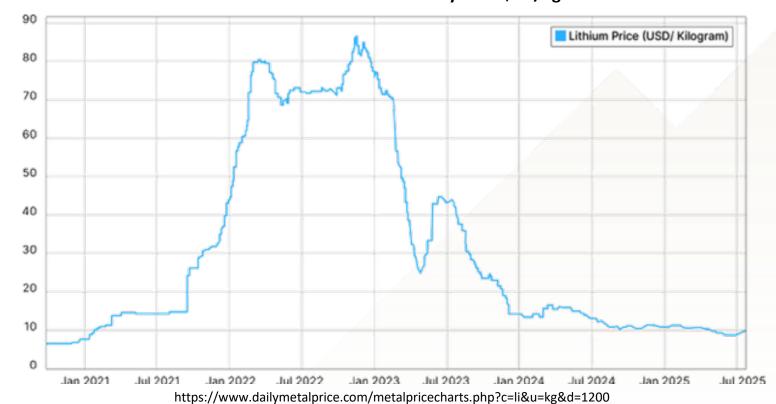

- 1.Why Gold?
- 2.Why GDM?
- 3. About GDM.
- 4.Our First Two Years.
 - 5.Our Projects.
 - 6. Our Next Two Years.

WHY GOLD?

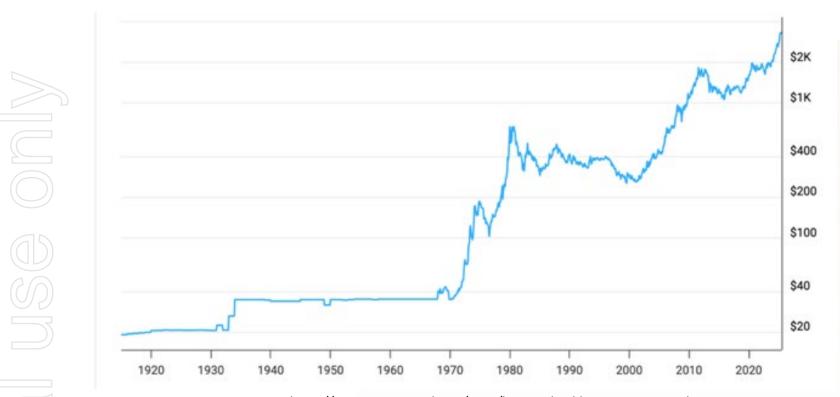

Lithium Prices for last 5-years - \$US/Kg

WHY GOLD?

Gold Prices for last 100-years - \$US/oz

WHY GDM?

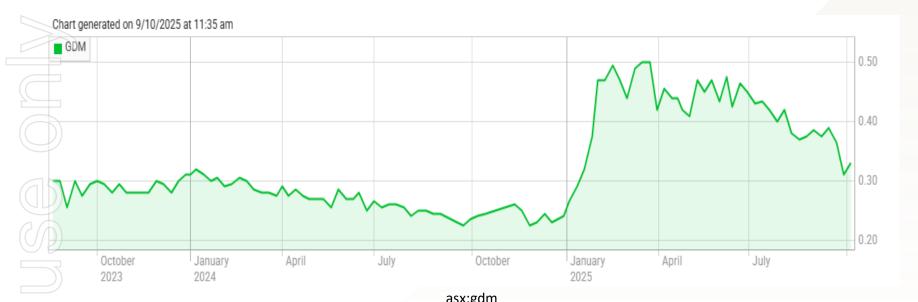

- Focus on cashflow
- Targeting production while prices increasing
- Exploration upside, de-risked by production
- Hands-on team supplemented with experienced contractors
- Low-cost and rapid commercialisation
- Brown-field strategy

ABOUT GDM

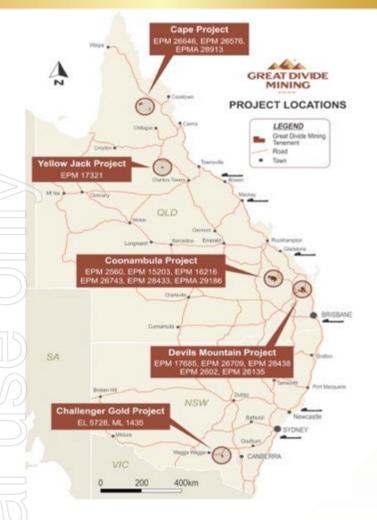

GDM share price since listing Aug 2023

GDM'S FIRST TWO YEARS

Challenger Mine	Gold	 51% equity in Challenger Gold Mine and Processing Plant, First pour July 2025 Continuous production pending minor low CAPEX upgrade Near-mine resources upside
Devil's Mountain	Gold Copper	 Gympie look-alike within 2 hours of Brisbane Expanded potential strike length from 4.5 to 7.7 km Over 600 historic workings, over 20 mine entrances and numerous shafts.
Coonambula	Antimony Gold	 Farm-out to Dart Mining NL (ASX:DTM) Geophysics and drilling underway
Yellow Jack	Gold Antimony	 Initial JORC Mineral Resource Estimate of 1.84 Mt @ 0.86 g/t for 51,000 Oz Maiden drilling completed, mineralisation open ML application pending processing agreement
Cape	Gold Copper REE	 Hematite-quartz outcrops @ 4.4 g/t Gold and anomalous REE and lithium fertility Multiple targets for follow-up

OUR PROJECTS

GDM ...

in under 2-Years

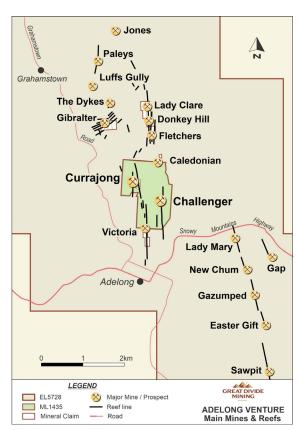

CHALLENGER GOLD MINE

Existing gold miner and producer in historically proven area

- 800 Koz historical production
 @ up to 45g/t
- 68 km² Exploration permit; 1.5 km² Mining permit
- 188 Koz JORC Resource
- Open-cut & under-ground opportunities
- Operating permits in place
- Existing processing infrastructure

CHALLENGER KEY METRICS

Resources	80,000 Oz at Challenger + targets	 Historical mining produced 800,000 Oz – 400,00 alluvial and 400,000 underground ML has 5 known reefs, none drilled out; EL has over 10 more reefs, little drilling Challenger is first defined resource; not closed off at depth Global resources 188,000 Oz is shallow only
Mine	Existing Decline + Potential Open Cut	 Existing decline to Challenger main orebody ~70,000 Oz in optimised shell Open cut potential at Challenger Extended orebody ~9,000 Oz in optimised shell OC mining study to progress initial mining phase, UG drilling to confirm UG resources Expect to commence OC mining end of FY2026
Plant	Existing 25 tph + expansion	 Existing crushing and milling circuit plus gravity recoverable gold plant to produce high grade concentrate No chemicals on site, recycled water No tailings dam – sand tails to quarry products
Approvals	All in place	 1990 EIS and 1996 EPL valid Snowy Valley Council DA's in place including for quarry products ILUA with Traditional Owners in place
Environmental & Social	No issues	 Significant support from local community Majority of personnel and services available locally Active engagement with community

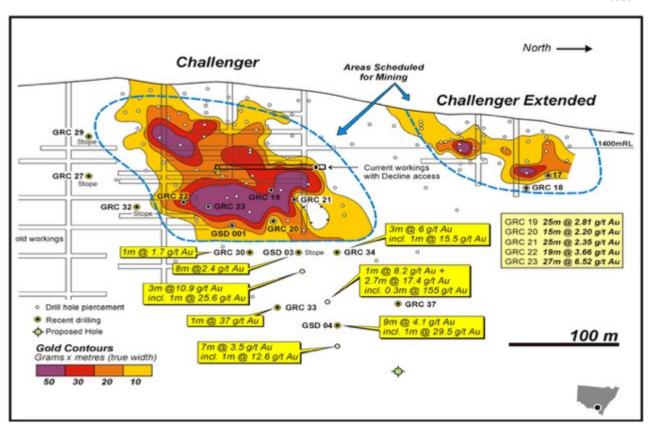

ASX:GDM

CHALLENGER RESOURCES

Historic Mine Plan with resources envelopes

- Proposed mining areas limited to drilling
- Historic mined areas contain significant resources

QUEENSLAND EXPLORATION ASSETS

- Gold Antimony Copper
- 4 gold and critical metals exploration projects in Queensland;
- 15 highly prospective exploration
 tenements with work on-ground already
 undertaken by GDM
- High grade mineralisation in historic workings
- Brown-field permitting & de-risking opportunities
 - JORC resource estimate 51kOz at Yellow Jack
 - High priority untested drilling targets open at depth and along periphery

Every brown-field site recommissioned means we've protected another piece of the

environment.

Paul Ryan Chairman Great Divide Mining

COONAMBULA

Advanced Antimony and Gold exploration near historic mines in known gold region

Farm-out to Dart Mining NL (ASX:DTM) - \$250,000 for initial 15% equity, increasing to 51% on completion of 4,000m of drilling and 2 resource reports.

Coonambula hosts numerous historic mines near Gympie (3.7 Moz) and Cracow (1.2 Moz) gold mines

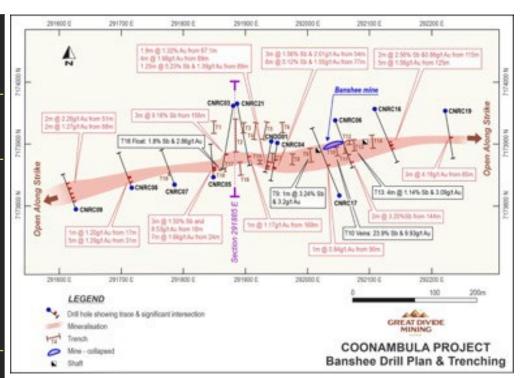

Banshee:

- Surface grades up to 44.9% Sb
- Trench sampling confirmed high grade Antimony and Gold incl. Au @ 9.93 g/t

2014 drilling highlights: 6m at 5.1% Sb and 1.5 g/t Au from 77m and 3m at 9.2% Sb from 158m

Perseverance:

Mining grades of up to 71 g/t Au 20kt @ 20 g/t Au for 13,000 oz mined

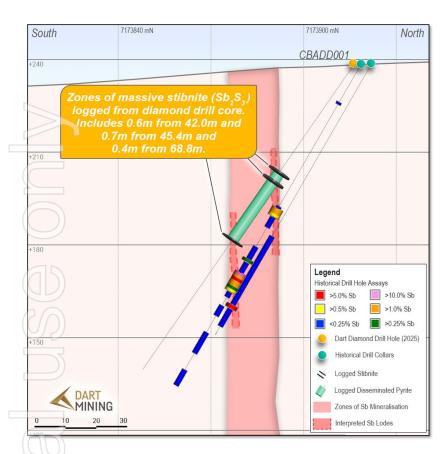

DTM has rapidly advanced exploration at the historic Banshee Antimony mine.

> Confirmed high grade Antimony and Gold at Banshee prospect. Au @ 9.93 g/t. ASX Report Q2 FY25

COONAMBULA EXPLORATION

"GDM's strategic partnership with DTM has proven a win-win for both Companies."

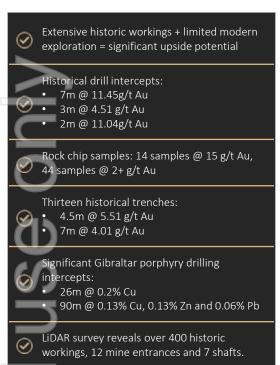

Justin Haines CEO, Great Divide Mining

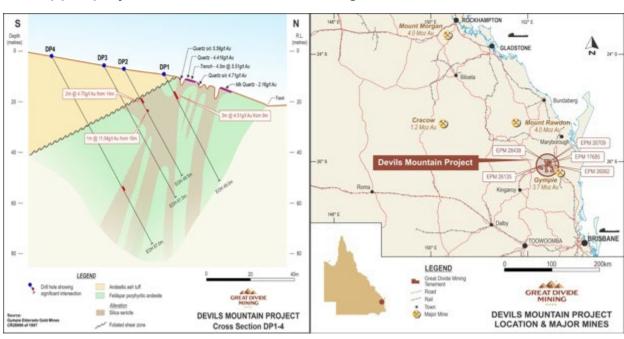

DEVILS MOUNTAIN

Advanced Gold and Copper project centered within historic gold mine area

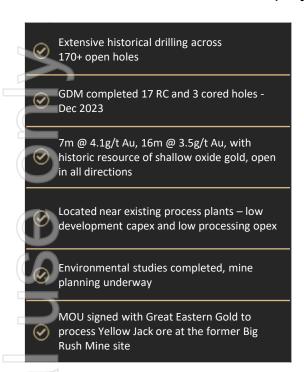

LiDAR analysis: 204 historic mine workings, 7 shafts, 185 other workings.

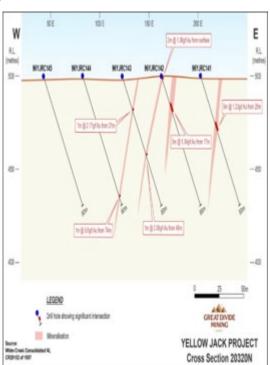

Jan 2025

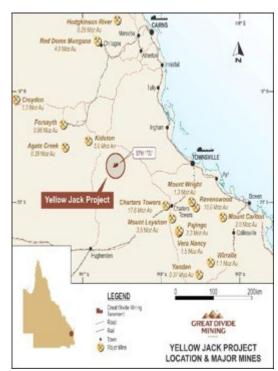

YELLOW JACK

Advanced Gold project - Initial JORC Mineral Resource Estimate - 51kOz Gold.

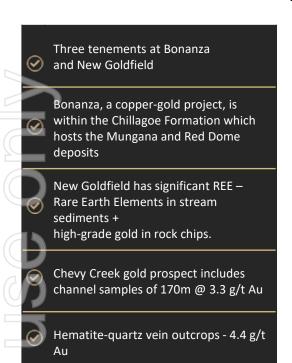

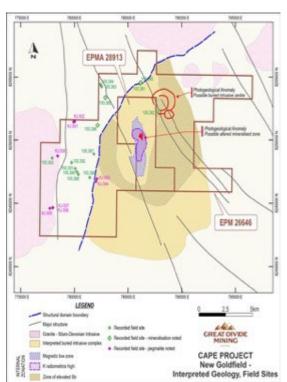

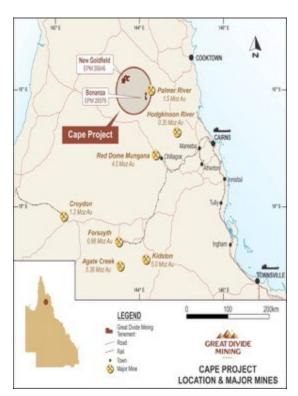

CAPE

Two significant historical exploration sites

GDM'S NEXT TWO YEARS

Challenger Mine	Gold	 Develop continuous mining operation at >15,000 kOz per annum then scale up Undertake resource expansion drilling, expand mining to suit
Devil's Mountain	Gold Copper	 Advance exploration at Devils Mountain Gold prospect – define gold resource Advance Gibraltar Rock Copper Porphyry – define copper resource Commence exploration at Kilkivan Prospect – define carry-forward targets
Yellow Jack	Gold Antimony	 Finalise processing agreement/s, complete mine planning, finalise mining lease application Commence mining operations
Coonambula	Antimony Gold	 Work with DTM as they transition to 51% equity Drilling and resource at Banshee, advance exploration at Perseverance Gold Prospect Mining lease application at Banshee Antimony
Cape	Gold Copper REE	 Advance exploration at Cape Gold Prospect Define gold + REE + Lithium targets
Other	Gold	Assess and acquire additional gold production opportunities

SUMMARY

"Great Divide Mining will own, mine, process and sell its' own resources"

Justin Haines CEO **Great Divide Mining**
