Upsized Flow Through Placement Raises ~A\$11M at 34% Premium for Expanded Uranium Exploration Programs

Firm commitments received for ~A\$11 million (CAD\$10 million) utilising the "Flow-Through Share" provisions under Canadian tax law, with flow-through shares placed at A\$0.75 per share, representing a 34% premium to Infini's last traded price of \$0.56 per share.

Additional A\$1 million concurrent placement to be raised from professional and sophisticated investors at the offer price of A\$0.50 per share.

Significant support received from new and existing institutional and sophisticated investors following preliminary findings from exploration programs at Portland Creek, Reynolds Lake and Reitenbach Lake Uranium Projects.

Proceeds will fund an expanded drilling program at the Company's Portland Creek Uranium Project and an inaugural drilling program at Reynolds and Reitenbach Lake Uranium Projects. The funds from the concurrent placement will be used to cover the costs of the offer, and general working capital.

Loyalty Options record date extended to 7 November 2025, whereby eligible Infini shareholders will be eligible to subscribe for 1 Loyalty Option for every 4 Infini shares held. The Loyalty Options will have an exercise price of \$0.27, and an expiry date of 30 September 2028. The Company will apply for quotation of the options, subject to satisfying the ASX compliance requirements.

Infini Resources Ltd (ASX: 188, "Infini" or the "Company") is pleased to announce it is raising A\$12 million through the combination of a Flow Through Share placement and professional and sophisticated investor Share Placement.

Infini's Chief Executive Officer, Rohan Bone, said: "This heavily subscribed placement – completed at a 34% premium – is a powerful endorsement of Infini's active exploration strategy and the outstanding potential of our uranium portfolio. The structure of this placement enables us to raise capital at a premium to market, reflecting the strength of our project portfolio and the tailwinds of a global resurgence in investment into clean energy-focused critical minerals.

With a strengthened balance sheet, we are now positioned to aggressively advance exploration programs aimed at unlocking potential new discovery opportunities at Portland Creek, Reynolds Lake and Reitenbach Lake projects located in the tier-1 mining jurisdictions of Newfoundland and the Athabasca region. The capital raised enables us to move decisively into our next phase of discovery growth, targeting high-impact results that can drive substantial value for shareholders."

Flow Through Share Placement Details

The Company has received firm commitments to undertake the Flow-Through Placement to raise approximately C\$10.0 million (A\$11.05 million), before costs, through the issue of 14.74 million fully paid ordinary shares at an issue price of C\$0.6787 (A\$0.75¹) per share ("Flow-Through Shares") as Canadian 'flow-through shares', which provide tax incentives to investors for expenditures that qualify as 'flow-through critical mineral mining expenditures' under the *Income Tax Act* (Canada). The Flow-Through Shares will be issued at a premium to market pursuant to the Canadian flow-through shares regime. The term 'flow-through share' is a defined term in the *Income Tax Act* (Canada) and is not a special type of share under corporate law.

The Flow-Through Share offer price represents a:

- 33.9% premium to the last closing price of A\$0.56 on 20 October 2025;
- 30.5% premium to the 15-day volume weighted average price (VWAP) of A\$0.575; and
- 28.5% premium to the 10-day volume weighted average price (VWAP) of A\$0.584.

The offer for the Flow-Through Placement has been facilitated by Canadian flow-through share dealer, Peartree Securities Inc. ("Peartree"), pursuant to a subscription and renunciation agreement with the Company, and a block trade agreement being facilitated by Bell Potter Securities Ltd ("Bell Potter"). Bell Potter is acting as Joint Lead Manager and Sole Bookrunner for the block trade of the Flow-Through Placement.

Funds raised from the Flow-Through Placement will be specifically applied to exploration activities at the Portland Creek, Reynolds Lake and Reitenbach Lake Uranium Projects, including:

- Expanded drilling program at Portland Creek Uranium Project to test further prospectivity of up to 12 high priority exploration targets; and
- Potential inaugural drilling program at Reynolds Lake and Reitenbach Lake Uranium Projects following the identification anomalies in field programs conducted in Q3 CY2025 (ASX announcement 3 October 2025 and 22 September 2025).

Pursuant to a block trade agreement between Peartree and Bell Potter, Bell Potter will facilitate the secondary sale of the Flow-Through Shares acquired by Peartree clients under the Flow-Through Share Placement to sophisticated and professional investors by way of a block trade at A\$0.50 per share ("New Share").

The tax benefits associated with the Flow-Through Shares are available only to the initial investors (who are Canadian residents) and not to any other person who acquires the Flow-Through Shares through the block trade.

A prospectus prepared under section 713 of the Corporations Act 2001 (Cth) will be issued in connection with the Flow Through Placement to facilitate secondary trading of the New Shares subject of the Flow-Through Placement. Peartree will not receive any fees or commissions from the Company for its role in the Flow Through Placement. The Flow-Through Shares will be issued utilising the Company's available placement capacity under Listing Rules 7.1 and 7.1A.

Sophisticated Investor Share Placement Details

Strong demand for the Flow Through Placement encouraged the Board to undertake a further issue of 2 million shares to sophisticated and professional investors ("Share Placement") of A\$1,000,000 at \$0.50 per share ("Offer Price"), being the same price as the Flow Through Shares block trade.

¹ AUD/CAD foreign exchange rate of 0.905 assumed.

The Offer Price represents a 10.7% discount to the last closing price on 20 October 2025 of A\$0.560 per share, 13.0% discount to the 15-day VWAP of A\$0.575 per share and 14.4% discount to the 10-day VWAP of A\$0.584 per share.

The offer for the concurrent Share Placement is being facilitated by 62 Capital Pty Ltd ("62 Capital") who is acting as Joint Lead Manager and Sole Bookrunner for the Share Placement. Funds raised from the Share Placement in addition to the funds raised from the issue of the Loyalty Options will be used to meet the costs of the offers and for general working capital. The Share Placement will be undertaken utilising the Company's available placement capacity under Listing Rule 7.1.

An Appendix 3B for the proposed issue of securities will follow this announcement.

Loyalty Options Details

In addition to and following the Flow-Through Portion and the Concurrent Placement Portion, the Company is pleased to confirm its intention to undertake a loyalty offer to eligible shareholders of 1 loyalty option ("Loyalty Option") for every 4 Infini shares held at 5:00pm (AWST) on Friday, 7 November 2025, at an issue price of \$0.02 per Loyalty Option ("Offer"). Each Loyalty Option is convertible into one (1) fully paid ordinary share in the Company, exercisable at \$0.27 per Loyalty Option with an expiry date on Monday, 30 September 2028.

Subject to the quotation requirements of the ASX Listing Rules, the Company will apply for Official Quotation for all of the Loyalty Options. The indicative timetable for the Offer is set out below:
