PORTFOLIO COMMENTARY

The portfolio was down 3.9% for the month, on a gross basis, after investment management fees and brokerage but before performance fees and corporate expenses, compared to an increase of 0.5% for the All Ordinaries Accumulation Index.

The largest positive contributors were COG Financial Services Ltd (COG) (+1.3%) and QPM Energy Ltd (QPM) (+0.3%). These were more than offset by Fleetwood Ltd (FWD) (-1.0%), Spectra Systems, Inc. (-0.9%), Ignite Ltd (IGN) (-0.6%), Southern Cross Media Group Ltd (SXL) (-0.7%), BCI Minerals Ltd (BCI) (-0.6%) and a few others whose contributions were less than 0.5%.

COG announced the acquisition of an additional 14.1% in Fleet Network Pty Ltd (Fleet Network) for consideration of \$23.9 million, representing an FY25 multiple of ~6.1x. Fleet Network is an existing subsidiary under the Paywise salary packaging and novated leasing platform, with COG now owning 92.4% and Fleet Network management the remaining 7.6%. Coinciding with the acquisition, COG announced a \$20 million capital raising via a placement at \$2 per share. We view the acquisition and associated capital raising as a sensible, low risk way for COG to grow its business inorganically.

FWD provided a solid update at its Annual General Meeting (AGM). The contracted occupancy for FY26 at the Searipple accommodation village is currently 86% up from 84% announced at the results in August – and there are opportunities for this to improve as the year progresses. Building Solutions has grown its order book to \$150 million and has a further \$200 million in tenders and submissions pending award. In addition to the order book, Building Solutions generates >65% of its revenue from long term panel agreements across education, housing and commercial, positioning it to grow in FY26. The small RV Solutions business continues to operate in a challenging environment and after a strategic review has decided to close local manufacturing, consolidate sites and rationalise product lines. We expect this business to return to profitability in FY26.

QPM announced that it had secured a \$114 million master lease agreement with Macquarie Bank to fund the acquisition of two gas turbines from GE Vernova. This locks in the delivery of the 112MW Isaac Power Station (IPS) and underpins the mid-2027 commissioning target. QPM continues to progress the financing package for the balance of the IPS development costs. We expect a further update some time over the next few months.

We continued to criticise the proposed merger of SXL with Seven West Media Ltd (SWM) without a shareholder vote. Recent AGM updates from SWM and its competitor, Nine Entertainment Company Holdings Ltd (NEC) did nothing to change our opposition to the merger. Both companies outlined the continued difficult operating environment and structural decline in the television market. They highlighted that the TV advertising market had dropped off a cliff in October leading to further revenue declines in 1H26. These updates give further credence to our description of the merger as "diworsification" from an SXL shareholder perspective.

We encourage all SXL shareholders to express their dissatisfaction by voting FOR the removal of all the non-executive directors at the upcoming AGM.

We also encourage SXL shareholders to vote FOR the amendment to the constitution such that the company cannot issue >25% of its shares without prior shareholder approval. Voting for this change should, if passed, then allow an SXL shareholder vote on the merger.

During the month, SNC banked approximately \$2.2 million, being the first tranche of capital returns from

the investment in Foundation Life. The remainder of this investment is expected to be returned as cash in 2026.
