Rox Resources Managing Director & Chief Executive Officer Phill Wilding commented:

"The Youanmi Gold Project is a high-grade, high-margin project, as showcased in the recently announced Definitive Feasibility Study.

"The Placement capitalises on this momentum, with the level of support from existing and new shareholders being a testament to the compelling and robust business case for the Youanmi Gold Project, and the team that will deliver it.

"Securing these funds significantly de-risks the delivery timeline for the construction of Youanmi and ensures we can order long-lead items.

“We have laid the foundations for our pathway to production, and are in a strong position to leverage the outstanding fundamentals of Youanmi and record gold prices to deliver sustained value for all shareholders.”
