### Chairman's Address

Matthew Sandblom, Chairman 3P Learning Limited Annual General Meeting - 18 November 2025

At this 2025 AGM I am pleased to report that for the 2024-2025 financial year we increased Underlying EBITDA to \$15.5m, which was 30% higher than in financial year 2023-2024. We also finished the year at 30 June with \$11.6m in Net Cash, \$6.5m higher than last year. Revenue in financial year 2024-2025 was fractionally lower than last year, at \$109.1m.

As I outlined in my previous market update, the overall story for financial year 2024-2025 was about keeping profitability up, and sales steady while we continue our business transformation to make our programs the leading source for learners and educators in PreK-6 reading, writing and maths (the 3Rs) across the main English-speaking markets.

After a period of significant investment in product development and acquisitions, 3PL has made good progress this year in executing the sales, marketing and business process improvements that we believe will deliver consistent top and bottom-line growth for years to come.

We are now in November and at the end of the first quarter of Financial Year 2025-2026, revenue is broadly in line with last year's previous corresponding quarter.

In the Schools market, we have improved retention rates for Reading Eggs in the US now that we are in the second year of direct distribution and have recorded double digit growth in new business billings, including 21 new districts, from a lower base.

In APAC, we are seeing encouraging results in first-year retention, although it is still early in the selling season for the school year that begins in 2026 we will have a clearer picture in our February update.

For B2C, the launch of Homeschool Max in the US is progressing well and generating consistent revenue, supported by ESA vendor approval status, which now extends to 13 states reaching over 800,000 eligible students.

We are also beginning to see productivity gains from the introduction of Al across most areas of the business. This is a key part of our plans to grow the business while keeping the cost base flat, leading to increased margins over the next several years.

As highlighted in our full year FY2024-2025 results, we expect a stronger cash position in Financial Year 2025-2026. I will provide a further update in February 2026 with our First Half results along with the review of our dividend policy.

We look forward to providing future updates to shareholders in 2026.
