PORTFOLIO COMMENTARY

The portfolio was down 4.3% for the month, on a gross basis, after investment management fees and brokerage but before performance fees and corporate expenses, compared to a decrease of 2.5% for the All Ordinaries Accumulation Index.

The largest positive contributor was an undisclosed position (+1.0%). This was more than offset by Fleetwood Ltd (FWD) (-2.2%), COG Financial Services Ltd (COG) (-1.6%), Nuix Ltd (IDT) (-0.5%) and Southern Cross Media Ltd (SXL) (-0.4%). The rest of the portfolio was a small net detractor from performance.

November is Annual General Meeting (AGM) season for many of our investments. A September quarter trading update is typically provided at the AGM. For the most part, the updates provided by our portfolio companies were positive and in line with our expectations.

During the month, FWD announced the departure of Managing Director & Chief Executive Officer (CEO), Bruce Nicholson. The Board has initiated a search process to recruit a new CEO. In the meantime, Chairman John Klepec will assume the CEO role as Executive Chairman. There was no commentary provided on the company's trading conditions, implying that the strong outlook provided at the recent AGM remains in place.

WLD returned a further 1.5 cents per share (cps) of capital in late November. This brings the total capital returned by the company over the past 12 months to 18.5cps. This is a significant premium to our average purchase price and is an outstanding outcome. We expect WLD to delist before year end given it has no remaining operating assets and no requirement to access funding from public capital markets.

The company retains ~1cps in cash and a claim against the Australian government as part of the Brett Company Cattle Class Action. Ongoing evaluation of this position will occur with first gateway being the Brett Class Action appeal expected to be decided by late FY26.

We expect the next couple of months to be a relatively quiet news flow period for the portfolio on account of the summer holidays in Australia. The release of December half year accounts in February will provide our companies the next opportunity to disclose their trading performance and detail any capital management plans they may have.

DIVIDENDS

SNC has declared 68.77 cents per share (cps) of fully franked dividends since listing in December 2013. The profits reserve is 45.9cps and there are 7.8cps of franking credits. These franking credits support the payment of up to 23.4cps of fully franked dividends.

SNC’s inaugural monthly dividend of 0.47cps was paid on 31 October 2025. The Board recently announced their intention to pay dividends of 0.47 cents per share per month for each of January, February and March 2026. These monthly dividends represent an annualised fully franked dividend rate of 5.64 cents per share.
