## Review of operations

Key factors for the year ended 31 December, 2008 include the following:

- EBITA from continuing operations of \$28.1 million;
- Toy and Sporting business delivered a significant turnaround in profitability;
- Net bank debt down to \$67.1 million from \$85.1 million;
- Slow moving inventory almost halved from \$22.6 million to \$11.6 million;
- Recent announcement of a potential capital raising of \$22 million fully underwritten; the net proceed to be used to reduce debt and fund a potential acquisition; and
- Significant one off expenditure and write-offs of \$64.1 million after tax (\$49.2 million non cash)

The table below details the contributions from the continuing and discontinued operations and the effect on the trading result:

	Full Year

Revenue from continuing operations was down by 2.6% for the year due to worsening economic conditions in the fourth quarter of 2008 and lower sales to the childcare industry mainly as a result of the receivership of the ABC Learning Care Group (ABC Group). In addition, following a strategic review of the Softgoods business, the Board made the decision to withdraw from the low margin generic Apparel business which has had the effect of reducing sales. Toys and Sporting increased revenue by 6.6% from last year. The DVD and Interactive Entertainment business recorded a strong result with a 30% plus increase in revenue.

Gross profit percentage for the year increased despite increased clearance activity in the first part of the year as a result of better management of input costs and improved inventory management.

The Toy and Sporting business delivered on our published objectives of "Returning Toys to Profitability" with an improvement in EBITA back to acceptable levels. This was achieved through improved execution at the retail level with a dedicated merchandising force; strong supply chain improvements in forecasting inventory levels; new controls and disciplines; and a significant increase in talent within the team.

Net cash flow from operating activities totalled \$12.2 million (2007: \$20.9 million) despite the non receipt of approximately \$11.3 million as a result of the collapse of the ABC Group (Administrators and Receivers appointed). Net bank debt improved significantly, a decrease from \$85.1 million to \$67.1 million over the period.

### Significant items

As a consequence of the current receivership of the ABC Group there was an urgent need to restructure both the Judius Australia and My Paintbox USA businesses. As a result, the Board has determined that the carrying value of the identifiable intangible asset of the Judius business was impaired on the basis of not being able to reasonably forecast future cash inflows to support the carrying value. While there is a possibility that Judius will continue to sell to ABC centres, given the current level of uncertainty surrounding the future of the ABC business, the Board has conservatively forecast no ABC Group related sales.

Goodwill has been impaired in both Softgoods and Toys NZ following the impairment assessment of each cash generating unit. As a result of this assessment, the carrying amount of the Softgoods and Toys New Zealand cash generating units were determined to be higher than the recoverable amounts.

In addition, the Board has recognised an additional impairment charge on material contracts and other contractual arrangements given the forecast sales over the life of those contracts not exceeding the carrying value of the intangible assets. These impairment charges total \$13.7 million.

As a result of the above, the Board announced on 19 February, 2009 a range of significant one off items impacting the 2008 result. These are summarised as follows:

- ABC Group related (\$54.8 million)
  - Trade receivables write off's of \$11.3 million;
  - Impairment of intangibles of \$36 million;
  - Restructure costs of Australia and USA of \$7.5 million.
- Goodwill impairment (\$14.4 million):
  - Softgoods of \$13.1 million;
  - Toys NZ of \$1.3 million.
- Impairment charges to material contracts of \$13.7 million;
- Costs of \$0.5 million incurred in connection with a proposed scheme of arrangement

After taking into account tax, the total impact on Funtastic's after tax profit was \$64.1 million, of which \$49.2 million were non cash charges.

### **Subsequent Events and Outlook**

On 19 February, 2009 the Board announced a number of initiatives including the intention to complete a \$22.0 million fully underwritten capital raising, the signing of a non-binding heads of agreement in relation to the potential acquisition of NSR (HK) Limited and senior management changes. The net proceeds of the capital raising will be used to fund the potential acquisition and retire debt.

The Board announced the appointment of Stewart Downs as the new Chief Executive Officer. Stewart was previously Group General Manager of Toys and Sporting and contributed to the turn around of this business back to profitability in 2008.

Further in the announcement the Board advised that its EBITA outlook for 2009 was materially lower than 2008 due to the potential loss of the ABC Group related business; the softer economic environment; and allowances for supply chain restructuring initiatives. 2009 EBITA could be potentially up to 40% lower than the prior year.

### **Dividends**

Since the end of the year the directors have decided not to declare a final dividend.

### **Rounding of amounts to nearest thousand dollars**

The Company is of a kind referred to in Class Order 98/0100, issued by the Australian Securities & Investments Commission, relating to the 'rounding off' of amounts in the Appendix 4E. Amounts in the Appendix 4E have been rounded off in accordance with that Class Order to the nearest thousand dollars, or in certain cases, to the nearest.
