- 3 Principal terms of the ⁺securities (eg, if options, exercise price and expiry date; if partly paid ⁺securities, the amount outstanding and due dates for payment; if ⁺convertible securities, the conversion price and dates for conversion)

Exercise Price of the options- 13.5 cents per share.

Expiry Date - 10 August 2014.

Vesting Conditions – Options vest over a three year period, commencing from the date of the offer of the options.

One third of the options will vest each year on the anniversary of the date of offer made to the respective executive, subject to the relevant performance hurdle rate for that year being achieved.

Performance Hurdle Rates - for vesting to occur, a 30% compound share price growth using the exercise price as a base price, has to be achieved. If the performance hurdle rate is not achieved for any particular year, allocation of options for that year will still vest if the cumulative performance hurdle rate for the following year or years is achieved.

Vesting will roll over to the year when the cumulative performance hurdle rate is achieved.

Performance hurdles will be achieved if the requisite target share price is maintained for any six months of the relevant 12 month period, based on the volume weighted average market price (VWAP) of Funtastic's shares on the ASX for each month commencing from the date of offer of the options.
