Brief explanation of any of the figures reported above necessary to enable the figures to be understood:

During FY2009 the Company completed a significant restructure, which included a change of management, the closure of several businesses which were not contributing, the sale of a distribution business, several businesses being placed into voluntary administration and a business being prepared for resale.

On 30 June 2009 the Company announced that it had finalised a significant recapitalisation of the Company. These arrangements, are still subject to shareholder approval by EGM, which will be held on 2 October 2009. This will resolve the go forward positions with the company's bankers and certain key vendors.

The Company had owed approximately \$10 million to the vendors of certain key operating businesses underlying Allomak and was in breach of its obligation to repay these amounts. The vendors have now agreed to accept 50% of the amounts owed to them as a conversion to ordinary shares in Allomak and 50% in the form of a long term loan, interest free, that will be repaid over a 5 year period. These loans are subordinated to the Company's banking facilities.

The Company's bankers have agreed to provide a long term loan facility over the next 5 years with an additional long term loan of \$12m for 9.75 years, with covenants in line with the projected performance of the restructured businesses. This proposal is conditional on shareholder approval of the vendor agreements to be voted by EGM.

The Preliminary Financial Report should be looked at in conjunction with the EGM documents lodged with the ASX on 26 August 2009, which includes the Notice of Meeting, the Explanatory Memorandum for the meeting, and a report from the Independent Expert.
