During the quarter the vegetation clearing on the site for the tailings storage facility, open cut and treatment plant was completed with the vegetation removed and stockpiled for future use in rehabilitation.

Some fabricated equipment plus the two main generators were transported to site.

All borefield permits and infrastructure in place for the two bore system.

Limited work continuing on site including maintenance of existing assets.

Environmental monitoring is continuing to provide background data for the project.

New Opportunities

Many exploration programs throughout Australia have been stopped or significantly wound down in recent times. There is though a number of projects somewhat closer to production becoming available. The Company will continue to monitor this position.

Corporate

Capital Raising

During the quarter the Company placed 8,000,000 ordinary fully paid shares to clients of Martin Place Securities Limited at an issue price of 5 cents per share (with 1:2 attaching option. The option is subject to shareholder approval at the forthcoming Annual General Meeting), raising \$400,000 before associated costs.

Convertible Note/Convertible Loan Fundraising

On 30 June 2009 the Company advised that it had secured \$1.5m in funding through a Convertible Note (\$500,000)/Convertible Loan (\$1,000,000) at 10% interest, however the Company did not conclude this arrangement and announced on 29th September a Proposed Pro-rata offer.

The Company is currently working with the proposed Convertible Note/Loan holder regarding the revised timing of the funds pursuant to the arrangement.

Pro-Rata Offer

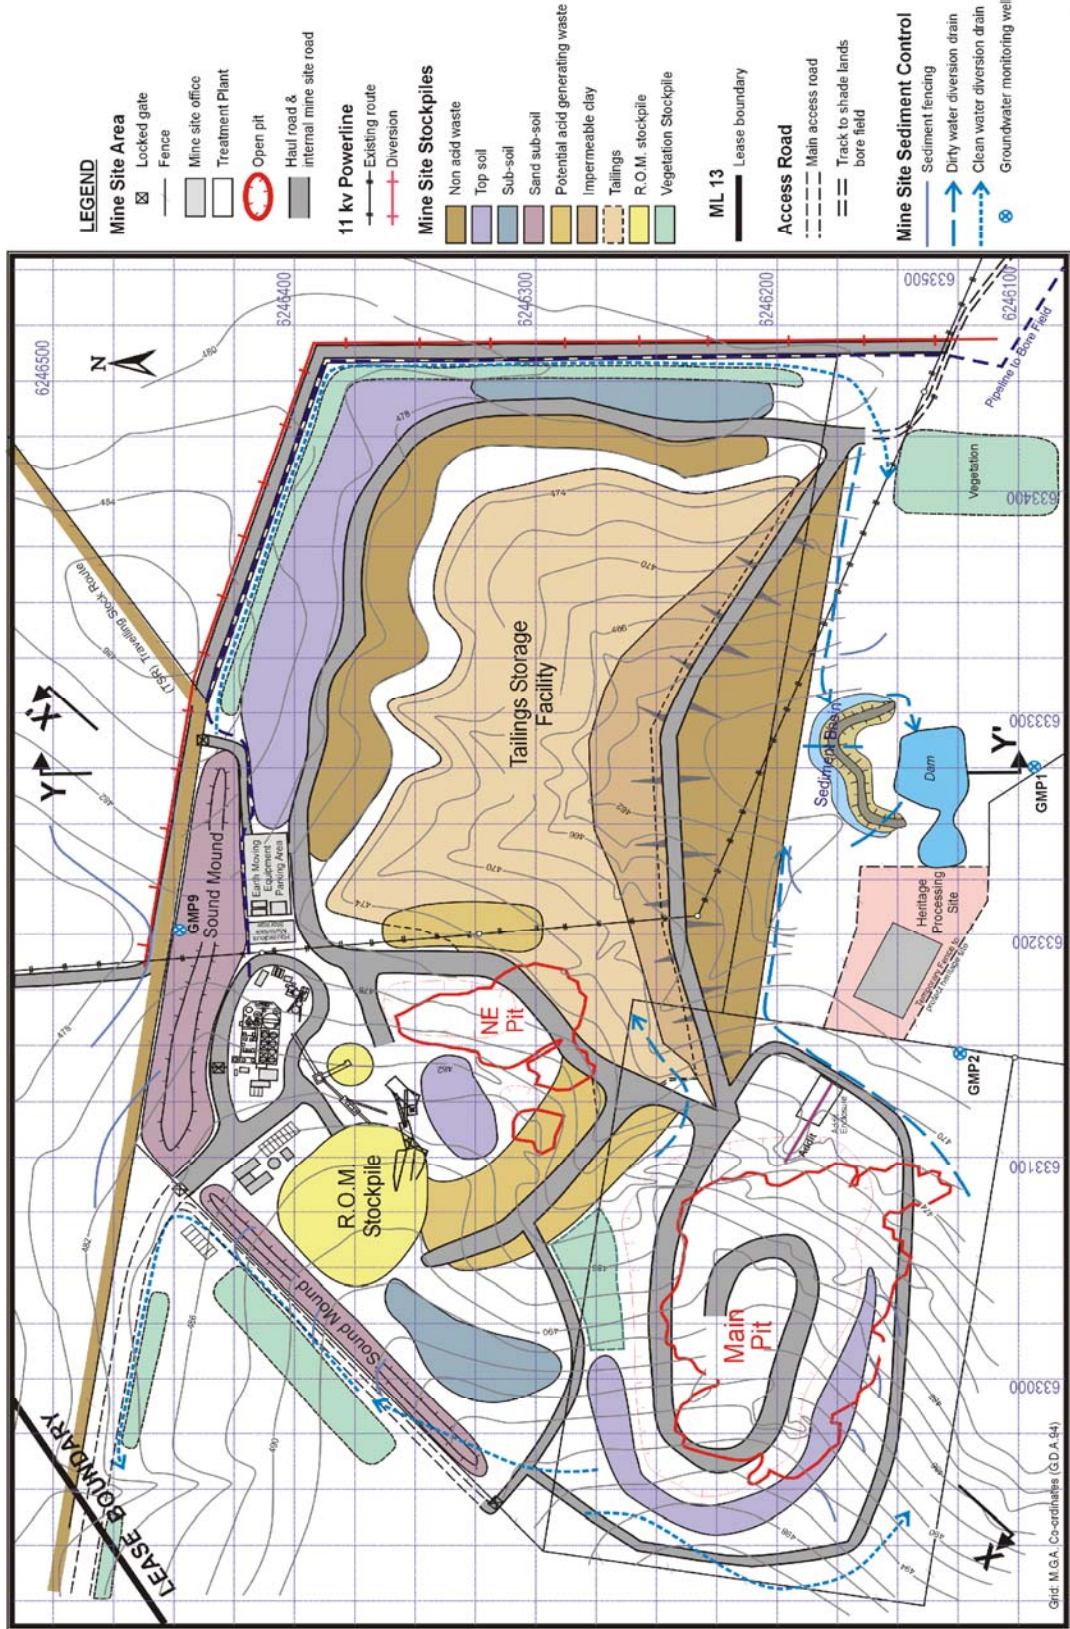

The Company proposes undertaking a pro-rata offer of new shares and free attaching options to shareholders.

Shareholders at the record date will be offered the opportunity to apply for three new shares for every seven shares held, at an issue price of 5 cents (\$0.05) per share applied for. Each two new shares will come with one free attaching option exercisable at 5 cents on or before 30 November 2011. The Company will apply for the new shares and free attaching options to be listed, subject to satisfaction of the requirements of ASX.

Upon full subscription of the offer, the Company will raise \$1,492,857 before associated costs. Funds raised by the issue will be applied to the further development of the Broula King Gold Mine and working capital requirements. As a pro rata offer, the Company does not anticipate seeking shareholder approval to make the offer.

The Company has accepted an offer from Martin Place Securities Pty Ltd to underwrite a minimum of 50% of the offer.

Further information regarding the proposed pro rata offer, including the record date for shareholdings entitled to participate in the offer, and the timetable for the offer, will be the subject of further announcements to ASX by the Company. The Company will also lodge an Appendix 3B regarding the proposed issue when the timetable for the offer is finalised.
