Broula King Gold Mine

The project is situated about 230 km due west of Sydney near Bumbaldry, lying mid way between the towns of Grenfell and Cowra in the Central West Slopes region of NSW.

During the quarter minor work towards completing the treatment plant was conducted by the onsite skeleton crew. In addition remedial earthworks were undertaken to rectify and ameliorate damage created by the above average rainfall in the period to December 2010. With two quarters of good weather conditions all site repair work is now well advanced.

Environmental monitoring is continuing to provide background data for the project.
